Your Money's Worth **D. A. Bruce** Or Your Money Back

SUMMERSIDE, ALBERTON AND PRINCE COUNTY

—It pays to buy in this Province.

—All news, advertising and subscriptions in Alberton and vicinity should be handed to H. Clark, Agent, 1-25drif.

—Miss Marie McLeod who has been training in the Baptist, New England Hospital, Roxbury, Mass, has returned on a visit to her parents, Judge and Mrs MacLeod, Summerside.

—The Kensington cheese factory is still making records as well as cheese. On Monday the 3rd inst. 54,034 pounds of milk were received, valued at \$550.

—Dan McKay formerly of the P. E. I. Railway, now Station Agent at Moosejaw, Sask, who has been visiting in Summerside for the past fortnight left yesterday morning for the west.

—The American yacht O-we-ra arrived from Summerside and Labrador yesterday morning, where she had been cruising with Senator Aldrich and party. She sailed immediately for Newport.—Halifax Ex.

—All advertising in Summerside and vicinity for The Morning Daily and Rural Daily, as well as all new renewal subscriptions, should be handed to Miss Amy G. Burrows, agent, Summer Street. 7-4drft.

Last week during the storm a bolt of lightning struck the fence around the residence of Arthur Holroyd at Winsloe, running along it and ripping it up. It struck a litter of pigs and the mother which were lying by the fence, killing them all.—Exc.

—On Monday next Ernest McQuarrie will become representative of The Guardian at Summerside, succeeding J. Lafferty, whose other business duties prevent his doing much time to the work as he desires. The Guardian management speaks for Mr. McQuarrie the confidence of its exceedingly large list of patrons.

—The new creamery at St. Louis is now running full blast. The receipts Monday amounted to 3,500 pounds of cream. The system adopted at this creamery is to have the cream separated at home, where it is weighed and samples taken. The cream only is taken to the factory and the new skim milk is thus available at home, fresh and suitable for feeding. The system is working splendidly and is giving entire satisfaction.

—On Monday last, July 10th, a very heavy call on Rev. G. A. Sutherland, M.A., of Sunny Brae, Pictou Co., was prepared by the congregation of Kensington and New London North. It is the earnest hope of this large congregation that Mr. Sutherland may see his way clear to accept. He is Clerk of the Presbytery of Pictou, and a prominent member of the Foreign Mission Board, and will be a decided acquisition to the P. E. Island Presbytery.

—The races at Mystic Park, Elmsdale, last Saturday, well attended, the weather all that could be desired and the proceedings throughout orderly and well arranged. The summaries are as follows: * Green Race—Wait-a-bit, Princeton, Harry O'Brien, 2 1/2 1 1/2; Elmsdale Boy, Parkside, Basil Rennie, 1 2 1 2 2; Shrub, Parkside, Jas O'Brien, 3 3; 2.30 Time 1.15, 1.15, 1.14, 1.16, 1.17 2.40 Trot—Breezy Jane, Parkside, Dan Steele, 1 1 1; Mazie, Brazilian, A. D. O'Brien, 1 2 2; This race was not finished, best time 1.15, 2.40 Pace—Hamilton Belle, Brazilian, Joseph Ramsey, 1 1; Briar Wood, Dan Steele, Race not finished, best time 1.14.—Summerside. Exc.

—Fox ranching is now one of the standard industries of P. E. Island. For a number of years the business had been carried on quietly and those engaged in it grew rich, some of them fabulously so. The secret of their good fortune gradually leaked out and, gradually also, the number of ranches increased. Within the past year or two there has been a decided run into the business and today there are more fox ranches in the province, especially in Prince County, than any reputable newspaper would care to name definitely. It requires some capital to start the business, five thousand dollars being the average price of a pair of black foxes, silver greys three thousand and reds about any where from a hundred to fifty dollars. If the fur business keeps up we shall shortly be a nation of millionaires.—Summerside Exc.

—The following are the entries for the races at Tunnel Track, Cape Traverse, Wednesday, July 19th, 1911.

GREAT LAKE STEAMER ONWAY FROM ENGLAND

TORONTO, July 8—A brand new steamer, carrying a certificate allowing it to trade anywhere in the world is now on its way from Middlesbrough, England, to Toronto, with a load of scoria blocks. It was built in England by the Sunderland Shipping Company, Limited, for the Matthews Steamship Company of Toronto, and is designed especially for service on the great lakes.

The steamer, which has been named Yorkton, is 250 feet over all, and 42 feet 6 inches beam.

The Yorkton is a single deck type with raised poop and house on top, the highest class at Lloyds's and British Corporation under special surveys for great lakes and ocean service. She is built to carry a large dead-weight on a very light draft of water. A complete installation of electric light is fitted throughout the out are of steel.

On the steamer's trial on the other side everything worked in a satisfactory manner, a mean speed of 13 miles an hour being obtained. J. T. Matthews was present on the trial trip. She will dock at the company's wharf at the foot of Jarvis street.

"Washable dresses, dress gingham, waists, wash goods, children's hoods and all ladies hats at PATONS Friday and Saturday. 7-12dr3

MARRIED.

RILEY-ANDERSON—At Calgary, Alberta, on July 1st, 1911, by Rev. T. J. Bennett, Ph. B., William Frederick Riley of High River, Alberta, to Jeanette May Anderson of Darnley, P. E. Island.

Dr. Morse's Indian Root Pills

owe their singular effectiveness in curing Rheumatism, Lumbago and Sciatic to their power of stimulating and strengthening the kidneys. They enable these organs to thoroughly filter from the blood the uric acid (the product of waste matter) which gets into the joints and muscles and causes these painful diseases. Over half a century of constant use has proved conclusively that Dr. Morse's Indian Root Pills strengthen weak kidneys and

Cure Rheumatism

"Be sure to visit Paton's big millinery sale and get some of the rare bargains. A sale extraordinary. 150 ladies' trimmed hats to go at 1 price at Paton's millinery department. 7-12drf.

IF YOU INTEND TO BUY A NEW STOVE

you will naturally be anxious to select wisely and make no mistake. The safest way is to inspect personally the merits of the different stoves offered and buy the one that appeals to you as the best.

To this end, we are inviting intending buyers to visit one of our agencies and look carefully over.

THE ENTERPRISE MONARCH STEEL RANGE

This range has the fine appearance and labour saving features that will attract at first, as well as the lasting qualities that will hold and endure through years of constant use. It will not mean a bill of expense for repair.

An illustrated circular describing the MONARCH sent on application, if your dealer does not show the range on his floor.

the same kind George wore."

Kirby has not been found here, although Bridgport was his destination, and it is feared he may be one of the two dead men still unidentified. The other is a negro, whose ticket read from Philadelphia to Boston, and whose trunk was checked from Westchester, Pa.

On May 6th, 1893, there was a wreck at South Norwalk, Conn, in which forty-four lives were lost. Since then until today the New Haven railroad line has been singularly free from disasters.

"Automatic signals protected the 'cross over' which the express had to take here to enable it to make the stop at the local station, and the rest of the line prescribed a speed at this point of not more than fifteen miles an hour. Stories that the engineer was a new man not accustomed to a train of such importance, and that the towerman was not at his post, were denied by the company in official statements. The fact remains, however, that when the express started across the trestle where nearly sixty miles an hour, when it struck the 'cross over' the engine leaped the rails, dragging all but three of its cars along.

The towerman says that when Curtis's locomotive whizzed by steam had been shut off and the brakes were grinding on sand. He believes the engineer realized his mistake and was trying to slow down, although too late.

In a statement issued by Vice-President Horn of the New York-New Haven and Hartford Railway company, this evening, the assertion was made that Engineer Curtis disregarded both the distance and the home signals and confirmation is given of the earlier official statement to the effect that the federal express was running at the cross-over at a rate of about sixty miles an hour when the running card called for only fifteen.

Mr Horn says that the engineer had previously once run the federal express, and was a man who was familiar with the operation of the line from general experience. Mr Horn adds that there is no way of accounting for the error made by the engineer.

WOMEN'S HIGH-GRADE LINEN COATS in natural colors, also, repp trimmed with black and chantung silk trimmed with dresden silk made in the latest style, at Paton's. 7-12drf.

ANONCUMENTS

**See ad in this issue re professional examinations of the Medical Council.

**No. 7 Battery detachment for Petawawa will meet for drill this evening at 7.30 p. m.

**Reserve Thursday the 13th for St. Paul's Sunday picnic to be held at Murray River. 7-5drf.
