SUM'SIDE AND WEST

The Latest News From Prince County.

Miss Bertie Maggs, Sussex, N. B. is visiting friends in Summerside.

The Summerside public schools will re-open on Monday, Sep. 2nd.

No. 3 Company, 82nd Regiment, will meet for drill at 7.30 this evening in the drill shed.

Rev. Allan Hudson, Brocton, Mass., preached in the Methodist Church here Sunday evening.

Mr. J. B. Champlon, Alberton, left by the Northumberland yesterday morning for Halifax to resume his studies in Dalhousie College.

Rev. Robert Sinclair, brother of Mr. Neil Sinclair of this town, occupied the pulpit in the Presbyterian Church here Sunday morning and evening. Rev. W. H. Smith preached in Malpeque.

Rev. Ephraim Read preached in Market Hall, Sunday afternoon to a large number of hearers. The preacher's text was "The life that is and the life that is to come." His discourse which is spoken of as being eloquent and thoughtful was attentively listened to.

Mrs. E. W. Dutton and Miss Laura Squarebriggs of Atlanta, Georgia, Mrs. John M. Newton with a her daughter Miss Lottie of Cambridge, Mass., and Miss Adie Squarebriggs, Boston, leave this morning on return after a few weeks' visit to their former home Mis-couche. They will be accompanied to Pt. du Chene by their father Mr. John Squarebriggs, and to Boston by their brother Mr. Robert Squarebriggs, Summerside, who goes on a visit for about two weeks.

There are some farmers in this province who have not bought machinery of Mr. John Dickinson, Summerside. To these alone is it necessary to offer any recommendation as to the quality of the goods he has to offer. Mr. Dickieson carries a stock of Maxwell Binders the Dickieson grain filler, with bag filler attached. The Dickieson Fan Mill, Trashing Heads made specially to order and fully guaranteed. Plows of various kinds, Grain Crushers, Pulpers, Churns, Cream Separators, harness, etc. These goods have a reputation which insures the purchaser a first-class article. His ware rooms are opposite the Railway Station where any visitor is welcome.

YESTERDAY was not a good day for the yacht races. In the forenoon the boats in class A started, but the water soon became almost dead calm and, after reaching the light house they turned about and came back. The races were then postponed until the afternoon, when there was a more favorable breeze, though not what was most desired. Class A started at 2.55 p. m. as follows:

Kelpie, Learig, Orilla, C. Locks, Eaid and Chap. Before reaching the light-house the Learig got the lead but on the inward course, the Kelpie overtook her and kept the lead to the finish. The boats were unable owing to the calm to finish in the time limit and therefore it was no race. The following boats followed in Class C, Independence, Shamrock, Trilby, Hustler and Constitution. It was a close race between the Hustler owned by C. W. Steeves and the Trilby owned by Maxie Gallant, there being only the three seconds difference between them at the finish, Trilby leading. On time allowance the race will probably be given to the Hustler with Trilby second. The judges were—W. P. Rogers and Alex. McKenzie. The timers, George Gookin and Percy Eaman.

Vigorous Womanhood

Made Perfect by Dr. Chase's Nerve Food—A Common Sense Treatment which Does Exactly What is Claimed for it.
 The happiness of every home depends very largely on the health of the wife and mother. If she is nervous, peevish and irritable, worried by the little cares of every day life, and tormented by pains and irregularities that are sure to accompany a rundown system, there can be no happiness in the home for husband and children.
 Too many women are victims of nervous exhaustion, and do not know it. They suffer from indigestion and dyspepsia, nervous headache and sleeplessness, and drag themselves about the house feeling languid and tired out. You can be healthy and vigorous if you follow the advice of Dr. Chase, the famous Receipt Book author. He would not deceive you, and his treatment never disappoints. Dr. Chase's Nerve Food is intended for just such cases as are here described. By supplying to the thin, watery blood and weak, exhausted nerves the very materials of which nature constructs new nerve cells and new bodily tissue it gradually and certainly reconstructs and revitalizes the weakened and debilitated nervous system, cures nervous headaches and dyspepsia, and permanently overcomes weakness and irregularities. 50 cts a box, all dealers, or Mansour Bates & Co., Toronto.

CITY AND COUNTRY

YESTERDAY Mr. A. Down received a card from Rev. J. W. McConnell dated City of Brussels, Aug. 1st, 1901, in which he states that had just returned from a walk around the Royal Palace, Belgium. "We are both well and enjoying ourselves. The weather is delightful and we are getting along without any trouble." All will be delighted to hear from the Rev. gentleman.

stepped behind a hay stack after Boer tactics behind the kopjes. He fired a second shot with greater precision and more accurate aim, the ball this time grazing the mast of the boat a few feet above the heads of the now very much alarmed officials. We understand the Inspector went immediately ashore and gave the too precipitate wardens a piece of his mind, pending further developments, we refrain from further comment.

NARROW ESCAPE.—Yesterday morning Inspector Kemp and Dr. Moore of U. S. Fishery Commission, Washington, employed Frank Collings and Jack Wise to row them to Fullerton's Marsh for the purpose of inspecting the Oyster Beds in that locality. While dragging up specimens of the precious bivalves they had a wide awakening by being fired upon from the shore by the too vigilant and zealous warden. Whether the bullets were explosive or of the more humane Manser quality the Inspector and his party have been fortunate enough not to be in a position to discover. Two shots were fired one ball whizzed within a few yards of the parties' devoted heads. The warden possibly thinking that the poachers might return the fire, prudently and cautiously

EYES OF ALL NATIONS.

France has one blind person to every 500 inhabitants. In Egypt twenty one natives were blinded because of defective vision, during the first week's operations of an electric railway.
 In Germany and England there is one blind person to every 1,000.
 China has more blind than all other countries. Spain comes next.
 America averages only one in every 1,500, the lowest per cent of any country. This is explained in the fact that scientific adjustment of glasses has reached its greatest perfection in this country.
 Many eyes have been saved through the timely use of glasses.
 We test eyes for glasses. Any eye we cannot fit should have the attention of a doctor who is an eye specialist.
