

AVALANCHE HURLS THREE TO DEATH

Snowslide At Engadine Buries Tourists in Ravine.

BERNE, March 28 (Special)—An avalanche overwhelmed three tourists who were skilling near Pontresina in the Engadine. They were swept over a precipice and buried in the deep snow in a ravine.

OF SPECIAL INTEREST

PUERTO PLATA, Santo Domingo, March 25 (Special)—Congress has decided to investigate the loan of \$1,500,000 which is being negotiated with the National City Bank of New York.

The presumption is that more favorable tenders have been received, and that the projected loan will be made elsewhere. In the present political middle General Vasquez advises the President to remain in office. He promises to support that official, but insists that he must adopt the reforms demanded by the people.

AUSTIN, Texas, March 22 (Special)—Governor Colquitt, in honor of St. Patrick's Day pardoned J. W. Johnson, an Irish convict in the State prison, because of an "original" poem entitled "Erin's Flag," which he wrote in his cell and forwarded to the Governor.

A few hours afterwards it was learned that Johnson's poem is so similar to one written by the well known poet, Father Ryan, of Georgia, that it could be said to be almost copied. The first stanza of Johnson's poem reads: "Unfold Erin's old banner of green, Fly its folds to the breeze; Let it float o'er the land, Let it wash o'er the seas, Lift out of the dust, 'Tis bright with the deeds of the downtrodden."

From the opening stanza of Father Ryan's "Erin's Flag": "Unroll Erin's flag, fling its folds to the breeze, Let it float o'er the land, Let it wash o'er the seas, Lift it out of the dust, Let it wave as of yore, &c."

The Governor said he would not rescind his pardon of Johnson.

SUFFIELD, Conn., March 22 (Special)—Hugh M. Alcorn, State's Attorney, was seriously burned by electricity in his home here. Awakened by a bright light, he found an electric light pole in front of his house on fire.

Mr. Alcorn attempted to turn on the electric light in his room and was thrown to the floor. He tried to telephone, but received another shock.

It was found that a fuse box on the pole had burned out, crossing a

Vigorous Health Restored To Run Down Woman

Seemed to Have Lost All Ambition, Was Pale and Anaemic.

Made Wonderful Recovery When Dr. Hamilton's Pills Were Used.

"I was never actually sick," writes Mrs. La Pierre, wife of a well-known resident of Babine, "yet I never could get strong like other women. I ate well enough, but somehow rich and red blood I could never make. When I married I took a great pride in my housekeeping, but it kept me tired all the time. Mrs. Lechance, my neighbor, looked well—she told me her health had been made by Dr. Hamilton's Pills. I only thought of pills as a physic, but now I know that Dr. Hamilton's Pills are more for they quickened my stomach, liver and bowels—made me stouter and stronger, gave me such color in my cheeks as I never had before. I sincerely believe Dr. Hamilton's Pills should be used by every woman—that's why I write this letter."

No medicine invigorates and renews health and spirits like Dr. Hamilton's Pills, 25c. per box, five for \$1.00, at all druggists and storekeepers, or postpaid from the Catarthorone Co., Buffalo, N. Y., and Kingston, Ont.

WASHINGTON SURPRISED BY BRITISH COMMENT ON CHINESE LOAN

GET A TEN CENT BOX OF CASCARETS

Keep your liver and bowels active, and you feel bully for months

Put aside—just once—the Salts, Cathartic Pills, Castor Oils or purgative waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage or alimentary organs, and have no effect whatever upon the liver and stomach.

Keep your inside organs pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the intestines and bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Bloating, coated tongue, indigestion, Sour Stomach or Constipated bowels. Cascarets belong in every household. Children just love to take them.

high tension wire with a service wire.

Two months ago similar trouble occurred here, and Miss Gertrude Garrity suffered burns which necessitated the amputation of both the hands. She is suing the Northern Connecticut Light and Power Company and the Southern New England Telephone Company for \$150,000, and Mr. Alcorn is her counsel.

LONDON, March 22 (Special)—Stirring scenes were witnessed at the weekly gathering of militant suffragettes in a London music hall in the course of an address by Mrs. Emmeline Pankhurst. Shouts of "Why don't you show up the Premier!" and "Shoot him!" rang through the hall.

Mrs. Pankhurst, after referring to her own approaching commitment to jail on the charge of inciting persons to commit malicious damage to property, said: "In a letter from my daughter, telling me what she is doing against her punishment, she says she is trying to release herself as a prisoner of war from the enemy and is enduring all the tortures of imprisonment in solitary confinement."

At this moment the hall resounded with anathemas against Mr. Asquith and the other Cabinet Ministers. "My daughter Sylvia," continued Mrs. Pankhurst, "in the first eleven days of her imprisonment was not only forcibly fed, but was deprived of all books, and she is in solitary confinement, with the taking of exercise absolutely left to her own resources while undergoing that treatment."

Miss Lansbury and Mrs. Moore, two "militants" who, on being sentenced to a term in prison, went on a hunger strike, have been released from custody Mrs. Pankhurst announced.

She incidentally reviled the labor party leaders, saying they had professed to be in favor of woman suffrage, and had received both "personal and pecuniary," yet they had done nothing to forward the cause.

The militant suffragettes have declared war against their sisters who are working for the vote by constitutional means. A meeting of the constitutionalists, which Philip Snowden, socialist M. P. for Blackburn, was addressing at Gatehead, was thrown into disorder by a party of militants, who insisted upon interrupting Mr. Snowden. Quiet was not restored until the stewards, male and female, ejected the more warlike supporters of the suffragette movement.

The order for the forcible removal of the disturbing element was given by the chairman, and was accomplished only after vigorous resistance on the part of the militants.

Mr. Snowden said no government would be able to deal comprehensively with franchise reform unless prepared simultaneously to concede the franchise to women.

Assistant Secretary Adey Says There Was No Reason for Giving Official Notice to Foreign Government.

WASHINGTON, March 28 (Special)—State Department officials were surprised to learn that there had been comment in the British House of Commons on the failure of the British Foreign Office to receive official notice of President Wilson's announcement of policy toward the proposed six Power loan to China.

Assistant Secretary Adey, in the absence of Secretary Bryan, said there was no reason for giving official notice to a foreign government and that the attitude of the government toward this proposal was a matter between President Wilson and the group of American bankers concerned. The President, he said, had told the bankers that the administration would not request them to continue their negotiations for a share of the loan and that ended it as far as this government was concerned. Copies of the announcement, were, however, sent to the American

Legation in Peking and to the American envoys to the five other Powers interested for their information. At the White House it was said that a copy of the President's statement had been sent to the State Department and it had been assumed that whatever diplomatic action that might be necessary would be taken by that department. On the day the statement was issued Secretary Bryan had started on his Western trip. Mr. Huntington Wilson, who was at that time Assistant and Acting Secretary, sent in his resignation upon learning of the statement and quit the department the next day. Since the administration's new policy toward the loan was announced he has been asked here whether the Taft administration had taken any official cognizance of the loan. Persons familiar with State Department procedure declared tonight that

there had been official participation in the preliminary conferences in Peking. Mr. Boyce, the British Ambassador, late today, it was not denied that had a conference with the President. Mr. Bryce took up with the President his government's evident surprise at the lack of diplomatic information of the China policy. Mr. Bryce would not discuss the matter. It was suggested that the name of the man President Wilson hopes to make Ambassador to Great Britain was mentioned at the interview so that Mr. Bryce might communicate it to London, but this was not confirmed at the White House. Mr. Bryce several months ago announced his resignation as Ambassador, and at that time said he hoped to return to London late in the winter. He remained, however, to conduct the Panama Canal toll negotiations, and it is probable that he referred today to the status of the toll question.

General Horacio Vasquez, who has just arrived here from the capital, confirms the report of an attempt at a coup d'etat by Senor Don Jose Maria Nouel, Minister of the Interior, and brother of President Nouel; Senor Don Enrique Henriques, a lawyer, who came to Santo Domingo in January last and was regarded as a candidate for the Presidency, and Generals Vidal and Desiderio Arta, for the purpose of placing General Jaime Mota, the Minister of War, in the executive seat.

General Alvarez, commander of Fort Tadeo, frustrated the project. General Vasquez, who was the leader of the revolution which swept the Victoria government from power, is supporting the present administration.

NEW STRENGTH IN THE SPRING Nature Needs Aid in Making New Health-giving Blood.

In the spring the system needs a tonic. To be healthy you must have new blood just as the trees must have new sap to renew their vitality. Nature demands it, and without this new blood you will feel weak and languid. You may have twinges of rheumatism or the sharp, stabbing pains of neuralgia. Often there are disfiguring pimples or eruptions on the skin. In other cases there is merely a feeling of tiredness and a variable appetite. Any of these signs that the blood is out of order—that the indoor life of winter has lessened your vitality. What you need in spring is a tonic medicine to put you right, and in all the world of medicine there is no tonic car equal Dr. Williams' Pink Pills. These pills actually make new, rich, red blood—your greatest need in spring. This new blood drives out the seeds of disease and makes easily tired men, women and children bright, active and strong.

Mr. John Walfield, La Have Islands, N. S., writes: "I take great pleasure in telling what Dr. Williams' Pink Pills have done for me. I am a fisherman and fifteen years ago through hard work my system became run down and I could scarcely work at all. I lost in weight; my blood became poor, and I was very weak. I consulted several doctors but their treatment did not help me so I decided to try Dr. Williams' Pink Pills and in a short time I was entirely well again. My wife and daughter also used them with the Pills. We think so much of the Pills as a family medicine that we always keep them in the house."

These Pills are sold by all medicine dealers or can be had by mail for 25 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

score of physicians from all parts of the country were barred from the institution, it being explained that the demonstration was for the government's physicians exclusively.

Thirty-five patients were selected for inoculation at the Hospital for Deformities and Joint Diseases. Dismissal over the value of Dr. Friedman's treatment was emphasized when it was reported that the director of the People's Hospital were divided on the treatment and would hold a meeting to discuss a letter written by Dr. Jules Broder, of the hospital's staff, deprecating Dr. Friedman. The rumor added that several of the doctors would resign if a vote of censure was taken against Dr. Broder. Moses Greenbaum, president of the hospital, said that the matter would not be discussed at all.

PANAMA, March 26 (Special)—A deadlock was reached today by the Joint-American-Panama Land Commission for the adjudication of the values of canal zone lands. The trouble arose over the basis of appraisal. The American Commissioners, Professor Rowe and Dr. Falkner, maintained that the payment for the lands should be made on their value in 1909. The Panamanian Commissioners, on the other hand, insisted that the basis of payment should be on their value at the present moment.

The total excavations taken canal cutting up to March 1 are estimated at 192,936,071 cubic yards, leaving still to be excavated 25,142,272 cubic yards.

WASHINGTON, March 24 (Special)—Aeroplane experts in the War and Navy departments have scouted the idea that the British Army has evolved a flying machine superior to any in the possession of other nations, as announced in the House of Commons by Colonel John Seely, British Secretary of State for War. Captain W. Irving Chambers, of the Bureau of Navigation of the Navy Department, was inclined to accord highest aeroplane honor to the French army experts. "Recent improvements in the Dunne machine (British)," said Captain Chambers, "show that it possesses a remarkable degree of interest stability, but I think it will be found that the French machine of M. Drazewicki with tandem planes is superior in both stability and maneuverability."

Officers in the Signal Corps of the army also expressed grave doubt that the British experts had made any revolutionary discoveries. Incidentally, it was pointed out that United States Army experts have just perfected a new radio-aeroplane device.

WASHINGTON, March 25 (Special)—Franklin K. Lane, Secretary of the Interior, today signed an authorization for the expenditure of \$400,000 in cattle to stock the farms of the Crow Indians, of Montana, and \$150,000 for cattle to stock the farms of the Blackfoot Indians, of the same State. The scheme of the new Secretary is to make the Indians self-supporting as far as is practicable.

During the last ten days expenditures amounting in all to \$2,000,000 have been authorized by Mr. Lane. This money is to go for the purchase of seeds, farm equipment and cattle for the Indians.

P. H. Abbott, acting Commissioner of Indian Affairs, was present when the authority for the expenditure of the money for cattle was signed. So were many of the Crow and Blackfoot Indians of Montana. The latter were highly pleased with Mr. Lane's action. Chief Plenty Coups, of the Crows, gave to Mr. Lane the war bonnet worn by him in the inaugural parade and asked that it be turned over with the chief's compliments to President Wilson. Medicine Crow gave a tobacco pouch of Indian make to Mr. Lane and White Man Runs Him, another of the Crows, presented a beautiful goblet to Mr. Abbott for his wife.

EL PASO, Texas, March 26 (Special)—Mexicans arriving at Juarez from the south said they were a part

A Cure for Drunkenness Within the Reach Of All

That Alcoholism is a disease is now recognized by Science. No man in his senses brings disgrace and ruin on himself and family through choice. Alcure stops the craving for drink, builds up the system, steadies the nerves. It is guaranteed to cure or benefit or money refunded after a fair trial. Alcure No. 1 can be given secretly by any wife or mother waiting to restore a dear one to health and usefulness. Alcure No. 2 is the voluntary treatment.

Can be had at our store only \$1.00 per box. Ask for our free Booklet about Alcure. R. A. Foster, Central drug store, Charlottetown.

Chi-Ho, once a Korean Cabinet Minister, as well as Yan Ki-tak, a Korean editor; and Tai-Kog, another prominent Korean, and two others to six years' imprisonment each, while one of the other prisoners was sent to jail for five years.

At the first trial in September last year Baron You Chi-ho and several of the more prominent prisoners were sentenced to ten years' imprisonment and the others to terms varying from five to seven years each.

LONDON, March 27 (Special)—Windsor Castle, where the court has gone into residence, is being closely guarded, and special precautions have been taken to prevent women from making any demonstration of committing any outrages. A special staff of detectives has been sent to Windsor and the north terrace of the castle, which has always heretofore been open to the public, has been closed. Hampton Court Palace has also been closed.

Mr. James Kier Hardie, the socialist and independent labor member, who is one of the strongest supporters of the women's cause, had a peculiar experience at Manchester. He addressed a suffrage meeting in the afternoon and was interrupted by men with cries of "traitor." In the evening, when he addressed a meeting in connection with the annual conference of the labor party, suffragist and the others to terms varying from five to seven years each.

TOKIO, March 25 (Special)—Nineteen of the Koreans charged with conspiring against Governor General Count Terachi, of Korea, in 1910 and 1911, were found not guilty by the court, which delivered its judgment and sentences today on the second trial, according to a dispatch from Seoul to the Asahi.

The judges sentenced Baron You Chi-ho to ten years' imprisonment, and the others to terms varying from five to seven years each.

ITALIAN FORCES DEFEAT ARABS

Arabs Loses 220 Killed, Italian 24 Killed 123 Wounded.

TRIPOLI, March 28 (Special)—The Italian forces defeated a large band of Arabs. The Arab losses numbered 200 killed and many wounded. On the Italian side the casualties were twenty-four dead and 123 wounded.

several women had to be forcibly ejected. The women have promised to make demonstrations at all the meetings in connection with the conference, declaring that the laborites who are supposed to be supporters of women's suffrage are really traitors, as they will not force the government to give the women the vote.

LONDON, March 24 (Special)—Colonel John Seely, Secretary of State for War, in defending Great Britain's aerial service in the House of Commons, made some surprising statements. He declared Great Britain has 101 aeroplanes, many of which are of the newest type.

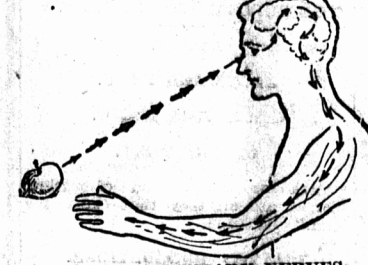

"England," he said, "has more new machines than any other nation. We have got the best aeroplanes in the world and several of them. We have evolved a type far superior to that of any other nation and we have a machine that can fly eighty miles an hour; also one that can fly thirty miles and hour and a biplane that can go a hundred."

"His crowning statement was that the mechanical difficulties of providing a quick firing gun for high angle fire has been completely solved and that experiments have shown that the actual difficulty of hitting an aerial target moving at an unknown speed at an unknown height has been enormously exaggerated."

"Everybody concerned," he said, "has been surprised beyond measure at the comparative ease and remarkable accuracy which can be attained in the fire on aerial targets. Any idea of hovering over a battlefield or a defenseless country by day must be abandoned."

Some Mysteries of the Nervous System Explained

THERE are two sets of nerves in the human body—those which have to do with external objects, and control seeing, hearing, feeling, moving, etc., and the involuntary nerves, which control the action of the vital organs, as the heart, lungs, stomach and bowels.

NO. 1—VOLUNTARY NERVES.

Illustration No. 1 shows how at sight of an apple the message is carried by the optical nerve to the brain, which receives, thinks and decides on some form of action, and sends out its command through the nerves which lead to the hand.

Simple as it may seem to see and pick up an apple, this act cannot be carried out if there is anything wrong with any of the nerves involved.

Injury to or weakness of the optical nerve means defective sight; disease of the brain or nerves may mean paralysis of the nerves which control the movement of the arms or fingers.

The brain is the source of all nervous energy, for here it is that blood is converted into nerve force, and for this purpose fully one-fifth of all the blood in the human body is consumed. This explains the necessity of looking to the condition of the blood at the first sign of nervous trouble, and shows how it is that Dr. Chase's Nerve Food, the great blood-builder, is so remarkably successful in curing diseases of the nerves.

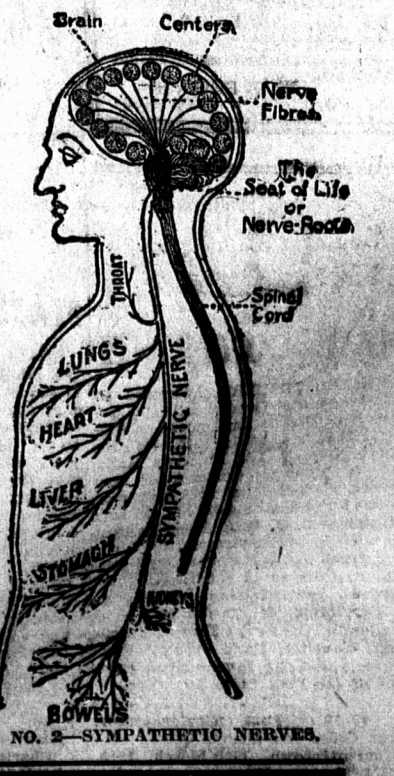

Now, when we turn to the great sympathetic nervous system, Illustration No. 2, by which are operated the vital organs of the body, we find conditions somewhat different. For who, by taking thought, can cause his heart to beat or his stomach to digest food?

To be more definite, consider the stomach, which is a regular network of nerves. Some of these report to the brain sensations of hunger, others keep up the peculiar churning motion, and again others control the flow of the all-essential gastric juices by which digestion is brought about.

From this you can readily understand that when nerve force is consumed by excessive mental strain, worry, intense emotion or disease, the supply to the stomach becomes limited, and nervous indigestion is the result, and similarly other organs are deranged and weakened when the nervous system becomes exhausted.

Dr. Chase's Nerve Food

cures nervous exhaustion and resulting derangements by supplying to the brain an abundance of pure, rich blood, the material from which alone nerve force can be manufactured. Because exhaustion of the nerves leads slowly and surely to locomotor ataxia, paralysis, and even insanity, it is most important that effective treatment, such as Dr. Chase's Nerve Food, be employed just as soon as warning symptoms appear. Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for \$2.50, at all dealers, or Edmansons, Bates & Co., Limited, Toronto. Every box of the genuine bears portrait and signature of A. W. Chase, M.D., the famous Receipt Book author.

NO. 2—SYMPATHETIC NERVES.
