The first hockey match in the All Star Hockey League of St. Dunstan's College was played yesterday in the College Rink. The game was between the Mohawks and the Perfects and was easily won by the latter. The score at the end of the game was 7 to 0 against the Perfects. It was a good indication of the evenness of play. For the winners Capt. W. B. McDonald did excellent work at goal, while Keough and Rooney on the forward line also played a strong game. Doyle was the star for the Perfects, but did not receive much support. Capt. J. C. McDonald's goal was not in his usual form, not doing such brilliant work as he has in the past. The next game between the Mohawks and Hobbes comes off on Thursday.

A pretty wedding was celebrated on November 14th, at the home of the groom's brother, Kenneth Graham near the Groton School, Mass, when Angus Graham and Miss Anna Swackheimer were united in marriage. The ceremony was performed by the Rev. H. A. Cornell, pastor of that place. The only witnesses were the immediate relatives of the bride and groom. Master Reginald Graham acted as bearer of the ring and little Miss Ruth Marion Graham as flower girl. The rooms were handsomely decorated for the occasion with evergreen, palms and cut flowers and a supper was served after the ceremony. Mr and Mrs Graham begin house keeping at the Reed Cottage near Mr. Heubner's where Mr. Graham is engaged in the florist work. (Mr. Graham is a son of Murdoch Graham, Bradalbane, while Miss Swackheimer is a native of Hamilton, Ontario.) Their many Provincial friends wish them a long and happy wedded life.—Groton Landmark Newspaper.

At the close of the service in the First Methodist Church Sunday evening, a short organ recital was given. A number of choice selections were rendered by Prof. Wright, and the beautiful qualities and tones of this magnificent organ were well brought out. Among the numbers played was one entitled "The Storm." It could hardly be imagined that such an imitation of thunder could be brought out on an organ. This selection opened up with a beautiful calm day everything is serene and the sun shining. Then the wind begins to blow and in the distance is heard a roll of thunder. Then, there is another lull and the organ plays softly. Suddenly there comes a loud crash of thunder so natural that it almost makes the audience shiver in their seats. The lightning flashes, afterwards comes a great calm, the sky clears, the wind goes down, and the ringing of the Church bells in the distance announce that the storm has abated and all is well. Professor Wright handled the organ with great effect. During the recital a number of hymns were sung all the audience taking part.

GOOD TEA BREWING IS UNUSUAL NOW.

A certain family of inveterate tea drinkers used always to inquire on the occasion of new people coming to the neighborhood, "Do they keep a good tea pot?"

"Alas!" exclaims a correspondent of the Lady's Pictorial, "how seldom nowadays could the question be answered in the affirmative! For my own part, being something of a fop, I look back with keen regret to long past days when tea making was tea making and every self-respecting hostess took the matter seriously.

"Even though one fine flunky carried in a silver kettle and another equally fine follows at his heels with a heavily laden tray, though they offer me sandwiches in their dozens, cakes and buns innumerable, nothing makes up for the flavor, the aroma, of the old Becha and Souchong.

"Then the fragrant leaves were live or six shillings a pound; now they are but a nominal price. Then the hostess made the tea herself with water from a kettle on an adjacent fire; now it is left to the tender mercies of James or the cook.

"No one knows or cares whether it is weak or strong, or how long it has been drawing before its arrival in the drawing room, and even then the dispenser of hospitality has to be reminded more than once before she tears herself away from some more congenial occupation. Sbad's of our grandmothers is the beginning and end when you get it is undrinkable! Either hot water bewitched, scalding to the tongue or a stewed decoction of the teapot and warracket!

To injure the strongest digestion. "For the golden age of tea making we must go back many years to a time when the mistress felt some pride in sitting behind her own tea urn, a position the eldest daughter alone presumed to occupy in her absence, and, incidentally, it may be remarked, there is no occupation more becoming to a charming woman than that of presiding over a well appointed tea table.

"It is to be feared that nothing less than some commercial catastrophe bringing the price of tea up to alarming figures will ever convince middle class housekeepers of the wastefulness of an unconsidered tea-pot. We may be very sure that in the days when Dr. Johnson used—as Boswell tells us—to drink enormous quantities of tea at all hours, it was no rapid, mawkish fluid he enjoyed, but a stimulating beverage, pleasant and exhilarating, or he would hardly have lived, in spite of a naturally feeble constitution, to the ripe age of seventy-five.

"If statistics are to be trusted English people are the great tea drinkers of western Europe. We regard our yearly increasing consumption of tea with complacency and rejoice to think what a sober people we are becoming and how much better it is for the national well being than an excessive use of alcoholic drinks. This is all very agreeable and very wise, but I would also like to put in a plea for better tea, for a fair priced and more carefully made beverage. Depend upon it, even more tea would be drunk, even fewer whiskeys and sodas imbibed, if each lady to the tongue or a stewed decoction saw to it that really good tea was served in her house."

Word was received in this city yesterday afternoon of the death in St. Louis of William Robins, son of the late Thomas Robins of Bedeque. No particulars were given beyond the fact that a stroke of apoplexy suddenly removed from active life a most popular and highly respected man, one who bore a reputation for honor and uprightness among all classes. The deceased was a brother-in-law of Mrs. Robert Hogg of this city and an uncle of Mrs. W. W. Clark and W. F. Robins, also of this town. He married Nellie, third daughter of the late James Gourlie, of Summerside, who with a son and one daughter and an adopted daughter are left to mourn their great loss. The Guardian extends heartfelt sympathy to both relatives and friends here and in St. Louis.

The funeral of the late John McInnis, Peake's Station, took place yesterday afternoon from the residence of his father Joseph McInnis, Ruskin, to St. Theresa's Church, and cemetery, Rev. Ignatius McDonald officiated at the service. The pallbearers were: Ward Crane, Stephen Crane, Joseph Mooney, Walter Currie, Louis Clarkin and John Fisher. The deceased, who was only seventeen years of age, met his death in the Maine Lumber Woods. He was killed by a heavy log rolling over him. He went to Maine only four and a half months ago and his sad death under such circumstances is to be deplored. He leaves to mourn a father, one brother out west and one sister at home to whom The Guardian extends sympathy.
