Help for Asthma. Neglect gives asthma a great advantage. The trouble, since it has secured a foothold, fastens its grip on the bronchial passages tenaciously. Dr. J. D. Kellogg's Asthma Remedy is daily benefiting cases of asthma of long standing. Years of suffering, however, might have been prevented had the remedy been used when the trouble was in its first stages. Do not neglect asthma, but use this preparation at once.

Spitzbergen Rivals Land Sought by Ponce De Leon

LONGYEAR CITY, Spitzbergen, Aug. 25.—There are no old, and very few elderly people in Spitzbergen. The great majority are husky, longlimbed lads from Northern Norway of any age up to 40, with a sprinkling of Swedes, Finns, Scots, Russians and Germans. They all stand squarely on their feet and have fists like hams. There is practically no mortality here, the doctor in charge of the excellently equipped little hospital told an Associated Press correspondent.

The visitor was shown through the small one-story wooden building where ten spotless white beds had been awaiting occupants for months. The doctor proudly displayed his operating room, replete with all modern appliances, his X-ray apparatus and his well-filled dispensary.
