HOW THEY BUNGLED AT FALCONWOOD

"Out Of Their Own Mouths"

Proof of the mismanagement of the Campbell Government at Falconwood is found not only in the \$100,000 additional maintenance charges piled up in three short years, as shown by the Public Accounts, but in the testimony of Liberal members of the Legislature as reported in the Government organ. For example:

Mr. GEORGE BARBOUR, 2nd District of Kings:

"Last year there was \$119,000 spent at Falconwood. I believe that \$19,000 can be saved with proper management. I DON'T BELIEVE that this institution and the farm together have been looked after in the proper way. A capable man should be employed to SEE THAT THINGS ARE NOT STOLEN. He was afraid THAT IS NOT THE CASE. . . Mr. Barbour also intimated that there were too many Falconwood trustees. All that were needed on that committee were the Minister of Agriculture and the Minister of Public Works. It was UP TO THE GOVERNMENT to see what could be done this year. They had, Mr. Barbour thought, "a great chance TO SAVE UPWARDS OF \$50,000."

—PATRIOT, April 12, 1938.

(The maintenance cost in 1937 was not \$119,000 as Mr. Barbour stated, but \$122,912. In 1938 it was \$122,528, as against \$82,975 in 1932, \$61,972 in 1933 and \$96,355 in 1934—the three years of alleged Conservative "extravagance.")

MR. J. WALTON JONES, 6th District of Queens:

"The Falconwood report, he said, was tabled only a day before (the Budget), and the members SPOKE WITHOUT KNOWING WHAT WAS GOING ON IN FALCONWOOD HOSPITAL. When Mr. Barbour said that expenses could be cut down at Falconwood, he evidently meant that supplies could be bought at wholesale prices WITH A SAVING OF \$10,000 OR \$15,000. The Junior member from Summerside, Mr. Foley, may lose through that arrangement. According to the report, drugs were purchased wholesale, but when it comes to other products, THEY ARE PURCHASED RETAIL. What did the druggists do that they should be discriminated against? Mr. Foley had made no complaint, BUT IF THERE IS ANY SWAG GOING, HE SHOULD HAVE HIS SHARE OF IT. . . He asked Mr. McIntyre how the feed is brought to the farm.

"Hon. Mr. MCINTYRE said we got the lowest price from the wholesalers. If the retailer wants to supply it, he must meet the wholesale prices.

"MR. JONES said it is something like this. Somebody wants some feed for the cows. He comes to the Public Works and says he wants some feed. The Minister says 'All right, we will get it.' He sends over to the Falconwood Committee and the Secretary of that Committee with six or seven members says 'All right, buy the feed.' Then he looks around AND SEES WHO IS THE RIGHT MAN and sends that THAT MAN the order. The man DOESN'T HAPPEN TO HAVE THE AGENCY for the feed, so he sends for THE OTHER MAN who has the agency. By the time the feed is in the barn IT WILL COST TWENTY CENTS A BAG MORE THAN THE FARMER PAYS FOR IT. The management of the Farm is SO EXPENSIVE that NO farm could be made to pay on that basis. The Falconwood Report will show MANY EVIDENCES OF THAT. . .

"Mr. Jones further added that nature is there, the land is there, the labor is there; they should be able to produce strawberries for one-third of what he could. Yet THE PROVISIONS ARE CANNED.

"He supported Mr. Barbour in saying that TREMENDOUS SAVINGS could be made at Falconwood. Things are NOT PURCHASED RIGHT there, because there are SO MANY BOSSES ONE DOESN'T KNOW WHAT THE OTHER IS DOING."—Patriot, April 21, 1938.

HON. JOHN A. CAMPBELL, 4th King's:

"AT THE RATE THINGS ARE GOING WE WILL BE OUT THERE," continued Mr. Campbell. "We are ALL headed for out there. Everybody is looking for a good time. Why should we worry? If you will guarantee me one meal a day I will retire."

MR. BARBOUR: "I rise to a point of order. I thought we were discussing the estimate at Falconwood. Or are we discussing going to jail?"

HON. MR. CAMPBELL: "I am just discussing where we can cut down expenditure. . . We haven't got the proper officials out there. We have men out there sometimes because they happen TO HAVE A PULL WITH THE PARTY. We should put men out there who are efficient. If we did that, then we would be getting somewhere. It is getting to the place where those institutions that are costing the people a lot of money are getting to be a recreation—a place desirable for a man like myself to live."

MR. BARBOUR: "I have here the Falconwood Hospital report, and if the member will turn to page 21 he will find that they had 375 acres under cultivation at Falconwood Farm last year, that they had 40 head of cattle and horses. So the farm is well stocked. If he turns to page 22 he will see that the cost of farming that farm was \$9,978.61 and notwithstanding that \$1,026.34 paid for fertilizer and lime it was farmed at a net loss of \$2,324.33."

HON. MR. CAMPBELL: "That is what I am trying to tell you." —PATRIOT, April 22, 1938.

MR. W. F. A. STEWART, 1st Queen's:

"Thank No. 4 of our Platform, which was endorsed by every member now sitting in this House, reads as follows:—'Purchase of supplies and letting of contracts on a proper competitive basis, by the Executive Council or Falconwood trustees.' We find in looking over the Public Accounts that members of the Executive who are also Falconwood trustees—we find the firms of which these gentlemen are managing directors SELLING SUPPLIES TO THEMSELVES, a practice which while it may be technically legal is, to say the least, UNETHICAL AND WOULD NOT BE TOLERATED IN ANY OTHER PARLIAMENT."—Patriot, April 20, 1938.

BAPTIST CHURCH

Taking as his subject "One Day in Seven" the Rev. Harvey L. Denton, B.D. in his morning sermon set forth the place of the Lord's Day in His mission of worship, rest and rest to mankind. Man seems so constituted that in body mind and soul the one day in seven is a necessity, experiments to the contrary, notably that of the French Revolution have been ineffective. Let us think of the Lord's Day as a holy day not just as a holiday. Let us regard the Lord's Day as set apart to Him, not as a possible period of commercial activity. Let us make our plans so that all people may have this gracious opportunity of rest, worship, refreshment and the preservation of His Day.

The music of the morning included the anthem "Teach me O Lord" and a finely rendered solo by Mrs. Pearl Burns, "The Lord Is My Shepherd."

The second sermon in the series on "Life's Intimate Relationships" was delivered before a large congregation of visitors from Charlottetown. The theme was "The Husband and the Wife." This was a deeply understood, eloquently presented message.

"Praise My Soul the King of Heaven" was the evening anthem. Miss Vera H. M. Campbell sang Reger's "The Virgin's Slumber Song."

TRINITY UNITED CHURCH

The Mother's Day services of Trinity United Church were attended by large congregations. In the morning Rev. Hugh Miller preached a sermon appropriate to the day. He reviewed the life of the same Father and resulting in the reformation of the many evils in our world today. The minister concluded with a challenge to all Christians to devote their energies to the bringing in of this Kingdom.

The choir under the direction of A. Roy Kendall, made a splendid contribution to the worship. Their morning anthem "Thou art Not Known" was well rendered with the solo part being sung by Miss Berna Huestis. In the evening the anthem "Lead Kindly Light" was presented. A special feature was the beautiful selection "My Mother's Prayer," sung with very fine effect by a Double Male Quartet of men's voices.

Score Expropriation Of Land Without Appeal To Courts At Murray River Meeting

In the traditional Liberal stronghold of Murray River on Friday night Liberalism suffered a severe setback when the Conservative candidates Messrs. MacGowan and Johnston scored point after point against their Liberal opponents.

During a speech by Mr. Gordon Holmes, who spoke on behalf of the Liberal candidates, in which he was endeavoring to defend the expropriation of land for road purposes, he claimed that the Government paid for all lands so taken. He was interrupted by a member of the audience who contradicted his statement and said that the Government had taken an acre and a half of his land for which he had received no remuneration, and on inquiring from Mr. McIntyre he was told "we are not paying a cent for right-of-ways."

Hon. John A. Campbell jumped to his feet and said "It was a lie. There was not a word of truth in it."

Later in rebuttal, however, Mr. Campbell when interrupted by the same party said in reply, "that if Mr. McIntyre said that he had no business to say it." And that "Mr. Jim McIntyre was not going to pull the wool over his eyes."

Mr. Campbell and Mr. Mont Ansear, Liberal candidates, in the course of their speeches sought to justify the extravagance of the Government and their failure to implement their promises of 1935. They had little to say regarding the expropriation of land, saying that he had to pay the County in \$100 bills because he couldn't cash cheques in the bootleggers.

That Body of Yours

By James W. Barton, M.D.

THE TREATMENT OF THE ANXIETY PATIENT

A few years ago when a patient consulted a physician about his nerves—sleeplessness, lack of appetite, anxiety—and the physician could find no organic trouble, he is referred to a "nerve specialist" because there might be something wrong with the patient's nerves which the general practitioner did not understand. To-day, when the physician, after making a thorough examination, can find no organic trouble responsible for the symptoms, he does not refer him to the nerve specialist or psychiatrist but gives the necessary treatment himself.

In speaking of some of these nervous states—anxiety and depression—Dr. Franklin G. Ebaugh, Denver, in Southwestern Medicine, says that in the anxiety state, the patient often complains of being cold and unable to keep warm. He is tense, restless, uneasy, apprehensive, with cold, clammy hands and feet and dry mouth. There is a rapid pulse and high blood pressure, which are down to normal when the patient is asleep.

"In treating a patient with the anxiety complex it is important to avoid the pitfalls of telling him that he should stop worrying or that nothing is wrong with him, since he is unable to stop thinking about his trouble and knows quite definitely that something is wrong." The physician must spend an hour or more letting the patient tell his story about his family, business, and social life. As there is no organic trouble present and the patient now has confidence in the physician because he has shared his story with him, the physician is often able to give the needed help or advice. This means that the physician, while not exactly acting in the capacity of a priest, minister, or lawyer, nevertheless, with the whole background of the patient now known to him, can advise a holiday for the patient or a member of his family, a change of scene, perhaps a change of occupation, perhaps more rest and gentle exercise.

The big point is that the phys-
