—CONDITION IMPROVING —It is pleasing to report that, Mr. William Sharp, who is in the Prince County Hospital suffering from the effects of being attacked by a bull on his farm at Norboro is making good progress toward recovery. An x-ray was taken yesterday and it was found that Mr. Sharp had two ribs broken but no other serious injuries although Mr. Sharp is still suffering from shock. He is 70 years of age.

—"FOXMEN ATTENTION! We run numerous feed experiments each year on our experimental ranch Summerside. These are for your benefit. We invite visitors to our plant and ranch at any time. Sunglo feeds are available at your nearest dealer. International Fox & Animal Foods, Ltd. L-1052-10-S-T-tf.

—SUCCESSFUL PLAY — The Children of Mary Society at Miscouche presented their play Patricia to a crowded audience in Richmond on Friday evening and everyone was delighted with the splendid performance, each character was very presented by those taking part. The play, presents the trials of a Christian girl in Rome, before Rome adopted the Christian faith. The play is in four acts. The first in a garden of the King's palace in Rome; two and three are scenes in the palace and the fourth act shows the Christian girl Patricia in prison, where she dies rather than give up her religion. The cast of characters was as follows: Augusta —Empress of Rome— Mrs. Urban DesRoches; Octavia, Beatrice MacKinnon; Patricia, a Christian lady, Yvonne Poirier; Cecila, a Christian lady, Lucelle Poirier; Marguerita, a Christian girl, Louise MacKinnon; Slavia, slave girl, Corinne DesRoches; Eugenia, Yvonne Gallant; Asra, Margaret MacKinnon, two slave girls, Melita, little dancing girl, Julette Poirier; Myta, Loretta Poirier; Cornelia, Auguress of Rome, Louise Poirier; Cenobia, prisonkeeper's wife, Loretta Poirier; Ladies in Waiting to Empress, Elda MacNeill, Gertrude DesRoches. The players were very pleased with their reception and grateful for the support given them by such a large audience.—S

—REMEMBRANCE DAY AT MISCOUCHE—Remembrance Day was fittingly observed at Miscouche in the afternoon when the citizens and returned men assembled round the memorial window in St. John the Baptist Church for a short but impressive ceremony. Mr. Patrick Martin presided and called on the children to sing O Canada. Dr. J. A. MacPhee of Summerside who was present gave a short address on the significance of Remembrance Day. Rev. Dr. Monaghan, P. P., also spoke, addressing himself particularly to the children. Hymns for peace were sung by the children and congregation, followed by a prayer for peace. The Last Post was played by bandsman Allen of Summerside. After which the two minutes silence was observed and then reveille. Mr. Patrick Martin gave the roll call. Mr. B. W. Robinson gave a short reading. As the ceremony concluded the returned men filed past the window dropping their poppies, followed by the children who also dropped their poppies at the foot of the window. A vote of thanks was extended to Dr. MacPhee and Mr. Robinson for their attendance at the ceremony and their addresses. The vote of thanks was moved by Ernest Arsenault, a pupil in the 10th grade; seconded by Rebekah Sark, also of the 10th grade, supported by Eleanor Gillis and presented by Alden Small. Miss Vivian Gallant the organist played appropriate music during the ceremony.—S.

—Mr. C. B. Jelly spent the week-end at his home in Summerside.—S

—Mrs. Leigh Gordon and her little granddaughter, Isabel, are visiting in Sydney guests of Mr. and Mrs. Keith Jamieson.—S

Port Hill Resident Passes Away

There passed away in the Prince County Hospital yesterday afternoon Percy Ellis of Port Hill at the age of 63 years. Mr. Ellis had been in failing health for about 18 months and was brought to the hospital 10 days ago. He did not improve however, and passed peacefully away yesterday. Mr. Ellis was a native of Port Hill and a prominent farmer and most highly esteemed in the district. He was a prominent Mason and was secretary of Alexander Masonic lodge of Port Hill for many years. The funeral will be in charge of Alexander Lodge. Mr. Ellis leaves to mourn his wife and the following brothers and sisters:—Fred at Springhill, N. S.; Hugh and Archie of Port Hill; Miss Addie in the States and Miss Ione in Port Hill, to whom sympathy is extended.

The funeral will be held on Wednesday afternoon at two o'clock from his late residence to the Presbyterian Church and cemetery at Lot 14.

NOTICE

Silver fox pelt shipments from us will be going forward to the Fur markets each week throughout the season. Pelts will be received either at Headquarters, Summerside or Massey-Harris building on Kent Street in Charlottetown.

"Andy Hardy Gets Spring Fever" Playing At Capitol, S'side

The Hardy family score another Hit at the Capitol Theater last night when they presented their lucky seventh picture "Andy Hardy Gets Spring Fever.'

This perfectly human story of every day family life with its ups and downs, makes one feel life is worthwhile after all.

There are laughs and thrills in the Hardy picture when Andy gets spring fever and keeps the family in hot water over his love affairs.

After proposing to Rose Meridith and being turned down Andy realizes that his old love Polly Benedict is really his "only girl."

Metro-Goldwyn-Mayor have accomplished much in this new picture of the Hardy family, which is considered one of their best productions.

RAIDERS

(Continued from page 1)

man plane has been over the industrial sections of Britain.

Attack Lone Plane

Three British patrol planes sighted a lone German aircraft 2,000 feet below them off the east coast during the day. They dived but the German escaped in the clouds after his ship had been raked with machine gun bullets from a point blank range of 25 yards.

In a game of hide-and-seek in the clouds the British found the German again but he escaped for a second time although a piece of his wing had been shot away.

British fliers were credited with a possible direct hit on a U-boat. An Air Ministry report said that a Royal Air Force plane attacked the sumbarine Sunday by dropping a salvo of bombs one of which "appeared to the pilot to make a direct hit."

Meanwhile, it was announced that the 1,346-ton British merchant vessel Pozano sank off the southeast coast after an explosion. No lives were lost.

Sudden Sinking

A Singapore dispatch disclosed the sudden sinking of the 7,745-ton British-India steamship Sirdhana. The vessel went down near Singapore, sinking within 15 minutes, it was reported, after striking a mine.

Eleven persons, listed as asiatics were reported drowned and nine others missing. Ten Americans, members of a magic show troop, escaped.

An authoritative source said that almost the entire Empire production of copper, lead and zinc will be acquired from producers on behalf of the government during the war period.

OTTAWA PLANS

(Continued from page 1)

Power succeeded him as Postmaster-General, it was expected that Mr. Power would take over the chairmanship of the public information committee. However, Mr. Power was then occupied with the Quebec provincial elections and Mr. McLarty remained chairman.

Before he hands over the job to Mr. Power, it is learned Mr. McLarty wishes to go into a huddle with the other members and work out proposals that will smooth the way when Mr. Power takes on the responsibilities of being, in effect, minister of public information.

Moving Carefully

The Government has been carefully feeling its way in the matter. Early suggestions of a propaganda organization did not meet with favor. On the other hand it has been felt by the cabinet committee all along that the public was not being sufficiently informed on what the Government was doing, what Canadian industry was doing and what various organizations were accomplishing to prepare this country for its war effort.

There have been uncertainties as to who would be responsible for giving out news from the various boards. Walter Turnbull, one of the Prime Minister's secretaries, was named in charge of information from the Prime Minister's office and George Hambleton, former European correspondent of The Canadian Press was appointed to co-ordinate information but his first responsibility is to provide such information for the cabinet.

Meetings have been held of publicity representatives from the various departments and it was decided that each department should issue information direct as in peace time but members of the cabinet committee feel that this has not been sufficient.

There has been uncertainty as to which department should give out particular information with the result that it has not been given out at all.

News from the Defence Department has been organized under

Town Council Permits Tank Construction

The regular monthly meeting of the Summerside Town Council was held last night Mayor Campbell presiding over a full Council Board. The most important matter to come up was resolution allowing the Irving Oil Co., to erect tanks on the site on which now stands the Paturel Lobster Factory. A letter dated November 13th from the Irving Oil Co., St. John was read asking for permission to erect storage and oil tanks on the above named site. The communication pointed out that it would mean increased taxes for the town. The Company's representative Mr. J. A. Lewis, was present and answered several question put by members of the Council. Mr. Lewis stated that it was the Company's intention to do away with the storage tanks near the railway crossing east of the to that, in erecting the tanks they would conform to the rules laid down by the fire marshall, and any additional requirements that the Town Council would ask. The company did not propose to commence the erection of the tanks until the Spring. After some discussion the following resolution was passed:—

"Resolved that the Irving Oil Co. Ltd., be and are hereby authorized to construct and operate oil tanks on the property where the Paturel Factory now stands provided they are built satisfactory to the fire underwriters and subject to their supervision during the continuance of this permission provided the property be enclosed by a suitable steel fence and that such tanks would not increase fire insurance premium of property in that vicinity." Moved by Councillor MacNeill seconded by Councillor Wedge. The regular business of the meeting was conducted. Councillor Phillips reported that the unemployment project of work on Duke Street was completed and the catch basins had been cleaned out. There was a demand for some work to be done at the west end of North Market St. but he considered it would be better to leave the matter until the Spring. On motion of Councillor Morrison it was decided to order a silencer from Messrs R T. Holman Ltd., for the engine at the Electric Light Plant, to be delivered in the Spring at the price quoted in their tender and to be paid for on arrival. Councillor Morrison pointed out that a ground silencer is the best and this would require a concrete base, which would be difficult to erect now. Councillor Phillips said that a large petition had been signed by residents of the east end asking for a silencer and that he thought the arrangement would be satisfactory. Reports and bills were passed. Meeting adjourned.

AERIAL WAR

(Continued from page 1)

In the afternoon raid the firing started at 3:20 P. M. (10:20 A. M. AST) and continued intensively for more than an hour. No alarm was sounded in Paris.

Before dawn Saturday the city was on the alert for 70 minutes. Today's pre-sunrise warning lasted an hour.

Above the racket of the anti-aircraft fire faint sounds of motors from German reconnaissance planes were heard.

Premier Daladier, accompanied by Guy Lachambre, Air Minister, and General Joseph Vuillemin, chief of staff of the air forces, continued a tour of air bases. They presented a number of decorations to fliers.

The only report from the front contained in the War Ministry's morning communique was that it had been "a quiet night on the front as a whole."

The evening communique said briefly that Nazi planes flew over northeastern France during the day and that enemy patrols were active along the Saar area.

French Flier On Substratosphere Flight Attempt

RIO DE JANEIRO, Nov. 13 —(AP) —Air France announced today that Paul Codos, famous French long distance flier, took off today on a 2,761- mile substratosphere flight to Dakar, Senegal, French West African colony.

Codos, who has made numerous other South Atlantic flights radioed "all well," but Air France said the time of his departure was undisclosed because of war conditions.

The flier last Friday was forced back on a similar projected flight with his plane, the Camille Flammarion, becaause of motor trouble. (Havas news agency disclosed Saturday that Codos, accompanied by Henri Guillaumet, brought the Camille Flammarion in a secret stratosphere flight to Rio De Janeiro a month ago. The plane left Le Bourget airfield, near Paris, Oct. 13 and flew at heights of between 24,000 and 30,000 feet, completing the hop across the South Atlantic in 12 hours. Stops were made at Dakar, and Natal, Brazil. Although no record was set, the performance was considered remakable for a commercial plane.)

Major Thomas Wayling and has been flowing out fairly consistently but the war efforts of the other departments have not been so well defined and the public knows little about them, it is contended.

Prime Minister Mackenzie King described Canadd's war effort in two nation-wide broadcasts and the Defence Department spokesman goes on the air each week. With these existing arrangements as a starting point, the cabinet committee will get down to definite decisions this week and formulate plans to be submitted to the entire cabinet.

MAYOR FOSTER

(Continued from page 1)

mittee. The Maritime Electric Co., informed the meeting that they had complied with the council's orders and had placed a guard on their property. Communications from the Irving Oil Co., the Imperial Oil Co., the Canadian Oil Co. and the McColl Frontenac Oil Co., informed the council that they could see no reason for placing guards on their properties. In connection with this the Mayor stated that he had conferred with the Premier about their authority in the matter. It was decided that the council wait until they receive his answer before taking action. A letter from the P. E. I. Poultry Association asking that it be given the annual $25. grant for a show be considered. was referred to the Finance Committee.

The Public Health report for the month of October was read by Dr. B. C. Keeping, Deputy Minister of Public Health. He also read the Sanitary Officer's report. Dr. I. E. Croken, Meat and Milk Inspector, read his monthly report. Both reports were approved by the Council.

Following the reading of the communications the reports of the different committees were submitted to the Council. Councillor Chandler, chairman of the Finance Committee stated that the finance system had undergone a change and that he expected to have a full report at the next meeting. He read a letter to this effect from the auditor, Mr. D. F. Archibald.

Councillor Hennessey, Chairman of the Street Committee had nothing to report owing to the fact that he had been ill most of the time since the last regular meeting. Mr. Harold Messervey, City Engineer and Mr. I. Y. Reddin, however, volunteered some information of the Victoria Park project.

In the absence of Councillor Blanchard, Chairman of the Public Property Committee, Councillor Lapthorn was called upon to submit a report. Questioned by Coun. Holman about the repairs needed on the roof of the Market Building he said that he didn't know anything about it.

Councillor Lapthorn, Chairman of the Employment and Relief Committee. reported that there were 407 persons on relief in the City of Charlottetown. 90 heads of families, 25 individuals and 292 dependents were receiving aid at the present he stated.

Councillor McIntyre, Chairman of the Police Committee, read the Police report for the month of October. Councillor MacKee referred to the breaking of street lights on Hallowe'en night. He said that 63 lights had been reported. In answer to this Chief A. Birtwhistle of the City Police Force, stated that many of the lights were "out" before Hallowe'en night. It was decided to call tenders for the new Policeman's overcoat as the first price did not meet with the approval of the meeting.

Councillor Dougan, Chairman of the Tender Committee, read his report and referred to repairs to the spouts on the Market Building which, he said would cost $100. to fix.

Councillor MacKee, Chairman of the Fire and Light Committee told the meeting that certain Fire equipment had arrived for the City Fire Department.

With the exception of Councillor Blanchard, the meeting was attended by a full slate of councillors, the City Recorder, Dr. B. C. Keeping, Dr. I. E. Croken, Chief A. Birtwhistle Mr. Harold Messervy and Mr. I. Y. Reddin. His Worship, Mayor E. A. Foster presided.

A lengthy discussion took place over the resolution dealing with the tenders for coal for the City Hall and Market Building. A resolution appointing a man to a position in the Relief Office, submitted by Councillor Dougan, was the signal for fireworks as the Mayor openly voiced his disapproval of the resolution. His Worship said that he was in favor of the man receiving the appointment but that he thought it was out of order because the position did not exist. Most of the Councillors voiced their approval of the appointment but agreed with the Mayor that the position should be in existence before the appointment was made. Reluctantly Councillor Dougan withdrew his resolution.

The following resolutions were passed:

Resolved that the tender of A. Pickard & Co. and W. D. Gillis and Co. be accepted at $8.50 per ton for Springhill screened coal, weighed over the city scales and delivered in the cellar as required.
Moved Coun. F. C. Dougan.
Seconded Coun. McIntyre.

Resolved that the tenders of A. Pickard and Co and W. D. Gillis and Co. be accepted at $6.15 per ton Sullivan slack coal to be weighed over the city scales and delivered in the cellar as required.
Moved Coun. F. C. Dougan.
Seconded Coun. McIntyre.

A by-law for the amendment of the inspection and erection of buildings in the City of Charlottetown and another for the amendment of the by-law relating to the highways, streets, squares and bridges and defining the duties of the surveyor, were given first and second readings at the meeting.

At the conclusion of the meeting it was decided to call a special meeting to deal with the matter of a building zone which was brought up by Councillor Lapthorn.

Ordered Not To Attack City Of Flint

WASHINGTON, Nov. 13 — (AP) —The German government today ordered German warships not to interfere with the City of Flint on its way back to the United States.

Alexander Kirk, American Charge d'Affaires in Berlin, was informed by the Reich foreign office that the German naval command, in view of its understanding that the cargo of the American freighter, captured by the Nazis and released by Norway while a prize crew sought to get her to Germany, had been landed at Bergen, Norway, has ordered all German craft to refrain from taking any action against the vessel.

Sees Struggle

(Continued from page 1)

international gangsterism, the danger is that our whole civilization will be overwhelmed, engulfing at the same time the religious beliefs of all of us.

"The reason Britain and France declared war on Germany was because they realized, after repeated and sincere attempts to avoid war, that Hitler had become obsessed with a determination not only to dominate Europe but to dominate the world.

Fighting For Lives

"In other words the British and French people are fighting for their own lives. They are fighting for the democratic freedom in which they believe. They are fighting for the right to assemble and speak and worship and even think as they like — the rights which are not posessed today by anyone in any of the dictator nations of the world."

At another point, Dr. Manion said:

"Never in the history of the world has there been anyone at the head of a great nation who has demonstrated so fully the fact that the laws of morality do not influence him as is the case of Adolf Hitler.

"When Hitler plays the part of an international gangster by marching into inoffensive countries, such as Austria, Czecho-Slovakia and Poland, and shows by his every act that this is only the beginning of his piratical course, then other nations must look to their interests."

Had Hitler gone about his task of rebuilding Germany without threatening the liberties of his neighbors, Dr. Manion said, "he might have lived in history as a German hero."

Gives Explanation Of Ark Royal Sinking Story

LONDON— Nov. 13 —(CP) —A sharp turn by the British battleship Ark Royal led German aviators to believe they had sunk the vessel, according to he Marquess of Donegall's "almost in confidence" column in the Sunday Dispatch.

According to his account the Germans saw the vessel heel over in going to the aid of a disabled British submarine and messaged headquarters that it had been sunk.

Later the Nazi airmen dropped a barrel containing a note apologizing to the navy for making the mistake.

Here is Lord Donegall's story: —"The incident occurred when units of the home fleet went to the help of a damaged British submarine.

"When the Germans last saw the Ark Royal she was heeling over, due to turning at high speed. They can therefore be forgiven for reporting that they had sunk her. Goebbels' department duly announced it with glee. However, a day or two later the German air force discovered their mistake and reported the fact to the German authorities. Still the lie keeps coming over the air, night after night.

"The next thing that happened was that a lone German plane approached the Ark Royal's base and while still well out to sea dropped a bulky object. Our people went out in a boat and retrieved it. The object proved to be an empty keg—empty except for a message, which read: 'This is to tell you that we are sorry we gave wrong information about the Ark Royal. We have reported our mistake to the authorities. So blame Goebbels and not us.'"

Eire Disturbed Over American Ship Decision

WASHINGTON, Nov. 13 —(AP) —Irish Minister Robert Brennan expressed to the State Department the concern of Eire in the combat zone under the United States Neutrality Act.

He told Adolf A. Berle, Assistant Secretary of State, that Irish ports were badly hit by the failure of American ships to call there and that Eire herself was in need of the products which these ships previously had carried to her.

Brennan pointed out that Eire is a neutral country. He said that American ships had been trading with Eire since the war started until the neutrality act and combat zones were proclaimed, and that there was no interference with them so far as Eire knew.

Eire, he said, believed this was a situation that could have continued.

FOX PELTS WANTED

We are open to buy large quantities of pelts for spot cash, or will give liberal advances on skins left on consignment. Ranchers are asked to enclose full information in their parcels. Address your parcels to Gallant Fur Sales, Registered J. LeRoy Gallant, Manager, Box 114, Summerside.

L-588.

Pope Pius Emphasizes Education Need

WASHINGTON, Nov. 13—(AP)—Pope Pius XII told Americans today that the work of Christian educationist was never more important than in this hour when "the bewildering errors of nationalism and materialism" were plunging the world into war.

His words were broadcast from the Vatican and directed primarily to a throng of thousands gathered in the flag-draped gymnasium at Catholic University to celebrate the 50th anniversary of the founding of that institution.

Venerable cardinals, including Rodrigue Cardinal Villeneuve of Quebec, and boys studying for the priesthood stood together in the vast chamber to hear the Pontiff's first American broadcast since his coronation. Many, hearing his voice, could close their eyes and see him as he appeared in the same building three years ago, as Cardinal Pacelli and Secretary of State at the Vatican, during his visit to the United States.

Pope Pius spoke in Eenglish, but differences in accent and the difficulties of transmission made it impossible for numbers of his listeners to catch more than snatches of his message. But even these understood his reiterated praise of the familiar university—praise which he said might "encourage and strengthen you to pursue the noble but arduous mission which the university fulfills."

"The Christian education of youth," he said, "was never of more decisive importance than it is today, when we are faced with the bewildering errors of nationalism and materialism which are plunging the world into war, evidencing themselves in the horribleness of a philosophy builded on purely human standards."

Huge Lumber Salvage Deal

BOSTON, Nov 13—(AP)—A $14,400,000 tramaction—believed the largest of its kind in the United States history—effecting the sale of 600,000,000 board feet of New England lumber felled in last year's hurricane, was announced today by the Northeastern Timber Salvage Administration.

The purchase was made by a newly formed co-operative of wholesalers, Salvage Administration Director Leslie S. Bean said, in a contract signed in Washington last Friday.

Bean, who said he believed the sale was without precedent in magnitude, reported timber owners would receive $24 a thousand feet, a price he termed "considerably higher" than they usually receive.

Under terms of the contract, the co-operative known as the Northeastern Timber and Marketing Association, will take possession of sawed lumber at the salvage scene.

N. B. Election Campaign In Final Stage

SAINT JOHN, N. B., Nov 13—(CP) With nomination day over, the final phase of New Brunswick's election campaign was in full swing tonight. Voters go to the polls next Monday to choose between the Liberal Government of Premier Dysart and Conservatives forces led by F. C. Squires.

As usual in New Brunswick Provincial Elections the campaign centres around these two parties. Nomination proceedings today confirmed that in addition to Liberal and Conservative candidates for each of the 48 seats at stake, only two other candidates will be in the running.

The co-operative commonwealth federation's first bid in this Province is being carried by J. C. Arrowsmith, who seeks one of Saint John City's four seats. Wilfrid Verret is an Independent Liberal candidate in the two-seat constituency of Madawaska.

Ill Luck Follows U S. Fisherman

NEW BEDFORD, Mass., Nov. 13—Ill-luck that has dogged Modeste Rakowski, New Bedford fisherman, and his 28-foot fishing boat, Julia, in the last year sent Rakowski to hospital today, and destroyed his boat.

Rakowski spent more than a year at the single-handed job of reconditioning the vessel after it was damaged in the 1938 hurricane. Soon after he finished the job a few weeks ago, a squall capsized it, and it sank.

He raised the boat, repaired it and was filling his gasoline tank to start out fishing today for the first time when an explosion started a fire that ruined the craft and burned his head and neck.

Silver Fox Pelts Wanted

Take advantage of present trade requirements before large quantities of pelts come on the market. Realizing good prices now. Shipments daily.
