When a fella loses his shirt...

THAT'S when a man is really down. A fellow risks everything else before he parts with his shirt. That goes last. He values it too much. The expression "lose your shirt" is used for good reasons. A good cotton shirt is something to cherish. The same amount of money could buy nothing of similar quality. That applies also to cotton bed sheets, handkerchiefs, gowns and scores of other items of daily use that are made of cotton. Cotton with its freshness, its washability, its resistance to sun and heat and its durability gives top value for your money. You can bet your shirt on that!
