 ...The branch office of the Charlottetown Guardian will be found in the store of A. J. McDonald & Co., Souris. A. J. McDonald is the agent. 6-30drff.
 ...Miss Annie L. McEachern, Cardigan, leaves this morning for Boston, where she will spend the winter with her sisters, Mrs. Bruce and Mrs. Berry.
 ...Rockwood chocolates are sold and recommended by the following dealers in this Province:—J. W. Carruthers, Montague; E. J. DesRoches, Charlottetown; A. W. P. Gourlie, Summerside; M. A. Paquet, Souris.

...In Montague, yesterday, dealers were paying forty cents a bus for new oats, thirty five cents a bus for new potatoes, sixteen to eighteen cents a lb for butter, twenty cents a dozen for eggs, and ten dollars a ton for loose hay.
 ...The remains of Lorne P. Prowse, who died at Winnipeg on the 25th inst, were brought over by the Empress last evening, and forwarded to Murray Harbor. The deceased was a son of J. R. Prowse, Murray Harbor, and has been away for seven years. For six years he worked for the C. N. R. Co. Engineering. His brother Cecil is manager of a coal Co in Vancouver. The funeral takes place tomorrow (Sunday) at the thirty p. m. from his father's residence.

CURTIS AND WRIGHT BOTH MADE FLIGHTS

NEW YORK, Sept. 30.—The Curtiss-Hudson-Fulton aeroplane made its maiden flight at 7 o'clock this morning, successfully describing a semi-circle above the field at Governor's Island.
 Wilbur Wright started a flight in his aeroplane at Governor's Island at 8.57 a. m. today. Wright remained in the air about ten minutes, passing over the top of Castle Williams, and making a complete circle of the Island, a distance of two miles. He returned to the landing point and alighted without accident.

QUEEN MARGHERITA TIMES WIESBADEN CURE

WIESBADEN, Germany, Sept. 29.—Dowager Queen Margherita of Italy recently took up her residence at the Hotel Kaiserhof for a stay of four weeks in the suite of rooms extending across the western front occupied some years ago by the King of Siam. Her Majesty travelled under the name of Countess Stupinich and is accompanied by Marchioness Villamarina, Marquis Giuciolio, Countess Pes di Villamarina, and Dr. Quirico, physician to King Victor Emmanuel. The party motored to Wiesbaden from Baden-Baden, stopping for lunch at Heidelberg.
 Queen Margherita is taking a course of baths at the Augusta Victoria's Bad, which stands in the same park-like grounds as the Kaiserhof and is connected by a covered passageway. She takes frequent walks in the town and has done a considerable amount of shopping. Several automobile excursions have been made to places of interest in the neighborhood, including Frankfurt, where the aeronautical exhibition was visited.

CORN CURE THE ASIATIC CHOLERA

MUNICH, Sept. 30.—Prof. Emmerich claims that he has confirmed by chemical and spectroscopic analysis the accuracy of his theory that the fatal agent in Asiatic cholera is free nitrous acid, the formation of which is rendered possible by the action of bacilli in transforming the nitrates of food into nitrites. This knowledge, he says, makes safe prophylaxis possible. Anybody can now protect himself from fatal consequences, even when fatally infected. It is only necessary to avoid eating nitrogenous and cured meats containing ampicin Baltimore of 1908 had a saturated, and drinking nitrogenous water.

ROCHESTER WINS PENNANT

NEW YORK, Sept. 30.—The Eastern League championship season ended today, Rochester winning the pennant with .034 to spare. Rochester previously had not won a pennant since 1902. Newark this year finished second instead of Providence. The champion Baltimore of 1908 had a poor season, landing in seventh place.

BARK'S CREW HAD A NARROW ESCAPE

CHATHAM, N. B.—The bark Roll, which was stranded on Tabusintan beach, broke in two on Sunday night. When the bark first went ashore the captain came to Chatham to make arrangements to get her off, leaving the mate and crew of fifteen men on board. The mate telephoned that on Sunday night when the violent storm was at its worst the vessel parted amidships and was driven high up on the beach many yards further than where first stranded and the mainmast and rigging went overboard. The waves swept over the ship's decks and one of the seamen was struck and knocked against the bulwarks. The crew, however, managed to get ashore and their only protection from the storm which was raging was a small fisherman's shack which ordinarily would be crowded by two or three persons. The men were all drenched to the skin and almost perished from cold and exposure. As soon as the weather permits a tug will go down and bring the crew here, where they will be cared for by the Norwegian consul until they can be forwarded to their homes.

MARITIME CIRCUIT TO BE FORMED

HALIFAX, Sept. 30.—A meeting of the maritime track managers and owners, was held in the Halifax Hotel last evening to come to some definite conclusion re the forming of a maritime circuit for next season. W. Power was in the chair. A resolution was passed, moved by Spurgeon Gammon, manager of the New Glasgow track, and seconded by J. A. Johnson, manager of the Halifax track, authorizing J. D. Black, manager of the Fredericton speedway, to call a meeting of the association at some central point during the month of January 1940, for the purpose of organizing such a circuit.
 Among those present were:—J. A. Johnson, Halifax; J. A. Fraser, New Glasgow; Spurgeon Gammon, New Glasgow; C. R. Smallwood, Charlottetown; Dr. Saunders, Middleton; and J. D. Black, Fredericton. The dates of the Dominion exhibition to be held in St John next year have been fixed for September 5th to 14th. The meeting of track managers, called to form a maritime circuit, the dates which will be arranged to come ahead of the Dominion exhibition and provincial fairs. The racing at these fairs will follow close after the maritime circuit, and there will be no confusion. To arrange for this was the purpose of the meeting.

MRS. GRAY IS THE NEW PRESIDENT

SACKVILLE, September 30.—The list of the press committee of the new Brunswick and Prince Edward Island W. C. T. U. read in this morning's session of the conference, said that fifteen local papers printed W. C. T. U. matter and most had a union column. It is to be regretted the report read, that the papers were not giving more news matter and not reprints from other papers. In the afternoon session a department which would have for its object the combating of the white slave traffic, was created. This department would send literature throughout the province to retain traffic. The following officers were elected for the ensuing year:—President—Mrs Nellie M. Gray, Fairville, (re-elected). Vice-President—Mrs Howard Sprague, Sackville. Corresponding Secretary—Miss Acker, Campbellton. Recording Secretary—Mrs R.N. Campbell, Prince Edward Island. Treasurer—Mrs McWha, St Stephen. Secretary—Miss Fraser, St Stephen. Auditor—Mrs Ross, St Stephen.

MAJOR WYATT WAS FOUND DEAD

TORONTO, Sept. 30.—Major Harry F. Wyatt was found dead at his home this afternoon. The cause of death appeared to be accidental, the administration of poison, in mistake for medicine.
 Down town, however, it was freely hinted by financial men that Major Wyatt had been for nearly a year on the wrong side of the market.
 Robert C. Sinclair, a real estate and insurance broker of this city was found dead this morning on the floor of the Toronto Whist Club rooms.

BANK CLERK SHOT ACCIDENTALLY

WOODSTOCK, Ont., Sept. 30.—Erwell McNeill, a young Traders Bank clerk at Embro, who was accidentally shot last Thursday while examining a revolver in his room over the bank, died of his injuries in the hospital here yesterday. The doctors could not locate the bullet.

Easy to Take Easy to Operate
 Hood's Pills
 Because purely vegetable—yet thorough, prompt, healthful, satisfactory.

A YOUNG BANK CLERK ACCIDENTALLY KILLED

WOODSTOCK, September 29.—Erwell McNeill, a young man of seventeen employed by the Traders Bank of Embro, died here today as a result of injuries accidentally sustained last Thursday night. Young McNeill was going to bed in his room above the bank and picking up a revolver carelessly pointed it towards himself. In some manner it went off and the charge lodged in his stomach. He was hurried to the Woodstock hospital, but the bullet could not be located and he steadily sank.

FLOODED RIVER DARKENS A TOWN

Woodstock, N. B., Sept. 30.—The Woodstock Power Company furnishes electricity for all the stores and the greater part of the residences. Five days of rain have raised the Meduxnakey creek water that it has put out of business the plant until the water recedes. Everything is in darkness tonight, the streets, stores and dwellings, except light furnished by kerosene lamps and candles. No damage has been done to the machinery. It still rains.

GREAT SURPRISE TO HORSEMEN

COLUMBUS, O., September 30.—Paderewski, the Illinois trotter, after scoring The Harvester out of the 207 class event today, was beaten in each heat of the race by Wilkes Heart. The result, next to the defeat of George Gano, Tuesday, was the most startling one of the meeting. Paderewski, the Illinois trotter, after last week and was ranked then as unbeaten by horses of his class. Locust Jack in the first heat and Wilkes Heart in the second set the pace so fast that Paderewski could not get the pole quickly. He broke in both miles and was unable to cover lost ground. He trotted all the way in the third mile, but never lapped Wilkes Heart.

MUST NOW LIVE WITHOUT STOMACH

NEW YORK, Sept. 30.—William Smith, of No. 487 Central Avenue, Williamsburg, who had his stomach removed three weeks ago in the Bushwick Hospital by Dr. William Francis Campbell, left that institution last night thoroughly cured.
 "There is no reason why Smith cannot live for years," said one of the hospital doctors yesterday. "Smith must exist on predigested foods."

FACING A VERY SERIOUS CHARGE

GLACE BAY, September 30.—At the cliff near the Hub mine, where the men and boys have been digging coal out of the seams in the bank, an aperture has been made into the rooms of old workings of the Hub mines. The seam worked there was about ten feet in thickness, and the timbering remains in a fair condition. In the rooms and headways are vast quantities of dust or slack coal, cast there in the days when this class of coal was a waster and encumbrance, the only use possible to be made of it is fuel for the blacksmiths' forges of the country round about.
 After long years of storage this coal will be brought to the surface, and will prove a valuable asset to the company. It seems remarkable that the old workings should have reached so near to the seashore, but it must be remembered that the sea makes great inroads every year on the soft sandstones and shales which form the sea wall.
 Manager McKenzie and five of his constables who so freely used their revolvers yesterday, are face to face with a serious charge, the maximum penalty for which is imprisonment for life. The examinations are not set down, but will probably begin tomorrow.
 The interview given out by James Ross, president of the Coal company, creates much amusement and humorous comment among the miners. One of them remarked this evening that

THE MORNING PAPER

Some Reasons Why it Makes the Best Advertising Medium.
 A woman's curiosity to know about society, marriages, births, deaths, forces her to read it. The Morning Paper is before her all day long, and it is when she is doing her household duties, arranging and improving the appearance of her home, that the missing and necessary curtains or other necessities, show up the plainest and there could be no more opportune time for a dealer to tell about his new designs, the new styles and the bargains offered, for the day or week.
 In a majority of homes the news paper is practically the bulk of the articles of furniture, rugs, carpets, reading matter, and the long, all-day life from 8 a. m. to 10 p. m. of The Morning Paper gives not only the housewife but every member of the household a read of the breakfast table, again at home at noon, on the trains, in the restaurants. It is read in doctor's offices, professional offices, clubs, hotels, cafes, barber shops. It is read by daylight everywhere you go by both influence and national reputation are exceptions, the papers with editorial.
 It is a known fact that throughout the world, possibly with a half-dozen Morning Papers.
