

VICTORIAS WIN A DOUBLE HEADER

The First Game was Theirs by a Score of 12-1; The Second 5-3

BOTH GOOD GAMES

Last evening about seven hundred attended the hockey match in the Arena when the Victorias, met the Abegweits for the second time this year and, also for the second time administered a severe defeat. The victory was made a double header in the League Series by the Intermediates defeating the Junior Abbies in a close game by 5-3.

The Abbies this year have a comparatively weak team and last night's seven was further weakened by the absence of Gordon Hughes, their cover point, who is still suffering from an injury received in his last game. Nevertheless they went on the ice with a defeat almost staring them in the face and took their medicine like men.

The Victorias outclassed their rivals in every respect. They were greater in weight, and, most important of all, they excelled their opponents all along the line in speed and the ability to get in effective team work. The Abegweits were also weak in shooting. On occasions when their men combined and approached the Vic's nets the shot was poorly directed and quite a few good opportunities were lost in this way.

The Vic's forwards, Rattenbury, Rodd, Burns and Murphy worked well and gave many nice exhibitions of speed and tricky stick handling in individual work while their attempts at combination were at all times well executed and resulted often in a goal. Murphy was inclined to "rough it" but on the whole played steadily. Of the defence men, Grady and LeBlanc were in good form and played their usual steady game, and McAskill more than upheld his good reputation, stopping many accurate shots.

Gillespie and Doyle shone for the Abbies, the former netting the goal which prevented a "whitewash." He

CANADIANS TO PLAY HOCKEY IN NEW YORK

OTTAWA, January 31—It is practically settled that the Ottawa and Wanderers' teams will play a series of exhibition games at New York in March. Secretary Martin Rosenthal, of the Ottawas, has been in communication with the officers of the St. Nicholas Rink Company, of New York, and in consequence everything is about arranged.

The games will take place immediately after the close of the National Association schedule and the series will be for a purse of \$1,000.

NEW YORK, January 31—The University of Toronto defeated the New York Athletic Club in a tame hockey game last night by the score of 6 to 5. In the first half New York outplayed the visitors, scoring 3 goals to 2. In the second half Mills, of the New York A. C., was penalized twice for tripping and during his absence Toronto succeeded in caging the puck four times while New York scores twice.

NEW BACTERIOLOGICAL DEPARTMENT PROPOSED

OTTAWA, Feb. 1—The Inland Revenue Department laboratories will hereafter include a Bacteriological Department which will be of much service in the matter of experiments and prove particularly valuable in food analysis. The new laboratory will be housed in the newly renovated building on Queen street which was a few weeks ago damaged by fire.

FOUR MEN KILLED

PANAMA, Feb. 1—Four men were killed and several others injured as a result of a collision between a work train and a string of dirt cars at Miraflores today.

THE MASTER'S VOICE

When the days are dark and nights are cold,
And all the world seems going wrong;
When fears are fresh and hopes grow old,
And die because they've waited long;
When all is sad, without, within,
And I am plagued with doubt and sin,
Yet, have I a comfort and rejoice
If I can hear the Master's voice,
Come to me, thou child distressed,
Come find a refuge on My breast;
Lay down thy burden and have rest.

When clouds are thick and winds are loud,
And angry waters rising fast,
With many leaping waves that crowd
To overwhelm my boat at last;
When all my chance of life seems lost,
Though far astray and tempest-tossed,

A NOTABLE ASTRONOMIC DISCOVERY

Special to The Guardian.
LOS ANGELES, Feb. 3—Reaching across billions of miles of space the powerful reflecting mirror of Mount Wilson telescope has revealed universes in the making.

It has found and photographed chaotic swirling masses of gas and fiery liquids, a gigantic pin wheel of celestial pyrotechnics, five hundred billion miles in diameter, in the act of throwing off a world.

The photograph, report says, shows a spiral nebula.

It apparently controverts the nebular hypothesis of La Place and substantiates the more recent nebular hypothesis of Chamberlain.

STEAMER WRECK TWENTY-TWO LOST

Special to The Guardian.
MADRID, Feb. 3—Despatches regarding the havoc wrought by the great storm which swept the coast on Wednesday night report the wreck of an unknown steamer in which 22 persons were drowned.

Two other steamers are in serious difficulty.

WHITE SLAVER GETS 3 YEARS

BOBTON, Feb. 1—Mrs. Ethel Gucciardi of Cross street, East Boston, was yesterday sentenced to the House of Correction for a term of three years on "white slave" charges in connection with Harry Louis Poirier.

The Poirier girl lives with her mother in a tenement over that occupied by the Gucciardi woman.

She was born in Arichat, N. S., and was a childhood friend and playmate of Hattie LeBlanc.

WILL HOLD EXPOSITION IN 'FRISCO

WASHINGTON, Jan. 31—In the "battle of cities" with the 1915 Panama Canal Exposition as the stake, San Francisco won out over New Orleans in the House of Representatives today by a final vote of 259 to 43. The decision in favor of San Francisco has yet to be passed upon by the Senate, but with the House so strongly for San Francisco it is expected that the Senate will concur in the award.

The decision was given at a time when the galleries were packed to the doors with partisans of the rival cities and presented the appearance of rival crowds at a football game.

As the vote was taken on roll call to decide whether the San Francisco resolution or the New Orleans bill should have consideration, and each representative rose to name his favorite city, cheers and applause greeted the member's announcement.

GERMANY WILL TAX UNEARNED INCREMENT

BERLIN, Feb. 1—The Reichstag today passed the third reading of a bill taxing unearned increment by a vote of 199 to 93. Cities and other local municipalities will retain forty per cent of the proceeds derived from the new taxation and may also collect an additional tax in the form of a supplementary percentage. It is estimated that the German Empire will obtain \$5,000,000 annually.

The Socialists and Radicals voted against the bill because it exempts the reigning princes and makes extensive exceptions of agricultural lands.

FRENCH AVIATOR IN NOTABLE FLIGHT

PARIS, Feb. 1—Capt. Bollinger, of the aviation corps of the French Army today began a notable cross-country flight from Paris to Pan, a distance of about 500 miles. He left the Vincennes military aerodrome at 8:45 this morning and landed at Bordeaux 4:45 p.m., making two stops for gasoline. He accomplished the first stage of the long trip, covering the 350 miles without incident. The aviator will continue his flight to Pau tomorrow morning.

BLIZZARD AT PORT ARTHUR

PORT ARTHUR, Ont., Feb. 1—The biggest blizzard Port Arthur has experienced in recent years struck here from the west tonight, the drifts are piling high and traffic is nearly blocked. It is estimated that three inches of snow has already fallen, but the cold is not so extreme.

COMMUNICATION WITH MAINLAND

The Earl Grey left Pictou at 7:00 yesterday morning and arrived at Georgetown at 1:15. She sails this morning at 7:00 for Pictou.

The Minto left Georgetown at 7:00 for Pictou but met with heavy ice. In the afternoon the Minto was reported in heavy ice six miles west of Cape Bear with fires burned down.

Minard's Liniment cures Diphtheria.

A TERRIFIC ERUPTION AND EARTHQUAKE

Mount Taal the Centre, 2,500 Dead and People Are Panic Stricken

Special to The Guardian.
MANILLA, Feb. 3—The eruption of Mount Taal was renewed with terrific fury today and waves of lava and mud are scattered over the surrounding country for twenty miles.

Many natives fleeing from the devastated section were overwhelmed and suffocated or burned to death.

The eruption was accompanied by violent earthquakes which were felt as far as Manila although no damage was done in the city.

The latest reports of investigators indicate that fully 2,500 persons have been killed.

MCCURDY TELLS OF KEY WEST TO HAVANA TRIP

HAVANA, Jan. 31—J. A. McCurdy, the Canadian aviator, who fell into the water yesterday after covering 95 miles of the distance between Key-West Florida and Havana said last night that he must have lost at least twelve miles by the force of the wind and when he was forced to a stop he had burned out the bearings.

(Continued on page 15)

WOULD SHUT OUT FOREIGN SECURITIES

BERLIN, February 1.—Count Von Knitz, conservative, to-day announced in the reichstag that he would ask the government what measures it proposed to take to prevent the German market from being flooded with foreign securities.

The count evidently referred to the report recently current in financial circles, that the Berliner Nandegelsellschaft an important banking institution, contemplated making an attempt to list the stock of the Chicago, Milwaukee and St. Paul railway on the Berlin bourse. It was semi-officially announced when this report was circulated that the Prussian government was considering the advisability of rejecting the application, if it were made, in view of the condition of the German gold market. Count Von Knitz's interpellation will come up in the reichstag on Monday.

BISHOP OF LONDON FLOUTS CIVIL LAW

LONDON, Feb. 1—Because of the stand he has taken in reference to the issuing of marriage licenses for the marriage with a deceased wife's sister, the Bishop of London is threatened with proceedings by the chancellor of his own diocese. The bishop a week ago put forward a claim in regard to licenses of this description, forbidding the chancellor to issue them without the bishop's written permission in each case.

The chancellor maintains that this is illegal. He has told the bishop that unless he withdraws his claim he will move for a prohibition against it in the court of King's Bench. Whatever may be the outcome of this particular incident, it is evident that the question of marriages between divorced persons and marriages to deceased wives' sisters may lead to a serious quarrel between the established church and the civil power.

No clergyman is compelled to perform these marriages if he objects, but neither the bishop nor the clergy can be permitted to hinder them, it is held.

MILDER WITH SNOW

Special to The Guardian.
TORONTO, Feb.—East and south winds, milder, with light snow and sleet.

The coldest last night and up to three o'clock this morning was two degrees above zero; the warmest in the same period was three o'clock this morning it was two degrees above.

The highest temperature registered yesterday was eight degrees above zero and the coldest, at nine last night, zero. At nine yesterday morning it was four degrees above. The coldest the previous night was three above.

The length of today will be nine hours and fifty-four minutes and of tomorrow nine hours and fifty-six minutes.

The sun sets tomorrow morning at 7:16 and Monday morning at 7:15. The moon sets tonight at 11:17 and tomorrow night at 12.

ABDUL IS VIOLENTLY INSANE NOW

Killed His Two Wives and Was Arrested Only After a Fierce Struggle NOW IN IRONS

Special to The Guardian.
SOLONIKA, Feb. 3—Abdul Hamid, the former Sultan of Turkey, has gone violently insane, killed two of his wives and is now confined in irons.

The murder of the two women who accompanied Abdul from Constantinople when he was expelled was particularly wanton.

He choked one to death with his own hands and dashed the other so violently against the wall that she died a few hours later.

The ex-Sultan was subdued only after a fierce struggle in which he was severely injured.

PRISONER WHO SHOT HERSELF

Special to The Guardian.
LINCINNATI, Feb. 3—Mrs. Jack Chambers while being taken to jail on a charge of having sold her thirteen-year-old white girl, the Chinese, shot and killed herself.

The bullet passed through her heart into the hand of the sheriff who had hold of the woman.

MANHATTAN SHAKEN TO ITS FOUNDATIONS BY AN EXPLOSION

NEW YORK, Feb. 1—Further particulars of the explosion of a car of dynamite in transit from a freight car to the hold of a lighter moored at an N. J. pier says: "Thirty seems to be a conservative estimate of the dead, and property damage will probably be below \$750,000. The cause of the explosion is variously attributed to the dropping of a case of dynamite and to a boiler explosion on a boat. Just what was the direct cause will probably never be known.

The Jersey Central terminal was wrecked; three ferry boats on the slips were torn and splintered; lower Manhattan across the river was shaken from the street level to the top of the Singer tower; severe damage was done in Brooklyn, Staten Island and the immigrant building station on Ellis Island. The shock was felt on Long Island in Amityville, 35 miles distant, and in New Jersey, along branch, 10 miles distant.

The damage is so widely scattered that it is impossible as yet to estimate it more than roughly, but three-quarters of a million appears to be a fair estimate. The lighter receiving the dynamite, with crew of seven men, including the master, completely disappeared. A large steamer, the Whistler, owned by the American Steerage and Delivery company, of New York, was so badly shattered that she sank with her crew of two, while the Swedish steel barkentine Ingrid, a stone throw to south, was stripped of her rigging and the crew of two deck hands aboard snuffed out.

Fragments of one man's hand was found swinging high on a tangled piece of rope.

The Katherine W. simply disappeared; not a splinter of her has been found. The Whistler dissolved in wreckage. Only her flag pole has been put of dust. On the rear deck of the barkentine Ingrid were found a pair of iron trucks. They may be the trucks of the dynamite car or of one of the other four cars standing near that were also torn to bits.

On board the Ingrid the steel mizzen mast snapped off above the lower yard and the tangled wreckage came tumbling about the decks. Everything about the mizzen mast was levelled flat but the steel plates of the hull held stoutly and showed not even a mark. For 100 feet the pier and itself was utterly demolished.

The planking seemed to have been left were an utterly inadequate account of its bulky substance. Girders, planking, cross stays, all the massive frame work of a pier built

SUCCESSFUL TREATMENT FOR LUNG DISEASES

Notable Discovery by Doctor Schafer of San Francisco Makes Quick Cures

Special to The Guardian.
SAN FRANCISCO, Feb. 3.—A new and highly successful method of treatment of tuberculosis, pneumonia, and typhoid fever, has been discovered by Dr. Schafer.

Acting of the theory that if the exudations thrown off by bacteria while growing could be formed into a serum capable of injection into the human system affected by the disease caused by like bacteria, the growth of bacteria would be immediately arrested, tests were made at the Southern Hospital, which completely proved the truth of this theory.

Severe cases of tuberculosis, pneumonia and typhoid fever were cured within 24 hours of the serum injection.

MONCTON WINS FROM HALIFAX

HALIFAX, Feb. 3—The Moncton Professionals defeated Halifax tonight by a score of 9-3. The game was remarkably fast. Seven thousand people witnessed the game.

PRESIDENT SENT UP FOR TRIAL

TORONTO, Feb. 1—The preliminary investigation into the case of Lieutenant-Colonel James Munro, president of the defunct Farmers' bank, was conducted before Magistrate Dennison in the police court this morning. He was committed for trial.

H. Dewart, counsel for Colonel Munro, wanted Colonel Dennison to try the case, but he curtly refused to do so. Thomas Lawson, clerk in the finance department at Ottawa, identified returns sent in by the Farmers' bank during eleven months of 1910. J. G. Star swore that he had told President Munro of ugly rumors current about the Farmers' bank and the Kelley mine, and the latter had assured him that all loans made to the Kelley mine were amply secured.

W. M. Travers, ex-manager of the Farmers' bank, swore that Munro had signed the returns at his instigation after being assured by him that everything was correct.

J. G. Fitzgibbon gave similar testimony.

Colonel Dennison then sent Colonel Munro up for trial. The point, he said, was that Munro appeared to have taken no action after being warned.

JAY GOULD IS NOW ENGAGED

NEW YORK, Jan. 31—At the wedding reception of Miss Vivien Gould and Baron Decies on Feb. 7 it is planned to announce the engagement of Jay Gould, youngest son of George Gould, and Miss Annie Douglass Graham of 15 West Sixty-seventh street. The wedding will take place in June. Young Gould's fiancée is the daughter of Mrs. Hubert Vos, wife of the famous portrait painter. By marrying Miss Graham, Jay Gould goes his sister one better and marries into a royal family, instead of mere nobility. The royal family in question is not a reigning family. It is the royal family of Hawaii. Mrs. Vos, Miss Graham's mother, was before she married Douglass Graham, the Princess Kaiulani.

ROBBED THE MAILS AND GETS FIVE YEARS

YARMOUTH, February 1—Louis LeBlanc, who was employed to drive the mail between Yarmouth and Wedgeport, for Levi Ribbing, who has the contract, and who was arrested some days ago for robbing the mail bags of several letters, which he endorsed, forging the names of the parties to whom they were made payable, and who pleaded guilty before Stipendiary Pelton this morning and sentenced to five years in Dorchester.

MEXICAN REVOLT IS BECOMING SERIOUS

THE ALLEGED RIVALRY OF TWO QUEENS

LONDON, Feb. 3—England was disappointed today by the announcement that the Dowager Queen Alexandra would not attend the Coronation. Various rumors are current, one being that Queen Mary and the Dowager Queen are rivals for social supremacy.

Following the death of King Edward rumors of friction between two Queens became current, but these were generally discredited, though it was stated that the Dowager Queen occupied Buckingham Palace long after the usual time when according to custom she should have left there.

The latest rumor is that there will be two social courts in England.

MANY CHINESE WERE MURDERED

Special to The Guardian.
NOGALES, Ariz., Feb. 3—The wholesale murder of Chinese laborers by Mexicans in connection with the smuggling of contraband Celestials across the border is indicated by the story of a wounded Chinese found in an isolated mountain locality.

Numbers of Chinese who crossed the border during the last month have never been heard from.

EDWARD MYLIUS GUILTY OF DEFAMING KING

LONDON, Feb. 1—After brief proceedings today a special jury, before Lord Chief Justice Alverstone cleared King George of imputations against his personal character by finding Edward F. Mylius guilty of circulating a libel. Mylius was sentenced to one year's imprisonment.

Mylius had no counsel looking after his own defence. He depended chiefly on the assertion that private papers might be used against him had been unlawfully seized and demanded their return. This was refused.

The defendant had also sought to have King subpoenaed to testify, but this was refused on constitutional grounds. He then demanded the King's presence in the Court room, asserting that he could not be legally tried in absence of his accuser.

Lord Chief Justice Alverstone again ruled against the defendant, declaring that the defendant knew perfectly well that under the constitution His Majesty could not be present.

After the formalities of opening the proceedings were concluded, Mylius began his case by denying the return of his private letters, which he asserted had been seized in violation of his legal rights. He then said: "I wish to ask whether the King

SMALL POX SCORE IN PHILADELPHIA PA.

PHILADELPHIA, January 31—One of the most sweeping quarantines in the history of the city was put in force today following the discovery of smallpox in the Fenderlin district. The section was roped off and everyone found within the police boundary was compelled to submit to vaccination. Knowing the custom of most of the residents, the physicians waited until four o'clock this morning when everyone would be home, then beginning their work. At that hour 100 physicians, accompanied by large details of policemen, entered the district, which includes Philadelphia's Chinatown, and began vaccinating. It is estimated that 3,000 persons submitted to the doctors, while the physicians were inside the ropes which enclosed a territory of ten blocks, hundreds of policemen stood on guard and permitted no one to escape.

CANNON FAVORS COMPROMISE ON RECIPROcity

WASHINGTON, Feb. 1—"In a month's time we will be called upon to enact the reciprocity agreement with Canada into a law, but I don't know what we are going to do. We will only have to come to a compromise that cares for the industries of all our people."

This was speaker Cannon's declaration at the banquet of the National Association of Wool Manufacturers tonight in a dramatic speech in which he defended the Payne-Aldrich tariff act as the best revenue measure ever enacted, adding that he had no apology to make for it in any respect.

Minard's Liniment cures Diarrhea.

J. A. MCEACHERN REMOVES

It was announced some time ago that Jas. A. McEachern, city, the well known steam and hot water heater and fitter, had removed from his old stand in the Scantlebury building. Mr McEachern is now comfortably installed in his new quarters at 124 St. George St. opposite Crabbe's and is again prepared to cater to the wants of the trade.

In the new location Mr McEachern is placing his goods more directly before the public and has also instituted one or two changes in that connection.

Associated with him in the new show room is James D. Offer, who sells the famous Lunt Moss Water Systems who has his machine set up prepared for daily demonstration. For this purpose also Mr McEachern's celebrated Pressure Heating system is on exhibition; set up complete in all details so that the salient features of the system may be more readily explained to the customer.

The heater shown is the popular

Jaurez City Besieged by 1,300 Rebels Under Orozco, Who is Greatly Feared

A YOUNG NAPOLEON

Special to The Guardian.
EL PASO, Feb. 3—The city of Jaurez, just across the Rio Grande, is besieged by 1,300 insurgents, commanded by General Pacquale Orozco who sent an ultimatum to the civil authorities threatening to bombard the town unless it surrendered.

Heavy artillery was brought by the rebels for shelling the city and the people are deserting it by thousands.

The bold young leader of the rebels, General Orozco, is most feared by the Mexican authorities. The General Madero, who was formerly at the head of the revolution.

Orozco is only 28 years old and is without military training, although he shows a brilliant aptitude for martial life.

Orozco's friends call him the Napoleon of Mexico.

DEMOCRATS SOUNDING THEIR PARTY

WASHINGTON, Feb. 1—The attitude of the democrats in the house toward the reciprocity agreement with Canada, is being thoroughly canvassed at the instance of minority leader Clark. Mr. Clark asked the democrats of every state delegation to take up the matter among themselves and report to him so that he might know the general temper of the house democracy as to the measure.

New York, led by Representative Sulzer, started the ball rolling and the conference of that state was unanimously in favor of passing the bill incorporating the agreement. Virginia democrats held a meeting at the same time and the consensus of opinion was for the agreement.

Democrats from other states talked over the situation among themselves and the sentiment so far as it developed, seemed to be that the democrats should pass the measure because of what it embraced rather than defeat the whole proposition by lacking on any points of omission or inclusion that local interests might favor.

The conference of the delegations will continue and meantime Secretary of State Knox and Special Agent Charles M. Pepper, of the state department, who investigated reciprocity matters, will urge on the delegates at a hearing before the house committee on ways and means next Thursday, the adoption of the agreement.

No action was taken by the senate committee on foreign relations with respect to the Canadian reciprocity agreement. The agreement was sent to that committee several days ago, after having been withdrawn from the finance committee, to which it originally was referred. The understanding in the foreign relations committee is that no proceedings will be taken until after action is had in the house on the McCall bill.
