### My Headaches Are Practically Gone

From a letter written by a Mrs. Dunn we quote:—"I would like everyone who suffers from headaches to try Kruschen. Before taking Kruschen, I had headaches almost every day. But since I have been taking it faithfully, I have hardly had a headache, for which I am very thankful, as headaches can make one feel quite ill. For as long as I felt it was necessary, I have taken Kruschen each morning in a glass of warm water, before breakfast; and I feel so well."

—Mrs. A. E. Dunn.

The reason Kruschen often gives relief from common or bilious headache, is because this saline treatment helps your system rid itself of underlying causes. Kruschen aids stimulation and supplies the body with minerals which may be deficient in the diet. Take Kruschen faithfully for a month. Give this well-known saline treatment a chance to help relieve constipation and biliousness and see what it does to the headache that usually goes with these complaints. Kruschen is 25c. and 75c. at all drug stores.

### Have You Pains Callouses or Cramps there

The Finger Points to the location of the Anterior Transverse Arch. When this Arch weakens, the tiny bones are depressed; uneven pressure is produced, and the uneven distribution of the person's weight causes a burning sensation, callouses, tender spots, contracted toes, and severe cramp-like pain. The foot widens and spreads over the bones, the small toes and great toe joints become inflamed and enlarged—bodily fatigue and nervousness result.
