GRAFTERS ON THE CHINA COAST

Ports Where Adventurers Of All The World Meet—Always Certain To Find Victims In The Foreign Colonies

NEW YORK, Feb. 5.—The China coast from Singapore to Vladivostok is the pasture for the gentleman adventurer, the condemner and the beachcomber from every parallel. They take in the coast coming and going. If there is a bit of unpleasantness with the police of Berlin, St. Petersburg, Chicago or San Francisco the genteel highwayman makes for the land that lies east of the 180th meridian, there to come to a sure reward that is golden and take a little pleasure in passing.

All this comes about because the colonies of Europeans scattered from the Straits up along the coast to the frozen circle are always pullible owing to their insularity. Provincial from long living away from the whirl of things in Europe and America, the people who constitute the little foreign colonies in the various parts of China, Japan, and the Straits Settlements fall easy prey to the suave tongue and the polished manners of the wayfarer who plunders.

After one colony is freed the discriminating rogue moves on to another, leaving behind a broad track of bitter memories. Here is the instance of the polished gentleman who dropped into Yokohama a few years ago with a batch of letters of introduction from hypothetical persons in India.

This Capt. Blank was so dashing a fellow that the English set in Yokohama took him up with gusto. He lived at the best hotel, ordered expensive suits from Tom the Chinese tailor, and was dined on the bluff with all the comical eclat that is of the English colony colonial.

Then Capt. Blank consented to take the leading part in some private theatricals. He wooed the daughter of a bank manager at rehearsals, borrowed 5,000 yen and a diamond ring from the girl's father, and off he went with the diamond ring and the money. He cast the girl off at Hongkong and traveled light into the unknown waters beyond.

Mme. Nemo said that she was accredited as a correspondent of the London Mail to write some of the real inside history of the war. She bore a letter, subsequently found to be forged, from a London editor to Mrs. Hugh Fraser, the well known writer on things Japanese, and wife of a former minister of Great Britain to Japan.

Mme. Nemo came to town in November. It was chilly, but the engaging lady with the slight Scandinavian accent wore her summer lawn. Shortly after she arrived the story had been held for a board bill by the Astor House in Shanghai.

Mrs. Fraser and others who had accepted the lady as genuine flouted the story and some of her admirers among the ladies of the English colony. She blossomed out in new suits and her faded beauty was tended all the exclusive functions given in Yokohama and Tokio and was high in the social world when suddenly she left town.

It was only after she had taken a steamer at Kobe for Shanghai, on money wheeled out of a rich American in the form of a check, that it became known that she had worked a blackmail game on an Englishman who lived on thin ice in Yokohama, borrowed various hundreds of yen from the woman who had befriended her, and had been suspiciously near to spying on some of the Japanese secrets.

Mme. Nemo afterward horsewhipped a Russian secretary of legation in the Astor House at Shanghai and disappeared. Yet the folk in Yokohama still speak of her as "such a really charming person."

BIG ICE JAM IN ST. LAWRENCE

The Cornwall Canal Is Mashed Feet Over Its Usual Level

CORNWALL, Ont., Feb. 5.—The worst ice jam on this part of the St. Lawrence formed Sunday at the foot of the Cornwall Canal, and still holds. As a consequence the water opposite the central and western part of the town, is about 26 feet above the summer level and a couple of feet higher than it has been any time since the big flood of January, 1887. There is about nine inches of water in the boiler house of Stormont Cotton Mill, and the factory is consequently closed down.

The water power of the Cornwall Street Railway is also rendered useless by the high water and no cars are running this morning.

DO YOU BELCH GAS? This is a disagreeable result of food fermentation that Nerviline stops at once. Take ten drops of Nerviline in sweetened water. The stomach is warmed and soothed, digestive troubles corrected, the rising of gas ceases and you are well. When such a simple remedy does so much it's foolish to be without it. For indigestion, sour stomach, heartburn and sick headache you'll find nothing half so efficient as Polson's Nerviline. Get a 25c. bottle from your dealer today.

NEW THEORY ABOUT RHEUMATISM. This disease is constitutional—caused by virus in the blood that circulates to all parts of the body. To cure, you must use a constitutional treatment. Nothing so completely dispels the poison from the system as Ferrazole. It purifies and renews the blood, clears it of every taint. The system is vitalized and strengthened and thus enabled to fight off threatened attacks. Not only does Ferrazole relieve at once—it cures rheumatism, gout and lumbago permanently. Results guaranteed, 50c. boxes at all dealers.

CAN THE DEAD COMMUNICATE

Sir Oliver Lodge Declares That Communication Were Received From the Dead

LONDON, Feb. 5.—Serious statements by Sir Oliver Lodge commands respectful attention, even when he abandons science for mysticism. It was therefore with something like amazement, rather than scepticism, that a meeting of the Psychological Research Society to-day listened to the distinguished scientist practically affirm that communications were received from the dead during secret and exhaustive tests recently conducted by certain members of that society through spiritualistic mediums or automatists, as Sir Oliver called them.

Several automatists were concerned in the tests, the most notable being Mrs. Piper and Mrs. Verrall. Sir Oliver described the former as one whose fame spread to all lands, and who had been under strict supervision and competent management for the greater part of her physical life.

TO THE ELECTORS OF WARD 3: Having been requested by a number of the Electors of Ward 3, to contest that ward in the coming election, I have decided to do so and would respectfully solicit your votes and support. If elected I shall consider it my special duty to look after the interest of Ward 3 and will give to the Mayor and Council all assistance in my power towards advancing the interests of the City, advocating improvements consistent with a moderate rate of taxation.

In case there are any voters I am unable to see personally, I take this opportunity of soliciting their support. Yours respectfully,

OLD SAWS ON CANDLEMAS DAY

Predictions Regarding the Weather to Come - the Various Rhymes

Sunday was Candlemas day. People all over the civilized world have come to look upon the second of February as the day when conditions would display themselves so that it might be learned what the weather would be for the rest of the year. Hundreds of proverbs have probably been written about the day, all of which bear out the thought that if the day is a fair one and the sun shines brightly, then there will be some more winter; but if it is dull and drear and stormy winter is nearly over and spring will come early.

The following are some of the old sayings and proverbs about February and Candlemas day: If Candlemas day is fair and bright winter will take another flight. February 2nd bright and clear gives a good flag year. If the ground hog is sunning himself on the second he will return for four weeks to his winter quarters again. St. Dorothea (6th) gives the early lies in the sun he will again creep behind the stove in March. When the north wind does not blow in February it will surely come in March.

If February gives much snow, a fine summer is doth foreshow. There is always one fine week in February. Of all the months in the year, curse a fair February. Heavy north winds in February forbode a fruitful year. If on the second of February the goose finds it wet then the sheep will have grass on March 25th. When drops hang on the fences on the second of February icicles will hang there on the 25th of March. For every thunder with rain in February, there will be a cold spell in May. February rain is only good to fill ditches. February makes a bridge and March breaks it.
