Big Coal Output.

The Dominion Coal Company intend making a big increase in their output this next season. The present year has resulted in the raising of a quarter of a million tons more than in 1899. This expansion of the mines' capacity is a mere nothing compared with that which 1901 will bring forth.

This year the company will have raised at the end of the year some 1,750,000 tons of coal. Even with this vast output the Montreal market is some 200,000 tons short, and fuel will be shipped during the winter via Portland and the Grand Trunk railway. To move this enormous bank a small fleet of vessels will be engaged for some months, and the company will rush the work of transportation as quickly as possible.

A BIG OUTPUT IN 1901.

At the present time three large pits are being opened, which will enable the company to almost double their daily output. That they should do so is absolutely necessary in view of the large consumption to be made by the Dominion Iron and Steel Company. It is estimated that next year 3,000,000 tons of coal will be brought to the surface, and the shipments by water will be very great.

In order to enable them to keep up with the trade the company will add three 6,000 ton vessels to their already large fleet. The steamers will ply between Cape Breton and ports where vessels of deep draught may enter without danger.

While the smaller boats will be more generally used in carrying trade to the shallow harbors.

A CURE FOR RHEUMATISM.

There is not the least trace of rheumatism left and I am no longer subject to biliousness, headache and stomach sickness which formally attacked me frequently One pill a dose. 25 cents a box

How to Stop Drinking.

Short Stories.

William Penn's keen understanding was often directed toward drunkenness. "All excess is ill," he wrote. "but drunkenness is the worst sort. In fine, he that is drunk is not a man, because he is so long void of reason, that distinguishes a man from a beast."

But if Penn was the living spirit of aphorism he also knew when and how to apply his maxims. Given a drunkard, he could treat his case in a characteristic yet plain and reasonable way.

He was once advising a man to leave off the habit of drinking intoxicating liquors

"Can you tell me how to do it?" said the slave of the appetite.

"Yes," answered Penn. "It is just as easy as to open thy hand, friend."

"Convince me of that, and I will promise upon my honor to do as you tell me."

"Well my friend," said the great Quaker, "when thou findest any vessel of intoxicating liquor at thy hand, open the hand that grasps it before it reaches thy mouth and thou will never be drunk."

A MANIA FOR OPERATION

Most physicians are anxious to try the surgeon's knife and recommend an operation for piles. A less cruel, less expensive and less risky method is the use of Dr. Chases Ointment, a preparation that has never yet been known to fail to cure piles no matter of what form or however long standing. Don't think risking an operation when you can be cured in your own home by the use of Dr. Chase's Ointment. The best physicians use it in their practice

The vitality of the blood is soon exhausted. Sleeplessness is one of the symptions of starved nerves. It is a warning of the approach of nervous prostration or paralysis. Piles

To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of itching, bleeding and protruding piles, the manufacturers have guaranteed it. OLD VS. NEW

Methods in the Treatment of Disease Have Changed Very Much.

Many Theories Once Considered Accurate, are now Discarded — Methods of Treatment Which at One Time Were Very Popular, are Now Obsolete—The Searchlight of Scientific Truth Has Shown up the Weakness of Much Medical Practice.

The old-time physician used to open the veins and bleed his patient.

The same antiquated gentleman prescribed violent purgatives for all disorders of the Stomach.

We have outgrown and discarded the bleeding treatment.

The other,—the prugative treatment for stomach troubles,—is just as foolish and should be left behind. Purgatives, while they temporarily relieved, weaken the body and do not act upon the stomach at all, but upon the bowels.

In some cases a purgative is necessary, and the proprietors of Dodd's Dyspepsia Tablets encloss an envelope of small laxative tablets to be taken when necessary, but (a laxative treatment will never cure Dyspepsia).

Dodd's Dyspepsia Tablets by digesting the food and thus allowing the stomach to rest, cure Dyspepsia in the only commonsense way, that is by assisting Nature

Dodd's Dyspepsia Tablets are 50 cents a box at all druggist.

They'll cure any case of Stomach Trouble (except Cancer.)

The large white tablets digest all the food and tone up the Digestive Organs.

The small brown tablets are mildly laxative, and stimulate the liver and bowels,

Together they never fail.
