**Autumn Wedding**

There took place Tuesday afternoon at 4:30 o'clock in Trinity United Church, the marriage of Pauline Dixon, daughter of Mr. and Mrs. J. Percival Simmonds, Charlottetown, to Cyril Joseph, son of Mr. and Mrs. Joseph R. Fear, Moncton, N. B. The Reverend T.E. McLennan performed the ceremony. Prof. A. R. Kendall, church organist, played the wedding music and during the signing of the register, Mrs. Lloyd A. Watling sang "O Perfect Love." Tall standards of varied coloured gladioli and baskets of hydrangea were used to decorate the church.

The bride, given in marriage by her father, was lovely in a white brocaded satin gown fashioned with fitted bodice, full skirt and peplum extending into a long train. Her full length veil of white silk embroidered net fell from a coronet of seed pearls and she carried an arm bouquet of pink Delight roses. She wore as her only ornament a double strand of pearls, wedding gift of the groom.

The maid of honor, Miss Elizabeth Simmonds, sister of the bride, was gowned in white crepe styled on the same lines as the bride's and carried an arm bouquet of Ostrich Plume asters in mixed pastel shades. She wore a single strand of pearls and white lace cap with matching short, white lace gloves.

The two bridesmaids, Miss Fernie Bell of Summerside and Mrs. Lloyd Watling of Amherst, were dressed alike in white crepe gowns and long white mitts and wore double strands of pearls. Their headresses were bands of sweet peas and they carried old-fashioned nosegays of sweet peas and larkspur.

The groomsmen were Mr. John Wilmot of Moncton, N. B., Mr. Percival Simmonds, brother of the bride, and Mr. Robert Fear, brother of the groom, were the ushers.

Mrs. Simmonds, the bride's mother, wore a two-piece dress of grey wool crepe with black accessories and grey squirrel neckpiece. Her corsage was of pansies. Mrs. Fear, the groom's mother, wore a turquoise wool dress with black accessories and a corsage of pink Delight roses.

Following the ceremony a reception was held at The Charlotetown, where the decorations were carried out with a profusion of Autumn flowers. The bride's table was centred with the wedding cake and adorned with white tapers in silver holders and baskets of white asters.

Mr. and Mrs. Fear left on a motor trip to Quebec. For travelling the bride wore a grey tailored suit with matching accessories and a corsage of pink carnations.

Both the bride and groom are graduates of Mount Allison University. Mrs. Fear obtained her Licence of Music, majoring in voice culture, in 1946. During the war the groom served as an officer with the Royal Canadian Engineers and at present is continuing his studies in Halifax.

Out-of-town guests were Mr. and Mrs. J. R. Fear, Mr. Robert Fear, Mr. and Mrs. Garnet Stockall and son Barry, Mr. and Mrs. S. E. McKie and Mr. John Wilmot of Moncton, Mrs. Charles Johnston, Mr. and Mrs. James Fear of St. John, Major George Fear, Quebec, Mr. and Mrs. John MacDougall, Miss Betty Ross, Mr. and Mrs. Lloyd A. Watling of Amherst, Mr. and Mrs. W. C. Wilson of Springhill, and Mr. and Mrs. Horace Simmonds, Winnipeg.

Habits which last a lifetime are formed in childhood and it is then that environment, example and training mould personality and create character, say health experts in advising wise guidance for children.

**Ellen's Diary**

(Continued From Page 2)

"fattenings" were fashioned and baked and the end of pastry left, which I always find most bewitching in its possibilities, and which when Jamie is present must always be handed to him for use in one or another of his baking projects, was rolled thinly and with a rolling pin, a dusting of sugar and a dot of black currant jam made a delectable "cook's cake" today.

There could really be neither "rest nor pause" for as well as performing our indoor duties, the farm cares were also Jamie's and my trust. The latter however proved only nominal, an eye trained on the fields occasionally to see that no cattle or horses were at large, and when she tickered a wistful reminder, there was an armful of hay given to the stabled Nell-mare. There was as usual a down the years the Saturday's scrubbing and then in the interests of preserving that cleanliness, kitchen and pantry floors received a light coat of wax. "Gosh blast that stuff, Ellen!" James will exclaim, when sometimes in haste, he finds this slippery surface, "I don't see why women ever learned to put that stuff on floors. I much prefer the way they did them long ago. All there were bare boards these would be scrubbed to a whiteness with sand they fetched from a swamp."

"Yes" he is bound to say "women had to work on a farm in those days. Now my mother..." And I verily believe that no wife living supposing she were "smart and witty" enough to have wrested a Golden Piece would ever be as capable as any man's mother. "Oh dear" I remember a very near and distracted bride say to Aunt Kitty Mahoney one evening in the long ago.

"I can do all the sweeping and cleaning easily but I don't think I shall ever learn to bake to suit John—at least" and she smiled ruefully "I know I'll never be able to bake bread like his mother used to make!" "Ha, ha" chuckled Aunt Kitty, who though she could scarcely write her name was most intelligent and wise and understanding "Isn't that funny? No, I don't believe you ever could. As I remember it—but of course this is between ourselves, it was a light sour mess she used to make!" However, if our bread be "light" and "sour" and if on occasion, our best cakes refuse to rise, in this wide old world it appears as if it is the women kind who always build the homes.

"A house is built of bricks and stones, of alls and posts and pliers, but a home is built of loving deeds that stand a thousand years; A house though but an humble cot, within its walls may hold a home of priceless beauty, rich in love's eternal gold. The men of earth build houses—halls and chambers, roofs and domes.— But the women of the earth—God knows! the women build the homes; Eve could not stray from Paradise, for, oh, no matter where, Her gracious presence lit the way. lo! Paradise was there." Until Monday — Diary — Good-night.

**WHAT ARE THE FACTS BEHIND THE MEAT STRIKE?**

A strike called by the United Packinghouse Workers of America (CIO-CCL) against six meat packing plants of the Swift Canadian Co., Limited has been in progress since August 27.

We regret that as a result of the strike called by the Union it has been impossible for the Swift Canadian Co., to serve the livestock producers, farmers and consumers of Canada or to fulfill our commitments for overseas shipment of meat to those in dire need of it. This is particularly regrettable since we are now entering the season of increased cattle marketing and beef production.

This strike, called by the UPWA (CIO-CCL) has set up an arbitrary and unnecessary dam against the orderly flow of livestock and meat.

Recently, in published statements, the union has made false accusations against the company. The charges by union officers stated specifically that this company "is attempting to form an insidious conspiracy for the purpose of destroying the union, depriving farmers of markets for their supplies, and depriving the people of Canada and Britain of much needed meat."

Such charges are false and evidently are intended to confuse the public as to the real reasons for the strike.

We think the public is entitled to know the facts:

1. Swift Canadian Co. began negotiations with the UPWA-CIO on July 23 to work out terms of a new agreement with the union by an orderly process of collective bargaining covering six meat packing plants. Negotiations continued until August 2 when meetings were adjourned AT THE REQUEST OF THE UNION.
2. The old agreement had expired at midnight August 1, but it provided that its terms and conditions should continue in effect until a new agreement was reached or until negotiations were broken off. The union admits that negotiations have never broken off. At the time meetings were adjourned, the company desired to continue further discussions and urged the union to do so.
3. Almost immediately groups of employees in three of our plants began a deliberate slowdown which drastically curtailed production. The company on several occasions prior to the strike notified Mr. Fred Dowling, Canadian director of the UPWA, and the local officials of the union at the plants involved, of the existence of the slowdown.
4. The slowdown continued and on August 26 those who were engaging in the slowdown were told not to come back to work until they were willing to resume work at the same rate they were producing prior to the time of the slowdown.
5. The union immediately called a strike in all six meat packing plants, apparently in sympathy with those employees who were not willing to give a full day's work for a full day's pay.
- \* Negotiations were resumed on August 28, even in the face of the strike, and are now in progress.

The Swift Canadian Co. has long recognized collective bargaining as a fundamental right of employees, and is ready at all times to bargain with the unions chosen by our employees to represent them. It is unfortunate that the union has chosen to strike in preference to reaching an agreement through peaceful negotiations. No one can win such a strike, and on the contrary a strike inevitably results in losses to consumers, producers, employees, and to the company. We will continue to bargain in good faith until we arrive at an agreement that will be equitable to all.

**SWIFT CANADIAN CO. LIMITED**

trump, but in vain. Declarer took the double diamond finesse, and all the defenders got was a second club trick. In all, they won a heart a spade and two clubs. The doubled contract was made. East's return of the spade queen—or of any other spade—was intensely thoughtless. How could spade tricks get away from this side? There was no suit, or even card, in dummy that would provide a haven for declarer's losing spades, whatever they were, and therefore there

was no conceivable purpose in take two diamond finesses and also East's leading the suit. Dummy's finesse the spade, and he would entries were limited, and East have had to be psychic to fulfill should have kept them that way! the contract. Without the spade return, South East should have returned his would have found it impossible to partner's trump lead.

**ATTENTION HOME CANNERS**

Because of the continued volume of Export Fish Business and the lack of experienced help, we are compelled to discontinue supplying cans to Home Canners. However, we are pleased to announce that
