

The oldest, safest, strongest, Sarsaparilla you can buy

"I remember well when I first used Ayer's Sarsaparilla, nearly 60 years ago. I was thin, pale, weak, tired all the time, no appetite, could not play as the other boys did. Since then I have taken it many times, especially when overworked, tired out, or nervously depressed. Now, all my children and their children use it. As a medicine for the whole family it has no equal. I long ago learned the first great rule of health—keep the bowels regular—so I am never without Ayer's Pills."

J. C. AYER CO., Lowell, Mass.

Interesting Items Gathered by the Guardian.

The steamer *Guinare* leaves this morning for Pictou.

At the Police Court this morning the prohibition cases against Angus McDonald for third offence and Margaret McMillan, D. Patrick Doherty for third offence will come up for hearing.

Arthur F. Duffey of Georgetown University, in an exhibition Tuesday established a new record of the 75-yard dash. His time was 7.15 seconds. Maxey Long of the New York A. C., who held the record, ran the distance in 7.35 seconds.

The Guardian is in receipt of three large and beautiful calendars from A. Horne & Co. The calendars are from the Canada, the Brentford and the Tudhope Carriage Companies of which this firm are the representatives in P. E. Island.

W. A. Chiverie, formerly station agent at Emerald, removed yesterday to Georgetown where he takes charge of the new station. Mr. E. J. McTague succeeds Mr. Chiverie temporarily, and the situation will be permanently filled by A. W. Seaman, of Bloemfield, who will be succeeded by W. C. Hogan.

The Indian Superintendent John O. Arsenault, Higgins' Road, has informed Chief John Sark that he is to retain his office till July 27th when an election will then take place to decide the matter. There will be no poll opened at Morell but the Indians of that reserve can vote at the Lennox Island poll.

[Other papers please copy.]

Rev. G. P. Raymond delivered his lecture on "How we got our English Bible" in the Methodist Church, Alberton, on Wednesday evening. Owing to the inclemency of the weather the audience was somewhat small. The reverend lecturer discussed in a most interesting manner the ancient Greek and Hebrew manuscripts and showed how by palstating and laborious work these had gradually been merged into our English Bible. After a few remarks by the chairman Rev. A. G. Gatz, a vote of thanks to Mr. Raymond for his very entertaining and instructive lecture was moved by R. Leard and seconded by D. Montgomery. The lecturer, in her usual happy manner made a suitable response and promised to further discuss the subject in the near future.

NEW INVENTIONS.—For the benefit of our readers we publish a list of patents recently granted by the Canadian and American governments, secured through the agency of Messrs. Marion & Marion, Patent Attorneys, Montreal, Canada, and Washington, D. C. Canada: Albert Hy Leal, Tweed, Ont.—Watering trough; Jas. Shoes Sewing machine attachment; Edmond Parent, Montreal, P. Q. Implement for driving nails and tacks; Arthur Bolduc, Quebec, P. Q. Bread Slicer; Joseph Marion, Holyoke, Mass. Horseshoe.

The Maritime Farmer speaking of the Prince Edward Island Agricultural reports says:—Under the head of Farmers' Institutes, much progress is reported. Four show, a membership above a hundred, with Union leading with 142. It is well to remember that the territory covered by these organizations on P. E. I. is much less than elsewhere. Eight new Institutes have been placed at work. The old reliable at Dank River shows the largest attendance and most local work, but the general state of the work is everywhere to be commended, and it could have been foreseen that Union, at Wellington, under the secretaryship of Station Agent Arsenault would rank well at the front. Synopses of the leading delegates' addresses are given in connection. The Fruit Growers' report has been reviewed before in these columns and will bear reading again, being exceedingly complete rather to be preferred in this respect before that of the Dairy men which follows next and gives an account of their convention, the dairy school and the general state of the work, statistics concerning which appear elsewhere.

Reports received by fruit dealers here are to the effect that in the states east of the Mississippi River this season's peach crop is almost a total failure. The directors of the peach growers' association in Georgia, knowing that the crop in that state was seriously damaged, collected reports from all other eastern and southern states. These reports show that in some cases the crop will be about twenty-five per cent. of the average, but in others it will not be more than ten per cent. The damage is due to late frosts and heavy rains prevailing throughout the different districts. As yet no report has been received from the west, but the Californian crop is believed to be a good one. While most of the peaches sold here are bought from the west, and even if the Californian crop should be uninjured, the failure of the eastern crop will tend to create a scarcity in peaches and to a certain extent keep the price fairly high during the coming season.

THERE is a possibility of a Russian hockey team visiting Canada within the next year or two if negotiations now under way are successfully carried through. About two months ago Louis Rubenstein received a letter from Mr. Lebeuff, of St. Petersburg, requesting full particulars as to the playing of the game in this country, and regarding rules, rink, and other features surrounding the sport as played by Canadian teams. Mr. Rubenstein believes that such a meeting could be brought about if the different hockey clubs throughout the Dominion would come together and encourage the idea. The Russians are great players, and if they ever visit Canada, said Mr. Rubenstein, they will certainly be "rushing things." Should the team come they will most likely land at Halifax.

OBEDIENCE AND PUNISHMENT OF CHILDREN.—There is no diversity of opinion as to the necessity of obedience to a child's well-being but in the methods whereby obedience is secured there is a wide difference in the practices, at least, of parents. In a paper in the June Delinquent Mrs. Theodore W. Birney gives some eminently sane advice on obedience and punishment. Mrs. Birney is not partial to the rod, and she holds that incorrigibility in children is more often due to a "lack of self-control and knowledge of temperament and child nature" in the parent than by any abnormality in the child. There is, doubtless, an element of truth in that, though some may disagree. However, there are other points in the article that many parents will do well to take to heart. The author shows a wide knowledge of the nature and needs of children.

QUINCY MASS papers have the following particulars regarding the death of a P. E. Island man John McInnis, aged 28 years, employed on the metropolitan sewer at Hough's Neck, met with a horrible death while at work shortly after 7 o'clock this morning. McInnis was employed at the point where the sewer crosses the causeway, and was in charge of the pile driving machine. This morning he was driving an iron pipe into the ground to make an opening into which a pile could be driven. While he was fixing an iron cap over the top of the pipe the hammer of the pile driver suddenly descended and struck McInnis on the head. The hammer weighs 1800 pounds and dropped a distance of about 25 feet. McInnis' head was cut off as though it had been under a guillotine and was crushed into an unrecognizable mass. The hardy sewer laborers who were in the vicinity were sickened at the sight. Owing to the illness of Medical Examiner Jones, Medical Examiner Fraser was notified, and the body was removed to an undertaker's rooms on Handcock st.

Whether the accident was caused by the breaking of the machinery is not definitely known as no information on this point could be obtained. The cause will undoubtedly be brought to light at the inquest.

[The deceased was a son of Alexander M. McInnis and later of French Village. He was unmarried. An uncle, Daniel McInnis and an aunt, Mrs. Michael McMillan, live in this city.]

Mother's Girl.

There exists often a very beautiful companionship between the mother and her daughter. The intimacy is frank, free and sympathetic. But some day the mother feels as if something had chilled this intimacy. The child is silent and sad, and seems to shun her mother instead of seeking her.

This change very often occurs when the young girl is crossing the border line of womanhood. She is morbid, nervous, fearful as she enters upon this new experience. The use of Dr. Pierce's Favorite Prescription at such a time will do more than restore the normal balance of mind and body. It will establish the womanly function upon a basis of sound health, as well as improve the appetite, nourish the nerves, and promote the general physical health.

"Two years ago my daughter's health began to fail," writes Mrs. Dan Hall, of Brookfield, Green Co., Wis. "Everything that could be thought of was done to help her but it was of no use. When she began to complain she was quite stout, weighed 175—the picture of good health, until about the age of fourteen; then in six months she was so run down her weight was but 120. I felt I could not give her up as she was the only child I had, and I must say, Doctor, that only for your 'Favorite Prescription' my daughter would have been in her grave today. When she had taken one-half bottle the natural function was established and we bought another one, making only two bottles in all, and she completely recovered. Since then she is as well as can be."

The Common Sense Medical Adviser, 1008 pages, in paper covers, is sent free on receipt of 31 one-cent stamps to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

SHUR-ON

The New Rimless Eye Glass mounting is becoming very popular among eye-glass wearers. It's the daintiest, neatest and most secure mounting yet invented.

We've fitted quite a number with the most pleasing results.

G. F. Hutcheson. Jeweller & Optician, Desbrisay Block.
