## JAPANESE TERMS CANNOT BE ACCEPTED, RUSSIANS SAY

But Negotiations Will go on—Witte's Reply Ready—British Opinion is That Five Hundred and Fifty Millions Will be Amount of the Indemnity

PORTSMOUTH, Aug. 11.—(Special)—The Russian officials here declared today that the Japanese terms of peace will certainly not be accepted as they were regarded as altogether too stringent. Yet it is not probable that the negotiations will be broken off. There is a feeling that Japan asked everything for a start and will upon consideration be willing to modify her

demands. M. Witte has written his reply and has it ready for delivery to Baron Komura, but in order that no details may be overlooked it will not be delivered until Monday and next session will be held on that day.

LONDON, Aug. 11.—(Special)—The Japanese demands for peace are not regarded

here as wholly unreasonable. It is however thought that Japan has no ground for asking fishing rights, or for limiting Russia's naval strength in the East.

It is estimated that the war has cost Japan five hundred and fifty millions and that this will be the amount of indemnity asked.

## THE JUDGES FOR THE MARITIME EXHIBITIONS.

F. W. Hodson, of the Department of Agriculture, Ottawa, accompanied by his wife and child, passed through the city yesterday on his return from an extended vacation in the maritime provinces. He came from the capital, July 4, and has been the past two weeks in P. E. I. It will be remembered that a report was published some time ago that Mr. Hodson had resigned his position. Mr. Hodson asserts there is no truth whatever in the statement.

IT HEALS THE LUNGS. When the antiseptic vapor of "Catarrh-ozone" is inhaled it spreads through the breathing organs, carrying healing and health to the sore spots. An irritable throat, "catarrh" cures in five minutes, bronchitis it soothes instantly, weak lungs are fed and quickly nourished back to health. To be free from colds and coughs, to avoid catarrh and bronchitis—use Catarrh-ozone; it is prescribed by more than twenty thousand physicians in America alone and used by the people of the nations.

## THE MACLEAN.

Montreal Herald, (Lib.) Editorial, Aug. 5.—A wonderful fellow is Billy Maclean, with his heart full of cheer, and his head full of brain. Alone in the common he fights the good fight, at least so he told them at Wexford last night. He's the one faithful shepherd unthought by Quebec, which the same will talk smaller when he comes on dock. When the awful Sharrett, with smile that was bland, set members to shaking themselves by the hand and got them to pay themselves well for exerting themselves at the delicate task of the coercing the west, did Maclean take a hand in the riot? Not he; like Brer Fox, he lay awfully quiet; and then when the thousand was safely in hand he went and he hired him a nice little band, and he said: "While I'm driving a nail in our friend Borden's coffin, which Borden, moreover, is not worth his salt, at hitting the government when they're at fault. If I'd had his job when we got in that scrimmage, I wouldn't behave like a red Indian image in front of a store where tobacco is sold, nor wait to go at them until I was told; not much, I'd have busted that government quicker than thirsty electors could sample good liquor. That's what I'd have done, and now please let me who knows how that kind of work could be done by a Blueose like Borden who's passed for a Carnegie hero, altho his net score down at home is a zero! With half of the brains on a quarant, ter the courage of William Maclean, Mr. Borden might flourish, but since he's heretof of the one and the other, he might just as well be Sir Wilfrid's own brother for all his direction is good to the party that's needing a leader big, brainy and heavy. The moral of this little talk, if there is one, is not of the sort that you see in a vision: It's plain as the nose on the face of the reader, that Billy Maclean is the man for Con. leader. And people may try as they like to evade it, but Billy discovered the fact before they did. So here's to Maclean, kind fortune attending he'll get something yet for the thousand he's spending.

## BIG LUMBER MILL IN FREDERICTON

Totally Destroyed by Fire With Ten Million Feet Lumber—Fraser and Sons the Losers—Loss \$200,000

FREDERICTON, Aug. 11.—(Special)—One of the worst conflagrations in the history of Fredericton occurred this evening when the Aberdeen Mills, the magnificent property of Donald Fraser and Sons, together with fully ten million feet of sawn lumber were totally destroyed. Workmen were just about to knock off for the day when suddenly a burst of flame shot upwards through the mill floor and the employees had barely time to get

out before the whole building was a mass of flames. The mills being situated some little distance above the town, water was scarce, but by heroic and persistent efforts the large Aberdeen House, built for the accommodation of the mill employees was saved. Acres of sawn lumber were burned and the total loss will be almost two hundred thousand dollars.

## STEEL BOUNTY NOT FOR RAILS

The Soo and Sydney Works Complain of very Heavy Loss

MONTREAL, Aug. 11.—(Special)—The officials of the Soo works and Dominion Steel Company are greatly surprised by the Order in Council declaring that the Government bounty on steel produced shall not apply to rails.

## G. T. PACIFIC AND G. NORTHERN

To Remain Separate—Winnipeg's Great Building Boom this Year.

ST. JOHN, Aug. 11.—(Special)—D. W. Bole, Liberal member for Winnipeg, who is here, says he has assurance that there is absolutely no truth in the report that the Grand Trunk Pacific is trying to purchase the Canadian Northern.

## MARSHAL OYAMA NOT NAPOLEON

This is What one of M. Witte's Suite says in Discussing War

PORTSMOUTH, August 10.—With regard to the frequent interviews with M. Sato and other Japanese delegates which are appearing in the press, a prominent personage belonging to M. Witte's suite made the following statement.

"Throughout the war the Japanese have made all the efforts in their power to win the press to their side. They have proceeded in a fashion quite com- prehensible from their point of view, but less so from that of the public, which has swallowed whatever they have pleased to furnish. Of course the people of all countries in America, as well as in Russia are readily susceptible to a propaganda of ideas, no matter how false they may be. For instance, the papers of the last few days have contained an interview with M. Sato in which he says that Russia must pay a war indemnity because she is at the end of her resources, and that the Russian representatives, although making wry faces, will have to pay even if the word indemnity is not used. It is not possible to suppose that M. Sato willfully misstates facts, and the most charitable view is that he is badly informed.

He probably does not know that Russia is not worth his salt, at hitting the government when they're at fault. If I'd had his job when we got in that scrimmage, I wouldn't behave like a red Indian image in front of a store where tobacco is sold, nor wait to go at them until I was told; not much, I'd have busted that government quicker than thirsty electors could sample good liquor. ## AUSTRALIA SORE AT CANADA'S ACTION

MONTREAL, Aug. 10.—A special London cable says:—A Melbourne despatch states that antagonism between Australia and Canada has been rapidly developing during the last few months. During an acrimonious debate in the house of representatives last night, Sir William Lyne, minister of trade and commerce, referring to his reassessment of value of Canadian harvesters, caused a sensation by producing a letter from the dominion customs department flatly refusing to allow Canadian officers to make inquiries enabling the commonwealth to ascertain, for the purposes of taxation, the real value of articles sent from Canada to Australia.

Sir William Lyne hinted that the dominion was unwilling to give any assistance in establishing the fair customs revenue.

The Australian press is continually publishing articles depreciating Canada's progress and asserting that Australian development is on a sounder basis commercially and against any form of preference which will strengthen the position of their Canadian rivals.

WILLIAM C. COLLETT  
The P. E. I. man who will probably be chosen Grand Warden over 50,000 Odd Fellows

The last issue of the Sunday Boston Herald has an excellent likeness of William C. Collett, formerly of Prince Edward Island, who gives promise of being the successful candidate for Grand Warden of the Oddfellows of Massachusetts, a body consisting of 50,000 members in that state. The Boston Herald says: Interest in the forthcoming annual meeting of the grand lodge of Odd Fellows to be held at Odd Fellows' Hall, 515 Tremont street, Thursday, Sept. 7, centres in the election of grand warden which is a stepping stone to the office of grand master. The retiring grand master, George H. Fuller of Alston, will be succeeded by Napoleon B. Dana of Somerville, the present deputy grand master, and Mr. Dana, in turn, will be succeeded by Joseph Belcher of Randolph, the present grand warden. Among those mentioned as probable candidates for grand warden are William C. Collett of Boston, Mayor William A. Hastings of Malden and Charles A. Russell of Gloucester. Mayor Hastings, however, says he is not a candidate. Each of these candidates has a good following, but Mr. Collett seems to be the most sure of winning.

Mr. Collett of Boston, leading candidate for the office of grand warden, was born in Summerside, P. E. I., in 1856 of English parentage. He received his early education in the common schools of that place, and afterward went to work on a farm. He was not more than 18 when he began the study of various branches of the building trade. In 1881 he came to Boston to work as a carpenter. The next year he was advanced to the position of foreman. He attended evening drawing school for three terms, and came out at the head of the class. In 1887 he went into the office of Charles Brigham, the well known Boston architect. He had the supervision of several important public buildings.

## THE WONDERS OF THE BODY.

Its mechanism, like delicate machinery, by even a slight cause is so disarranged as to be practically useless. A headache is no trifling matter because the stomach, kidneys and liver are sure to be affected. To cure the cause of headaches and prevent new attacks, use Ferruzone; it aids the stomach by supplying nourishing blood, vitalizes the nerves and brain instantly. Ferruzone braces—gives tone—elevates your spirits. No such health-bringer known. Fifty cents per box of fifty chocolate coated tablets at all dealers.

## C.P.R. CHANGES NAMES OF NEW STEAMERS

MONTREAL, Aug. 10.—The names of the two C. P. R. steamers which will be launched in October and November have been changed. It was announced upon the return of Mr. Piers, the manager of the steamship lines, that the liners would be the Empress of Austria and Empress of Germany. Now it has been decided to call them the Empress of Britain and the Empress of Ireland.

## MONTREAL WANTS PRINCE.

MONTREAL, August 9.—Today Mayor Laporte, in the name of the citizens of Montreal, despatched a cordial invitation to Prince Louis of Battenburg, admiral in command of the second cruiser squadron which is due to arrive at Quebec on Friday next to visit Montreal with his fleet. On receipt of an affirmative reply a meeting of the reception committee will at once be called and an elaborate program arranged. It is not likely the fleet will come to Montreal but it is expected the prince and staff will visit the city before leaving Canada.
