

CANADIAN PACIFIC PUSH IN EUROPE

NEW YORK, July 24—A cable from Vienna says: The Canadian Pacific Railway has extended its activities to Austria. Besides arranging to run a regular service of observation cars in connection with the express the Vienna headquarters of the company has begun a service of automobile omnibuses for regular excursions in the neighborhood of Vienna. The observation car service will open on August 19th. Some seventy American and English journalists, managers of travel bureaus of London, Paris, Berlin, etc., and prominent railroad men, will, it is expected, part in the first tour, which will be from Vienna to Salzburg, Ischl and Trieste.

PROPAGATION OF DEGENERATES CRITICIZED

LIVERPOOL, July 24—Sir James Barr, the President of the British Medical Association, and a noted authority on various diseases in his annual address to that famous medical body here yesterday was plain spoken in his denunciation of the bringing into the world of a lot of children, regardless of the fitness of the parents.

Sir James expressed regret that physicians had often joined forces with self-constituted moralists in denouncing the falling birth-rates and calling for quantity in the matter of children, regardless of quality. Physical degenerates, he said, ought not to be allowed to add to the race. He knew that such a view would bring him into conflict with some Christian churches, which preached the doctrine of a high birth-rate regardless of consequence, boldly declaring it better to be born an imbecile than not to be born at all. They forget that saying of Jesus that it were well a certain man had never been born.

Sir James refused to act a part in the made morality of the Church. There must, he said, be a higher racial morality, based on utility and the greatest happiness, not merely of the individual, but of the race. If everybody considered his moral responsibility to the race, there might be produced within a few generations a pure moral and highly intellectual race.

FILCH \$120,000,000 THROUGH THREE MAILS

WASHINGTON, D. C., July 24—One hundred and twenty million dollars was filched from the American people in the last fiscal year by swindlers who operated largely through the United States mails, according to a statement just made in a formal report to the Postmaster General. This was an increase of approximately \$50,000,000 in the aggregate over the previous year.

Of those who are alleged to have operated fraudulent schemes, 1,003 were arrested by Post Office inspectors. They included persons in all walks of life, merchants and mechanics, politicians and professional men, paupers and wealthy persons.

During the year which ended June 30, 452 persons were convicted and sentenced and 571 cases are awaiting final disposition.

NEW DANGER FOR AVIATORS

MADRID, July 24—A cloud of locusts newly caused the death of Juan Mauvias, who was flying at the aerodrome at Bajo near Madrid. Owing to the mild winter and hot summer clouds of locusts have been devastating the environs of Madrid.

It was while flying at a height of sixty feet that Juan Mauvias drove his machine into a cloud of ABE insects which blinded him, and he fell to the ground. When the spectators rushed up to him they found he had a miraculous escape, being almost unharmed. His machine was wrecked.

KLONDIKE BODIES WELL PRESERVED

TACOMA, Wash., July 24—A Dawson cable says the removal of Klondike's first cemetery reveals that the bodies of Klondikers buried during the rush of twelve or fifteen years ago, are in a state of perfect, or almost perfect, preservation. They were buried when fever was carrying off Dawson's first inhabitants. The Klondike winters so froze the bodies that they have remained permanently chilled.

ANNOUNCEMENTS

One cent per word each insertion. Cash must accompany order and five per cent discount allowed. Minimum charge, twenty-five cents.

"Business is a shy jade. Woo her with the gentle and persuasive type-written letter, but for acceptance, see to it that it is written on one of my Remington's or Smith Premier's. Nothing's too good for her. A Milne Fraser, Halifax, N. S. 7-26M31.

"S. S. Harland will leave here for Victoria on Wednesday next at 5 a. m., returning same day due about 12 o'clock noon and will leave here again on Thursday at 2 p. m. as usual. This change is made on request of people of Victoria and Crapaud, in order to give them the opportunity of attending circus performances on Wednesday afternoon and evening. Fare from Victoria and return forty cents. 7-26M51.

THE LITTLE SHRINE IN MONTREAL

MONTREAL, July 24—Miraculous cures of no less than fifty cases of blindness, as many cases of other bodily afflictions, and temporal and spiritual favors dispensed to two hundred others are reported within the last few weeks at the little shrine at Cote des Neiges, behind the mountain, where Brother Andre, of the Holy Cross Order, lives in a humble dwelling that is beginning to rival the famous Ste. Anne de Beaupre. So far has spread the fame of the saintly brother and his wondrous miracles, that the members of the Order have decided on the erection of a new and greater church to accommodate the huge crowds that daily seek physical or spiritual healing at the shrine. In the summer months especially, the attendance at the little church is enormous, patients from all over the continent seeking the healing touch of Brother Andre.

SAYS CANADA WILL START BATTLESHIP WITHIN YEAR

LONDON, July 23—The Evening News, the Government organ says authoritatively that there is to be an acceleration of many months in the shipbuilding program. Four armored ships will be laid before next July and Canadian ships will be included in this earlier start.

Premier Borden and the other Canadian Ministers were in the "distinguished strangers' gallery" during Winston Churchill's naval speech. The Pall Mall Gazette to night says they were so silent but keenly attentive witnesses to the tremendous fact that Canada is about to lead the overseas Dominions in the giving of their young strength to support the Motherland in the great struggle that lies ahead for the maintenance of Imperial supremacy and the peace of the world.

WATCHED HIS CHILDREN ASPHYXIATING

CHICAGO, July 24—Crazed by overwork on an invention, and obsessed by the belief that his children were starving, Rudolph Uhlman locked them in a room at his home, turned on the gas and died with them. As the children's weaker constitutions succumbed to the deadly fumes the insane father chronicled their actions. Upon the return of Mrs. Uhlman, who had been sent away by a nurse, she found the bodies and the scribbled account of how the three died. Uhlman had just perfected his invention and had been offered \$5,000 for it, but his brain gave way, and despite the small fortune at hand, he believed himself a pauper.

HAD COMMERCIAL RESULTS

MONTREAL, July 23—The visit of the British manufacturers to Canada has borne immediately fruit as already one of the representatives has made an arrangement with the Port Arthur council for a factory site under certain conditions, which were satisfactory to both parties and in a very short time Arthur Ham, of Messrs. Ham and Baker, of Birmingham, will erect a factory there. James Rank, a big English miller, who also accompanied the party, submitted suggestions to the C. P. R. for a service of grain vessels between Canada and Hull, England, which are now being considered. At present Mr. Rank claimed, the grain for Hull is carried there from New York.

CHARLOTTETOWN AND ELSEWHERE

It pays to buy in this Province. Miss Bertha Wynne, Charlottetown, was a passenger east yesterday afternoon.

Subscribers and others are asked to remit by Money Order or by Registered Letter. The Guardian is not responsible for remittances forwarded other than as above.

In connection with the visit to Charlottetown of their Royal Highnesses, the Duke and Duchess of Connaught, the P. E. I. Railway, will issue tickets at special reduced rates, from all stations east of Summerside to Charlottetown on July 23, good to return on day of issue and the following day. The afternoon trains leaving Charlottetown on July 23 will leave for Souris and Georgetown at 4.50 p. m., instead of 3.20 p. m., and Murray Harbor train at 4.30 p. m. instead of 3.10 p. m.

There are over 3,000 links in the chain of Retail stores which extend throughout Canada and the United States. We are one of the links and carry a full line of the 346 Rexall preparations. The Rexall remedies are non-proven preparations which have proven curative qualities. The formula of each preparation is plainly printed on the label and each one is fully guaranteed—money back if dissatisfied. The McKinnon Drug Co., corner St. George and Kent Sts. ME4.

SASKATCHEWAN HARVEST EARLY

REGINA, Sask., July 24—The statistical branch of the Department of Agriculture has issued the following estimate of Saskatchewan's crop acreage:

This year the province has 9,184,814 acres under wheat, oats, barley and flax. This is an increase in the grain of 151,844 acres, or 2.90 per cent, over the total acreage sown in these grains last year.

The average under wheat in 5,384,092, an increase of 151,844 acres, or 2.90 per cent, over last year's wheat area. In wheat acreage Saskatchewan exceeds the rest of the Dominion by over half a million acres. Many factors contributed to keep down the wheat acreage this year. In the first place only about 15 per cent of the usual amount of fall ploughing was done. Then the spring was cold and wet and the land, noticeably that summer followed, was long in drying out. This delayed early seeding. The previous year's experience was again in the farmers' minds and the majority of the farmers stopped seeding to wheat earlier than usual.

The oats acreage shown an advance of 10.45 per cent. This year's acreage is 2,421,932, an increase of 229,426 acres over the crop of 1911. Oats have been on a gradual increase for some years.

WHAT THE FRENCH PRESS THINK

MONTREAL, July 23—Press says: The New York American said editorially yesterday: "There can be no war between England and Germany until Canada has produced a bumper crop of wheat, England having to look to Canada for her food supply. The opinion of financial men in America looks well founded enough. Thus is explained England's efforts to essential part in the Empire, how defer the inevitable war till a favorable hour. But since Canada pays so essential a part in the Empire, how can the fingers speak so persistently out of indebtedness? We can support a Canadian navy, but not Mr. Borden's sacrifice of the autonomy of Canada. The Gazette says: If Mr. Winston Churchill were a man of different type and in his public career had become noted for prudence of word and act rather than for striving for popular effect, his speech of yesterday in the House of Commons would be regarded as evidence that grave danger threatened the British Empire.

HISTORIC RELIC

TORONTO, July 23—The skeleton of a man probably one of the soldiers slain when York was attacked in the war of 1812, was unearthed by workmen engaged in excavating for a sewer at the eastern entrance to the exhibition grounds yesterday. The bones were those of a large man and were in a remarkable state of preservation. They were reinterred close to where they had lain for a hundred years.

SIX INJURED BY EXPLOSION

DETROIT, Mich., July 22—The premature explosion of a bomb during the fireworks displayed which inaugurated Detroit's Cadillac celebration tonight resulted in the injury of six persons, one of whom may die. The explosion occurred on Belle Isle, where a tremendous crowd had gathered to witness the first number of the week's program of festivities. Mrs. C. MacKnight, of Barberton, Ohio, was struck in the face by a portion of the bomb. One eye was torn out and her cheek bone was crushed. At the hospital her condition was reported serious.

TROLLEY CAR COLLISION

NEW YORK, July 22—Twelve persons were injured and many more bruised in the Bronx today when a dummy engine used by a contracting firm building the new subway named a Union Railroad trolley car at a crossing. Five of the injured were taken to hospitals in a serious condition, among them the flagman at the crossing. The force of the collision turned the trolley car completely around and threw the engine from the tracks. Several of the passengers, who saw the engine bearing down upon the car escaped by jumping.

Saturday Mrs. R. C. Williams moved out of the cottage on Salem street next to Dr. Sprague's and, after boarding a week with Mrs. C. Ford, will visit friends for a while in Prince Edward Island, and then proceed to Boston to rejoin her husband, who is manager of the Bank of Nova Scotia agency in that city.—Sackville Exc.

The services in Centenary Church yesterday were conducted by Rev. H. E. Thomas in the morning and Rev. G. F. Camp in the evening. Rev. Dr. Planders will there this week and Rev. Mr. Dawson will likely begin his pastorate in Centenary on next Sunday.—St. John Exc. The above mentioned gentlemen are well known in Charlottetown.

The Department of Agriculture is in receipt of the following communication from the College of Agriculture, of Illinois: Timothy and Clover seeds.—In some sections I think the timothy crop is about up to the average and there will likely be a fair supply of seed throughout the state. But the crop of clover seed will doubtless be very short, since most of the clover was winter killed and we have very little now aside from the new seedling.

Ex-Senator William R. McDonald of Cornwall, died yesterday morning at his home after an illness of two weeks. He was 71 years old. He was born in Nova Scotia and was the son of William McDonald and Margaret E. Clark. He came to Connecticut in 1869.

He opened a general grocery store in Cornwall in 1873, and has conducted it since. He held many town offices being at various times postmaster, auditor, justice of the peace, assessor and grand juror. He was chairman of the republican town committee for ten years, and a member of the state central committee. He was a member of the first commission for good roads appointed in this state. He was elected a representative to the State Legislature in 1899, and was a member of the House committee on roads, bridges and rivers. In 1902 he was elected to the Senate from the Twenty-second District, and became Senate chairman of the committee on roads, bridges and rivers. He was a thirty-second degree Mason, a member of Cyrene Com. mandery, Knights Templar of Middletown, of the Mystic Shrine, and of the Putnam Phalanx of Hartford. He was married twice, and leaves his second wife, and a sister in Canada. The funeral will be held at the Congregational Church, Cornwall, Wednesday afternoon at 2.30 o'clock. The Masonic ritual will be carried out.—Connecticut Exchange. (The deceased has a sister and brother in this province. The sister is Mrs. George Francis, Crapaud, and the brother Edward McDonald, Lot 14.)

It is safe to send the children to this drug store for anything you need in our line. They will get the same treatment and the same prices as you will get if you come yourself. Our business has been built up by square dealing and fair prices as much as by the sure fresh drugs we use, and the accuracy with which we fill prescriptions. The McKinnon Drug Co., corner St. George and Kent Sts.

Buntin, Bell & Co. for best coal lowest prices. 1-234d

TURKISH CABINET MAKES FOR PEACE

CONSTANTINOPLE, July 24—The new Turkish Cabinet under Moukhtar Pasha has started well in its policy of pacification. An attempt will be made to reconcile the army. The commission under Rechid Pasha has been instructed to proceed to Albania to negotiate with the rebellious tribesmen. The Minister of Justice has announced that the Government does not intend to dissolve the Chamber of Deputies, but intends to repeal illegal measures of the preceding Government. Among these are the law against public meetings and the press. The Grand Vizier announced today that while he does not wish to defy the army, he intends to be head of the Government.

A WINNING START

A Perfectly Digested Breakfast Makes Nerve Force for the Day. Everything goes wrong if the breakfast lies in your stomach like a mud pie. What you eat does harm if you can't digest it—it turns to poison. A bright lady teacher found this to be true, even of an ordinary light breakfast of eggs and toast. She says: "Two years ago I contracted a very annoying form of indigestion. My stomach was in such condition that a simple breakfast of fruit, toast and egg gave me great distress. "I was slow to believe that trouble could come from such a simple diet but finally had to give it up, and found a great change upon a cup of hot Postum and Grape-Nuts with cream, for my morning meal. For more than a year I have held to this course and have not suffered except when injudiciously varying my diet. "I have been a teacher for several years and find that my easily digested breakfast makes a saving of nervous force for the entire day. My gain of ten pounds in weight, also causes me to want to testify to the value of Grape-Nuts. "Grape-Nuts holds first rank at our table. Name given by Canadian Postum Co., Windsor, Ont. "There's a reason." Read the little book, "The Road to Wellville," in pkgs. Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

AN OUTING TO THE EXPERIMENTAL FARM

On Monday, the 15th inst., the members of Kinkora Farmers' Institute with their wives and families boarded a special train for the purpose of taking "a day off" at the Experimental Farm. By arrangement with the railway management the trip was extended to Southport, thus affording the excursionists an opportunity of seeing the Hillsborough and its splendid bridge. This feature of the outing was a very enjoyable prelude to a day of more than ordinary pleasure. On reaching the Farm, the genial Superintendent bade welcome to the party by throwing wide the gates and conducting the pleasure seekers to the delightful grove at the rear of the premises where under a canopy of maples tables were spread to accommodate the picnicers. An outline of the work done on the farm, and of the aims and objects of the institution was then given by Mr. Clarke, after which a visit to the nearby plots was indulged in by way of an appetizer for the spread which the ladies soon provided from their well stocked baskets. Mrs. Clarke was perhaps the most enthusiastic in her efforts to make the repast enjoyable providing the best brand of tea and coffee that skill could put out of hand. The lady visitors will not soon forget the genial attention of their hostess. She is a fitting companion for Mr. Clarke in the entertainment of visitors to the farm. Messrs. Ross and Williams were just

NATURAL GASS NOW IN CALGARY

CALGARY, July 18—Before a huge crowd that numbered around the 25,000 mark, that crowded on sidewalks for blocks around, overlaid on to the street and formed a black, crowding, jostling mass around the big six inch pipe that reared itself 40 feet in the air, Calgary's first 'big demonstration of the wonders of natural gas was given in East Calgary and was a success in every way. At 10 o'clock on Wednesday night, the demonstration was a most spectacular one. The natural gas had been piped to Calgary from Bow Island, a distance of 170 miles. The flare lit up the country for miles around, and the roar of the flame could be heard an equal distance. The gas was turned into the main at High River, 30 miles away, at 9.20, and 40 minutes later was burning in Calgary. The advent of the natural gas in this city for domestic and power purposes marks an epoch in Calgary's history.

TURKISH CABINET CELEBRATE ANNIVERSARY

CONSTANTINOPLE, July 23—The new Turkish cabinet under Moukhtar Pasha, the Grand Vizier, is celebrating the anniversary of the day when the constitution was written from Abdul Hamid, the former Sultan, by inaugurating a new policy in Albania. Orders were issued today to suspend all hostilities and the authorities were instructed to take every means of pacifying the rebel province. Two important dismissals of officials were announced today. Those of Shehab Edin Bey, the Commandant of Constantinople and of Edib Bey, Commandant General of Sanderarmine. In an interview today Edib Pasha, Minister of Justice, said that the Government did not contemplate dissolution of the Chamber, but intended to open all the illegal measures of the late Government, such as the law against public meetings and the press believed in the fullest liberty of speech. The Government has not yet had time to prepare this program, and the meeting of the Chamber may possibly be delayed.

INSOLENCE TO SUPERIORS

BERLIN, July 24—A novel point at the ethics of politeness has just been decided in a German court. A forester in a provincial town was in the habit of saluting the mayor with his left hand when riding past him on a bicycle on his way to work. The mayor on more than one occasion reprimanded the forester for what he termed insolence. The forester thereupon inserted an advertisement in the local journals to the following effect: "To avoid misunderstanding and unpleasantness I hereby make known that when driving a bicycle I can only guide the machine with the right hand, wherefore I am compelled to salute with the left." The Mayor rebuked the forester again and ordered him to withdraw the advertisement. The man then took the matter into court, as the mayor threatened to have him dismissed. The decision of the court was that the forester had laid himself open to the charge of insolence towards his superior; that the advertisement must be stopped and that the defendant must apologize to the mayor.

TRILLED VICTIM ACROSS CONTINENT

MONTREAL, July 24—According to the evidence at the inquest this morning into the death of Salvatore Vaccaro, who was killed on Monday night at the corner of St. Genevieve and Latour streets, the affair is one of the most cold blooded and revengeful murders on record. The murderer, another Italian, supposed to be Carlo Baptiste, is said to have followed his victim across the continent from Vancouver, making friends with him on his arrival in Montreal and boarding with him in the same house. Then after a week, when his victim had begun to trust him, he took him out for a walk, bought him some cigarettes, and on coming out of the Dominion in the giving of their young drew a revolver, and fired two shots, killing him instantly. The murderer then ran away, and what is most wonderful, although he is well known to the police, he has not been seen or heard of since.

in time for luncheon, and seemed to enjoy that part of the program just as much as the visitors enjoyed the splendid addresses afterwards delivered by these gentlemen on general agriculture.

After luncheon a general round of the farm was made by all with Mr. Clarke as guide and instructor on every detail of the work done at that great educational centre.

It is needless to say that much practical information was given and greatly appreciated by all. The possibilities of the small fruit industry on P. E. I. was clearly shown by the phenomenal results of the two years' work in this line on the farm—the bushes literally brought to ground by the loads of fruits of the finest quality weighing down their branches. No doubt now exists in the minds of Kinkora Institute members as to the advisability of at least trying their hand along these lines at home. The ornamental shrubs, the test plots, the rotations, the tile draining, the road-making, the splendid barn plans, the reclaiming of swamp land and the contrast between the neglect plots and the well tilled neighbor plots proved most interesting to all.

After a complete inspection of the splendid work done by Mr. Clarke all repaired to a restful shade on the well kept lawn in front of the farmhouse, where the party greeted several new visitors including M. D. Nicholson, M.P.; Messrs. McCready and Williams, Publicity Agents, Dr. W.J. McMillan and others. Speeches were then in order and the above named gentlemen indulged to the delight of all. Rev. J. J. MacDonald, the President of the Institute, closed this part of the program by an enthusiastic speech, at the close of which he paid a well deserved compliment to Mr. Clarke, and called for the thanks of the Institute for the treatment tendered.

There was a unanimous yes in response to the call, and after the vote was fittingly acknowledged, the Rev. President invited the party to a strawberry feast. Needless to say there was a unanimous response. The group was photographed by Mr. Clarke, and all went away from the farm greatly impressed with the splendid showing of what can be done on a poor farm on P. E. I. in the short course of two years. A visit to St. Dunstan's College and to St. Vincent's Orphanage brought to a close one of the greatest outings ever enjoyed by the people of Kinkora.

CASTORIA For Infants and Children. The Kind You Have Always Bought Bears the Signature of Dr. J. C. Hatcher. In Use For Over Thirty Years CASTORIA. THE CASTORIA COMPANY, NEW YORK CITY.

CIRCUS The Mighty Haag Charlottetown, Wednesday, July 31 Thursday, August 1. The musical Elephant Prodigus, little Baby Delhi only sacred white and ever born in Canada.

HIPPOTRAGUS EQUINUS. Positively the perfection of public pageants absolutely free. A procession possible only to the mightiest show on earth.
