Coughs

are not all of the same character and have different causes. No one remedy can therefore be made that will be certain to cure every case.

But ordinary coughs due to an irritated condition of the membranes of the air passages induced by a recent cold are quite sure to be promptly cured by

Jamieson's White Pine and Tar

cough mixture. The kind o a remedy to be depended upon as a general family cough cure.

HOW CAN FARMERS OBTAIN PURE SEED?

The above question is being asked many times by our Farmers Institutes and by farmers, all over the Island, now that the time for purchasing seeds is at hand.

The purity of our imported seeds has greatly improved since the enactment of the Seed Control Act of 1905. Following that, as soon as a sufficient quantity of pure seed was obtainable, further restrictions were added to seeds sold under the Act to prevent the spread of noxious weeds in the Provinces.

On January 28th, 1910, a further amendment to the Seed Control Act was passed at Ottawa, providing that the vitality of all seeds offered for sale as No 1 shall be up to a certain standard of germination. The third section brings under the Act alfalfa, to be dealt with as grass and clover seeds. Many noxious weeds had come to us in this seed previously, notably rib grass and night flowering catch-fly. The bill also adds wild radish to the list of prohibited seeds and introduces some explanatory names of seeds mentioned in the seventh section of the Act.

In the recent debate in the House of Commons much valuable information became available. It was clearly shown that there is only one Government Standard of Seed and that is No 1. Section seven of the Bill defines what No 1. seed is to be: It may be called "Finest," "Best," "Choice," "XXX," "Fancy," "Selected," "Prince" or any other name that indicates the seed to be of first or superior quality. Such seed is included under the Act as No 1.

It was stated by the Minister of Agriculture that out of the thousands of samples of seeds marked as No. 1. tested in his Department less than one half of one per cent has failed to come up to the standard. The Government has no definition of any lower standard than No 1. They provide for the marking of all other seed so as to show the noxious character of the weeds it contains.

Much of the so-called "Government Standard" seed is sold which often does contain many noxious weeds. Every bag or package of such seeds sold legally must have marked on it plainly the full name and address of the seller, and the common name of the kinds of noxious weed seeds contained. Are our seed merchants complying with the requirements of the Act?

If the farmers of this Island will buy seed plainly marked as No. 1. on the outside of every package or bag they take home, they will receive pure seed, and if they are in any doubt they should send a sample of the seed to the Seed Commissioner, Ottawa. A sample should be sent even though the seed is sown the same day it is purchased.

PREMIER ASQUITH AND HIS ALLIES.

It has been the subject of many cable despatches and of much remark everywhere that the recent elections have left Mr. Asquith at the mercy of his allies, the Nationalists and the Laborites, notably the former, who may be said to hold the balance of power. But while this is true, it is equally true that neither the Nationalists nor the Laborites can progress a single step toward the ends for which their respective parties exist without Mr. Asquith's assistance.

It would be in vain that Mr. Redmond would look to Mr. Balfour, or the Unionist party, or to the House of Lords to give Ireland Home Rule. All these are hostile to the aspirations of Mr. Redmond and his supporters. He cannot fight them or remove them, or overcome them alone, and the only quarter to which he can look for effectual aid is to the Liberal party and its leader. The Laborites are in much the same situation and in similar relation to the Liberal leader.

It does not, therefore, by any means express the full situation to say that the Liberal leader and his party are at the mercy of Mr. Redmond, or of the Irish National party and the Labor party together. It is this relation of mutual dependence for the accomplishment of their respective aims and aspirations that holds the allied following of the Liberal leader together and may keep them together for a good while to come.

Very few probably of the newly elected members of the House of Commons desire to be immediately sent back to their constituents. And on the side of the allied majority there is probably some fear that in the event of another early appeal to the people the Unionist Opposition might gather increased strength. This consideration furnishes also its share of inducement to the Liberals and their sometime allies to keep together. They are not a very congenial family, but they may be able to live together until some of the objects they all have in view shall yet be accomplished.

So far the Provincial Legislature has been kept reasonably busy, and has shown a disposition to work and to waste very little time in unnecessary debate, while general good feeling has prevailed between the opposed parties.

PILES CURED IN 6 TO 14 DAYS.

PAZO OINTMENT is guaranteed to cure any case of itching, Blind Bleeding or Protruding Piles in 6 to 14 days or money refunded 50c.

During the recent discussion of amendments to the Seed Control Act at Ottawa a new danger was pointed out in the way of small weeds seeds in the bran sold for cattle feed, large quantities of which are from time to time sold in this Province. If the grain from which the bran is produced is not ground close, many small weed seeds pass through the grinding process in such condition that they will germinate. When fed to cattle such seeds pass into the manure and thence to the soil. An inspection of cattle feed with a view to ensure that it is not made the medium for distributing weed seeds would seem to be necessary.

They are beauties. Patent in Pumps, Blucher Laced and Buttoned, also same in Kid and Gun Metal all fresh from the factory.

GOFF BROS.

A good deal of interest and some feeling has been evoked by the clause in one of the city bills now before the Legislature proposing to abolish the salaries of the Water and Sewerage Commission. It is now intimated that it may be amended so as not to take effect until the end of the term for which the Commissioners were recently elected. Obviously the intention of the clause as it was framed was to take effect at once, but whether at once or two years hence the principle is the same. We seriously question the advisability of asking men of standing and ability to place themselves under heavy bonds to render this service purely as a labor of love.

The trouble in the Conservative camp over Mr. Russell, M. P., for East Toronto, and the twenty delegates from that riding to the Ottawa convention, arises from some distance in the past. East Toronto is very strongly Conservative and at the election of 1908 Mr Kemp, the former representative, was the regular Conservative candidate. Had he been opposed by a Liberal his success would have been sure. Mr. Russell ran as an independent, getting both Conservative and Liberal support. He went to Ottawa and took his place on the Conservative side and attended the party caucus. Mr. Kemp's Conservative supporters are hostile and think Russell should not be allowed to attend the party caucus at Ottawa. Mr. Borden declined to interfere. Apparently there will be two sets of delegates sent to the convention from East Toronto — Russell delegates and Kemp delegates. It is a lively, local family quarrel as it stands.

Rheumatic Families

Inherit a Tendency to Disease.

Medical opinion confirms the view that rheumatism and gout are transmitted from one generation to the other.

Only by combating nerve and blood weakness can these be prevented. If they exist in the family, they develop quickly when the blood becomes impure or the nerves weak.

Mr. E. E. Hollister, St. John's, says: "Early in life I was occasionally troubled with aching pains in the back. Later my joints became stiff in bad weather, and lately gouty conditions developed.

"These troubles I knew were very common in my family. I can recall how stiffened up my grandfather was from enlargement of the joints.

"A specialist in New York told me that only by maintenance of the most vigorous conditions could these family predispositions be prevented. Because of his advice five years ago, when Ferrozone was first introduced into this colony, I began a systematic building up of my system. The New York specialist's opinion was justified in my case, and I presume it is generally true.

"Before six months had passed I had gotten rid of every vestige of rheumatism and my health was visibly improved."

For rheumatism, gout and general bodily weakness there is no remedy like Ferrozone; try it, 50c per box, six boxes for $2.50, all dealers or The Catarrhozone Co., Kingston, Ont.

BOY'S HORRIBLE DEATH.

TORONTO, March 2—The death of John Taylor, aged 10, took place in the Hamilton Hospital from hydrophobia. He was bitten by his own dog and the doctors failed to recognize the symptoms. He suffered fearful agony.

RANG IN FALSE ALARM TO ROB FIREMEN.

TORONTO, March 1—Calling the firemen out by a false alarm of fire at Woodstock, Ont., thieves got into the fire station and robbed the men of all the money and jewelry left in their clothing and lockers.

How Does Your Ad Look?

Does it "stand out" like a "sore finger" or is it buried in the commonness of composition?

Do you know Mr. Business Man that there is a whole life-long study on the technical points of the print shop?

I have made a study of advertising for years and in addition have a thorough grasp of the fundamental principles of attractive advertising--contrasting and concentrating of type faces.

Only one merchant in each town in any particulas line will receive my service. For particulars phone
