Lovely Women And Their Feet

NEW YORK, March 14.—Women's shoes—size 1-2, triple A—tripped lightly into the realm of art today. A gallery here got under way an exhibit of shoes with painting and sculpture. "Beautiful women and their feet" is the name of the show; and it is the first time the western world has given shoes an honored place in an art gallery. The shoes are by Andre Perugia. Perugia came from Paris to exhibit, bringing his "baby shoes," designed for women to wear with bonnets, and his open-toe pumps, which have the end missing. Perugia is calm about the sudden rise in shoes' art status. Most women neglect their feet, he said, when the foot is the first thing men see. "From the foot," he said, "you can tell a woman's culture and breeding. Her face may be changed by cosmetics, but her foot is inevitable."

KINGSBORO SCHOOL

- Grade VII—1 Robert Bell, 2 Clifford MacDonald, 3 Jean Young. Grade IV (Sr.) 1 Evelyn Robertson, 2 Dorothy MacLean, 3 Joyce Robertson. Grade IV (Jr.) 1 Bernice Jardine and Lora Robertson. Grade III (Sr.) 1 Horace MacDonald, 2 Timothy Massey, 3 Boswell Robertson. Grade III (Jr.) 1 Peter Stewart, 2 Gordon Robertson, 3 Catherine Stewart. Grade II—1 Arthur Robertson, 2 Carmen Robertson. Grade I (Sr.) 1 William Coffin, 2 Winslow Coffin and Wendell Robertson. Grade I (Jr.) 1 George Robertson 2 Mable Stewart. Perfect Attendance: Mildred McDonald, Joyce Robertson, Evelyn Robertson, Sijling Robertson, Gordon Robertson, Peter Stewart, Olga J. White.—Teacher.

No More Piles

Doctor's Prescription Guaranteed Thousands of pile sufferers do not know that the cause of Piles is internal—bad circulation of blood in the lower bowel. This is the scientific truth about Piles—the real reason why salves and suppositories do not give lasting relief, why cutting does not remove the cause. Your itching, bleeding or protruding Piles will only go when you actually remove the cause. External treatments can't do this—an internal medicine should be used. HEMEROLD, the prescription of Dr. J. S. Leitchard, sold by good druggists everywhere, succeeds because it stimulates the circulation, drives out congested blood, heals and restores the affected parts. So why waste time on external remedies or worry about an operation when G. E. Hughes and also Taylor Drug Co., of Kensington, invites every Pile sufferer to try HEMEROLD with guarantee of money-back if not joyfully satisfied with the help one bottle gives.

WARM TRIBUTE TO FAMILY OF LT. GOVERNOR

The following tribute to His Honour Lieutenant Governor and Mrs. DeBlais is from "I. C. R." column in the Halifax Herald, which is a quotation from a letter received by the columnist from Rev. Dr. J. Ingram Bryan, of the University of Japan, who, after mentioning the interest which he took in the new Lieutenant Governor's appointment in Prince Edward Island, proceeds: "When I was rector of St. Paul's one of the nicest boys in my church choir was a little lad named DeBlais; and his father and mother were among the most faithful worshippers at the old parish church. Even at this moment I have in mind a vivid picture of the late Robert F. DeBlais and his wife sitting in the same pew every Sunday, in front of me as I stood in the pulpit; they never seemed to miss a Sunday, nor did the little boy ever miss a Sunday in the choir. I always felt that so fine a family would do great things. When the present rector of St. Paul's wrote me that G. D. DeBlais was one of the best churchmen in the parish, I was immensely pleased but in no degree surprised. When I learned that the new Lieutenant-Governor's wife was Marion Newberry, I was still more delighted; for she was one of the prettiest and sweetest children I have ever seen. About seven years old when I felt Charlottetown, she was one of my greatest friends, often called at the rectory with her mother and always treated me as an old friend. "Even then I used to say to myself that so beautiful a child could not but make as beautiful a woman; and now to realize that she is the presiding mistress of our old Government House in the Island proves me a prophet of some insight. "Her parents, Mr. and Mrs. Arthur Newberry, were very delightful people indeed. I remember that when I was a small boy the present Governor's great uncle, T. H. Haviland, became Lieutenant-Governor. The other side of the DeBlais family, the DesBrisays, I knew also. The whole family history is again a proof of the teaching of history, that the cultivation of noble ideals in family life is the best guarantee of happiness and prosperity both for families and for the country. How I should like to have been in the Island Capital to join in the congratulations. When I was at St. Paul's we had one such occasion: Queen Victoria raised Louis Henry Davies to knighthood; and as he was one of the leading members of St. Paul's, we naturally rejoiced to call him Sir Louis, but my father would never call him anything but "Lu Davies," as he had always done in their political relations. The Island folk do not set much store by titles, but they like to prove worthy of them."

Board Will Probe Dispute

OTTAWA, March 14.—(Canadian Press)—Appointments of a Board of Conciliation to deal with a dispute between the Canadian National Telegraphs and certain employees in the Maritime Provinces, was announced today by Hon. W. A. Gordon, Minister of Labor. The personnel of the board is as follows:—His Honor Judge R. H. Murray, of Halifax, N. S., chairman, appointed by the Minister in the absence of the president and president-elect from the other board members; Hector McInnes, K. C., of Halifax, nominated by the company; and C. W. Luan, of Truro, N. S., appointed by the Minister without recommendation, the employees having failed to agree upon a nominee.

First "Talking Book" To Be Released Soon

NEW YORK, March 14.—The first talking book, an invention which it is hoped will free thousands of sightless people from the touch method of reading, will be released by the library of Congress in April. Robert B. Irwin, executive director of the American Foundation for the Blind announced yesterday. Irwin said that the talking book is "the most sweeping invention in behalf of the blind since the introduction of Braille 100 years ago." Through arrangements with the library of Congress talking book libraries will be established throughout the country and the foundation plans to launch a campaign for \$150,000 in order to place 5,000 talking machines in the hands of blind people," he said. The talking book, a combination electric phonograph and wireless set, is so compact that it may be carried in a suitcase. By late June the Foundation plans to have a number of books on records through the co-operation of the library of Congress which are to be loaned free of charge to the blind to whom talking book machines are available. More than 80,000 blind people in the United States alone, Irwin said, became blind too late in life to master the touch method of reading through touch or for other reasons found themselves unable to use the touch method.

Three Negroes To Be Hanged

(A.P. By Guardian's Special Wire) JACKSON, Miss., March 14.—Three negroes will be hanged Friday; but the father of the white girl they attacked will not be hanged if one Mississippi legislator has anything to do with it. "There will be no legalized butchers in this state," said Walter Sellers, chairman of the judiciary committee of the House of Representatives. The State Senate has passed a bill which would make it possible for Clyde Collins, father of the girl, to act as hangman for her attackers.

Fourth Member Of Touhy Gang Is Sentenced

(A. P. By Guardian's Special Wire) CHICAGO, March 14.—Bancroft Banghart was convicted tonight of a part in the John Factor kidnaping and sentenced to 30 years in prison. The quick verdict of the jury marked the speed attending the entire trial. The jury retired at 3:31 p. m., and gave its verdict at 5:07 p. m. The case itself consumed only a week in the courtroom. While the state had asked either the death penalty or the 30-year sentence, prosecutors expressed themselves pleased at the sentence which makes Banghart the fourth member of the Touhy gang to be sentenced for the kidnaping of the market speculator.

Coal Production Up Less Unemployment Province Benefits

OTTAWA reports Nova Scotia produced 812,946 tons of coal in November 1929 and 879,719 in November 1928. Naturally miners benefited, and when a miner has money, he spends freely. This accounts for recent increased sales by some Charlottetown wholesalers to merchants in mining towns. Part of this extra output can be attributed to a new product—Bradore Treated Coal. Bradore Coal Co., Ltd., report a steady public demand for this new fuel, largely from those previously using imported coals. This all goes to show Maritimers will support a good Maritime product and that the benefits from that support do spread in all directions. Bradore Treated Coal, prepared in Nut and Cobble sizes, is "treated" to lessen smoke, lay dust and prevent soot. It is sold by W. D. Gillis & Company and A. Pickard & Company.

Raises Fishing Question In Federal House

OTTAWA, March 14.—(Canadian Press)—East and West crossed swords in the House of Commons today on the perennial question of whether British Columbia fishermen were entitled to a share of the \$100,000 distributed each year among Nova Scotia fishermen, and once again British Columbia lost. Alan W. Neil, independent member from Comox-Alberni once again led the fight for British Columbia recognition but ran foul of concerted opposition from Maritime members. With one voice, the Maritimers made it clear they had no intention of sharing the so-called Halifax award with anyone, least of all, British Columbia fishermen. The fishery payments originated in compensation paid by the United States to Canada under the treaty of Washington in 1871, the year the far-western province joined Confederation. In 1978, the fund was set aside for Maritime fishermen on the principle they had surrendered the rights and were entitled to the compensation. Many times since then, the claims of British Columbia have been aired unsuccessfully.

Parrot Saves Nine Persons

WOLFVILLE, N. S., March 14.—(Canadian Press)—A shrill scream of a parrot early today enabled nine persons to escape flames that destroyed a large double house here. Aroused by the screams, Freeman Leslie, the owner, called his daughter and awakened G. C. Husock, Husock's five sons and his housekeeper, who lived in the other side. The fire spread so rapidly the town's volunteer department did not have a chance to save the building.

Heated Debate In N. B. House

(C. P. By Guardian's Social Wire) FREDERICTON, N. B., March 14.—Hon. D. A. Stewart, Minister of Public Works, completed his remarks in the budget debate at a chaotic afternoon sitting of the New Brunswick Legislature today, when, during and after his speech, members from both sides of the House rose to points of order on 13 occasions. Mr. Speaker Squires was called upon several times to make rulings. In addition, Hon. W. H. Harrison, K.C., Attorney-General, with the permission of the speaker, twice debated points of order raised by A. A. Dymark, K.C., Opposition leader. The latter rose eight times to points of order, and at the conclusion of Mr. Stewart's remarks asked the indulgence of the House to explain statements which he had made in a previous speech and which he submitted had been misunderstood. He was not permitted to proceed without interruptions from the government side of the House, however, the form of further points of order.

Canadian Hay In U. K.

On the point of quality there seems to be no doubt that Canadian hay of good clover mixtures is the most acceptable on the United Kingdom market, says the Canadian Trade Commissioner. There is apparently some possibility that a demand for Canadian hay will develop in the United Kingdom about April or May this year.

Dunlop Out In Front

PINEHURST, N. C., March 14.—(Associated Press)—George T. Dunlap, Jr., United States amateur champion, lengthened his lead in the title while golf championship today when he shot the difficult no. two course in 70 for a 54-hole total of 215. In second place, nine strokes back, was Halbert J. Blue, of Aberdeen, N. C. Eric Thomson, St. Andrews, N. B., was in fourth place with 811182-233.

EVERY LIMB "LOCKED" Hospital Case of Rheumatism COMPLETELY RELIEVED BY KRUSCHEN

The value of Kruschen's salts in the treatment of rheumatism, is proved by the man's experience. He says: "I was ailed for over seven years and when I returned I began to get rheumatism—particularly in the feet and arms. Three years ago my rheumatism got much worse and I was eventually taken into hospital, unable to move any joint of my body. I left the hospital after two months when I was somewhat better. I was recommended to take Kruschen Salts, and I have taken them continuously. Since then I have gradually got rid of my rheumatism, until now I can do anything I wish to do. I would not be without my Kruschen Salts for anything."—M. E. No remedy can bring permanent relief from rheumatism unless it performs these specific functions. These are: (a) dissolution of the needle-pointed uric acid crystals which cause the pain; (b) the expulsion of these crystals from the system; (c) prevention of a further accumulation of uric acid.

There is apparently some possibility that a demand for Canadian hay will develop in the United Kingdom about April or May this year.

EVERY LIMB "LOCKED" Hospital Case of Rheumatism COMPLETELY RELIEVED BY KRUSCHEN. Two of the ingredients of Kruschen Salts effectively dull the sharp edges of the pointed uric acid crystals. Other ingredients of these Salts have a stimulating effect upon the kidneys and assist them to expel the uric acid through the natural channel. There are still other salts in Kruschen which prevent food fermentation taking place in the intestine, and thereby check the further formation of mischievous acid. Kruschen Salts is obtainable at all Drug Stores at 60c, and 75c, per bottle. Big game hunter, he spent much of his life in the Canadian province, where he was one of the leaders in organizing the Nova Scotia guided tournament, an annual attraction at Lake Williams. He is a licensed guide, well-known in the New England and Canadian woods. As an expert canoe handler he has contributed to the Encyclopaedia Britannica, and he has lectured and written about outdoor life. A veteran with fly and rod, and a life.

"...things humming all around!"

BUSINESS has many barometers and some speedometers. The volume of newspaper advertising, for instance, is one of these speedometers; it shows how fast trade is moving. Watch the newspaper advertisements. Gradually they are increasing in number as business steps into second speed. Merchants and manufacturers feel a quickening public interest in buying; they are reaching out to catch that interest. Their advertisements are worth following closely these days because they contain news of unusual importance to every shopper. Following the news has become a habit in our lives; almost like breathing or eating. Our conversation, our opinions, our actions are based on what we read in newspapers. Advertising in the newspapers is, for this reason, more than advertising. It is part of the force that is generated by the great dynamo of news—the force by which people act and think. Newspaper advertising, like the news, is born fresh daily—timed to the minute—sparkling with the energy and action of each day's events. It reaches virtually everyone who can be reached at all by any advertising, because whatever else people do, they read the newspapers today and will read them again tomorrow. Newspaper advertising gets to everybody every day—and gets there FIRST.
