Life Insurance in Canada

TORONTO, June 22 — Sales of new ordinary life insurance in Canada and Newfoundland during the month of May totalled $53,775,000, according to figures compiled by the Life Insurance Sales Research Bureau and released today by the Canadian Life Insurance Officers Association.

Detailed sales by provinces were as follows:—

British Columbia	$4,028,000
Alberta	3,158,000
Saskatchewan	1,898,000
Manitoba	3,515,000
Ontario	22,347,000
Quebec	14,044,000
New Brunswick	1,484,000
Nova Scotia	2,128,000
Prince Edward Island	255,000
Newfoundland	918,000
	$53,775,000

These sales, which are based upon the experience of 18 companies representing 86 per cent of the new ordinary life insurance in Canada and Newfoundland, are for new settled-for ordinary insurance, exclusive of increases, revivals, dividend additions, reinsurance acquired, pension bonds without insurance, annuities, group and wholesale business.

Church Honors Retiring Pastor

REV. DR. E. H. RAMSAY, WIFE PRESENTED GIFTS BY CONGREGATION.

Glowing tributes were paid Rev. Dr. E. H. Ramsay, retiring minister of St. David's Church, Saint John, N. B., and his wife, when the members of the congregation held a reception in their honor Sunday evening following the church service when Dr. Ramsay had given his farewell sermon, concluding 10 years of successful ministry at St. David's. Dr. Ramsay is to assist Rev. Angus J. MacQueen, pastor of Centenary-Queen Square Church, and for the evening service Centenary-Queen Square congregation attended at St. David's filling that building to capacity. Mr. MacQueen and Rev. J. M. Murchison, who makes St. David's his home church, both assisted in the service.

John MacKinnon, an elder of St. David's, presided at the reception and R. C. Cruickshank, senior elder, made the presentation of the congregation's gift of a well-filled purse to Dr. Ramsay. Mrs. W. Murray Lawson presented the congregation's special gift to Mrs. Ramsay.

Those who presented the gifts, Mr. MacKinnon, Rev. J. M. Murchison, Captain A. A. McLeod, of the chaplain services, Rev. J. Norrie Anderson of St. Andrew's Church and Mr. MacQueen, all voiced deep appreciation of Dr. Ramsay's work as minister, and his scholarship and spoke of the affectionate regard in which he is held for all his excellent service throughout the 10 years of his leadership of the congregation.

Special reference was made to the splendid achievement of Mrs. Ramsay in sponsoring and directing the Sunday afternoon social gatherings for the men and women of the forces and Merchant Navy which have been held in St. David's Church hall for a large part of the duration of the war. Mrs. Ramsay was assured of a place of special regard in the hearts of the congregation.

Dr. and Mrs. Ramsay made pleasing acknowledgement of the tributes and gifts.

Refreshments were served by the wives of the elders and trustees of St. David's with Mrs. John Magnusson as convener. Presiding over the tea and coffee cups were Mrs. J. M. Murchison and Mrs. J. T. MacGowan.

The large number present at the reception paid their personal tribute to Rev. Dr. and Mrs. Ramsay in the social hour. Much pleasure was expressed in the fact that both will continue to make their home in Saint John. — Saint John Telegraph Journal.

Corrigan - Hennessey Nuptials

A quiet but pretty wedding of interest to friends in Charlottetown took place at St. Kivin's Church, Montreal, on Wednesday morning, June 21st, at 8 A. M. when Mary Dorothy Hennessey became the bride of Dr. J. Ernest Corrigan.

Rev. St. Clair Monaghan of Loyola College, Montreal performed the ceremony.

The bride looked very attractive in a street length dress of Palmer Mauve Pin Point Crepe with a small flowered hat and carried a Cascade bouquet of Sweet Peas.

The bridesmaid Miss Eleanor Hennessey, sister of the bride, was dressed in American Pink Petite Point Crepe with matching accessories and wore an Orchid corsage.

Dr. Ray A. Hughes of Montreal was groomsman.

During the Nuptial Mass solos were rendered by Miss Eileen Fisher of the Admitting office staff of St. Mary's Memorial Hospital.

Following the wedding, breakfast was served at the Queen's Hotel and the happy couple left later of a short honeymoon to the Laurentians before returning to make their home in Charlottetown.

A cheap silver cleanser consists of a paste of baking soda and warm water. Apply with a brush, rinse in clear water and polish with a dry cloth.

Keep Minard's in the home

IMPORTANT ADDITION!

NOW WHEN OUR GALLANT ALLIED FORCES ARE battling on the ramparts of Europe, in the long-heralded invasion by land, sea and air, a special 40 minute Technicolor actuality film "Memphis Belle" should be of extraordinary timeliness at the Prince Edward Theatre Thursday. It is not a fiction movie, but a real trip over Berlin in a tremendous Fortress bomber!

Much has been read, said and pictured about the Allied attempt to subdue the enemy by aerial warfare. The exploits of the "Memphis Belle" will vividly convey the actual thing. Watchers will proceed from England to the continent and back to England in her adventurous trip. Cameras were kept going throughout the journey and on the land as she took off and landed again.

"Memphis Belle" will be a movie experience for millions of people. It will strike a highly dramatic note into their thinking about the part airmen are taking in the struggle for freedom. It will be an extra feature. The Prince Edward's major picture for Thursday will be "LET'S FACE IT" featuring Bob Hope and Betty Hutton.

PRINCE EDWARD
THUR.—FRI.—SAT.

Army Cadet Corps News

By Thursday, June 29, all cadets who are not attending camp are to turn in their uniforms.

Premier's Holstien Breaks Record

Premier J. Walter Jones, of P. E. I., has for many years enjoyed the reputation of being one of Canada's best breeders of purebred Holstein cattle. To further enhance this reputation, one of the members of his famous "Abegweit" herd, Abegweit Milady, has just broken the Canadian Record for milk and has set a new North American Holstein Record for butterfat in the junior three-year-old class of the butterfat from 14,914 lbs. milk, average test 4.09 per cent. Milady and her dam, Abegweit Lady Monek, form that very rare combination of a dam and daughter both rated Excellent in Selective Registration.

It is interesting to note that Milady was milked by machine throughout her record-breaking lactation. In commenting on her record, Mr. Jones said, "For those who think that a high record is made by giving special attention to

ABEGWEIT MILADY

305-day division. No Canadian animal of any breed, regardless of times milked daily, has ever exceeded her production of milk in this class. Her official figures are given as 816 lbs. fat from 19,743 lbs. milk, average test 4.13 per cent butterfat. She was milked three times daily. Incidentally, the deposed champion also made her record while owned by Hon. Mr. Jones. She is Abegweit Lorna Regina with 742 lbs. butterfat from 17,709 lbs. of milk. Both Milady and Regina are maternal granddaughters of the former Abegweit herdsire, Raymondale Abegweit Chieftain, one of the greatest living sires of the Holstein breed with an average production on his 16 tested daughters of 610 lbs. fat cattle in box stalls or elsewhere, I may say that this cow was turned out with the herd in all kinds of weather, irrespective of whether it was stormy or not. She received the same kind of feed as the other cows, which consisted mostly of Island-grown barley and oats with some oil cake and bran mixed in. The hay was ordinary timothy and clover mixed, with no alfalfa. Of course she received a plentiful supply of turnips and toward spring, mangels and corn silage. She had no box stall but stood in a stanchion." Under the expert supervision of herdsman, William MacKie, "Milady" is starting out on what promises to be another great record and is at present milking close to 100 lbs. daily.

The best measure of tire value is still the maker's name!

● In the happy days when you bought tires without restriction, you had one infallible measure of true tire worth . . . the maker's name. If you were like the majority of motorists, that name was Goodyear.

Today, a few unthinking folks say "Synthetic rubber will make all tires the same." That is far from the truth! To believe it is to ignore the fact that in prewar days, tires varied greatly in quality . . . yet all makers used the same kind of rubber.

You'll understand why this happened when you remember that *TIRES ARE NOT "MADE OF RUBBER."* There's rubber in them, of course, but equally important in their construction are cotton, steel, carbon black and a dozen or more chemical compounds. Each one of these "ingredients" must be of top quality, and used in the right proportions, to produce a tire of high performance. Rubber by itself (either synthetic or natural) will not make a satisfactory tire.

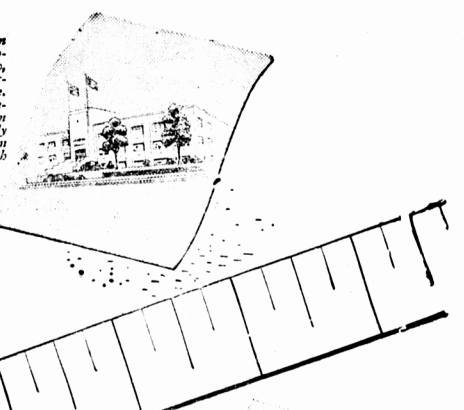
Prewar tires varied in quality, too, according to the amount of knowledge, skill and experience possessed by the maker. The advent of synthetic rubber does not alter that fact. Actually, the successful use of synthetic rubber demands the full use of ALL PREVIOUS TIRE-BUILDING ABILITY . . . AND MORE.

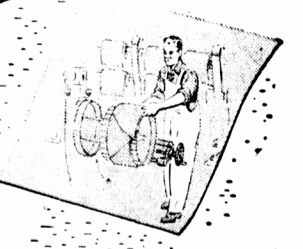
Therefore, when your turn comes to buy a new tire, remember that while rubber, to some degree, may be "standardized," *quality* is not. Now, as always, "More people ride on Goodyear tires than on any other kind"—because motorists know that the best measure of tire value . . . is still the maker's name.

This is a Goodyear ALL-WEATHER Synthetic Rubber Tire!

Goodyear dealers have it . . . for eligible drivers only. It is the result of Goodyear's forty years' experience in tire-building plus Goodyear's specialized knowledge of synthetic rubber . . . gained through unceasing research and testing.

Goodyear's research in natural and synthetic rubbers, begun 17 years ago, resulted in the first practical all-synthetic tire. Today, Goodyear's continuing research program is carried on unceasingly in this, the most modern of all rubber research laboratories.





Over 200 employees of Goodyear, Canada, have served 25 years or more with the company. Here alone is represented better than 5,000 years of experience, one of several priceless, yet unseen, ingredients in every Goodyear tire.

GOODYEAR
THE GREATEST NAME IN RUBBER
