

He Was in a Hurry to Paint His Floors

He sure was in a hurry.

Here it was Friday evening, and he had to paint the kitchen and bathroom floors before week-end company came.

He dreaded waiting for paint and varnish to dry—waiting between coats usually wilted his enthusiasm to finish the job.

One excuse and another had put it off—his wife couldn't spare the kitchen, or the children couldn't be kept off the floors, his inclination wasn't always in that direction, or some one of a hundred inconveniences always proved a good alibi.

At last, necessity had brought him to a showdown.

His wife vowed she certainly couldn't do her Saturday baking hopping around on boards in the kitchen—as for the bathroom, it was a disgrace—"But—they had to be painted."

Home sweet home's atmosphere was frigid, but thoughts within each other's minds were sulphurous.

He had to crawl out of it somehow.

He grabbed the telephone and told his troubles to Fred Hasit, the local hardware and paint dealer.

"Now, forget all that," was Fred's assurance. "I'll send you up some

'Dries and is Ready to Walk on in Thirty Minutes'

"Shoo your wife out of the kitchen right after supper and you can have a couple of coats of FLO-GLAZE THIRTY MINUTE LACQUER-ENAMEL ready to walk on before you put the cat out for the night. Less than two hours after Saturday lunch you can have the bathroom floor all slicked up for Sunday."

"That settles that," sighed hubby. "Now, Fred, if you've anything more up your sleeve about this quick-drying Lacquer-Enamel, let's have it," and the hardware man did:

"If you are real ambitious you can enamel your car with black or blue black and have it ready for Sunday morning."

FLO-GLAZE THIRTY MINUTE FLOOR LACQUER-ENAMELS are for interior and exterior floors. You can remove the furnishings from any room in your home, office or store, and apply a coat of Flo-glaze Floor Lacquer-Enamel and it will dry in thirty minutes. A second coat will be ready for service in an hour or so. Replace your furniture and you will have saved the inconvenience of waiting two or three days, as under former conditions.

FLO-GLAZE THIRTY MINUTE DECORATIVE LACQUER-ENAMELS are for the interior decoration of woodwork, furniture and other articles in the home. Each coat dries in thirty minutes or less.

Wax on hardwood floors requires polishing every two or three weeks. A floor finished with Clear Floor Lacquer-Enamel will not require attention more than twice a year.

Floors, woodwork and furniture may be finished in grained effects with Flo-glaze Lacquer-Enamels. The whole process on an average sized floor may be continuously carried out and ready for use in less than half a day.

The Clear Floor Lacquer-Enamel will not discolor the lightest or brightest patterns on linoleum or oilcloth.

The Floor Lacquer-Enamel can be used to restore worn linoleum and make it give longer service.

Amongst our numerous tests of Flo-glaze Lacquer-Enamels we have coated linoleum and subjected them to tests that were more than equal to four times the wear and tear found in ordinary domestic service. In every case, appearance and wear showed better conditions than paint or varnish. Correspondingly favorable results have been shown on both soft and hardwood floors.

SEND FOR PAMPHLET on FLO-GLAZE THIRTY MINUTE LACQUER-ENAMELS telling what these Enamels are, what they will do, and how to use them. A post card with your dealer's name will bring it to you by return mail.

—GUARDIAN OFFICE.—The Guardian's Western Office is now located in the McNeill Building; Water St., Summerside, where subscriptions, news or advertising will be received. The phone number is 233.

—RICH MEMORIALS.—Among the enterprising industries of Summerside is the Excellent Monumental Works conducted by the estate of the late Alfred Keough, of which Hon. James A. McNeill and Mrs. Keough are the executors. This business raised to such a high standard by the late Mr. Keough is being continued on the High Class principles so ably followed by its founder. The Show Rooms of the works at present display a varied and superior collection of Memorials in Granite and Marble the work on which have been executed in a manner which brings out the natural beauty of the rich stone used. The visitor may see 32 or more different designs from the small stones to the more elaborate monument. The originality of the artistic designs, even on the low priced stones is a point worthy of note. The Artisan who is responsible for the very artistic cutting on these stones is Mr. Stephen Livingstone who worked for years under Mr. Keough, and his work deserves the highest commendation as he spares no pains and turns out some Memorials which would give anyone a feeling of pride to erect. The Keough Memorial Works is doing a splendid business and is situated on First St. to the rear of the McNeill building. Anyone desiring a Monument would do well to see the stock of this firm before ordering as their prices are very reasonable and they give personal service.

Eastern Guardian
