

ALONG THE WATERFRONT

The Steamer Hochelaga is to resume her duties running between Picou and Charlottetown, and will start May 1st, leaving Picou at 9.00 a. m. and leaving Charlottetown at 4.00 p. m. daily except Sundays.

Capt. Basil Kelly who underwent an operation in the Montreal General Hospital has arrived home in Summerside, and it is expected will be fit to take up his duties as Captain of the C. G. S. Brant this season.

C. G. S. Bayfield The C. G. S. Bayfield which last season was in the Revenue service is being fitted out this season for survey work.

C. G. S. Brant She is to be in command of a new Master, Captain Snelgrove, of Halifax who arrived last evening along with two engineers.

C. G. S. Oestre Captain Snelgrove has succeeded Captain McCarty who had been master of the C. G. S. Bayfield for the past few seasons.

C. G. S. Brant A new and larger steamer is being built for the Revenue service and it is expected will be ready for duty some time in June.

C. G. S. Brant The C. G. S. Brant which has been purchased by the International Fish Corporation, is being scraped for painting. The Brant will, when fitted out call into a number of places on the Island where fish are being handled.

C. G. S. Oestre The hull of this steamer was built of Island wood by the late Captain John White and the engine was built and installed by Messrs. Bruce Stewart & Co., of this city.

C. G. S. Oestre The C. G. S. Oestre, Capt. MacLeod which last season was engaged in the oyster cultivation is to be fitted out for the same business this season.

S. S. Harland The S. S. Harland, Captain MacLean is being put into first class condition, her engine being overhauled and boiler cleaned and scraped. The hull is also being painted up as in former years which shows a bright improvement, and will be in A1 condition for this season's work.

S. S. Hillsborough The S. S. Hillsborough, Captain MacDougall is also being fitted out and is being put into first class shape. Her engines have been overhauled and new furnaces installed by Messrs. Bruce Stewart & Co. It is expected she will be ready to take up her duties between Charlottetown and Rocky Point route just as soon as ice conditions allow in the harbour.

The Suction Dredge, Capt. George Robins is getting well under way for the season's work, and will likely be ready for work just as soon as the ice conditions will allow in the harbour. Last season this dredge made wonderful progress in filling in the trussel at the Railway, and it is expected will finish their work this season.

The ice in the harbour has now pretty well gone out, there being open water along the heads of the wharves. It won't be long until steamers and vessels will be calling at our harbour which will be a welcome sight to see after the long winter months, and will make things livelier for a great many.

His Baby Boy Was Troubled With Whooping Cough

Mr. Ernest Kronier, Freedom, Alta., writes: "My baby boy, two years of age, was troubled with whooping cough. I tried everything I could think of, but he kept getting worse. A friend advised me to try Dr. Wood's Norway Pine Syrup and it gave him great relief, and before using the contents of the second bottle the cough had completely disappeared." Price 35c, a bottle; large family size 60c, at all druggists and dealers. Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

The Auction Sale, April 8th, at Mr. J. D. MacLennan's, Little Sands drew a large crowd. Among the places represented were Iona, Belle River, Melville, Flat River, Glen William, Brooklyn, Allston, Peters Road, Greek River, Mt. Vernon and Murray River, some of which are at least 12 miles from the point of sale. Mr. MacLennan disposed of all his live stock and farming implements. Horses and cattle brought good prices. Mr. MacLennan intends to leave this province and reside in the land of very high protective duties, which seems to have little trouble in absorbing all the Canadians who go there. Is that a good argument for free trade or is it not?

The only thing permanent about our permanent highways at present is the enduring quality of the mud, which is deep, heavy, thick, and more sticky than any clinging vine. After all the money that has been spent on their improvement, the roads are very deficient in keeping qualities.

Among the recent visitors from Wood Islands to Little Sands have been Mrs. Charles Lutz, Mr. Howard White, and Mr. Wm. McKay. Mr. and Mrs. Edwin MacKenzie were recent visitors to Port Wood; guests: Mr. and Mrs. Howard White

Recent visitors to the city were Mr. John Angus MacPherson carrying the Rye. Reading—"The Inventor's Wife," by Mary M. MacPhee. Harmonica Selections—by Theodore Ellis.
