

## THE KING NOW SLEEPS WELL THE WOUND IS LESS PAINFUL

The Anglo-Phobe Press of French Canada and King's Illness—Manitoba Judge Critically Ill—Serious Accident to Attendants of a Funeral.

**KING ENJOYS NATURAL SLEEP.**  
LONDON, July 7.—(Special)—Bulletin posted this morning states that the King had nine hours natural sleep and his progress continues brighter.  
**THE WOUND IS LESS PAINFUL.**  
The wound continues discharging freely and is less painful to dress.  
**KING'S ILLNESS IS DIPLOMATIC.**  
MONTREAL, July 7.—(Special)—Led by La Verite Anglo-phobe press of French Canada in associating the King's illness as merely diplomatic, devised to cover enforced postponement of the Coronation and wasowing to King's life being threatened.  
**A NEW TELEPHONE COMPANY FORMED.**  
TORONTO, July 7.—(Special)—The Gazette

announces the Canadian Machine Telephone Co. with head office at Ottawa and capital of \$250,000. Authorized to do business in Ontario. Among directors are Geo. E. Foster, J. E. Ganong and Dewolf Chipman, St. Stephen.  
**JUDGE STRICKEN WITH APPOPLEXY.**  
REGINA, July 7.—(Special)—Mr. Justice Richardson was stricken with apoplexy today and now lies in a critical condition.  
**INJURED WHILE ATTENDING A FUNERAL.**  
CHARLESTON, S. C., July 7.—(Special)—Twenty negroes were injured on Sunday by the falling of the front veranda of Emmanuel Church while a funeral of a colored preacher was being held. Over 200 people were buried in debris.

## SYSTEM OF WATERWORKS INSTALLED

For the New Parochial Residence

### AT HOPE RIVER, P. E. I.

A Hydraulic Ram Carries The Water 2,800 Feet in the Distance.

Rogers & Rogers' plumbers have just returned to Summerside from Hope River where they have completed the installation of a first-class system of sanitary plumbing and hot water heating in the handsome new parochial residence of Rev. J. E. McDonald. An important feature of the plant is the manner in which the supply of water is obtained. Hitherto it was impossible at this place, after making several borings of over 100 feet, to get water; while beyond a radius of about a half a mile boiling springs of the purest water to be had anywhere abound. By means of a Hydraulic Ram this long felt want has been supplied and now Father McDonald enjoys the luxury of a complete system of waterworks. The spring from which the water supply is secured is 2,800 feet distant from the parochial house and the water is conveyed over an intercepting hill 47 feet in height, thence down a hollow and thence again raising to an elevation of 123 feet above the spring to the parochial residence. Galvanized pipe is laid underground all this distance through which the water is forced by the Hydraulic Ram. The Ram works quite automatically and without requiring any attendance. The simple and effective operation of this machine and its great durability will, renders it the most useful and valuable apparatus yet developed in the department of hydraulics for elevating water and conveying it along any desired distance. Rams are frequently and successfully employed for driving water a distance of 100 to 200 rods, above the ram to an altitude of 100 to 200 feet and severer trials than these even, testify to the indispensability of this almost automatic device. Previous to and during the installing of this machine at Hope River there were many sceptics who threw doubts on the feasibility of the work for which it was intended, and many looked forward to the first test made a few days ago. To the satisfaction of the plumbers and all concerned there was no trouble experienced in its manipulation, and on the day of the tea party there last week when a large crowd had gathered to witness its power many expressions were heard in eulogistic terms of the highly satisfactory experiment. Experiment, we say because, though these machines are in use elsewhere, this is the first one ever placed in this province. And so pleasing has the work been performed that already others are contemplating installing a similar system. That the advantages of this ram are many may be gathered from the fact that on the way from the spring to Rev. McDonald's premises water is supplied sufficiently for the stocks of four farms which the piping crosses. Reaching its destination the water is conveyed to a large tank in the attic of the parochial house from which it is distributed to the bath room, kitchen, pantry, office, and to the boiler in the cellar, which heats the house; also in a like manner the water is conducted to the horse stable and cow stable. Being a new departure, here the Hydraulic ram has given a new idea to our people who require considerable water and have not the proper means of obtaining same with anything like labor saving principles.

**ROBERT HARRIS, MONTREAL,**  
President of the Royal Canadian Academy.  
Robert Harris, President of the Canadian Academy, Montreal, who has been created a C. M. G. by King Edward, is a native of Charlottetown, P. E. Island, and a brother of Mr. W. Crichton Harris, of Harris & Horton, architects, this city and Rev. E. A. Harris, rector of Malbone.

### CANADA'S FINANCES IN PAST AND PRESENT.

Some interesting comparisons between Canada's financial past and present was given by the veteran banker Geo. Hague last week before the shareholders of the Merchants Bank of Canada. In summing up his remarks the Montreal Witness says: In 1854, the total deposits of the banks were under \$15,000,000, and now they amount to \$370,000,000 besides deposits of nearly \$100,000,000 in the various savings banks and loan companies. Of this \$15,000,000 the Bank of Montreal had about \$6,000,000 and now it has some \$90,000,000. The discounts of the Bank of Montreal at that time were about \$11,000,000 and now they are more than \$60,000,000. The discounts of all the banks were only about \$125,000,000 in 1877-78 very bad years for Canada, and now they amount to more than \$350,000,000. When Mr. Hague became general manager of the bank in 1877 affairs were desperate and he had to weed out and adjust insolvent estates to the amount of \$3,000,000 in the first three years a tax taking control. In June, 1873, Bank of Montreal stock stood at 227 1/2, in 1877 it went down to 133 1/2, in 1878 the lowest point was 134 1/2, and in 1879 it touched 125. It sells now at from 255 to 257. Most of the seventies were dark financial years for Canada. Bank of Toronto fell from 176 in 1867 to 105 in 1879; Bank of Commerce from 122 in 1877 to 96 in 1879; and Merchants Bank from 125 a few years before dropping to 66 in 1877. A change for the better took place in 1880. Our exports in 1879 amounted to only \$73,000,000, last fiscal year they were \$197,000,000, and this year they will be \$210,000,000. In 1861 the population of Canada was 4,300,000, and the total foreign trade was \$200,000,000. In 1901 the population was 5,400,000 and the foreign trade amounted to \$337,000,000. So that while the population increased about 25 per cent the foreign trade increased 90 per cent. The increase in the moneyed wealth of the people has also been extraordinary, for during the same time that the population has increased 27 per cent the deposits held by the banks for the Canadian public have increased 340 per cent. Mr. Hague refers to the fact that there is now in Canadian banking far less than there used to be of the bad element of advances resting upon fixed property. It is well known, as he says, that every bank crisis has been precipitated by abnormal advances of this kind. It is interesting to observe that while our discounts have increased \$20,000,000 in the last three years our foreign trade has increased \$36,000,000 and that this is a sample of what has been going on for years past. We comment Mr. Hague's address to the careful attention of all who are interested in the financial and commercial progress of the country.

## OFFICERS OF WOMEN'S COUNCIL WERE ELECTED YESTERDAY

Matters of Constitution and the Changing of Meetings From Annual to Biennial or Triennial Discussed—Committees Appointed—Public Meeting Held.

St. John, July 7.—(Special)—The Women's Council was lively to-day. The officers elected were as follows: President.—Mrs. Robert Thompson. Vice Presidents.—Lady Laurier, Lady Taylor.  
**PROVINCIAL VICE PRESIDENTS.**  
Ontario.—Mrs. Hoodless. Quebec.—Madame Dandurand. New Brunswick.—Lady Tilley. Nova Scotia.—Mrs. R. L. Borden. P. E. Island.—Mrs. Anderson. Manitoba.—Mrs. McEwen. Northwest Territories.—Miss Katie Cummings. British Columbia.—Miss Pierson. Treasurer.—Mrs. Learmont. Corresponding Secretary.—Mrs. Willoughby Cummings. Recording Secretary.—Miss Laidlaw. After congratulations the Council took up constitutional matters. On the question of changing meetings from annual to biennial or triennial these were matters discussed and with amendments it was finally decided to appoint a committee of 12 to consider the whole question and to report in 1903. There was a lengthy debate over the selection of the Committee. It was decided that the officers represent the national body and each province have one delegate on the Committee. Mrs. R. L. Borden was chosen from Nova Scotia and Mrs. J. E. B. McCready for Prince Edward Island. A motion was passed that next annual meeting appropriate \$400 salary to the Corresponding Secretary. Other financial affairs were left to the annual meeting. It was decided to publish abstract of full minutes. A motion was passed decreasing that each Local Council pay an annual fee to the National Council at rate of \$1 for each society affiliated with it instead of annual fee of \$5. Also that each Local Council pay the National Council as much as said Local Council decided upon. After meeting adjourned the Council attended a social function at Mrs. J. V. Ellis. To-night a public meeting was held, manual training and domestic schools being discussed. Professor Kincaid, Dr. Inch, Rev. DeSoyres and James Hoodless of Ontario were the principal speakers.

### HUNGARIANS FOR THE NORTHWEST.

OTTAWA, July 5.—Court Paul Esterhazy, who was instrumental in sending some 900 Hungarians to the northwest, was in the city to-day interviewing the deputy minister of the interior. Count Esterhazy is on his way to Montreal to meet 300 more Hungarians who are on their way to the West to settle there. They have proved very good settlers.

### A QUARTER OF A CENTURY.

A Long Time to Spend in Sickness and Suffering—But it all Had a Happy Ending.

**EGGONMY POINT, N. S., July 7th (Special).**—For over twenty-five years Mr. Geo. S. McLaughlin of this place was an invalid through Lumbago. At times his back was so lame that he could not turn himself in bed and the slightest cold or hard lifting would bring on an awful attack, which gave him fearful pain. He commenced a treatment of Dodd's Kidney Pills and in a short time all the pain left his back, and it became as stout as strong as ever, and since then he has had no return of the terrible Lumbago. He says: "I believe Dodd's Kidney Pills will cure any case of Lumbago that they helped me out, and nobody could have it much worse than I had."

## Picnic Baskets.

One case nice, light PICNIC OR MARKET BASKETS, all sizes. Prices from 10c. to 30c. each. THEY WON'T STAY HERE LONG.

### Haszard & Moore's

We have just received another shipment of \$3-50 INVICTUS BOOTS

Agents for Ch'town.

## ALL NEWS OF LOCAL INTEREST

Lots of enjoyment at the Grace Church picnic on Wednesday, at Mcrell. Be one of the pleasure seekers that day.

**REMEMBER St. Paul's Sunday School to-morrow at Red Point wharf!** Steamer leaves ferry wharf at 10 a. m. and 2 30 p. m.

At the Police Court yesterday morning the case against Martin Power charged with taking a pair of boots from the shoe store of Wm. Conroy was dismissed, a settlement having been effected between Mr. Conroy and the defendant.

**SCHOOL EXAMINATION.**—The closing exercises of the school at Kingston were held in the village hall on the afternoon of Monday, June 20th. The trustees and a large number of parents and visitors were present. The hall was prettily decorated with ferns and flowers by the children and the teacher, J. H. McFadden. The proceedings were begun with a chorus of welcome by the children, after which the various classes were examined in reading, spelling, grammar, geography, history, french, etc. Though very severe and exacting, the result of the examination was very creditable to teacher and pupils alike, and spoke of patient, well-directed work. When the examination was over, a quite lengthy program, consisting of readings, recitations, dialogues, choruses, songs, etc., was capitally rendered by the children. At the conclusion of the program, the visitors and children were treated with confectionery by the teacher. Some very complimentary remarks were then made by the trustees and others who expressed perfect satisfaction with the work of the school, and congratulated both children and teacher on the success of their examination. The singing of the National Anthem brought to a close what was a most successful as well as very pleasing examination.—One who was present.

### THE CAUSE OF DEAFNESS.

Deafness and impaired hearing are due almost entirely to catarrhal inflammation of the eustachian tubes. Permanent cure is guaranteed to all who inhale Catarrhona as directed. The vegetable antiseptic is inhaled at the mouth and after traversing all the air passages of the respiratory organs is exhaled through the nostrils; it completely eradicates catarrh from any part of the system, clears the ears, nose and throat, and allays inflammation, congestion and soreness. For Deafness, Earache, Ringing in the Ears, Head Noises, Catarrh, Asthma and Bronchitis, medical science can devise nothing as beneficial as Catarrhona. Complete outfit for two months use, price \$1.00; trial size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.
