Increase Shown In U. S. Life Insurance

NEW YORK, December 2 — Life insurance purchased from United States legal reserve companies during 1943 will approximate $12,700,000,000 by the end of the year—5 per cent above the 1942 volume — and policies owned by some 68,000,000 Americans will aggregate $139,000,000,000, nearly 7 per cent more than the amount in force at the end of 1942.

The companies will have paid or credited to policyholders and beneficiaries during the year an estimated total of $2,400,000,000 by December 31 — approximately $1,100,000, or 46 per cent, to beneficiaries in death claims, and about $1,300,000,000, or 54 per cent, to living policyholders at matured endowments, annuities, surrender values, dividends, and disability benefits.

Meanwhile, life insurance funds to the extent of about $12,600,000,000, or one third of the companies' admitted assets — estimated at $37,675,000,000 as of the end of the year—will have been loaned to the federal government to aid in the prosecution of the war and for other purposes.

These were highlights of the address with which Colonel Franklin D'Olier, President of The Prudential Insurance Company of America, Newark, opened the thirty seventh Annual Meeting of The Association of Life Insurance Presidents here this morning.
