MARQUIS COLLECTS PARROTS

The Marquis of Tavistock, England has found that society life is not so interesting as collecting parrots, and has given up society. He is said to own the world's greatest collection of birds. Collectors in all parts of the world are sending specimens to his great aviaries at Warlington, Havant. Some of the parrots are nearly 100 years old, and one of his choicest treasures is a Lutino blue-fronted Amazon, which is regarded as a freak of nature. Its body is a rich golden yellow, while it has a white forehead and red and white wings.

He said this year's pilgrimage proved one of the most successful ever held from New Brunswick and Prince Edward Island. ISLAND POTATO CROP—For the time of the year the potato crop is far in advance of any season of the past, Mr. J. W. Boulter, Deputy Minister of Agriculture, and Secretary of the P.E.I. Potato Growers' Association, reports. The maturing of the crop will, however, be governed by seasonal conditions. There is a slight increase in acreage over that of last year, but the increase is entirely for potatoes entered for certification. 25,000 acres were entered this year as compared with 22,000 acres last year. This would place the total acreage for the Island at 45,000 acres. 14,000 acres of Irish Cobblers between 7,000 and 8,000 acres of Green Mountains, about 300 acres of Spaulding Rose, and some Bliss Triumph, have been entered for certified seed. The crop in southern United States has already been harvested, while the New Jersey crop is being dug at the present time.

Taunton And Charlottetown In Double-Header

Abegweits Confident Of Giving Yankees Tough Battles This Afternoon And Evening.

Charlottetown, hungry as it has been for outside ball clubs to come over the straits for a melee with a picked team from this city, is to have its wish gratified today, in the arrival of the Taunton team from the old Bay State of Massachusetts.

Taunton is not a mediocre team by any means, as their games with Halifax, Springhill and Cape Breton teams have demonstrated. They have batting strength, fielding ease and strategy abetted by three or four seasoned twirlers.

The Abegweits in opposition, have the dearly bought experience from their losing series with Yarmouth last autumn, and can count on the services of one more good pitcher in Gus MacDonald, than they had twelve months ago.

Prominent in a slightly reconstructed infield the city team has Freddy Whelan, as sweet on ground balls as any player who has played around the inner defences in Char-

HON. JOHN A. MACDONALD, CONSERVATIVE CANDIDATE FOR KINGS

In the last two Parliaments the Hon. John A. MacDonald was known at Ottawa as "The member for Prince Edward Island." What this implied was that he was the only personality from the Province that impressed itself upon the House. He is held in the highest esteem and greatly respected on both sides of the House. It was no surprise in Ottawa when Mr. Meighen included Mr. MacDonald in his Government, as he was one of the outstanding men from the Maritime Provinces then at Ottawa. Mr. MacDonald, never-the-less, is of a retiring disposition. He is not a self-advertiser, and prefers to pursue his even terms, working for his constituency, province and county, steadily, regularly and unostentatiously. He has been in politics since the days of his youth, and was one of the stalwarts that represented King's County in the Provincial arena along with such political giants as the Hon. J. A. Mathieson and the Hon. John MacLean. He has been in opposition and in the government in both the local legislature and in the Dominion House. In business he is a merchant at Cardigan, known well and widely locally and wherever farm produce is in demand. His word is as good as his bond, he being known in local politics as "John A., the promise keeper."

Baseball In The Maritimes

HALIFAX, N.S., July 21.—(By W. J. Foley, Canadian Press Sports Writer)—For the past three seasons the Maritime amateur baseball championship has reposed in Nova Scotia. In 1927 and 28 the hard hitting Springhill miners copied the honors and last season Yarmouth emerged victorious after a series of upsets that made a good baseball season exciting.

This season finds Yarmouth with their championship line intact and playing the kind of ball they produced in the last few weeks of the 1929 campaign, when they were winning playdown and playoff games.

Springhill, out of the Nova Scotia finals last season for the first season since the war, will be very much in the picture this season. Meanwhile Saint Agnes, of Halifax, who eliminated the highly favored Cumberland County miners last season, are at the top of the Halifax Twilight League again and at the writing appear to be the likely team to play Springhill in the first important playdown year.

Liverpool will likely represent the South Shore, but nothing much in the way of championship material is expected from this source.

Down Cape Breton way the Dominion Hawks are setting a pace that should put them in the Nova Scotia playdowns with plenty to spare. To date the Hawks have won seven games against no defeats. Westville, a former title contender, have a strong team this season and may figure in the Provincial finals.

Senior baseball in New Brunswick seems to be on the downgrade, although Moncton may be a strong contender. Prince Edward Island players made a fine bid for Maritime honors last season, the best bid since the war, and may cause some excitement before they are eliminated, as they are expected to be.

Baseball men around these parts seem to think that either Yarmouth or Springhill will play Moncton in the Maritime baseball finals this year.

RECORD MONTH FOR PREVENTIVE SERVICE

The Preventive Service, says the National Revenue Review, experienced one of its busiest months on record in May, 1930, when Customs-Excise seizures reported reached the high mark of 462. Of these 359 were Customs and 103 Excise. In May, 1929, seizures totalled 329; Customs 218, Excise 111. Ontario led the other provinces with 162 seizures, and Nova Scotia came next with 76. In the remaining provinces seizures for May were:—

Prince Edward Island, Customs 11, Excise 1; New Brunswick, Customs, 3, Excise 3; Quebec, Customs 45, Excise 22; Headquarters (Ottawa) Customs 17, Excise 1; Manitoba, Customs 16, Excise 8; Saskatchewan, Customs 6, Excise 30; Alberta, Customs 12, Excise 13; British Columbia, Customs 36, Excise nil.

CANE ALCOHOL CAR FUEL

Cane alcohol has been used with some success in Brazil as a substitute for gasoline, the price of which increased 20 per cent last year. Tests have shown that the alcohol is the cheaper fuel at present prices but admitted objections to its use are gumming of valves and cylinders, "knocking," smoke, viscosity and the high ignition point. Much interest has been shown lately in an alcohol mixture which eliminates these features at a slight additional cost per gallon.
