CLOSING EXERCISES OF SUMMER SCHOOL

The closing of the Summer School of Science took place last night in the Assembly Hall of Prince of Wales College. There was a full gathering of the students, and an exceedingly interesting programme was carried out. Professor Starratt, of the faculty, presided, and on the platform were the Premier, Hon. J. A. Mathieson, Lieutenant Governor Rogers, Hon. Murdoch McKinnon, Commissioner of Agriculture, Mr. R. H. Campbell, Superintendent of Education, Professor Theodore Ross and others.

The first item was a well-played pianoforte duet by the Misses Barnaby.

Governor Rogers then addressed the teachers. He said that he felt he ought to have attended some of the valuable lectures which had been given but that he had found it inconvenient to do so. He was glad to be there that night, however, to congratulate them on the splendid results which the present summer session had witnessed. He thought that this enterprise must have a very beneficial effect and be of help to the teachers, broadening their views of things. He must congratulate the instructors for the work they had done and the teachers who had taken the opportunity of better fitting themselves for the great and glorious work of instructing the youth. Upon the young people of to-day, he said, rested the responsibilities and duties of life in all its departments twenty years or less after.

The presentation of prizes was then made. The prize list follows.

A pleasing feature of the proceedings was the presentation to some of the teachers of special purses in recognition of their excellent work in their respective departments.

Miss Hackett was presented with a $10 gold piece by the students of her class. She made a brief reply, thanking the donors for the earnestness, sincerity and thoroughness with which they had worked in her department and which their gift be spoke.

Mr. McMillan, of the Physical Department, was presented with a $20 gold piece.

An excellent address accompanied by a purse was presented to Miss Bertha Gorman, who made an appropriate reply.

Sgt. Irlam, physical training teacher, was also presented with a purse of gold by the members of the class he conducted.

Miss Gorman next gave a fine recitation from Dickens, taking as her subject the tragic chapter from David Copperfield in which the life of David's brilliant school friend, Steerforth, draws to a close in pathetic circumstances.

Dr. Allen, of Cincinnati, then gave an interesting address. He moved a vote of thanks to the Premier and his executive officers, to the Mayor and citizens, and to the people of Charlottetown generally, who had given them the opportunity to be in the Island this year and had further done all they could to make their stay interesting and pleasant. He would ask the Summer School of Science to carry the vote moved.

A tremendous outburst of applause marked the unanimous passing of the vote.

Professor Clark, teacher of manual training, in a brief and happy speech, expressed his pleasure at being privileged to second the vote, "which it was unnecessary to second."

Miss May Jamieson having played and sung in excellent tone Tosti's "Praeghera," Premier Mathieson, in a speech which will appear in extenso in a subsequent issue, acknowledged the vote of thanks which had been accorded him. They had been very glad to welcome the Summer School when they first met, and they had been noting with the greatest satisfaction the progress of the school. He was sure it had been an immense advantage to the teachers here to have met so many of the most prominent and successful teachers from Nova Scotia and New Brunswick. He must thank those gentlemen who proposed and seconded the vote of thanks to the people of the Province.

Superintendent R. H. Campbell, the next speaker, congratulated the teachers and impressed on them the importance of their vocation.

Professor Ross followed with a brief and excellent speech in which he gave much valuable advice to the teachers.

President Starratt having heartily thanked the student body and the faculty for the harmonious manner in which they had co-operated, the proceedings were brought to a close by the singing of the National Anthem. An extended report of the addresses will appear in another issue of The Guardian.

HOSTILITIES ARE IN PROGRESS BUT THERE ARE HOPES STILL THAT WAR MAY BE LOCALIZED

(Canadian Press)

ST. PETERSBURG, July 29.—There was a great patriotic demonstration this afternoon. A procession formed and with flags flying proceeded to the Servian legation where there were speeches and cheers; then to the British and French embassies where the same scenes occurred.

The Imperial Naval School to-day promoted many to the rank of officers. In presenting them the Czar made an address counselling them to act in the serious days to come with faith in the glory and greatness of mighty Russia.

(Canadian Press)

VIENNA, July 29.—Servians at 1.30 o'clock this morning blew up a bridge spanning the River Save, between the Austrian town of Zemlin and Belgrade. Austrian infantry and artillery are stationed at Zemlin in consequence of which ships on the Danube fired on the Servian positions around the bridge. The Servians retired after a short engagement with trifling losses. Small detachments of pioneers, in co-operation with customs officers, yesterday captured two Servian steamers laden with ammunition and mines. The pioneers and revenue guards after a short, sharp encounter, overcame the Servian crews and took possession of the vessels and dangerous cargoes.

The captured ships were towed away by one of the Danube steamers.

SHANGHAI, July 29.—The British far-eastern fleet is mobilizing at Wei Hai Wei on the north coast of Shen Tu. The German fleet is mobilizing at Ting Taoull, 100 miles south of St. Petersburg. Russian eyes have been cast over the situation and only a political miracle can now avert war. Russia does not swerve from her determination to support Servia. A partial mobilization has already been ordered. There is every indication that the military machinery of the Russian Empire will be in operation soon. The Imperial manifesto is awaited tonight. Should it be issued, as understood, by Emperor Nicholas, Generalissimo, of the forces, an immense wave of military enthusiasm will pass all through Russia. Political parties have buried their differences. The general attitude is not jingoistic but resolute and firm, confident in the justice of their cause and ready to make all sacrifices necessary for the struggle. The proposal that terms be discussed after Belgrade has been occupied is regarded as impossible. Before opening hostilities Russia made a proposal to Austria which Austria rejected, and would not even consent to an exchange of views regarding the situation.

(Canadian Press)

PARIS, July 29.—At the French Foreign Office the feeling is pessimistic. Officials think the only hope of averting war is that Austria-Hungary recognize the determination and unity of views of Russia, France and Britain and that she modify her demands at once.

(Canadian Press).

SYDNEY, N. S., July 30.—"No mobilization order in connection with the Austrio-Servian war has been received here" said Mr. McLenhan, Austrian Consul." "We however," he added" are expecting orders hourly in the light of new developments in Europe during that past 48 hours." Mr. McLennan stated that there are twelve or fifteen hundred Austrians and Hungarians in Sydney all of whom will be affected by the orders should they come.

THE ENTIRE SERVIAN ARMY IS BEING MOBILIZED

BELGRADE, SERVIA, July 28.—Reports circulated throughout Servia that King Peter is assured of Russian support in a war with Austria aroused even greater determination to resist to the last the demands of the dual monarchy contained in the ultimatum delivered last week.

The entire Servian army is being mobilized. Crown Prince Alexander will take command of the field and all preparations are being made for the defence of Nish, now serving as the capital of the kingdom parliament, the court, the national bank and in fact the entire government has been transferred to Nish. Across the Danube. Austrian troops may be seen today mobilizing for the attack. Austrian boats are moving up and down the Danube carrying material of bridges and other equipment necessary for the invasion while a large force of the army is massed at Selmin. Belgrade is all but deserted. Panic stricken inhabitants poured out of the city following the withdrawal of the garrison, fearing the Austrians would bombard the town at any moment.

VIENNA, July 28.—Despatches from Cettinje, Montenegro, says that Austrian troops are on the move in the vicinity of Ragusa, Dalmatia, and that 22 Austrian warships have assembled in the harbor of Cattaro. The latter movements are interpreted to mean that Austria will attempt to seize Mount Lovehen, overlooking Cattaro.

PLEADS FOR THE PREVENTION OF WAR

ROME, July 28.—Reports are in circulation that Emperor Francis Joseph of Austria Hungary, has yielded to a plea from Pope Pius X. to prevent war, but the Austrian ruler has been isolated by his suite and the military party who are forcing the country into war.

AUSTRIA SAYS SERVIA'S REPLY IS UNSATISFACTORY

VIENNA, July 28.—A communication issued by the Austro-Hungarian foreign office yesterday sets forth the Austrian view of the Servian reply to Austria's note demanding the cessation of the pan-Servian agitation and the punishment of those concerned in the assassination at Saravevo of Archduke Francis Ferdinand and his consort. The communication also gives the reason for Austria's dissatisfaction with Servia's reply. The communication follows:—

"The object of the Servian note is to create the false impression that the Servian government is prepared in great measure to comply with our demands.

"As a matter of fact, however, Servia's note is filled with the spirit of dishonesty, which clearly lets it be seen that the Servian government is not seriously determined to put an end to the culpable tolerance it hitherto has extended to intrigues against the Austro-Hungarian monarchy.

"The Servian note contains such far-reaching reservations and limitations not only regarding the general principles of our action, but also in regard to the individual claims we have put forth that the concessions actually made by Servia become insignificant.

"In particular, our demand for the participation of the Austro-Hungarian authorities in investigations to detect accomplices in the conspiracy on Servian territory has been rejected, while our request that measures be taken against that section of the Servian press hostile to Austria Hungary has been declined and our wish that the Servian government take the necessary measures to prevent the dissolved Austro-phobe associations continuing their activity under another name and under another form has not even been considered.

"Since the claims in the Austro-Hungarian note of July 23, regard being had to the attitude adopted by Servia, represent the minimum of what is necessary, for the establishment of permanent peace with the southwestern monarchy, the Servian answer must be regarded as unsatisfactory.

"That the Servian government is conscious itself that its note is not acceptable to us is proved by the circumstances that it proposes at the end of the note to submit the dispute to arbitration—an invitation which is thrown into its proper light by the fact that three hours before handing in the note a few minutes before the expiration of the time limit the mobilization of the Servian army took place."

VIOLENT DEMONSTRATIONS IN PARIS

PARIS, July 28.—The war tension has caused more than the ordinary number of withdrawals of savings, in whole or in part, from various banks. There has been, however, no semblance of excitement at the banks.

The socialist party last night issued a manifesto, denouncing war, and has called meetings to protest against hostilities between Austria and Servia.

Acting Premier Martin and the ministers of war and marine met yesterday and receiveved reports on the military defensive measures. The minister of war issued a circular regarding the equipment of the French soldiers in case of mobilization.

The newspapers also publish detailed instructions.

At the end of the demonstrations last night the streets were littered with broken canes, umbrellas, bats, handbags and torn overcoats. A large number of the police received injuries while repressing the demonstrators, of whom eight hundred were arrested.

(Canadian Press.)

VIENNA, July 28.— Austria's declaration of war against Servia was made as soon as the Austrio-Hungarian Government were notified that Germany had refused to become a party to any Conference having for its aim mediation of the differences between Servia and Austria. "The Military measures in Austria's present course of action as regards Servia cannot be interrupted pending negotiations looking toward mediation." This was the reply Austria's foreign Minister, M. Berchtold, made today to the suggestion of Sir Edward Grey that hostilities be suspended while Germany, France and Italy arrange an Ambassadorial Conference. Austria's reply to the proposal of the British Foreign Minister was courteous note thanking him for his efforts but was nothing less than diplomatic refusal to accept mediation.

LONDON, July 28. — There are no new developments in the near east situation, stated Premier Asquith in Parliament this afternoon. I hope no unfavorable inference will be drawn from this statement, he added. England's efforts to prevent war in Balkans have failed. Germany refused to accept the proposal that she participate in mediation efforts unless Austria request such action. This information was conveyed today in despatches from Berlin. Sir Edward Grey withheld information as to progress of negotiations. His silence was taken as a sign of failure. There is no hope here that Austria will request mediation.

Servia's reply to the Austro-Hungarian ultimatum suggested arbitration. The mobilization of the dual Monarchy's Troops was the only answer vouchsafed. A Berlin despatch says that Germany will not bring pressure to bear on Austria. With most of the powers her army is ready, and will back Austria with her own forces in case of interference from Russia. Austria will proceed with the campaign.

Reports were recorded in Paris, Berlin and London today that Austrian troops crossed the Danube into Servian territory.

Unofficial reports from Berlin to London declare that a detachment of Austrians invaded Servia at Mitrovici, fifty miles northwest of Belgrade. The Servians, it is stated, withdrew at the advance of the Austrians. Unconfirmed reports declared it was announced at Vienna that hostilities would open at day break today.

(Canadian Press.)

PARIS, July 28.— The Austrian Ambassador to France today said it was probable that active hostilities between Austria-Hungary and Servia began this morning but till eleven o'clock he had not recorded any communication to that effect from Vienna.

Rene Viviani, the French Premier who was on board the battle ship, La France in the North Sea today kept up frequent wireless communication with the office of foreign affairs here. He is returning to France as rapidly as possible and it is due at Dunkirk tomorrow morning.

"WE HAVE STOOD THIS THING FOR SEVEN YEARS."

LONDON, July 28.— The St. Petersburg correspondent of The Times says the Russian Emperor left Monday night for Finland, and adds:—

"Now, that matters have become calmer, I may quote a sentence used by the Emperor at the close of a grand council on Saturday: "We have stood this sort of thing for seven and a-half years. That is enough."

"Thereupon his majesty authorized the issue of orders for partial mobilization confined to the fourteenth army corps on the Austrian frontier. At the same time an intimation was given to Germany that orders for the mobilization of the Russian army would follow immediately upon mobilization by Germany.

"These words and acts are believed to be largely responsible for the sudden change in the international situation. The general impression in diplomatic circles is that Austria has gained so much by Servia's almost complete acceptance of the terms of the ultimatum, that it is difficult to believe she would risk war with Russia and a European conflagration by driving Servia to the wall."

NO CAUSE FOR ALARM.

WASHINGTON, July 29.— With a billion and nearly 300,000,000 dollars in gold coin and a billion in the treasury vaults and about $600,000,000 coin in circulation, the treasury officials say that the United States has no cause for alarm over great gold shipments to Europe.

BATTLE WITH THE TRIBESMEN.

ROBAL, Morocco, July 29.—In a battle with the natives the French forces lost 56 killed and 90 wounded. Tribesmen had 150 killed.

DYNAMITE EXPLOSION.

CASSEL, Germany, July 29.—Eighty pounds of dynamite exploded in a potash mine near here and 12 men were blown to pieces.

MADRID, July 29.—Twenty-five people were killed and 50 injured at Ludela by the explosion of fireworks at a local festival.

VALLEY RAILWAY UNDER DISCUSSION

(Canadian Press).

ST. JOHN, N. B., July 28.—At the Valley railway enquiry this afternoon John Kennedy of the firm of Kennedy and McDonald, contractors, swore he paid $2,000 to Premier Flemming during the month of June 1912. This was after his firm had secured the contract for his section of the line and before he had thought of a second contract.

Mr. Kennedy said his payment was voluntary and it was no new expense for him as he had consistently paid to liberal campaign funds for years.

The remainder of the afternoon session was taken up with the examination of Chas. Heaward on the right of way to the road. His testimony was concerned with the payments for right of way. It is expected that he will be on the stand during the session tomorrow and following him will come Ross Thompson, chief Engineer and A. R. Gould, President of the road. The probability is that the taking of evidence of the prosecution side of the case will be ended this week and the defence will then come in with at least two witnesses Hon. H. F. McLeod and J. B. M. Baxter. Mr. Baxter has demanded to be called to refute certain charges the prosecution had made concerning his acceptance of a $500 retainer for work in connection with the Valley Railway litigation. Mr. Baxter returned the cheque to the Company as soon as he discovered that they were likely to ask for additional assistance from the provincial Legislature of which he is a member.

ROME, July 28.—Marquis Di San Guiliano, Italian foreign minister and British ambassador, early yesterday called on the Austro-Hungarian ambassador to discuss means of conciliation, between Austria-Hungary and Servia. They had informed the Austro-Hungarian diplomat of their intended visit, and he had replied that while he would receive them with pleasure, the Austro-Hungarian government reserved all its rights to take any military measures it deemed necessary.

TURKISH GOV'T DESIRES NEUTRALITY IN CASE OF WAR.

CONSTANTINOPLE, July 28.—The Turkish Government yesterday announced that it desired neutrality in case of war between Austria and Servia. Diplomats here believe that the conflicts cannot be localized, however, and expect the Porte to attempt to regain Territory lost in the Balkan war if hostilities come.

ACQUITTAL OF MME. CAILLAUX

PARIS, July 29.—Mme. Henriette Caillaux, wife of ex-Premier Joseph Caillaux, was acquitted last night after a trial lasting nine days, on the charge of murdering, on March 16 last, Gaston Calmette, the editor of the Figaro.

The jury retired at 8.40 Paris time and after a short absence brought in a verdict of "not guilty."

DEMONSTRATION AGAINST THE VERDICT.

PARIS, July 29.— Demonstrations against the Caillaux verdict occurred in several places last night. In the boulevards excited crowds discussing the merits of the case grew to large proportions, and when the jury's verdict became known there were shouts of derision, and cries of "Down with Caillaux."

In one section the mob became so disorderly that mounted republican guards were hastily summoned to assist the police in quelling the disturbances. A large number of police and rioters were injured, and many arrests were made. Maurice and Jean Rostand, sons of the dramatist, were among those taken into custody.

The Figaro office also was the scene of a demonstration.

MADAME RECEIVES FELICITATIONS.

After dining at home with her husband and a few friends, Mme. Caillaux, attired in a handsome evening gown, received a number of intimate acquaintances.

"It is Maitre Labori," she said, "to whom I owe the good fortune to be finally free. He pleaded to-day with all his fine talent, and I am profoundly grateful to him."
