The Popular Shoe Store.

Address of Appreciation.

Dr. James Handrahan who has taken an office and residence in the new Wellner building, on Hillsborough St., is one who enjoys the strongest confidence of his former patients. His name and fame as a skillful physician have preceded him to this city and the sentiments expressed in the following address are those of a people deeply regretful of a friend's departure.

To Dr. James Handrahan, North Wiltshire, P. E. Island:

DEAR SIR,—It is with feeling of the deepest regret that we desire to express to you our sincere sorrow on this the eve of your departure from our midst to take up your future residence in your native city. Since you have been among us your courteous manner and kindly disposition whether in the performance of your professional duties or your social intercourse as a neighbor or friend have won for you our highest esteem. We hope that in your new field of labors the same measure of success may constantly follow you that has attended you in this locality. We cannot allow this occasion to go by without wishing you and your aimable wife a continuous life of happiness and prosperity.

We remain, yours faithfully,

McLean Bros,
John Balderston,

Baptist Conference.

The P. E. I. Baptist Conference will hold its next session in the Baptist church at Marshfield Tuesday Dec. 10th and 11th. The program is as follows:—

MONDAY, EVENING:

1. Devotional exercises, led by Rev. A. E. Hooper.
2. Address:—"Review of Baptist Foreign Missions during the past century."—Rev. G. P. Raymond.
3. Address:—"Review of Baptist Home Mission during the past century." Rev. J. C. Spurr.
4. Address:—"A Century of Baptist Educational Efforts" Rev. A. F. Browne.

TUESDAY MORNING.

1. Reports from Committee.
2. Address:—"Our Century Fund" Rev. Mr. Gardiner.
3. Applications for Home Mission Grants considered.
4. Address:—"Prayer as a Factor in the Pastor's work," Rev. A. E. Hooper.

TUESDAY AFTERNOON.

1. Devotional Exercises led by Bro. Arthur Simpson.
2. A Paper,—"Review of Baptist Progress on P. E. I. during the century." Rev. W. H. Warren
3. The Christian's Duty as a soul-winner. Rev. H. Carter.

TUESDAY EVENING.

1. Sermon by Rev. John Clark.
2. Evangelistic service conducted by Rev. A. H. Whitman.

At both evening sessions there will be offerings taken for missions.

FAIRPLAY

An item is being printed in the papers headed "Do Not Misquote Figures," referring to the comparative strength of baking powders and claiming to quote from the Dominion government report, is misleading and incorrect. The figures given as the test of Dearborn's "Perfect" are far from correct and not according to the report. The total carbonic acid has in the samples tested, according to the report of the chief analyst, is as follows:

Dearborn's Perfect. 13.7
Royal. 13.4
Imperial. 10.8

The above figures are correct and are given on page 58, table II, of the Inland Revenue Department report No. 68 and is the only government report which gives a test of Dearborn's "Perfect" baking powder.

What You Pay For Medicine

Is no Test of Its Curative Value—Prescriptions Versus Dr. Chase's Kidney-Liver Pills.

Dr. Chase's Kidney-Liver Pills are just as much a doctor's prescription as any formula your family physician can give you. The difference is that Dr. Chase's Kidney-Liver Pills were perfected after the formula had proven itself of inestimable value in scores of hundreds of cases.

Dr. Chase won almost as much popularity from his ability to cure kidney disease, liver complaint, and backache, with this formula, as he did from the publication of his great recipe book. The idea of one treatment reaching the kidneys and liver at the same time was original with Dr. Chase. It accounts for the success of Dr. Chase's Kidney-Liver Pills in curing the most complicated ailments of the filtering organs, and every form of backache.

As a family medicine Dr. Chase's Kidney-Liver Pills are unapproached. They keep the kidneys, liver, and bowels healthy, active, and regular, and so prevent and cure nine-tenths of the ills to which humanity is subject. One pill a dose, 25 cents a box, at all dealers, or **Edman, Bates & Co., Toronto.**

We are Right Opposite the Square

THE SCOTTISH CANADIAN MINING COMPANY

of London, Canada.

Are You Satisfied With 3 per cent?

If not you must do as others have done—
get out of the old rut and shew your faith in something outside a chartered Bank!
Nature has filled British Columbia so full of Mineral that it runs over in many places, and all that is necessary to get it out is—
Money!

There are properties now working where only sufficient money was needed to "grubstake" the men who first started, and which are now turning out ore in fabulous quantities. These, though, are exceptions.

As a rule, the precious metals have to be sought for earnestly, and much time and labor expended in the getting of them.

Very few men are rich enough to run a mine alone—co-operation is necessary. Union is strength! A number of men get together and form a company to acquire and operate a certain property. Those who get in earliest get the lowest price stock and the most risk. As the price advances the risk lessens (or should!) until at length the mine pays dividends. For instance Le Roi (Rossland) were some few years ago offered here in the east at 5 and 10 cents per share, and they were hard to sell at that. Now they are quoted at £8:10:0 (\$42.50) each in England and the last dividend was \$1.25 per share. At the same time the person buying low took all the risk of the property paying, or of losing his or her money. In this instance \$50.00 worth of stock is now worth \$42,500.00 and the net dividend amounts \$1,250 on 1,000 shares.

A little over a year ago a property was offered some men in London, Ontario, who carefully investigated it merits and, when satisfied, took it up, formed a company and started in to develop it.

The company is the "Scottish-Canadian Mining and Development Co., of British Columbia, Limited," and the property "The Rob Roy Mines."

The first shot was exploded Aug. 1st, 1899, and to-day the company have 380 feet of rock tunnel driven, have built cabins, trails, mine works, etc., have surveyed the property preparatory to "Crown Granting," and have shipping ore, as the Upper Level is now producing. All this is less than one year from time of starting.

There is no reason at all why Scottish-Canadian Shares should not prove just as profitable as those before mentioned, as the "Rob Roy Mines" have magnificent surface showing, which have been proved, at a depth, by the tunnels. In addition the management is a careful and conservative one, getting a dollar's worth of work for every dollar spent, and watching outlay very closely.

The company is free of debt, and only has to sell enough stock to carry on the work till shipments can be made to the Smelter.

Purchasers of stock to-day get in low, with the added advantage that there is hardly any risk in the shares now, development having shown that "Rob Roy" contains ore in apparently inexhaustible quantities.

The directors are well-known men, mostly from London and vicinity, and altogether, these shares offer a most promising field for profitable investment.

The shares are fifteen cents each, \$15.00 for 100 shares (not less than 100 sold), \$150.00 for 1,000 shares. The par value is \$1.00 each, so that the investment of \$150.00 buys \$1,000.00 worth of stock, and there can be no more calls or assessments on the shares.

If you buy a hundred or a thousand shares of stock you can never be called upon to pay a copper more than the fifteen cents per share, in any way, shape or form.

Many a man has a few hundred dollars to invest in something likely to bring better returns than he can get in the bank, and these shares are offered as being just what he needs.

Full particulars with reports, assays, etc., cheerfully given on application to

A. E. WELCH, Manager.
