

34 DEAD, MANY INJURED BY STORMS IN U.S.

Eden's Illness Severe Blow To British Plans

British Peace Ambassador Ordered By Physicians To Take Complete Rest — Will Not Attend Stresa Parley.

(By Harold P. Braman, Associated Press Staff Writer)
(A. P. By Guardian's Special Wire)
LONDON, April 7.—The sudden illness of Captain Anthony Eden, Lord Frivry Seal and British ambassador for peace in the recent arms discussion, caused an upset today in Britain's plans for the Stresa Conference April 11 over the powers' future policy toward Germany.

HAUPTMANN'S ALIBI ATTACKED

"Moral Duty" Prompts Priest to Lay Bare Story.

(A. P. by Guardian's Special Wire)
MILWAUKEE, Wis., April 7.—A grey-haired Catholic priest, who said his sense of "moral duty" prompted him to break a long silence, today awaited arrival of Federal authorities whom he expected to investigate his story attacking much of Bruno Richard Hauptmann's alibi in the Lindbergh kidnaping case.

The story told by the Rev. Michael J. Kallok, pastor of St. Joseph's Church in suburban Cudahy, and in 1930 a cleric in Trenton, N. J., was given to Department of Justice agents who were to confer with New Jersey state police before proceeding further.

Long Planned

Father Kallok, asserting the Lindbergh kidnaping was planned long before the story of St. Anthony's was revealed, said he felt "I have a moral duty to bring to light details that for three years were kept secret because of the fear that someone might kill me for revealing what I know."

The former pastor of St. Anthony's Church on the outskirts of Trenton, said Hauptmann visited a riding stable on the L. C. Thompson farm, several miles from the Lindbergh estate, for several months prior to the kidnaping and that he knew the estate car-penter as "Brunor," "Richard," and "Hauptmann."

At one time, the priest related, he saw Hauptmann, who often rode horseback in the woods near the Lindbergh estate, emerge from a clump where many months later the kidnaped babe's body was found.

Studied House Plans

Father Kallok said Hauptmann studied plans of the Lindbergh estate at the office of St. Anthony's, Trenton, who had been seeking contracts for work on the Colonel's home.

"I saw Hauptmann many times," the priest said. "I saw him sitting on the porch of the stable building. I talked with him and at one time he saddled a horse for me. I saw him looking over a set of plans for the Lindbergh home and when he noticed I was looking at the plans

ANNOUNCEMENTS COMING EVENTS, MEETINGS, ETC

- *North Wilshire vs. Duedin at Downswal rink tonight. Skating after game. L-5717
- *Liveseek Marketing Board meeting at St. Stewart Tuesday afternoon, April 9th. Pleasor secretary. L-5721
- *Girls and Boys' Hobbies Exhibition April 15, 17, 18, at Y.M.C.A. Official opening Tuesday, 16th, at 7:00 p.m. Exhibits of hand-dicrafts of all kinds and hobby collections. Individual and group competitions in music, elocution, public speaking and entertainment. Display by Boy Scouts, Girl Guides and Trail Ranger groups. Entries open Tuesday, April 9th, 3:30 p.m. L-5722

UNITED STATES MINISTER TO CANADADIES

Warren Delano Robbins Passes in New York — Had Distinguished Career.

(A. P. By Guardian's Special Wire)
NEW YORK, April 7.—Warren Delano Robbins, United States minister to Canada and a first cousin of President Franklin Delano Roosevelt, died today after a week's illness of pneumonia. He was 50 years old.

The minister and veteran of the diplomatic service was taken to doctor's hospital last Monday after he had contracted a severe cold. He had come here from Ottawa to deliver an address.

Members of his family, who had remained close to him when his condition became critical, were at his bedside.

Mr. Robbins was born in Brooklyn, N. Y., Sept. 3, 1885.

Attended Harvard

Like the President and members of the Roosevelt family, he attended Harvard University, graduating in 1908. He immediately entered upon the career of a diplomat, becoming private secretary to the United States minister to Portugal.

Successively he then served at Buenos Aires, Paris, Mexico City and Guatemala before being assigned to duty in the state department at Washington in 1918.

In 1917 he was aide to the council of ministers of France, who visited the United States and later in the same year was attached to the Belgian mission to Washington.

Returning to foreign service he served at Buenos Aires and Santiago before he was recalled to Washington to become acting chief of the division of near eastern affairs. In 1921 he was appointed chief of the division.

Counsellor Of Embassy At Rome

Mr. Robbins was adviser to the United States delegation at the conference on the limitation of armament at Washington in 1921. He served as secretary of the personnel board and was named counsellor of the embassy at Rome in 1925.

In July 1928 Mr. Robbins was appointed minister to El Salvador, returning to the United States to serve as secretary of the American delegation to the international conference of American states on conciliation and arbitration.

He was named chief of the division of protocol in the state department in 1931. He then served there until his appointment as minister to Canada, succeeding Col. Hanford MacNider, on May 11, 1933, after the Roosevelt administration came into power.

Shortly after taking over his duties in Ottawa Mr. Robbins was called to London as assistant to the American delegation at the London economic conference.

Mr. Robbins married Irene de Bray of Buenos Aires in 1910. They had three children Warren, Edward and Helen. The daughter was married in Ottawa a year ago to Alexander Cochrane Forbes of Boston. President Roosevelt's mother attending the ceremony.

Well Known

A big man, more than six feet in height, and a noted polo player in his youth, the American minister was well known figure in Rockcliffe Park bridge paths at Ottawa. His house was always open to friends and he was known as a kind and generous host.

Besides his mother, he is survived by his widow and three children. He also leaves a sister Mrs. Cyril Martineau of London, and two half sisters, Mrs. George B. St. George and Mrs. Charles Fellowes Gordon of Tuxedo Park, N. Y.

Funeral services will be held Tuesday morning at 10 o'clock at the Church of the Incarnation here. Burial will be private in Fairhaven, Mass.

Nazis Poll 60 Per Cent Of Vote In Danzig Election

(C. P. Havas)
DANZIG, April 7.—Nazis polled 60 percent of the votes in the Volkstag elections here today, according to provisional estimates tonight based on final returns.

The Nazis had predicted they would poll at least 75 per cent of the total vote.

On the basis of the provisional returns, the Danzig Nazis will not be able to force revision of the constitution, the objective of their campaign. A two-thirds majority is required for this. Final returns, which must be re-checked, were:

Nazis 148,272; Socialists 39,772; Centre Catholics 32,958; Communists 8,268; German Nationalists 10,671; Polish Party 8,784.

In 1933 the Nazi vote was approximately 51 percent. Accordingly tonight's preliminary figures indicate a Nazi gain of about nine percent. The success of the Nazi campaign culminated in pre-election addresses here by Reich Air Minister Gen. Hermann Wilhelm Goering, Propaganda Minister Dr. Paul Joseph Goebbels, and Rudolf Hess, personal agent of Adolf Hitler in the Nazi party.

Proud Of Appointment On Eve Of Social Developments

(C. F. Cable)
(By Guardian's Special Wire)
LONDON, April 7.—In an interview in the Sunday Times today, John Buchan said in his opinion "Canada is on the eve of social developments of a far-reaching character."

"We in Britain have been undergoing these social changes for many years but in the Dominion the movement, because of physical circumstances, will be more swift and spectacular," he said.

"Rationalization has taken the place of the casual developments of the old days. In this new state of things, the citizen is finding new opportunities as well as new restrictions. He has the task not merely of industrial construction but also of personal adaptation."

"There is always something dramatic in the spectacle of a great nation going through a quiet revolution to a new destiny," said the distinguished author who will be Canada's next Governor-General. "To be ready to meet it is ever so much more than a privilege of which I am more proud than I can say."

Referring to Canadian literature, Mr. Buchan said he had not laid claim to any of his books in the Dominion. "There is still time to make amends," he added.

Mr. Buchan will be accompanied to Canada in October by Mrs. Buchan and their youngest son, Alastair, who is still at Eton. He may have a year at some Canadian university before going to Oxford. They also have one daughter and two other sons. Mrs. Buchan is a second cousin of the Duke of Westminster and distantly related to Canada's present Governor-General, the Earl of Bessborough.

THE WEEK IN OTTAWA

(By Frederick Edwards)
OTTAWA, April 6.—Minister of Labor Wesley A. Gordon told the House three weeks ago, during discussion of the Unemployment Insurance Bill, that the unemployed would be taken care of "in another way." What he meant is now becoming plain.

On Saturday, March 30, this subject was debated at a long session of the Cabinet Council. Although not officially announced it had been known that a public works scheme on a more comprehensive scale than ever before attempted has been under consideration by the government for some time and will, in all likelihood, be presented to the House before the week-end.

Already the committee has heard executive officers of the Eaton Company and Robert Simpson Company, Toronto, Hudson Bay Company, Winnipeg, and Dupuis Freres, Montreal, to have the retail business added to the 18 exempted categories in the measure.

A sitting of the Upper House will be held Tuesday afternoon. It's legislative slate is well cleared. With the exception of the few bills which have been advanced into the commons stage, practically all legislation received from the Commons has been pushed through and given the Royal Assent; but additional measures will be over from the House of Commons this week.

33 DEAD IN Southern States Hardest Hit In WEEKEND ACCIDENTS

Factory Blast, Train Crash, and Racing Car's Plunge Into Spectators Causes of Fatalities.

(A. P. By Guardian's Special Wire)
At least 33 persons were killed Sunday in widely scattered accidents abroad. A racing car plunged into a crowd in Chateau Thierry, France, killing five and injuring 22, three seriously. In Copenhagen, Denmark, 13 were killed and 50 to 60 injured in a railroad collision.

In Bombay, India, a blast in a fireworks factory killed 16 and started a landslide which may have killed and maimed many more. Rescuers were still searching the debris for bodies.

Bombay Blast

BOMBAY, India, April 7.—A blast in a fireworks factory outside Bombay which killed at least 16 persons today was so powerful it loosened boulders on nearby hillsides, precipitating a landslide which wiped out a small village.

An undetermined number were maimed in the explosion and the deaths and injuries were expected to mount when a check was made of the damage caused by the slide. Rescue workers were still digging frantically in the debris for more bodies.

The town was occupied by potter workers. Whole families were killed in the landslide, their dwellings swept away and themselves buried in the debris.

Train Wreck

COPENHAGEN, Denmark, April 7.—A collision between two trains on the main line between Ringoe and Vledding, in the Funen district, killed 13 persons today and injured from 50 to 60.

The wreck was blamed on a faulty signal given at Ringoe station.

Car Shot Into Crowd

CHATEAU-THIERRY, France, April 7.—A racing car careened off a highway at high speed today in a crowd of people, killing two children outright and fatally injuring a woman and a 10-year-old boy.

Twenty others were injured, three of them so seriously they were expected to die. The machine shot into the crowd, severing the legs of three of the injured and fracturing those of seven others.

The machine was driven by a racer named Cattaneo and crashed on a road race at Chateau-Thierry Hill. A sudden application of brakes caused it to leap from the road, hit a tree and bounce back across the highway again straight into the dense crowd.

Its rear end knocked down spectators right and left. The girl who was killed was a baby, two years old. The boy was 14. Cattaneo, the driver, was hurled clear and was unhurt.

Pope Leads In Prayer For Peace

(A. P. By Guardian's Special Wire)
VATICAN CITY, April 7.—Pope Pius in historic St. Peter's Basilica led an estimated 30,000 persons in prayer for peace tonight, four days before the opening of the three-power conference at Stresa, Italy, concerning Germany's rearmament.

The demonstration for peace, over which His Holiness decided to preside in person, was attended by the Ambassadors from Germany and France accredited to the Holy See and by representatives of the British and Italian legations.

The Pope entered the Basilica in a solemn procession, borne on his portable throne and preceded by 12 Cardinals together with ecclesiastical and lay dignitaries. He was carried to the Altar of the Chorus where the Blessed Sacrament was exposed.

He worshipped briefly and then marched in procession to the Altar of Sacrament. He knelt in solemn prayer, beseeching the Divinity for the tranquility of the world.

KILLED IN SUBWAY

NEW YORK, April 7.—Benjamin Clement, 36, was killed when he fell into the path of a subway train today.

Midwestern States Blanketed By Snow Fall—Farmers Fear Effect On Growing Crops

(A. P. By Guardian's Special Wire)
Death-dealing tornadoes, belated snow, floods, rain and dust storms mottled the United States weather map Sunday.

Twisting winds and lightning of weekend storms killed at least 34 persons in the southern states, 14 of them in Mississippi. Ten died at Gilster, six at Gillsburg and three unidentified negro children on a plantation 14 miles from Woodville. Ten were believed drowned in Louisiana following overturning of a houseboat by a high wind.

Alternating snow and rain swept the midwest, snow-plows shuttled over northeastern Missouri highways, clearing the roads after a fall ranging up to six inches at Macon.

The snow covered parts of Iowa, Illinois, Missouri, Nebraska and Kansas. Threat of an attendant cold brought some perturbation to farmers who had rejoiced in the gift of much-needed moisture.

The rain-swollen Green River routed more than 100 families from their homes in McLean County, Kentucky, as it rose eight feet above flood stage. The courthouse at Calhoun and the school house at Ramsey provided temporary shelter for refugees as an appeal for tents was forwarded to American Red Cross headquarters at Washington.

Dust storms continued to boil in the southwestern high plains area. Rains and mist covered the Pacific Coast.

34 DEAD

MOOCOME, Miss., April 7.—Thirty-four persons today were reported dead and more than 100 injured in the wake of tornadoes which swept over Louisiana, Mississippi, Texas, Alabama and Florida yesterday afternoon and last night.

The tornado took its heaviest toll in this section of Mississippi with 10 reported dead at Gloster, 8 at Gillsburg and three on a plantation near Woodville, Miss.

Rescue crews searched for the bodies of 10 persons believed drowned when winds overturned their houseboat at a logging camp six miles south of Lake Providence, La.

Three others died in scattered sections of Louisiana and Texas.

Fear Frost Damage

KANSAS CITY, April 7.—A belated snowstorm pushed through a section of the United States midway today on the heels of reviving rains, carrying an attendant threat of frost damage to spring crops.

Six inches of moist, clinging snow fell around Macon, Mo., in the northeastern corner of the state. Highway snowplows were called out to keep the roads open. Lighter snows fell in other sections of Missouri, and in Iowa, Illinois and Kansas. Springfield, Ill., had two inches of snow that later turned to rain.

Freezing weather was predicted here tonight after mixed snow and rain had deposited a total precipitation of 1.5 inches.

Effect of the late thrust of winter on growing crops was problematical. Prairie farmers had rejoiced in the general rain which greened vegetation, melted fields and cut the extent of the drought-dust belt.

Cattle which had blown nostrils in distaste at silt-filmed pastures grazed eagerly on grass washed clean by rain. Wheat changed color and alfalfa fields improved.

Precipitation, however, missed much of western Kansas, eastern Colorado and the Panhandle country, where a four-year dry spell has been climaxed by severe dust storms this spring.

FLEE FROM HOMES

CAIRO, Ky., April 7.—More than 100 families along the Green River in McLean County fled from their homes today as the river rose eight feet above flood stage.

The Calhoun chapter of the American Red Cross telegraphed Washington headquarters that tents were needed for the homeless.

A section of Island, Ky., was under water and a number of families had fled to higher ground.

TEN DROWNED

LAKE PROVIDENCE, La., April 7.—Reports reached here today of the drowning of ten persons in a houseboat overturned by storm winds at a logging camp six miles north of Lake Providence.

Two negroes who escaped from the boat when it sank last night arrived here today and told of the accident.

SEVEN MEN PERISH IN SNOWSLIDE

Brothers Make Gruesome Discovery When Taking Supplies to Mining Camp.

(C. P. By Guardian's Special Wire)
VANCOUVER, April 7.—Plans for recovery of the bodies of seven men whose lives were snuffed out by a snowslide which engulfed their lonely mining camp in the remote Fraser Lake country, probably during British Columbia's severe, January snowstorm went forward tonight.

Discovery of the tragedy which wiped out the Taske-Moherode mining property camp was made by two Allaire brothers, Bridge River trappers, who made the hazardous four-day snowshoe trek to carry mail and supplies to the isolated men.

The brothers found all evidences of the workings obliterated. Investigation revealed the body of one man buried in the snow, partially devoured by wolves. There was no sign of the others but they felt certain all had perished and they hurried out to civilization to report their gruesome find.

Weather Etc.

SOME FOLKS FEEL SO BADLY ABOUT NOT HAVING MONEY THAT THEY GO SHOPPING TO CHEER UP!
