Your Doctor

Can cure your Cough or Cold, no question about that, but—why go to all the trouble and inconvenience of looking him up, and then of having his prescription filled, when you can step into any drug store in Canada and obtain a bottle of **SHILOH'S CURE** for a quarter.

Why pay two to five dollars when a twenty-five cent bottle of **SHILOH** will cure you as quickly?

Why not do as hundreds of thousands of Canadians have done for the past thirty-four years: let **SHILOH** be your doctor whenever a Cough or Cold appears.

SHILOH will cure you, and all druggists back up this statement with a positive guarantee.

The next time you have a Cough or Cold, cure it with

VALUE OF TREES TO THE FARMER

OTTAWA, March 25.—The eighth annual meeting of the Canadian Forestry Association opened Thursday with the president Mr. E. Stewart the retiring Dominion superintendent of forestry, in the chair. The director's report showed that the membership stands at 1,222, a growth of 875 in less than five years. In his address, as president, Mr. Stewart said that there was a very present urgency of impressing upon the government the need of co-operation with the forestry movement and still more important was the enlisting of the sympathy of the general public in granting patents of wooded lands to the government henceforward should reserve 10 per cent as a "wood lot."

Professor Macoun declared that unless the eastern slopes of the Rockies are protected from denudation the plains of Alberta and Saskatchewan and become arid.

To Owners of Bad Breath

Foul Odor of Indigestion, Smoking, Eating or Drinking Stopped at Once With Stuart's Charcoal Lozenges.

Trial Package To Prove It Sent Free.

Bilious breathers, onion eaters, indigestion victims, cabbage consumers, smokers, drinkers and those with gas on the stomach are in a class all by themselves, distinguished by a powerful bad breath.

They all breathe, and as they breathe, they whiff out odor which makes those standing near, turn their heads away in disgust. The terrible part of it is that these victims do not realize what a sickening thing a bad, offensive breath is, to others.

Charcoal is a wonderful absorber of gases and odors. It absorbs 100 times its own volume of gas.

Stuart's Charcoal Lozenges will put a stop to your bad, offensive breath, and to your belching, whatever the cause or source, because the charcoal quickly absorbs all noxious, unnatural odors and gases.

If you suffer from indigestion and belch gas as a result, Stuart's Charcoal Lozenges will absorb all the gas and make you stop belching.

If on getting up in the morning you have such a bad, bilious breath, that you can almost smell it yourself, Stuart's Charcoal Lozenges will get rid of it for you quickly.

If you have been smoking or chewing or have been eating onions or other odorous things, Stuart's Charcoal Lozenges will make your breath pure and sweet.

Charcoal is also the best laxative known. You can take a whole boxful and no harm will result. It is a wonderfully easy regulator.

And then, too, it filters your blood—every particle of poison and impurity in your blood is destroyed, and you begin to notice the difference in your face first thing—your clear complexion.

Stuart's Charcoal Lozenges are made from pure yellow charcoal, and just a little honey is put in to make them palatable, but not too sweet.

They will work wonders in your stomach, and make you feel fine and fresh. Your blood and breath will be purified. You will feel clean inside.

We want to prove all this to you, so send for a free sample to-day. Then after you get it and use it, you will like them so well that you will go to your druggist and get a 25c box of these Stuart's Charcoal Lozenges.

Send us your name and address to-day and we will at once send you by mail a sample package free. Address F. A. Stuart Co., 93 Stuart Bldg., Marshall, Mich.

AN ANGLER'S ELYSIUM

According to advertisements all summer resorts are alike. They are the best ever—but if fishing is better anywhere else than it is in "Georgian Bay" we do not know where it is. There is a greater variety of fish in this water than anywhere else, and they are always hungry. No one ever caught the fish in the Georgian Bay, but those that have been caught there have been counted and eaten, and if you read the Government reports on fisheries you know that Georgian Bay supplies more fish than any other equal body of water in the world. The only place you can afford to fish is where the fish are abundant, big and delicious in flavor, and that place is Georgian Bay—so the fishermen say. Suppose you send for booklet, issued by the Grand Trunk Railway System, free, telling about the home of the bass, pickerel, pike and the noble trout family. Address J. Quinn, Bonaventure Station, Montreal, Que.

THROWN IN PANIC BY EXPLOSION

CLEVELAND, Ohio, March 25.—Between 50 and 60 sleeping railroad men were thrown into a panic by an explosion of boiler in the Railroad Young Men's Christian Union building at Collingwood, and the temporary home of Lake shore railroad employees early today. The building is a three-story structure. First followed the explosion. The dining room was wrecked. No lives were lost.

SUNDAY SCHOOL LESSON

LESSON XIII.—March 31.
REVIEW.
GOLDEN TEXT.
The Lord knoweth them that are his.—2 Tim. 2. 19.

REVIEW.
Lessons I and II.—With what eternal problem does the first chapter of Genesis deal? Wherein lies the superiority of the Bible answer to this problem? In what sense was man created—in the image of God? What reasons for keeping holy the Sabbath day are found in man's physical, social, and spiritual nature?

Lessons III to V.—How do the narratives of these lessons taken together in consecutive order illustrate the downward trend and destructive nature of sin? Distinguish clearly between the meaning of the following terms: Sin in its broadest sense; personal sin; depravity; racial sin. What light is thrown on conscience by the story of the flood?

Lessons VI to IX.—This group of lessons deals with the life and character of Abraham. About whom did Abraham live? What great Babylonian king, contemporary with Abraham, was the author of a code of laws still in existence? With what king mentioned in Gen. 14-15 is he to be identified? How does this code compare in ages with the laws of Moses? What traits in Abraham's character distinguish him from his contemporaries?

Lessons X and XI.—Isaac and his sons.—What trait of Isaac's character is emphasized in Lesson XI? What other traits worthy of emulation are prominent in his character? Who were the Hittites? What part do they play in the Bible narrative of this period?

Lesson XII.—Voices of Drunkenness.—From what prophetic book is our Temperance Lesson taken? Give the historical background of the lesson passage. What other evils are commonly associated with drunkenness? What are the evils of moderate drinking?

THE GOLDEN TEXT.

It is suggested above that Psa. 104 be read in connection with the review for this quarter. It is a song of praise in which the psalmist singer enumerates the great and mighty works of Jehovah in the creation and preservation of the world and all the works of nature; the moon and stars, the winds and floods, the birds and beasts, and every creeping thing. The thought of the whole psalm is well expressed in the words of the twenty-fourth verse: "O Jehovah, how manifold are thy works! In wisdom hast thou made them all: The earth is full of thy riches." But the crowning work of God is the creation of man in his own image to be a morally free and responsible being; and in man and his welfare and destiny, more than in all the other works of creation, God takes an interest. With fatherly care he watches over him especially who is true to his high destiny and calling as a child of God. Obedience and fidelity to God are not in vain. God knows and sees and rewards. This in part is the meaning of our short Golden Text, and this also has been the lesson we have learned from the life history of the Hebrew patriarch about whom we have been studying during the past quarter.

God Is Not the God of Individuals

Continued from page 7.

When he said "Though He was rich, yet for your sakes He became poor," yet more, until we fully realize all that Gethsemane and Calvary meant to the sacrificing Son of God. Whether we can understand these or not one thing is quite clear that genuine Christianity consists in self-sacrifice for the good of others. So it seems to me that we have now before us good and sufficient reasons why we should give liberally to the missionary enterprise. First, God the Father loved us and gave His only begotten Son, Jesus Christ loved us and suffered for us as our Elder Brother. "When we were yet without strength Christ died for us." Again, we are commanded to carry the Gospel into all the world so that the light of Christ may shine into its darkest recesses. Then again, we must remember the words of the Lord Jesus who said, "It is more blessed to give than to receive." What high and exalted privileges are the Christians in the light of the revelation of Jesus Christ. The Christian can pray to a common Father for blessings upon the human race, and while working as he prays feel that he is a fellow worker with God. And then to realize that God has made of one blood all nations of men to dwell upon the face of the earth is sufficient to stimulate the Christian soul to the highest activities. To know that every soul saved through the blood of Jesus is bone and flesh of his flesh, a child of a common Father, surely is sufficient reason for our missionary enthusiasm.

HEALTH IN SPRING.

Nature Needs Assistance in Making New Health-Giving Blood.

Spring is the season when your system needs toning up. In the spring you must have new blood just as you must have new sap. Nature demands it. Without new blood you will feel weak and languid; you may have twinges of rheumatism or neuralgia, occasional headaches, variable appetite, pimples or eruptions of the skin, or a pale pasty complexion. These are sure signs that the blood is out of order. It is in need of a new energy. Dr. Williams' Pink Pills are the best tonic in all the world. They make new, rich blood—your greatest need in spring. They clear the skin, drive out disease and make tired depressed men and women bright, active and strong. Mrs. John McArthur, Denver, writes: "I have been the great value of Dr. Williams' Pink Pills in building up people who have been weakened and run down. She says: 'Dr. Williams' Pink Pills have been of great help to me. My blood was weak and watery and I was badly run down. But through the use of the pills my health was fully restored. I always recommend them to my friends who may be ailing.'

There are fraudulent imitations of Dr. Williams' Pink Pills, and to protect yourself see that the full name, 'Dr. Williams' Pink Pills for Pale People' is printed on the wrapper around each box. Do not take any other so-called pink pills. If your dealer has not got the genuine send to The Dr. Williams' Medicine Co., Brockville, Ont., and get the pills by mail at 50 cents a box or six boxes for \$2.50.

ADVERTISING IS BROAD.

Advertising in itself means publicity and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few. It is, rather, synonymous with a general, broadcast, declaration, and the broader the scope of the announcement, the better the advertising. No newspaper that directs attention along green and desired lines can be reasonably regarded as wasted; nor can any funds expended to this end be adjudged extravagant.—American Medical Journal

DYSPEPSIA.

Medical science doesn't seem to be able to cure it. One professor says one thing about it, another professor says another thing and all the time people keep on suffering terribly. Now what's the use of wasting words in arguing the matter? Why don't you get some Hetch tablets and try them? Take one after each meal. Plenty of people have cured themselves in this way, and that ought to be proof enough that it will cure you, too. It is an unusual medicine and does not equal things. It's a doctor for sent for \$1.00. One gives relief.
