—On Wednesday evening, Sept. 4th, the home of John A. and Mrs. Murray, St. Eleanor's, was the scene of a very happy event when their eldest daughter Annie May, was united in marriage to Willard Allan MacDowell, formerly of Summerside; by Rev. C. Brooks Voorhes, of Montague, P. E. I. in the presence of a large circle of immediate relatives. The bride who was attired in white, being unattended, entered the parlor leaning on the arm of her father, while the wedding march was being played by Mrs. A. W. McDowell of Summerside. After the ceremony was performed a sumptuous repast was served. The presents which were numerous and costly gave good evidence of the high esteem in which the young couple were held. The happy couple left the following morning amid showers of rice and good wishes for their future home in Portland, Maine.

50,000,000 FOR ADVERTISING

James B. Duke, the tobacco king of Long Branch, New Jersey, recently claimed in an interview that he had spent more money in advertising than any other living man. He said that the figures would reach fifty million dollars. --Newspaper item.

Y. T. James B. Duke is to-day one of the wealthiest men in the world. When you see a liberal advertiser you see a rich man. The business man who in this age of advertisement is afraid to invest his money in publicity will never accumulate a fortune.

Our Big Discount Sale

Has been so extraordinary successful, during the past 10 days, that many lines have been sold down so low that we have decided to continue the same extraordinary discounts for 10 days longer in order to entirely close out the hundreds of remnants and odd lines left over from such immense selling.

Never before have we experienced such a brisk demand for dress fabrics, and the fact that the goods are good, clean, seasonable and up-to-date--although many pieces are selling at 1-2 price, others at 1-3 off--is too rare an opportunity to let slip.

A great many people have taken advantage of the extremely low prices to procure an extra dress length or two for early fall wear, as well as to procure school dresses, waists etc., for the girls

Thousands of yards of silk have also gone out, everyone being satisfied that the goods were fine, and the discounts genuine.

The same discounts will be continued for ten days longer on all lines mentioned in former adv., and we would advise everyone to investigate and see if there is not here a first class opportunity to save money. New goods are rushing in as fast as we can get them opened and we need the shelf room for them.

New dress goods, new fall jackets, new furs, new millinery, new millinery trimmings--in fact new goods in every department. Call and see the newest things and while in see the many bargains we are offering.

Our pattern dept., has had a phenomenal growth, everyone wanting the patterns as the best as well as the cheapest they have ever used. Each month we find it necessary to increase our order for New Idea Magazine in order to supply the immense demand for them. They are brimful of interesting and instructive matter on household topics of all kinds, as well as having the latest word in regard to correct styles in dress. Only 7 cents each over the counter. All patterns only 10c each. When to be sent by mail postage should be added.

Remember our big discount Sale will be continued for 10 days longer and that there are real genuine bargains in every department.

Times Like These

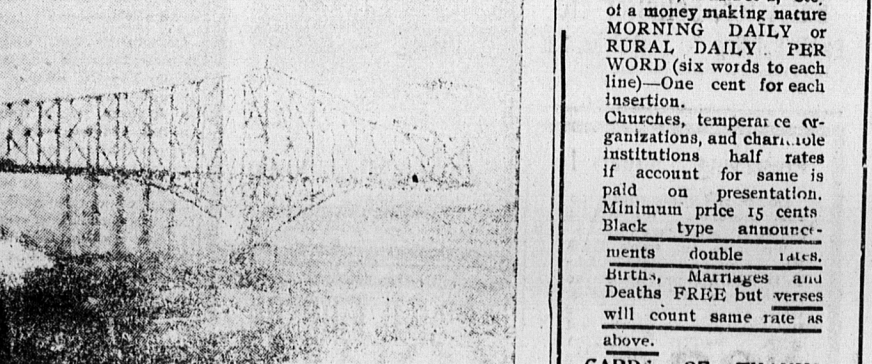

Everybody appears anxious to make a dollar do full duty, by purchasing one hundred cents worth of goods and from the patronage we are receiving it is evident many have found out the way to do it.

This is the place--we are not so modest as not to own it--we undersell the market nine times out of ten, and the tenth time we give a better article for the same price--

Because we sell for cash only, and are therefore in a position to buy for cash only-- That's the reason we can give you a Crown Derby pattern dinner set 116 pieces for \$25.00.

Here was a time--not so long ago either--that you would have been asked 50 per cent more for this same set--

QUEBEC BRIDGE--SOUTHERN EXTENSION. It was the southern extension of the bridge which collapsed, and this was rapidly nearing the zenith of the immense steel arch which was to span the river. For eight hundred feet from the shore the massive structure reared its arch, with no supports but the piers from the shore, and one pier stood in the river, while the outward extremity was 180 feet above the water.
