

Today's Probabilities.

Strong south westerly winds, light local snow fall.

HOW TO GAIN FLESH

The life of food is the fat within it—the more fat the more real benefit from the food; that is why cod liver oil is a powerful builder of flesh.

Scott's Emulsion of pure cod liver oil solves the problem of how to take cod liver oil. That is one reason why doctors have been prescribing Scott's Emulsion for all wasting diseases, coughs, colds and bronchitis for almost thirty years.

We'll send you a sample free upon request. SCOTT & BOWNE, Toronto, Ont.

Hat and Cloth Brush Sets

Brushes well made and nicely finished on neat, strong stands with hangers. This is a gift of utility especially suitable for some near friend or member of the family. This is an item rather rare in the average home, hence all the more desirable for those who wish for something "different."

The range of price (75 cents to \$3.00) is so large that anyone can be suited. The cheapest will adorn any hall. Fine line of Ebony hat, cloth, bonnet and hair brushes. See window, all goods marked.

THE GUARDIAN

An independent journal, untrammeled and fearless, aiming to be Just, Impartial, Reliable, Newsy, seeking at all times to further the best interests of the people, and recognized therefore as **The People's Paper**

Published at its offices, New Frowse Block, North side Post office, at the following rates: Mailing in advance: One month, \$1.00; Three months, \$2.50; Six months, \$4.50; One year, \$8.00. Weekly Edition (Wednesday) per year in advance, \$1.00.

THE MORNING GUARDIAN

TUESDAY, DEC. 8, 1923.

FRESH FISH SHIPMENTS.

In view of the growing importance of our trade in fresh fish, particularly smelts and eels, shipped during the winter season to the markets of Boston and New York, The Guardian has taken some considerable pains to obtain information for shippers. A representative of this journal has twice visited the fish markets of those cities and conferred at length with those engaged in the trade, whose advertisements appear in our columns. We have been careful to accept only announcements from those whom we believe to be reliable, and we trust that business between our shippers and these advertisers may prove to be entirely satisfactory. These advertisements will prove the more useful guide to our shippers from the fact that a number of the firms formerly engaged in the fish trade are not now in it.

It is of the first importance to both shippers and consignees that the shipments shall arrive in good order and at the best time of the week to be disposed of to advantage. Even with the greatest care and the best precautions there will necessarily be occasional losses in such perishable goods as frozen fish, especially when soft weather intervenes between the date of shipment and their arrival in Boston or New York, or immediately after their arrival, as must sometimes occur. To avoid this risk as far as possible fish should be timed to reach their destination on Tuesday, Wednesday or Thursday. It frequently happens that by Friday the market is glutted and the goods must then be sold at a greatly reduced price or held over with danger of depreciation, or entire loss from warm weather having set in before they can be disposed of.

The practice of shipping in barrels should be avoided. Much better results will be obtained by the regular boxes in which the fish are carefully placed side by side in two tiers, the heads at the outside and the tails overlapping in the middle of the box. They should be laid straight and not cross piled and thus when exposed for sale present an attractive appearance. Those shipped in barrels must necessarily be dumped out in large trays before being offered for sale. Careless or designing shippers should learn that it is useless to place a few layers of large fresh fish at the top and bottom of the box or barrel with smaller, or partly decomposed fish between. Honesty is the best policy in the fish trade as in other lines of business.

The fish should not be wrapped in paper, or have mixed in with them seaweed or refuse of any kind as in some cases done, for in the event of soft weather intervening they invariably present a dirty or distasteful appearance or may spoil, which either reduces the value by several cents per pound or makes them entirely unsaleable.

Another point worth observing is to assort the fish by size making two or three grades, and have each box contain fish of uniform size throughout, as nearly as possible. Put nothing in the box but fish. By observing these rules, shipping at the right time of the week, in boxes, and with the fish properly assorted and packed so as to arrive in clean and presentable condition, the best results will be obtained. Those who will take the pains to cater to the taste of their customers in the fish trade as in all other trades will find their reward in enhanced prices. Shipment in boxes greatly facilitates handling the fish, as well as preserving them in good order, and the better financial results will more than repay the increased time and trouble.

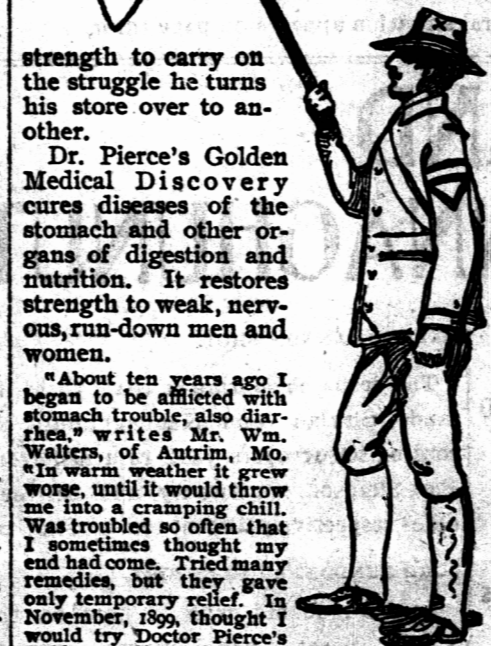

PAPER MILLS RESUME.

SARATOGA, Dec. 4.—Operations are being resumed at the mills of the International Paper company, which shut down early last week. The mills are situated at Coriath, Fort Edward, Glen's Falls and elsewhere. The mills employ 10,000 men.

STARVED OUT.

Many a garrison has been forced to give up the fight and hang out the white flag of surrender, when lack of food has weakened the men past all power to continue the struggle.

Many a man is similarly starved out of business. His digestion is impaired. His food does not nourish him, and for lack of

strength to carry on the struggle he turns his store over to another. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It restores strength to weak, nervous, run-down men and women.

"About ten years ago I began to be afflicted with stomach trouble, also diarrhoea," writes Mr. Wm. Walker, of Austin, Mo. "In warm weather it grew worse, until it would throw me into a cramping chill. Was troubled so often that I sometimes thought my end came. Tried many remedies, but they were only temporary relief. In November, 1899, thought I would try Doctor Pierce's Golden Medical Discovery. I got six bottles and took five in succession, then thought I would wait for a time and take the one left. Soon found I had symptoms of the trouble coming back, so took the sixth bottle and it cured me. I have enjoyed the best of health this summer, and the credit all belongs to your 'Golden Medical Discovery.' I can't express my many thanks to Dr. Pierce for his remedy, for it did so much for me. Words cannot express how severely I suffered. If any doubt the above statement let them address me, and I will take great pleasure in answering."

Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.

The delicate child can be made a strong man. Give him PARK'S PERFECT EMULSION
