When Your Cough Hangs On, Mix This at Home

The best cough remedy that money could buy, can easily be mixed at home. It saves money and gives you the most reliable, quick-acting medicine you ever used. The way it takes hold of stubborn coughs and chest colds, giving immediate relief, is astonishing.

Any druggist can supply you with 2 1/2 ounces of Pinex. Pour this into a 16 oz. bottle, and fill up with plain granulated sugar syrup or strained honey. It's no trouble at all to mix, and when you once use it, you will never be without it. Keeps perfectly and tastes good—children really like it.

It is surprising how quickly this loosens the gum-laden phlegm, and soothes and heals the inflamed membranes. At the same time, part of the medicine is absorbed into the blood, where it acts directly on the bronchial tubes, and helps the system throw off the whole trouble. Even those severe coughs which follow cold epidemics, are promptly ended.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form. Nothing known in medicine is more helpful in cases of severe coughs, chest colds and bronchial troubles. Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

SMILES

GABBY GERTIE

"The hustling 1930 husband seldom misses the train."

"Is the fishin' good, sir?"
"Not very. But why do you ask?"
"Well, you see, there hasn't been a drop of water in this creek all summer until the rain last night and I just wondered."

MAMMY'S EXPLANATION

No wonder dat small child is sweet!
"It's troof dat it's a-tellin';
"Most every day I sees him eat His weight in watermelon!"

"Can you imagine any reason why my eyes should be as weak, Miss Arabella?"
"Why, no, I can't, Mr. Snooch, but I know that they say the eyes are the index of the mind."

"Are you sure Jack's wife is home from the country?"
"Oh, yes. He returned my pcker chips this morning."

In Winter
Outdoor work and play often give rise to sprains and frost bite. Keep a bottle of Minard's by you to rub on the affected parts.

MINARD'S
"KING OF PAIN"
LINIMENT

The Old Order Changes

By DAVID LYALL

(Continued)

"It is early days yet to talk of settling. Fact is, Canon, I've very nearly decided that I'm not the man for this job."

"How do you mean?" inquired the Canon in a puzzled voice.

"One requires to be born in England and brought up to it. The only bright spot I've struck so far in the place is the plucky little school-mistress."

He was not looking at the Canon as he spoke, or he must have seen his expression change. There was just a suggestion of an awkward pause.

"Oh, come, you'll have to stand up to your responsibilities, Major. You come to a splendid heritage, one that a good many would envy you."

"But I don't know what to do with it," observed Manning frankly.

"How does one, for instance, live in a house with forty-two bedrooms?"

The Canon smiled.

"You may marry and restore some of the glory of Mardecks. I have heard that it was once noted for its hospitality and its splendid entertainments."

"A torn and broken world has got to be mended, Canon, and entertainments go by the board."

"Oh, yes, speaking generally, that is so, but the welf of our national life must not be riven of all its finest threads. Does the dignity, the prestige, the past of this stately house not appeal to you?"

"Not in the least, Canon. That's why I say I'm the wrong man for the job."

"Oh, but it will appeal when it grows more familiar and the charm begins to work! You could serve your day and generation as well here, perhaps better, than in Rhodesia, unless you have by any chance left your heart there."

"If you mean a woman—I have not," answered Manning with unimpaired bluntness.

The Canon laughed softly.

"Ah, then, Mrs. Manning will doubtless find you a charming English wife, who will teach you love and pride in England. Mrs. Manning has been a splendid chateleine of the great house."

"Yes, but she has neglected other things," said Manning, then coloured slightly, realizing that he was being disloyal to his kinswoman, before he had even proven the quality of the man whom he surmised was her spiritual adviser. "Nobody seems to be free here, Canon—in this village, I mean. It is mediaeval."

"The Canon smiled.

"What does mediaeval mean exactly? There is an old-world flavour, but it is charming, and if you were to question the villagers I could almost affirm that you would not find one willing to change his or her lot."

"So much the worse for them then," retorted Manning rather boldly.

NO MORE WORRY ABOUT WEATHER CHANGES

With the change of weather to rain, or sleet, or high winds, a great many people in this northern climate suffer from stiff and aching muscles and joints, which is a form of rheumatism. Other causes are sprains, over-exercise, and after various strenuous sports.

Immediate relief can be obtained by rubbing in a few drops of Absorbine, Jr., to the parts affected. And in most cases a few treatments will drive away the pain.

Absorbine, Jr., safeguards you against infection because it is both a highly efficient antiseptic and a germicide. It is greaseless and stainless and quite harmless. Buy a bottle at your druggist's—\$1.25—and prove its great value by actual experience.

"It just shows how far spreading the mischief is. The point I shall never forget myself to is, why I, who have done nothing to earn or deserve a place like this, but who inherit it by mere accident of birth, should arrogate to myself the right to ordain and legislate for these people, to forbid them this or that. I'm afraid when I realize that Mardecks is actually mine, which I don't yet, there will be drastic changes. You see it can only be a trust to be administered for the common good."

"They were crossing the road to the school-house then and no further word was spoken until they had passed through the now familiar wicket into the stillness, the wide spreading beauty of the park."

"Are there no signs of the times here then, Canon? Hasn't the war changed anything," asked Manning, when no comment was forthcoming.

"Changed anything? Yes, nearly everything, that is why one would fain cling to a beauty spot like this, which embodies the spirit of England's past. I agree with you that there are drawbacks to the feudal system, but it had also features to recommend it. When great nobles were kind, just and generous, their people—"

"Were slaves just the same," interpolated Manning rather fiercely.

"Already I find it necessary to steer my aunt off certain subjects because our views are as opposite as the poles."

"Yet you have asked her to stay on at the Hall?"

"Why, of course. Don't you know that there are forty-two bedrooms," reiterated Manning, in whose mind that fact seemed to rankle. "We can lose one another on the days we don't happen to agree."

"I hope you may find it a wise and satisfactory arrangement, but I doubt it," said the Canon, moved to an unusual frankness by Manning's candour. "Mrs. Manning has been accustomed to rule. She would relinquish her scepter more easily and probably more swiftly, if she were out of the house, while you would probably obtain a better and juster perspective of the whole situation and future."

"But she had no intention of leaving the village," answered Manning.

"She intended only to go to Normanton, and as it is going to inflict considerable hardship on the Lin-a-cres, it seemed the obvious thing to do, to suggest that she remain where she is."

"It will be all right until you wish to bring a new mistress to Mardecks."

"There is no prospect of that at the moment," replied Manning. Why was it that the vision of Mary Freeland immediately flashed before the mental vision of both men, creating a queer antagonism between them, which was never afterwards quite destroyed?

Robert Freeland, feeling rather depressed about things in general, but more especially about Gorham Lacey, walked over to have a talk with his mother.

Skirting the Basin on the way, he saw that a meeting was being held there, by one of the numerous informal conferences frequented by men like William Raikes. Now, thought Freeland was one of the old-fashioned employers who believed firmly in a fair day's work for a fair day's wage. He was no fool, nor yet did he ever behave like an ostrich about impending dangers. Very few had so wide and complete a grip of industrial conditions, he knew them inside and out.

He had been born and reared in the wage-earning class. The unrest of the Clyde, mingling with the clang of its million hammers, had come early into his blood, nay, it had been there before he was born. He was a strike baby, and his mother had been hungry sometimes while she carried him. The memories of youth clung, and Freeland had carried with him through his entire life the memory of certain things, of great injustices, of some wrongs which cried to Heaven for redress.

Montague, P. E. I.

"—with all his worldly goods"

HERE, in this old strong-box, so long guarded and locked, is his "estate" . . . the "worldly goods" which he has bequeathed to her.

One by one her adviser takes out the temptingly engraved certificates and examines them. One by one he lays them down with a sorrowful shake of the head—

Slowly the truth dawns upon her. Those wonderful purchases that were to make them rich . . . independent. These speculations that were to lead them

to fortune . . . many of them now are WORTHLESS!

But at the bottom of the box there lies an unpretentious document, which suddenly she recollects. It cannot have depreciated. It must still be safe and sure . . .

She reaches in and draws forth his Life Insurance Policy.

Amid the wreckage of thousands of estates, Life Insurance stands as the final and enduring refuge in time of need.

It is the *one* investment no man can afford to be without.

Life Insurance Service

Department of Public Works and Highways PROVINCE OF PRINCE EDWARD ISLAND

TENDERS FOR MATERIALS
Sealed Tenders will be received at this office until noon of Saturday, January 3rd, 1931, from any person or persons willing to supply and deliver at the various sites, the following materials:
