Gives Report On Red Cross Annual Meeting

The following report of the annual meeting of the Central Council of the Canadian Red Cross Society which took place at Toronto on Thursday and Friday of last week was a source of inspiration to anyone attending for the first time and in the opinion of members from Saskatchewan, Nova Scotia and Ontario were stated to be the most successful annual meetings ever held from a standpoint of only of accomplishment disclosed by the reports by reason of the spirit of cooperation and unity existing among representatives from all provinces and from the Atlantic to the Pacific.

Among the Red Cross workers attending were Colonel A. M. Brown, Mr. G. C. Darby, Commissioner in Charge, Newfoundland, Miss Jean Brown, National Director Junior Red Cross and Miss Shaw, Director Junior Red Cross for Quebec were in attendance at all sessions. The Hon. Norman Sommerville, K. C., Toronto, Chairman of the National Society presided at all sessions. Mr. R. Routley, Ontario Commissioner, presided at the National Commissioner, Dr. Biggar, whose continued ill health did not permit his attending. As Dr. Biggar has been looked upon as the father of Canadian Red Cross workers for the past number of years, keen expressions of regret were heard on all sides concerning his absence. The first session special resolution regarding his absence was sent to his house accompanied by a suitable bouquet of flowers. Other members attending the sessions included Mrs. H. P. Plumtree of Toronto, Colonel Cooper, Mr. McLaughlin and Mr. Smith, all of Toronto, and Mr. Gunther Bradford, Chairman of the Ontario division.

Chat Body of Hours

By James W. Barton, M.D.

THE GERIATRICIAN—PHYSICIAN FOR THE AGED

There was a time when the family physician—the general practitioner—looked after the health of the whole family from birth till death. Then came the child specialists with his advanced knowledge of how to care for these tiny tots especially how best to feed them. He was able to prescribe a diet most suitable for the digestion of each individual case, and thousands of babies are thus saved every year.

Summer diarrhoea is now not the terrible scourge of just a few years ago. Instead of 3 babies of every 10 dying at birth or during the first year, the records show just 1 in 20.

It is the saving of the lives of children that has prolonged man's life span from about 30 years to 50 years within a period of about 50 years. However it was found at the beginning of the century that after the age of 50 to 55 the chances of living to old age were not any better than they were 100 years ago. This meant that many men were passing away whose lives were worth much to the community.

Accordingly, just as the health of babies was receiving special attention, so special attention began to be given that the results of this care, we have pediatricians (child curers or physicians) so now there are geriatricians (old age curers or physicians).

A recent editorial in the Journal of the American Medical Association shows not only the thought that is being given to the care of the aged, but gives some startling facts about the results of this care. Between 1900 and 1930 there was an increase of 52 percent in the actual numbers of those 60 years of age and over, compared with an increase of only 38 percent of the total population.

Quoting from Dr. Alfred Worcester's book "The Care of the Aged, the Dying and the Dead," the editorial continues:

"The relief and comfort of our aged patients should be our aim rather than the prolongation of their lives, yet the relief and comfort given to an aged patient often prolongs life by restoring the will to live and the desire to live."

Among the facts that the experienced geriatricians teach us if we wish to prolong our lives are:

1. Cut down on foods and liquids, but make sure of an all round diet.
2. Get plenty of rest but some exercise should be taken daily.
3. The bowels should be kept regular by some mild laxative suitable to each individual case.

Special Appeal

The special appeal undertaken last winter at the suggestion of the Dominion Government for the relief of the sufferers from successive droughts in the Prairie provinces was closed in March of 1937. Altogether contributions of goods and money totalled \$350,000. Bedding and clothing were supplied to approximately 40,000 families.

The terrible floods in the Ohio and Mississippi Valleys which occurred in February of 1937 resulted in an unexpected number of contributions of sympathy for the victims of that disaster and because of the close associations and friendliness of the Canadian people towards their neighbors to the south contributions to the Canadian Red Cross to be transferred to the American Red Cross for that purpose amounted to nearly \$30,000 and approximately \$13,000 was sent by individual Canadian contributors directly to the American Red Cross.

Upon the written request of the International Red Cross in Geneva a national wide appeal was launched through the medium of the churches and service organizations for funds for the relief of Chinese war sufferers, and up to the present time receipts have totalled upwards of \$52,000.

Other Red Cross Activities

Other Red Cross activities include the organization of seven Highway First Aid Posts in Ontario and British Columbia making a total of thirty-four now in operation; instruction of women and girls in the care of the sick and the hygiene of the home by means of the Home Visiting House-keeper service cared for 841 families which included 2,782 children; the organization of a Home-keeper service at the disposal of the Red Cross in time of emergency, thus making available a network of communication for any emergency which may arise.

Suitable references are expressed of sympathy were made to the passing of former Red Cross workers throughout the Dominion, including Mrs. Katherine McLean, former Commissioner for the Province of Quebec, and the late John McKenna who had been an active worker in the New Brunswick Island for a number of years.

FRANCISCA GAAL
tonight's guest with
AL JOLSON

HOLLYWOOD, April 12—Winsome, pliant, a Cecil B. DeMille "find" from Hungary, Francisca Gaal will bandy words with Al Jolson tonight on the Lifebuoy radio program. Joyous Martha Raye, rummy-named Parkyarkarkus and Victor Young and his orchestra will be there too.

CFGY—9.30 P.M.

"Hollywood Hotel" Based On Hit Radio Programme At Prince Edward

The most lavish and spectacular musical comedy of the 1938 season, "Hollywood Hotel," a Warner Bros. production starring Dick Powell and featuring a score of so-called other songs and funmakers, which opened yesterday at the Prince Edward Theatre.

It is based upon the famous radio program carrying the same name, which has been followed by airfans during the past three years. But the film has a well-knit story to serve as the dramatic structure. The film story shows Powell as an obscure crooner who comes to Hollywood looking for a break, and gets involved in no end of unfortunate and humorous complications before he even gets started on his career.

Dick sings half a dozen new hit songs by the clever composing team of Whiting and Mercer, and there is plenty of other music by Benny Goodman and his famous swing band, and Raymond Paige's well-known orchestra.

Those clever sisters, Lola and Rosemary Lane, have the leading female roles with Rosemary as Dick's romantic interest and Lola as a highly temperamental movie star.

Other notable in the cast include Hugh Herbert, Ted Healy, Glenna Farrell, Mabel Todd, Alan Mowbray, Alyn Joslyn, Edgar Kennedy, Frances Langford and J. L. H. "Scat" Davis. The screenplay was by Jerry Wald, Maurice Leo and Richard Macaulay.

Louella Parsons, famous drama critic and originator of the "Hollywood Hotel" air show, plays herself in the picture.

It's a grand show, with plenty of music, romance and laughter, with all the added thrill of getting the inside lowdown on how a big air w'l "love "Hollywood Hotel!"

Junior Work In Aid

Particular reference was made to the extension of the Junior Red Cross in Newfoundland, and the work in that colony having been instituted in 1937. It was pointed out that the rapidity under the able leadership of Mr. Lloyd W. Shaw, now Minister of Education in that colony, Mr. Shaw having prior to his going to Newfoundland been a part-time worker in the Prince Edward Island Division where he had been able to observe the benefits to be derived from the Junior Red Cross organization. Mrs. Katherine McLean who had performed such satisfactory work in the development of Junior Red Cross in Prince Edward Island and later in Newfoundland had spent a couple of months in Newfoundland at Mr. Shaw's suggestion in order to develop the organization of Junior Red Cross there and the results have been entirely satisfactory.

Special references were made to the fine work performed by Miss McLean in Prince Edward Island, New Brunswick, and Newfoundland. Mr. Holt, an ardent supporter of Junior Red Cross work, moved a resolution which was unanimously adopted that Junior Red Cross workers should be asked either to attend the next meeting of Central Council, or that a special meeting of Junior Red Cross workers be held at some central point next year in order that there might be a complete exchange of experiences and ideas upon the important subject of awards in recognition of "Outstanding Voluntary Service" and special regulations to be made applicable to all provinces were passed unanimously after due discussion.

The subject of accounting for funds collected for national undertakings where appeals are made by

Report of National Commissioner

The report of the National Commissioner was presented by Dr. Routley and stated that in spite of the fact that during the past few years the Canadian Red Cross had suffered a grievous economic blow that the Red Cross had grown substantially stronger and had become much better integrated into the life of the public and with government authorities has become more firmly established, and it has become increasingly successful in managing its activities in the improvement of the health and welfare of the people. There had been an extension in nearly all of the Red Cross undertakings in Canada, the number of out-patient hospitals being increased by forty-two last year, the additional hospital's being established in British Columbia, Saskatchewan and Ontario. In the province of Saskatchewan where the need has been greatest there has been a total outlay of approximately \$120,000 for nearly five thousand cases where nursing care and medical attention has been essential in cases of dire necessity.

During 1937 the Red Cross in Canada was called upon to deal with its first disaster in sixteen years. An unseasonable week of several damaged. The London branch of the Society met the situation admirably and due to proper foresight there was no loss of life. Small boats were brought from neighboring summer resorts and emergency preparations had been made for the care of 5,000 homeless victims. The actual number

PROTEST ANY REDUCTION ON TARIFFS

WASHINGTON, April 8—(AP)—Representatives of the livestock industry protested today against any reduction in tariffs on meat products in the renewal of the United States reciprocal trade agreement with Canada.

Glen T. Stebbins of the United States Livestock Association Kansas City, Mo., said the industry wanted the duty on pork products increased.

He told the committee for reciprocity information "a price structure invites foreign imports. If there is a further reduction in tariff, the United States offers foreign competitors further inducement to increase their production."

He recommended no additional lowering in rates which were reduced in the previous Canadian agreement.

Representative Lemke (Rep-North Dakota) appealed for "protection for our producers," declaring, "I can't find a single can of corn beef that is packed with United States meat by United States labor."

News Briefs
From P. W. C.

By CHARLES E. MACARTHUR

We are very pleased to see Douglas Saunders, first year student, back in college again after having the misfortune of sustaining a broken ankle.

Congratulations are extended to the P.W.C. Co-Eds basketball team who have played a five game series with the Y. Demons without the loss of a single game.

The S. C. M. held their annual banquet at the Y.M.C.A. last evening.

Section A of the Second Year Class held a banquet in the Blue Room on Saturday evening at the restaurant last night. The evening was whittled away by dancing, games and music.

Much progress has been made in the Second Year Study Group under the capable supervision of Prof. J. P. MacMillan. Such topics as co-operative credit unions, etc., have been carefully discussed.

The regular Sunday evening service sponsored by S. C. M. of the Water College was held in the Baptist Church on April 10th. Miss Catherine Bagnall presided for the occasion. The subject of the evening was a dramatic play entitled "The Terrible Meek" given by Miss Catherine Hockin, secretary of the Maritime Students Christian Movement. The audience at home greeted with a solo by Arthur Hestez.

The last boxing class of the college year under the supervision of Prof. Wm. A. Beckett was held in the college auditorium on Saturday afternoon, April 9th. The students wish to express their appreciation to Prof. Beckett for his untiring efforts on their behalf.

A meeting of the S. C. M. Study Group was held at 24 Upper Hill on Saturday, April 9th. Miss Catherine Hockin, Maritime S. C. M. Secretary was the special speaker for the evening.

BEACH POINT SCHOOL
Honor Roll of the Beach Point School for the month of March.

Junior Department

Grade VI, Jr.—1, Annie Harris and Sylvia MacNeil, equal; 2, Lester MacNeil; 3, Inez Keeping.

Grade IV, Sr.—1, Edith Baker; 2, Reginald Osborne; 3, Sheldon Hume.

Grade IV, Jr.—1, Floyd Strickland; 2, George Penny; 3, Axel Irving.

Grade III.—1, Eliza Baker; 2, Claude Jackson; 3, Ruth Gosbee.

Grade II, Sr.—1, Eva Williams; 2, Ada Jordan.

Grade II, Jr.—1, Mona Strickland; 2, Bert Harris.

Perfect attendance—Sylvia MacNeil, Anna Harris, Inez Keeping, Sheldon Hume, Claude Jackson, Reginald Osborne, Floyd Strickland, Axel Irving.

Archibald Johnston—Principal.
Minnie Harris—Assistant.

DECREASE IN RAILWAY REVENUES

MONTREAL, Que., April 11—The gross revenues of the all-inclusive Canadian National Railway system for the week ending April 7, 1938 were \$3,180,816 as compared with \$3,962,443 for the corresponding period of 1937 a decrease of \$781,627.

WAKE UP YOUR LIVER BILE

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A more bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes away the cause of the bile flowing freely and make you feel "up-and-up". Harmless and gentle, they take the bile flow freely. They do the work of calcium but have no calcium or mercury in them. Ask for Carter's Little Liver Pills by name. Ask for Carter's Little Liver Pills by name. Ask for Carter's Little Liver Pills by name. Ask for Carter's Little Liver Pills by name.

In Memoriam

STEPHEN F. GALLANT

On the morning of March 2nd, 1938, Stephen F. Gallant passed away at his home in Carleton, Lot 6 aged 57 years, after an illness of some weeks. During his illness he was visited by his pastor, Rev. J. A. Gaudet, who administered to him the last rites of the Roman Catholic Church of which he was a devoted member. He leaves to mourn and cherish his memory a sorrowing widow, nee Margaret Buote, three sons and three daughters, namely James, Basil, Leonard and Robert. He is survived by Mrs. Fred Gallant of Carleton and Hilda, Mrs. Earle Hamill of Seven Mile Bay; also three sisters Obeline of Durrar; Mrs. Joseph J. Peters of Kelvin and Mrs. Percy Benson of Portland, Maine, U. S. A.

The funeral took place on March 4th to St. Anthony's Church where Requiem Mass was celebrated by Rev. J. A. Gaudet, after which the remains were laid to rest in the adjoining cemetery. There to await glorious resurrection. The pall bearers were Dominic Arsenault, Andrew Arsenault, Dams Arsenault, Frank D. Arsenault, Joseph Blanchard and Gabriel Arsenault.

May his soul rest in peace.

BABY WON'T BE SUNNY JIM UNLESS HE FEELS TIPTOP

Baby's physical care is, of course in the hands of his mother or nurse and his doctor, but his health and comfort bear so directly on disposition that perhaps we may go over a few general points together.

No baby is really sunny and sweet if he does not feel well. No baby will be "good" if his stomach is upset. It is a grand idea to know that a child is hungry when he knows who is being fed regular meals of high quality milk and the full quota of permitted ration. This is because his digestion may be slow in assuming his responsibilities. Some infants cannot assimilate much of anything at first.

Fortunately, modern babies do well on the diets modern doctors prescribe. But even so, it continues to be a matter for deep study.

So, no matter how healthy your little one is, do have professional backing when it comes to food. See the doctor and ask questions. It is a grand idea to know that you are on the right track, if nothing more.

It is now almost a universal custom to have the new baby checked frequently, depending on his condition. It is a good idea about a list of questions about the things you want to know, such as enlarging or changing formulas and adding extra to baby's diet. And have another report ready for his information—weight-gain (it should be steady); the precise food formula you are using; the doses of cod-liver oil; all about his sunbaths and everything there is to discuss. It will save time to have it down in notes, and will help the doctor make changes he thinks best.

It is also a good idea for the inexperienced mother who knows little about "handling" a baby, to have a Victorian Order Nurse in for half a day, or a more experienced friend, to show her the tricks of easy babying, explain about oil suits, method of keeping food containers boiled, ways of insuring against germs; how to keep baby's bed smooth and dry, with easy changes of pads; how to dress him for the weather and how to pin a diaper nicely so it won't lump or slide. If an adviser is out of the question, it is possible to go to a class on baby care held at public clinics.

It is so complicated, but actually the right start is practical and very worth while, because a comfortable child is a happy one, usually, and his sunniness has much to do with his attitude towards people, and theirs towards him, as well.

Dry, Hacking Coughs A Menace To Health

That dry, hacking cough that sticks to you in spite of everything you have done to relieve it is a source of danger, and the longer the cough sticks the more menace it is to your health.

Don't neglect the hacking cough. Get rid of it by using Dr. Wood's Norway Pine Syrup. It helps to stimulate, soothe and heal the bronchial tubes, allay irritation, subdue inflammation, loosen the phlegm and mucous, and aid nature to dislodge the morbid accumulations.

Mr. ALEXANDER A. SOHM, 84-1st Ave., North Bay, Ont., writes:—"I have a very severe head cold accompanied by a dry, hacking cough. I tried various medicines to get rid of it, but they were useless until a friend told me to take Dr. Wood's Norway Pine Syrup. After using one bottle the cold was considerably relieved, and the dry, hacking cough had entirely disappeared."
