DOCTOR CRITICIZES SEX EDUCATION FOR YOUNG PEOPLE

MONTREAL, Sept. 22 — Dr. Rosario Fontaine, provincial medico-legal expert, says sex education for youth serves "only the interests of sexual vice..." by focusing the attention of children on a subject which, as far as he is concerned, should be left in the background of their current mind.

Writing in the Police Constable's Review, official organ of the Canadian Brotherhood of Policemen, Dr. Fontaine said he hadn't the slightest confidence in sexual education as a means of restoring good morals among youth.

"Isn't it to be feared, actually, that the child's attention will be diverted from services to be rendered?" he asked. "Even knowledge of venereal diseases serves no purpose because every person ordinarily believes he will be intelligent or lucky enough to avoid sicknesses which are attributed mainly to sots and fools."

YOU'D BE Surprised!

Picobac

If you've never smoked a burley tobacco, you'd be surprised how it keeps your tongue cool, packs so easily, burns smoothly, and stays lit with a minimum of light-ups. You can smoke it all day long, and still come up for more.

Picobac is the pick of the Burley crop, grown in sunny southern Ontario, where climate and soil are the secret ingredients for a mild, cool, satisfying smoke.

GET SOME TODAY!

"Carcinogens can cause liver, stomach, and lung cancer."

PREMIER EXPECTED HOME TODAY Premier J. Walter Jones and Mrs. Jones will return from Wolfville, N.S., this evening after having accompanied their daughter, Helen, to the Nova Scotia college town. Miss Jones is a student at Acadia University.

SIMMONS BEAUTY REST mattresses, the perfect sleep combination of mattress and box spring, are sold by Crockett and Storey Limited. For the kind of sleep you've dreamed about see Crockett and Storey, Ltd., and buy Simmons' Beauty Rest.

CRIPPLED CHILDREN'S CLINIC—Red Cross Crippled Children's Clinic conducted by Dr. T. B. Acker will be held at Red Cross House, 62 Prince St., Charlottetown, Thursday, October 2nd and Friday, October 3rd. Adults may have appointments other days by contacting the Red Cross.

CROCKETT AND STOREY Limited's big sale of Kroehler Osterfelds at the Legion Hall (Clovver Club) closes tonight, at 9 o'clock. Now to get in on the bargains. There's only a few of these magnificently constructed and colorfully covered combinations left, but still time today to make a selection.

MCGILL GRADUATES—The meeting of McGill University graduates takes place at 8 p.m. this evening in the City Council Chamber (not Monday at the Charlottetown Hotel, as erroneously stated yesterday). Toronto, J. Tidmarsh, president, and D. Lorne Gales, field secretary, Gradsoc Society of McGill University, will be present.

RESCINDED—Proclamations appear in the current issue of the Royal Gazette rescinding two previous proclamations, one dated Jan. 13 last and the other July 24 last, under which all importers, distributors, retailers and owners of coal and coke, and also all petroleum products used in the production of heat and power as well as importers, distributors and retailers of such products, were proclaimed a public utility.

RETURN FROM HOLIDAY—Mr. and Mrs. H. B. Willis, Kingston, returned recently from Montreal, Ottawa, Toronto and Detroit. While in Toronto they were the guests of Mr. Willis' aunt, Mrs. E. A. MacAlone. They also attended the Canadian National Exhibition and visited Niagara Falls. They spent Labor Day in Detroit with Mrs. Willis' aunt, Mrs. Isabel MacQuaid. Mr. Willis viewed the potato markets in these cities and states that Island potatoes are in good demand. Mr. and Mrs. Willis made the trip by plane.

WILL CALL CAUCUS—A caucus of the Liberal members of the Legislature was called on Thursday to consider the 3,000 inghouse Workers strike as it affects the farmers of the Province. Premier J. Walter Jones stated yesterday. Describing the situation as serious, Premier Jones said that there are an estimated 3,000 overweight hogs in the Province today as a result of the strike which has tied up killing facilities leaving the hogs on the farmers' hands.

PERSONALS

Maj. General Weeks, above mentioned, is a native of Charlottetown and a son of the late Maj. W.A. Weeks of this city.

The many friends of Miss Norcen Flood, Montserrat, will be glad to know that she is improving favourably after her recent operation in the City Hospital.

Miss Muriel A. Johnstone of New York City left by plane yesterday after spending three weeks visiting her parents, Mr. and Mrs. W. A. Johnstone of Montague.

Mr. and Mrs. Hector K. McNeill and son, Errol, Charlottetown, have returned home after spending two enjoyable weeks visiting relatives and friends in Cambridge, Mass., and Providence, R.I.

Mr. Frank M. MacDonald, who has just completed his course in Business Administration at Toronto University and who has been spending a holiday at his home, left on return for Toronto yesterday morning.

Mrs. W.F. Brown and her two daughters, Valerie and Jean leave this morning on return to Montreal. They have been here during the Summer months visiting Mrs. Brown's daughter, Mrs. Ian Burnett, City.

Mr. Alan Andrew, son of Mr. and Mrs. Melville Andrew, 241 Pownall St., City, leaves today for Montreal. Mr. Andrew will attend McGill University, where he will continue his studies in chemical engineering.

CITY POLICE COURT—At the Stipendiary Magistrate's Court yesterday, two drunk and incapable were each fined \$10 and costs of 20 days, while a man charged with vagrancy was discharged. Two summary ejection cases were adjourned, one until Wednesday and the other until September 30th.

LARGE FISH—Residents of Frenchfort report a large fish believed to be a porpoise has been washed ashore on Hillsboro River. Measuring nearly six feet in length and approximately two feet in diameter, the animal was discovered on the shore between farms belonging to Mr. Patrick Dougan and Mr. Robert Rhynes. Earlier in the week a large fish was reported by several people in the vicinity of Swanberry Wharf, a little further up the river. The porpoise was then alive and attracted considerable attention by its antics in the water. It is not known whether it died a natural death or as a result of expert marksmanship.

Colonel DesBrisay At Rotary Luncheon

Colonel L. DesBrisay of the Salvation Army was guest speaker at Rotary luncheon yesterday. Introduced by Major N. W. Lowther, Provincial chairman of the Red Shield Appeal, Col. DesBrisay told of the work of the Army in saving men, women and children destitute and in dire need of help.

Col. DesBrisay, who is a native of Charlottetown, spoke of his childhood, and the great changes that have taken place in the City since she joined the Army 60 years ago. Sunset Lodge where she is now staying is located on what was her father's hayfield, and her father had sold to the Salvation Army their first property in Charlottetown—the lot on the corner of Hillsboro and Easton Streets. It was this event which aroused her interest in the work and at every opportunity she went to see the marching of the band and to listen to their service. There were only four members at that time, and few people knew of their work.

After being accepted as a member, she went to Saint John, N.B. for training. Later she received her commission and has served in all parts of Canada and Newfoundland. She established the post in Bermuda and carried on the work successfully there for many years.

"Those in the Army are not persons with outstanding talents, said Col. DesBrisay, but their efforts have been blessed and the fine touch evident in many of the undertakings. Several instances of the particular helpfulness of the Salvation Army were related by the speaker who concluded by saying that those who helped them financially were in reality silent partners of those who take to heart the words, "In as much as they have done it unto Me."

Past President V. A. Almon read the charge to the following new members: N. W. Lowther, F. A. Large, Walter Cox, and R. R. B.

Visiting Rotarians included Capt. J. M. Hagan, Prospect, R. I., Edward B. Irving, Picou, N.S.; W. Claude Sinclair, Port Arthur. Other guests were: Mr. O. R. Simons, Charlottetown; Mr. E. G. Rowebaton, Deputy Minister of Industry, Victoria, B.C.; Messrs. N. H. DeBlois, R. J. Rupert, W. R. Rix, T. D. DeBlois, J. A. Likely, and Major G. V. MacLean, Charlottetown.

WHEATLEY RIVER W. I.

The Wheatley River Women's Institute met at the home of Mrs. Chester Räckham on Wednesday evening, Sept. 22. The meeting opened by singing the Island Hymn and repeating the Club Women's Creed in unison. The roll call was answered by 10 members and 2 visitors.

The correspondence was read and it was decided to invite a demonstration from one of the flour companies to come to our district to give a cooking demonstration, featuring the uses of different flours. A letter was read about the musical festival but this was left over till a later date. It was agreed to send \$5.00 to the protestant Orphanage and to canvas the district for the Salvation Army. The same collectors as last year were asked to canvass. It was decided to send fruit to a sick friend. Mrs. Robert Buntain gave a splendid report of the Institute convention. There was some discussion on having a supper but this was left over until next meeting. The next meeting is to be held at the home of Mrs. Herbert Smith when the roll call will be answered by "Sing, Say or Pay."

The offering amounted to \$50 and \$2.00 was paid for delegates' fare to convention. The meeting closed with the "Kings", after which lunch was served.

Men, Women Over 40 Feel Weak, Worn, Old?

Want Normal Pep, Vim, Vitality?

One week, regular, supervised treatment with Dr. Chase's Nerve Food will give you the pep, vim, vitality you need to get on with your life. Dr. Chase's Nerve Food is the only food that gives you the pep, vim, vitality you need to get on with your life.

School Traffic Police Continued

The suggestion made by the School Improvement League last year to have motor traffic regulated in the vicinity of City Schools by the school pupils worked so satisfactorily that it was decided to carry on the system during the present school year. The Charlottetown Gyro Club were interested in the project last year and have again decided to give every assistance during the coming year. Last year the Gyro Club invited the members of the School Police to one of their regular dinner meetings and it was thoroughly enjoyed by everyone.

Sgt. L. A. McInnis of the City Police Force has taken a great interest in the boys and he was delighted with the way in which they handled traffic at the noon hour and after school closing.

Sgt. McInnis has again made arrangements with the Principals of Prince Street, Queen Square and West Kent Schools and he has a squad from each school appointed to take charge of this work. The following are the boys who have been selected from each school: Prince Street School: John McDougall, Captain, Ken Arsenault, George Essory, Ken McEwen,

Steel Production

OTTAWA, Sept. 22 — (C.P.)—Shipments of primary shapes by Canadian steel mills, exclusive of products' interchange, totalled 167,496 net tons in July compared with 186,655 in June and 101,789 in July, 1946, the Dominion Bureau of Statistics reported today.

The low figure for July last year was due to a steel strike at that time.

Shipments last July included 14,659 tons of semi-finished shapes, 7,049 of structural, 14,174 of plates, 14,237 of rails, 34,915 of hot rolled bars, 10,733 of pipes and tubes, 18,856 of wire rods, 18,072 of black sheets, 7,264 of galvanized sheets, 394 of tool steel, 5,880 tons of castings, and 23,445 of other shapes.

Amount of producers' interchange was 57,258 tons in July and 70,478 in June.

School Traffic Police Continued

Roger Gardham, Warren Hood, Kenneth Jenkins, Norman Kelly, Carl McLeod.

Queen Square School: Charles Ready, Captain, Francis Bell, Ralph Dew, Edgar Doucette, Ronald McDonald, Louis Gallant, Henry Hartinger, Hubert Murnaghan, Gerard Murray.

West Kent School: James Wood, Captain, Sydney Campbell, Charles Chandler, Stephen Chandler, Fred Prizzell, Len McKay, Karl Reardon, Clinty Taylor, Charles Townsend.

The Police Committee of the City Council supplied the boys with caps, belts and whistles and were delighted with the efficient and courteous way in which these boys handled the traffic rush at the noon hour. They wish to record their appreciation of the cooperation extended by Colonel

Now It Is Your Turn

To follow this way to better health.

During the last five years the sales of Dr. Chase's Nerve Food have more than doubled—increased by 110% to be more exact. This means that many new users are seeking the benefits of this well-known tonic for the blood and nerves.

Now it is your turn to give Dr. Chase's Nerve Food a trial. That is of course, if you are not feeling well and full of pep and energy.

Most of us have times when we are tired and restless and irritable and then it is that Dr. Chase's Nerve Food comes in as a "pick-me-up" to help us to better sleep, better digestion and better health.

The old slogan still holds good—"For new pep and energy use Dr. Chase's Nerve Food." Fathers, mothers, young people and school age children have profited by this advice.

Ask your Druggist for the new economy size bottle of Dr. Chase's Nerve Food.

Dr. Chase's Nerve Food FOR NEW PEP AND ENERGY

MacDonald, Principal of Queen Square School, by Colonel Lowther of Prince Street School and by Mr. Yeo of West Kent School.

this twentieth-century metal certainly Gets around!

ALUMINUM COMPANY OF CANADA LTD.

Producers and Processors of Aluminum for Canadian Industry and World Markets

IT GETS AROUND...THE WORLD

Every country in the world is today buying Canadian Aluminum produced at Arvida, Canada, home of the largest Aluminum smelter in the world. The "Alcan" ingot has become a major factor in world trade—and a valuable source of the foreign exchange which Canada needs to cover her own buying abroad.

aluminum in the north woods? Yes, even there this versatile metal makes itself useful in a dozen ways. That canoe is aluminum. So are the paddles. So is the rod, and the reel, and the tackle box. Non-rusting, light-as-a-feather aluminum is proving itself a natural for an ever-growing list of sports equipments: skis and skates and hockey sticks and bicycles...

And, of course, that's just one small part of the story. From industrial castings to objects of art, Canadian manufacturers are leading the way to stronger, lighter, more attractive articles of every-day use. Our own development and research is helping them to blaze new trails—places at their disposal a wealth of technical know-how. Today over six hundred Canadian companies are turning out products made with this miracle metal of the Twentieth Century.
