Eye Strain
Eye Strain, most frequent
source of waste of nerve power,
is likewise most sure of prompt
correction, if rightly treated.
An eminent physician writes in
the New York Medical Journal
"I have yet to encounter a
typical case of sick headache
that was not associated with
Eye Strain.
Our own experience has pro-
ven how true this is. Our records
show that hundreds having suf-
fered for years from Eye Strain
without knowing the cause, have
sought and found relief through
our examination, which proved
beyond the possibility of a doubt
that their eyes were the primary
cause of all their trouble,
and that a direct relationship
existed between their eyes and
the nervous system, and that a
cure was effected simply by cor-
recting the errors of refraction
and muscles by means of glass-
es.
Have your eyes examined by
the newest scientific methods.

VETERANS FARMING.—It is
pleasing to note that several of the
returned men have decided that after
all it is possible to do well by one's
self at home and have taken farms
near or accepted positions in the
town. One is quite safe in predict-
ing their future success and hope that
their example may have its proper ef-
fect.

"SUCCESS CLUB."—As an ex-
ample of what it is possible for
school-children to accomplish, the
achievement of a small society, optly
named the "Success Club" formed
among the pupils of the senior class-
es of Georgetown High School is pro-
minent. This club inaugurated and
maintained by the pupils themselves
has by the unadvised efforts of its
members completely furnished one room
of the school with the most up-to-date
school furniture and equipment, at
the cost of several hundred dollars.
In addition to this they have purchas-
ed valuable works of reference, have
added to the school library, and
furnished several outfits for school
sports, besides having time and
means for their own entertainment,
while their record in school work
showed that that has not suffered.
The club is still going strong and
challenge competition from any other
organization.

BEDEQUE SCHOOL FAIR

The Bedeque Annual School Fair
was held at Centreville on the 7th
inst., and was the most successful
since its inauguration in 1917. The
exhibits were in excess of former
years as well as the attendance. The
quality and quantity of vegetables and
fruit would credit to our best coun-
ty fairs, which proves an increasing
interest by parents, teachers and pu-
pils in school fairs. Mr. Wilfred Boul-
der and Mr. Walter Shaw, with Mrs.
A. T. Holman and Miss Hunt are al-
ways welcome judges at school fairs,
especially so in Bedeque and as usual
carried away the good will of all in-
terested for their courtesy and assist-

More and better shaves
Did you ever see a barber stop to
shave a customer without stropping
his razor first? Never! Isn't this
fact significant?
Stropping, you see, is needed to reform the
saw-like edge that results from shaving; to
keep the blade free from rust; and to give
you for each morning's shave a keen-edged
blade. The self-stropping feature of the
Auto-Stop Razor preserves the keen edge
that makes shaving comfort possible.
Stropping—shaving—cleaning are all done
without removing the blade from the razor.
Everywhere—razor, strop and 12 blades,
complete, in an attractive case, \$5.00.
