

**CONGRATULATIONS  
TO  
WILLARD MACDONALD**

On The Completion of His Beautiful  
New Building.

IT IS A CREDIT TO THE TOWN

**R. T. MORRISON CO.**

Who did the Plumbing and Heating  
Installations for the whole Building.

**NEW AUTO SALES AND  
OFFICE BUILDING AT  
S'SIDE COMPLETED**

The most important addition to the business section of the town during the past year is the large brick and cement block building erected on First Street by Mr. Willard MacDonald for his garage and auto sales business. The second floor is used exclusively for offices and there are twelve rooms for this purpose. Mr. MacDonald is the Dodge and DeSoto dealer in Summerside and his building is an outstanding improvement to the business area of the town which is now pretty well filled up with little room left for new building. This is the first building in Summerside to be constructed of cement blocks. The blocks were manufactured in the cement block plant which was opened last year by Mr. J. Ernest Morrison and Mr. Morrison was in charge of construction of the building. The basement walls are of poured concrete approximately 8 1-2 feet high. The walls at the base are 18 inches thick sloping to a 12-inch wall at the top. On the first floor there is an office and parts department. The main garage is 61 by 45 feet.

The offices upstairs are modern in every way, and are surfaced with asphalt tile. The corridors are surfaced in rubber tile. The front of the building and the side walls running back 26 feet are brick veneered. The roof is of double hopper design which prevents accumulating rains from going over the edges. The concrete footings and the foundations were poured by County Construction Co. Ltd. and the floor design and Antio rubber floor tile were by Maritime Asphalt Products Ltd. The firm of R. T. Morrison Co. supplied and installed the heating and plumbing equipment and D. L. Clow and Son did the electrical wiring. Mr. Mark White was the painter on the job. M. F. Schurman Co. Ltd. supplied the lumber, windows and some paint. R. T. Holman Ltd. supplied and laid the roofing and the asphalt floor tile and supplied and erected all the interior finish and the cedar plywood.

Congratulations to  
**WILLARD MACDONALD**
