Girl Students In India Face Murder Charge

Are On Trial In Calcutta Before Special Tribunal For Murder Of District Magistrate—Rioting Continues In Bombay.

(By James A. Mills, Associated Press Staff Correspondent)

BOMBAY, India, Jan. 18. (A.P.)—Police fired into a crowd of 600 natives today in the village of Gujerat, near Pombawar, killing one person and wounding another. The natives had attacked them with stones after six of the local leaders of the all-India National Congress party were arrested.

In Bombay, about forty Nationalists, including a group of fourteen saffron clad Besmevika girl picketers, were arrested for trying to prevent gold shipments to Great Britain and the United States. Other girls immediately stepped forward to take their places in the picket lines. Fourteen Nationalists, including the dictator of the Bombay branch of the Congress, were arrested as they scooped water from the sea for the purpose of making salt in obedience to Mahatma Gandhi's injunction.

In Calcutta, Miss Santi Ghose and Mrs. Unity Chowdhury, Government high school students, went on trial for murder before a special tribunal established under the recent emergency ordinances. The girls were accused of killing G. G. B. Stevens, the district magistrate at Comilla, at the outset of the Nationalist trouble several weeks ago.

In protest against the government request that G. B. Halstead, a missionary from the United States, leave the country because of an article he wrote calling upon Christians to support Mr. Gandhi, students at the Christian College of Lucknow paraded the campus with black mourning flags. The missionary was social director at the college. The students asserted they would resort to a hunger strike.

Thirty three Congress volunteers were sentenced in Bombay to six months imprisonment at hard labor for picketing, making contraband salt and being members of the Nationalist organization. The Bombay Stock Brokers Association sent a petition to Lord Willingdon, Viceroy of India, asking him to remedy the "terrible effects of the present unrest on the trade, commerce and prosperity of the city."

The Viceroy's recent refusal to see Mr. Gandhi was most unfortunate and ill-advised, the Association said, and the petition reminded Lord Willingdon that even now it was not too late to reopen negotiations and to remove the emergency ordinances. The stock brokers urged the public in the interest of national prosperity to buy native made goods.

Death Yesterday Of Mrs. J. O. Hyndman

The death of Mrs. John O. Hyndman took place Monday, January 18th, at her late residence, 9 Longworth Avenue, after a short illness of about two weeks. For the past year she had not enjoyed her usual good health but notwithstanding this her death comes as a severe shock to her relatives and many friends.

The late Mrs. Hyndman was the daughter of Joseph R. Brecken and Mary Ella Beer, both of whom predeceased her. Her only brother, Walter R. Brecken, also died about twenty-seven years ago and Mrs. Hyndman was the last of her family. The late Mr. Arthur A. Alley her step father, passed away about two months ago and his death was keenly felt by his step daughter.

Mrs. Hyndman led a very active life participating to a great extent in sports of all kinds. She was generous with her time and ability in promoting anything which was beneficial to the community. All her life she was a faithful member of St. Peter's Cathedral and will be greatly missed in the many activities in connection therewith. She was a devoted worker and always ready to undertake any work which advanced the interests of her church.

She leaves to mourn her sad passing her husband, Mr. John O. Hyndman, and daughter Constance, to both of whom the sincerest sympathy of their many friends is extended. An only son died in infancy about 17 years ago.

Four Provinces Show Increases In Building Permits

OTTAWA, Ont., Jan. 18. (By the Canadian Press)—New Brunswick, Quebec, Ontario and Manitoba recorded increases in the value of authorized building in 61 cities in December as compared with November. The value of permits issued was \$7,387,984. The gains of \$342,857 in Ontario and \$246,265 in Manitoba were the most pronounced. There were declines in the other provinces.

The value of permits issued in the calendar year 1931 was \$110,971,410, which is the smallest aggregate since 1920. It should be noted, however, that the bureau's index numbers of wholesale prices of building materials are also consistently lower than in any other year since 1920. That index was 82.6 in 1931 and 152.4 in 1920.

WILL ADDRESS CONSERVATIVES AT LUNCHEON

It Is Anticipated That 1,000 Persons Will Be Present Tonight When Prime Minister Speaks.

(Special to the Guardian)

TORONTO, Ont., Jan. 18.—Keenest anticipation and a brisk demand for the rapidly disappearing supply of tickets is reported as being evident among followers and admirers of Premier R. B. Bennett whose interest has been aroused by announcement of the Premier's consent to address the luncheon meeting of the Liberal-Conservative business men's club in the Royal York Hotel tomorrow.

Despite plans being completed to have the speech broadcast over station CKNO and a connected hook up of stations elsewhere in the province, the advance rush for tickets to the luncheon is proving well up to expectations club officials report. It is anticipated that the crowd will be in the neighborhood of 1,000 persons. A special invitation has been extended to permit ladies to attend the gathering in view of the importance and significance it is believed will attach to the Premier's message.

Mr. Bennett has given no intimation of the subject of his address, but it is thought it will bear directly on the present situation in Canada with special reference to some of the economic problems facing the country.

N. S. Rum Ship Seized Off Coast Of New Zealand

(Canadian Press)

BOSTON, Mass., Jan. 18.—Four important liquor seizures today marked concerted efforts by rum runners to land contraband on the New England coast under cover of fog.

Liquor which fell into federal hands was valued at more than \$150,000 at "trade" prices. Three vessels, including one suspected Canadian supply ship, and two speed boats, were captured. On the beach at Cohasset, a pistol battle between rum runners and hijackers was broken up. The combatants fled as police approached, leaving 400 cases of liquor on the strand.

The alleged supply ship, the Cadet, of Weymouth, N. S., registry, was captured by the patrol boat Thetis, off Nantucket, and brought to the New London, Conn., coast guard base. A thousand sacks of liquor remained aboard her. Her crew of nine were held for federal arraignment. The Cadet was believed at coast guard headquarters, Boston, to have come from St. John's, Newfoundland.

The two captured speed boats, the Mary and the Buddy, were taken well within Boston harbor. Each had between 700 and 800 cases of liquor aboard. The Mary's crew ran her ashore on Commercial Point while fleeing coast guard boats and escaped. Later the captors were approached with offers of money to release the craft, but shots dispersed those who offered the bribes. Two members of the Buddy's crew were arrested.

HELD FOR HEARING

NEW LONDON, Conn., Jan. 18.—The nine members of the crew of the Cadet, alleged Canadian liquor supply vessel, were held for a hearing January 25 when arraigned tonight before United States commissioner Russell H. Corcoran.

Robbers Stage Daring Hold-Up

(Special to the Guardian)

TORONTO, Ont., Jan. 18.—Five cracksmen drove an automobile into the drive shed of the Canada Bread Company, 1478 to 1490 Bloor Street west early Sunday morning and after locking four employees of the bakery and a youth in the tire room under the stables, "cracked" a vault on the second floor and stole \$5,000 cash.

Two of the five robbers were armed and three of them were masked. They worked apparently with a thorough knowledge of the interior of the plant, displaying experience and coolness of hardened criminals.

For forty five minutes the five men taken prisoners by the thieves were kept lying on the floor on horse blankets guarded with the revolvers of two of the masked desperadoes. All this time three other men police believe were drilling the vault door in the office on the second floor.

Japs Retaliate For Last Week's Chinese Victories

(Associated Press)

MUKDEN, Manchuria, Jan. 18.—Official communiques said today that hundreds of Chinese have been killed in a series of offensives undertaken in retaliation for the Chinese victories of last week, in which Japanese casualties were heavy.

Supported by heavy artillery and aeroplanes, the avenging columns of Japan killed at least 220 Chinese in engagements at Yental and Tungliac, the communiques said, and near Yingkow, where a force of 500 Chinese was encountered "a considerable number" of casualties was inflicted. These were the three major engagements, but there were numerous others. Larger units were employed than in previous activities of this sort, and more imposing auxiliary arms.

While the Japanese pressed on with their work of revenge, new groups of Chinese war lords arrived in Mukden to take part in negotiations looking toward the establishment of a new Manchurian state, wholly free of Chinese control.

General Shigeru Honjo, Japanese high commander, explained the fierceness of his new offensives by saying it was necessary to rid south Manchuria of "the curse of banditry" in order to permit the Chinese farmers to sow their spring crops "in assurance of safety and peace."

Among the war lords arriving in Mukden for the negotiations about the establishment of a new government for Manchuria was Chang Maipeng, who failed in an attempt to oust General Mah Chan-Shan from Tsihsihar before General Jiro Tamon accomplished that task in November.

REPARATIONS

OTTAWA, Ont., Jan. 18.—(By the Canadian Press)—The output of wines in Canada is not sufficient to meet the domestic demand. Large quantities are therefore imported annually. In 1930 the imports totalled a value of \$2,498,261, whilst the native production value was \$5,025,257.

The wine industry is confined to a very few localities such as the Niagara Peninsula and the Okanagan Valley where climatic conditions are favorable for the cultivation of grapes. In 1930 there were 44 establishments engaged in the production of wines.

"The general depressed business conditions prevailing in Canada in 1930 hardly affected the rapid progress made by this industry during the past few years," says a report issued today by the Dominion Bureau of Statistics.

Optimistic Re Coal Business

(Canadian Press)

SYDNEY, N. S., Jan. 18.—"I believe that when conditions readjust themselves—when we are over the sluggishness of business—we will find our coal markets greatly widened, and a corresponding reduction in importations from the United States," said R. K. Smith, M. P. of Amherst, who arrived today to collaborate with Neil R. McArthur, K. C., in preparing the case of the United Mine Workers for submission to the forthcoming Duncan commission. Mr. Smith was "absolutely and firmly" opposed to the importation of United States coal particularly bituminous, into Canada.

"The people of the Upper Provinces are grasping the Canada first idea as far as coal is concerned and are gradually buying more and more of the Canadian mined product" he added.

EXPORT OF CAPITAL IS DISCOURAGED

Action of Bankers Association Has Had Remedial Effect.

TORONTO, Ont., Jan. 18. (By the Canadian Press)—The action taken by the Canadian Bankers Association last month to control insofar as they were able, the purchase abroad of securities by residents of Canada has had a remedial effect, and restrictions on the sale of foreign exchange by the banks will be relaxed, according to an announcement by John A. McLeod, President of the Association, today. However, the banks will, wherever possible, discourage purchases of securities held abroad, appealing to their customers to refrain from making such purchases while the present excessive exchange rates are operative.

The Prime Minister expressed the hope that the members of the stock exchanges, New York brokerage houses, and mortgage, loan, trust and insurance companies, as the case may be, will co-operate to discourage the export of capital under present abnormal conditions.

In a statement issued last month Mr. McLeod asked that banks discourage the purchase of foreign securities by Canadians.
