

YESTERDAY'S STOCK AND BOND QUOTATIONS

Market Reports By STEWART JONES & CO., Charlottetown

Table of market reports for Montreal and New York, listing various stocks and their prices.

The Central Guardian

WEATHER FORECAST FOR APRIL-1 to 4, cloudy and changeable; 5 to 11, clear and remains fair and mild; 12 to 18, cool spell, then milder, frequent showers; 19 to 25, mostly fair, rain if wind from south west; 26 to 30, fair, but continues cool.

REMOVES TO CHARLOTTETOWN-Mrs. A. M. Douglas and her six weeks old baby girl, Dorothy Louise, left Saturday to join Mr. Douglas, who a short time ago was transferred from the New Glasgow membership of the Metropolitan Stores to be Manager of the Charlottetown branch, in Charlottetown, P. E. I. Mrs. Douglas stopped with Mrs. Charles MacNutt, while in New Glasgow and during her stay here made many friends who are sorry to see her and the baby go. Miss Rogerson, of Charlottetown, came over to accompany Mrs. Douglas and the baby today.—New Glasgow Evening News.

THE COLLEGE TIMES-The March issue of P. W. College Times is a credit to the editorial staff, being characteristically undergraduate in the variety and tone of its articles and contributions. Editorially are discussed the grave questions of examination marks, student residences, etc., while a few words of appreciation are given of Governor Dalton's Christmas message. The only "outside" article is that of Rev. Dr. Ramsay, who reminisces delightfully of P. W. C. of thirty-five years ago, a class which contained, besides himself, such other distinguished graduates as Lucy Maud Montgomery, Dr. David McKenzie, Justice Saunders, Judge Duffy, Dr. Ern Coffin, Calgary, Rev. Dr. Charles Myers, Rev. Dr. William Myers, Hon. Dr. William Sutherland, B. C.; Prof. Everett McNeill, Queen's University and Mr. James Stevenson, of the Bank of Nova Scotia. One of the outstanding features is a list of distinguished alumni, which will be appreciated by past as well as present students. There is nothing "highbrow" about this number of the College Times. It is all the more valuable and enjoyable, on account of the refreshing unsophistication of its choice of subjects and their treatment.

TEACHERS

(Continued from Page 1) text books from the School Supply at half price? 5. Permits and 3rd Class Teachers. 6. Has the government any statement to make regarding the salary situation 7. Supplementary Teachers. A Code of Ethics Committee, Mr. Pineau, Mr. Leard, Miss Douglas, was appointed, and I understand they have their report ready for our consideration. On November 5th a letter was sent to all non-members urging them to join—the response was very gratifying. On January 22nd a "news" letter was sent to all members. It was felt that there was not sufficient contact between the executive and the teaching body and an expression of opinion on this would be a guide for future executives. On February 28th the next executive meeting was held—the principal work being the drawing up of the Convention Programme and the decision to send out to all teachers a brief account of the year's activities. On March 21st your President and Secretary and Past President waited on Premier Lea and were informed (to our intense delight) that the government has seen fit to adopt our pension scheme. In this connection, Fellow Teachers, let me add a very sincere word of appreciation for the untiring efforts of Prin. Johnstone in fostering this scheme. There is another who deserves the thanks of the teachers for his good services at the "elbow" of the government—I refer to our good friend Mr. H. H. Shaw, Chief Sup. of Education.

While nothing definite could be announced, Premier Lea wishes the teachers to know that he is very much in sympathy with their salary demands, and I surmise some adjustment of the educational grant is being considered. During the year seven cases of salary dispute came up. In one case only did the executive advise the teacher to let the matter drop. Two teachers received \$36.00 each, another \$30.00, another \$11.00, and one is still under consideration. May I read a brief letter dealing with one of these cases: This, fellow Teachers, is one of the reasons why we have a Federation. The Red Cross Society has asked us to name a member of the Federation to act on the executive of their society. I believe this to be a good move, as our teachers play a prominent part in the workings of the Red Cross Society. Please give this matter your careful consideration. I may say that seven or eight executive meetings are held in this society each year—the notices of such meetings usually brief. The appointment of this member may be from the floor or be left to the nominating committee. The past year, Fellow Teachers, may be considered a successful one, if we have accomplished nothing more than the passing of the Pension Act. May I suggest that the incoming executive consider such questions as: Curricula changes, Text books, Security of Tenure, Historical Data regarding our Federation, Group Insurance.

Mr. William Sansom's B.R., pen 11 led the contest for the week with 62 eggs, 72.7 points; Mr. John B. Poole's W.L., pen 3 was second with 61 eggs, 71.8 points, and the Experimental Farm, Fredericton, B.R., pen 10 was third with 60 eggs, 66.2 points. Mr. William Sansom's B.R., pens No. 5 still leads the contest for individual laying with 123 eggs, 139.5 points. The Experimental Farm, Charlottetown pen No. 4, pen 7 had jumped to second place with 112 eggs, 123.6 points replacing Mr. Sansom's pen No. 8 which is a close third with 109 eggs, 122.7 points. Mr. William Sansom's pen 11 still leads the contest for total production with 886 eggs, 1005.2 points, The Experimental Farm Fredericton is second with 854 eggs, 922.1 points, Mr. James Tuplin's pen 15 is third with 732 eggs, 765 points. Pen 11 has a lead of 83.1 points over pen 10, and pen 10 has 157 points more than pen 15. The production for the week was 1037 and to date 11542.

FRICITION BURNS \$700 RUG (P.P.T.)—Fricition started a fire which destroyed a \$700 Oriental rug while a workman was cleaning the rug with gasoline at the home of Dr. F. A. Roberts.

SECURITY OF TENURE, Historical Data regarding our Federation, Group Insurance. I firmly believe that if energetic committees were put to work on each of these good results would be accomplished. And now, in conclusion, let me ask for your continued support for the incoming executive. Let us not forget that our profession is an exacting one—and that now that we are assured of adequate retiring allowances and bright hopes of increased remuneration, may we not expect a greater permanency in our ranks. A situation that we may well consider when we see conditions as they are today in P. E. I., when

there are more teachers than schools! The modern, Progressive, wide-awake teacher will be assured of work. "Be not the first by whom the new is tried nor yet the last to lay the old aside." I thank you. The following committees were nominated by the president: Press, H. W. Yoe, Reginald MacDonald, Elmer Dunning; Finance, Lloyd Henderson, D. N. Bell, Estelle Morris; Resolutions, L. W. Lowther, Bertram Larkin, Lottie Farrell; Nominating, C. Braden Jelly, Norman MacDonald, Anne Walsh; Ushers, Ernest Parker, Ernest Brodeur, Doorkeepers, Arthur Woolner, Michael Conway. Mr. H. H. Shaw, Chief Superintendent of Education, delivered the first address of the afternoon. Of the ways in which teachers may improve themselves, the attendance at conventions is important. The practice of the vocation with a desire to succeed is the most important method of self-improvement in the teaching profession. The attendance of small conventions and the study group follow next in order. Next in importance is the work of the supervisor, and the summer school. An appreciation of teachers results from courses in the latter. The Province has close at hand a large summer school at Sackville. The speaker thought that Island teachers might well unite with those of other provinces in the work at Sackville. An arts course leading to a degree is available there. The superintendent promised to help as much as possible any teacher desiring to take the course in the summer school this year.

Mr. C. B. Jelly, Principal of Summerside High School, reported on the work of the Maritime Examining Board which met last December at Sackville. The idea behind the board is that eventually there may be a board in the Maritimes to set general examinations for Grades XI and XII. Dr. G. J. Trueman was elected chairman of the board. At the meeting the appointment of a board of examiners was left to a special committee, this board to set examination questions, etc.

Morning Stock Letter Wall Street Mirror Says—Special to Johnston & Ward

NEW YORK, March 31.—Selling in considerable volume carried prices down further during the early dealing a period of dullness that set in with a moderate recovery until late afternoon, when another drive occurred. The closing rally carried the Dow Jones industrial averages up to 172.56 from a low of 170.61. The banking demand for stocks has increased appreciably in the last few days and the short interest, as mentioned yesterday, the 108-109 level in the Dow Jones industrial averages appears to be the resistance point on this reaction. Consequently if our weakness today shows signs of holding at that level or even at yesterday's lows a technical rally should develop.

FINANCIAL SERVICE SAYS The question being asked in the street is whether history is repeating itself. It will be recalled that in the spring of 1929 saw the culmination of a four month sustained advance, after which a consistent decline set in lasted for an occurrence will take place this year. It should be borne in mind that market conditions at the present time are not similar to those prevailing in the spring of 1929. Last year the advance had been a very substantial one in anticipation of a pronounced improvement in business. When it was realized that the improvement was not forthcoming, the reaction set in. The advance that has taken place over the past six weeks has not been a very spectacular one, this being particularly true of the local list, and current reaction is no doubt technical in character and shrewd traders are awaiting themselves of the opportunity of picking up attractive bargains that improvement is generally predicted warrants confidence in the future outlook.

There was a rumor in the Street yesterday that Canada Dry had reduced the price on all its lines by 20 per cent. The rumor was entirely without foundation. The shares of Dominion Stores have increased approximately 50 per cent in many coverings the past eleven years, points in a review of the company during that period have increased more than 300 per cent and profits more than 600 per cent. Except for 1929 the upward trend in sales and profits has been uninterrupted and even in that year of general depression with business showing an average contraction of about 20 per cent sales fell only 2.12 per cent. Forecast and Factors: While further pressure may cause prices today, a technical rally is expected before the close.

OPINIONS E. F. Hinton and Co. Once again the general weakness seems to offer long pull speculative and investment opportunity to the careful buyer who knows what he wants. Before reentering the market we would await support of sufficient proportion to make the market stabilize itself, and we would expect such support to develop on an average of not more than three or four points below 170. It seems reasonable to look for a temporary check to the liquidating movement, following which a recovery of at least one third the ground lost last week could ensue.

Grade XI and XII work is completed in P. W. C. at the end of May, while in Nova Scotia the examinations are taken in June. New Brunswick has not yet entered the plan. P. W. C. will continue as heretofore, however those students who wish to write the general examinations may do so. The day is coming when examinations for Grade XI, throughout the Maritime Provinces will be set by the examining board, Mr. Jelly believed.

Mr. Elmer Pineau, Tignish, reported for the Code of Ethics Committee appointed at a meeting of the executive last October. The report stated that service to humanity is the ideal of the teaching profession, service to the pupils, to the parents or guardians, to the school boards, to the community. No teacher should in any way endanger the position of a fellow teacher, nor injure his or her reputation by adverse criticism. All should be members of the Prince Edward Island Teachers' Federation.

Mr. Russel Leard moved a vote of thanks to Mr. Shaw for his address. The motion was seconded by Mr. McLean.

OWNERS PRIZED PEN MESA, Ariz., Mar. 31 (U. P.)—A prized possession of A. Bond, Mesa merchant, is a pen he carved himself from cedar and loaned to Governor George W. P. Hunt for use in signing a high school district bill in which Bond was interested.

Take no chances—Use Helmex Capsules! The safest, most efficient and least expensive capsule for ROUND and HOOK worms in foxes on the market. Made in Canada. 1. The Helmex Capsules eliminate all danger of application in case a capsule breaks in the mouth of the fox. 2. They may consequently be given in a small piece of meat, and need not be administered by hand, making the catching and handling of the fox unnecessary. (This, of course, does not apply to small pups.) 3. They are not absorbed by the system, and therefore do not injure the internal organs, as for instance liver and lungs. 4. They may safely be given to pregnant vixens, if necessary, without fear of abortions, provided they are given in a piece of meat. 5. They are guaranteed to remove ROUND and HOOK worms completely. 6. They require no laxative with after treatments. PRICES: SMALL CAPSULES: for pups from 3-5 weeks... \$ .70 \$ 1.25; MEDIUM CAPSULES: for pups from 6 weeks to 3 months... \$ .70 \$ 1.25; LARGE CAPSULES: for pups of 4 months and older, also adult foxes... 1.00 \$ 3.00 Money refunded if you are not entirely satisfied! Milligan & Morrison have adopted the Helmex Capsules and recently bought 27,000 capsules. From Iron, Hamburg and Thinsville, Wis., recently ordered 19,000 Small Helmex Capsules. Try the Helmex Capsules and forget your worm problems. For Sale at All Drug Stores.
