"The Cold Storage Egg" is not always above suspicion. Popular imagination ascribes great food value to the egg—but it is not a muscle-builder. There is more real body-building nutriment in a Shredded Wheat Biscuit than in the same weight of eggs or beefsteak and it costs much less. Delicious for any meal with sliced peaches or with fruits of any kind.

### Entente Allies Will Control Shipping

LONDON, September 23.—The continued depletion of the world's supply of tonnage as a result of the operations of the submarines of the central powers will be met by an increase in stringent measures by which the entente allies design to control shipping, so as to ensure indirectly aiding their opponents, according to a statement made to The Associated Press today by Lord Robert Cecil, minister of war trade.

Lord Robert admitted that even the present rate of destruction, without considering the possibility of a resumption of unrestricted submarine warfare, meant a serious loss to the world's tonnage, and that consequently it could not be expected that British coal or other British facilities should be expended on ships carrying goods to the blacklisted firms. The entente allies will increase their shipping measures which already are proving valuable, in making the best use of available tonnage in proportion as the Germans succeed in destroying merchant ships.

The minister of war trade said that as a matter of course the entente allies would be favored as regards the use of tonnage, and that neutrals engaged in entente allied trade, or in unsuspected neutral trade would be given the next consideration. Neutrals suspected of unneutral acts, he added, would not enjoy the usual facilities.

Lord Robert said that the answer of Great Britain to the American government's protest against the seizure of mails would be sent to Washington almost immediately, and that the reply to the American protest with regard to the entente allies would follow shortly.
