

New John Deere Spreader

Liked By Every One

This new spreader with the beater on the axle and the box-roll turn appeals to everyone who has seen it.

WHY SHOULDN'T IT?

It has a 5-to 10-inch lower box advantage that saves a lot of real labor—saves the hard work of pitching the manure high.

It has high drive wheels, roller bearings, fewer moving parts and the beater on the axle that makes it easier pulling for your horses.

Its beaters are low down—the manure is evenly deposited, making a well defined line beyond the drive wheels before wind can cause drifting—does better work.

Simple in design, fewer parts, because the beater is on the axle, unusually high grade materials and workmanship make it a long-lived durable spreader.

If you haven't seen the New John Deere make it a point to call at our store. A sample is on display. We invite comparison.

Chemists to Honor Priestley's Memory

PHILADELPHIA, August 26.—Chemists from all parts of the world at the Golden Jubilee Week of the American Chemical Society, will celebrate the Sesqui-Centennial of the discovery of oxygen on September 5th.
This discovery in 1774, deemed by scientists as significant a milestone as the Declaration of Independence, was a triumph of Joseph Priestley, religious heretic and pioneer in chemical research. Priestley will be honored by a pilgrimage to Northumberland, Pa., where he lies buried, and where the idea of the American Chemical Society was conceived fifty years ago.
Along with Priestley will be honored the founders of the American Chemical Society, those living and those dead. These include, among others, S. A. Goldschmidt, J. B. F. Hertzsch, Adolph Kuttroff, Wm. F. Nichols and H. E. Niese, all of New York City, and Charles E. Munroe, National Research Council, Washington, D. C.

Smith Honored.
The Priestley medal, awarded every three years by the American Chemical Society for outstanding achievement in chemical science, will be bestowed at a public ceremony on Tuesday night, September 7, upon Dr. Edgar Fahs Smith, for many years provost of the University of Pennsylvania. Dr. Smith is known as the Dean of Historical Chemists and has made exhaustive inquiry into Priestley's career.
The pilgrimage to Northumberland will serve to remind those who think of Priestley as belonging exclusively to England, that he spent his last decade—1794 to 1804—in America. He did some of his most important scientific work in this country. Dr. Smith points out. This included the discovery of carbon monoxide, which explained the nature of flame. He also was the inventor of soda water.
Priestley a Preacher
"In the light of these scientific achievements," Dr. Smith said, "it may be a surprise to many to learn that Priestley was primarily not a chemist at all, but a teacher, a preacher and a political agitator. The truth is that Priestley's attention was only turned to chemistry when he was in the thirties by Matthew Turner, who lectured on this subject in Warrington Academy in which Priestley labored as a teacher."
Priestley's views on theology were bitterly denounced in England and in 1791 the houses of worship in which he was wont to officiate and his library treasures and scientific apparatus were destroyed. Three years later Priestley came to America, arriving in New York June

4, 1794. He was officially welcomed by Governor Clinton and other prominent persons and left for Philadelphia two weeks later.

STORE BROKEN INTO.—On Wednesday night of this week, some person broke into the store and lunch room of Mr. Simon Hayes on Spring Street, and stole a quantity of cigars and cigarettes, soft drinks and eatables. The entrance was gained through a window at the rear of this building by first tearing off the screen and forcing the windows up. The police are working on the case and it is said that some clues have been found which may lead to the identity of the guilty persons. H.

FINE POTATOES.—Of the many fine fields of Cobblers to be seen in Eastern Kings County, Mr. Frank McAulay's six-acre field on Souris Line Road, is perhaps one of the best. All can see it as it is along the road. This six-acre field was planted with cullage seed potatoes. 1598-28-21

PERSONALS

The St. Margaret's Tea on Monday was possibly the biggest out-door or field event of the season.

Mr. Edward Rice, bricklayer, Boston, is down on his annual visit to Charlottetown, Lot 45. He came by motor.

Mr. Joseph McCormack, now permanent resident of Boston, who has been visiting his old friends and relatives for his two vacation weeks, at Rock Brae and Priest Pond, returned Friday.

Mr. J. McAulay, formerly of Tracadie, and Mrs. McAulay, formerly Thillie Vincent, Priest Pond, with their son and daughter, the latter a Boston school teacher, are enjoying their holidays at Mrs. McAulay's old home.

Mr. Stephen A. McAulay and wife, nee Kate Ann McCormack, were visitors to Mrs. McAulay's old home at Big Pond last week.

Mr. Frank McVarish, Hammonds, returned from the city, where he had been consulting local specialists at the Charlottetown hospital.

Mrs. John A. McIsaac, nee Lottie McAulay, and her two children, of Boston, are visiting her old home at Souris Line Road, and are thoroughly enjoying themselves. They return to Boston about the end of the month.

Royal Commission Leaves for Winnipeg

(Canadian Press)

OTTAWA, Ont., Aug. 27.—Headed by Sir Andrew Ray Duncan, the Maritime Rights Commission arrived in Ottawa today, after holding a number of public hearings at all points in New Brunswick, Nova Scotia and Prince Edward Island.

Sir Andrew and his fellow members on the commission, Hon. W. B. Wallace, Halifax, and Professor Cyrus MacMillan, of McGill University, spent the day obtaining departmental information in respect to representations presented to them in the course of their investigation of routing Canadian mail grain through Canadian Atlantic ports. Whether a public sitting will be held in Winnipeg is as yet undecided.

Following the completion of its work in Winnipeg, the Commission will leave for Montreal, where a public hearing will be held early next week, probably on Monday, August 30, or the following day. At this hearing the railway companies will be heard in regard to those representations presented in the Maritimes touching upon transportation of mail grain.

It is understood that the report of the Commission may be available in about three or four weeks' time, although a considerable amount of work still remains to be performed.

Address and Presentation

The choir of St. James Presbyterian Church held a very pleasant reunion and supper at the Rawlings Hotel, Rustico, on Thursday last. There were between forty and fifty of the members of the choir present and a very enjoyable time was spent both in the drive and at the

hotel. After supper Mr. Watkins was presented with the following address and a beautiful bath robe.

Dear Mr. Watkins:—
This time, to quote partly from Shakespeare and partly from someone else, "we come not here to sing, we come to eat" and to otherwise enjoy ourselves.

We had many happy and very profitable meetings together and we sincerely hope these still are many meetings before us. Of what to owe you as our musical instructor, of your unvarying kindness to us, of your unvarying loyalty to our church, our choir and all our congregational interests, we must not speak at this time. You know our personal and collective feelings of love and friendship towards you; these are not to be expressed in words but in acts and, as your faithful pupils, we can only hope you have always found us to be as good as we have tried to look and be.

On this annual gathering of our choir we would ask you to accept, as a slight token of our esteem, this little gift. May it be to you as a warm garment of friendship from your devoted students and friends.

Princess Edward Island, August 26th, 1926.

Successful Convention at Beach Grove Inn

Wednesday evening of this week at Beach Grove Inn a party of thirty were entertained at dinner, in that hospitable manner for which the Inn is becoming so well known. The dinner was given to the Field and Office Force of the Great-West Life Assurance Company, on the occasion of the thirty-fourth Anniversary of the Company. Representatives of this enterprising and successful organization were in attendance from various parts of the Province, although the inclement weather prevented quite a number attending from outlying districts.

During dinner a telegram was read from Mr. C. C. Ferguson, the General Manager at Head Office, Winnipeg, conveying greetings to the winners of the recent Mid-summer Contest, held among the island representatives, and which were won by Mr. Alvin Arsenault, and Mr. J. W. Murdoch. Both of these gentlemen made fitting reply to the congratulations they received.

This contest set a new record for life insurance production on the island, over one hundred thousand dollars of new business being written in a two weeks period, this being an unusually large amount of business for any one company to acquire in so short a time.

It was announced that the address well for the popularity of this great Canadian Company.

Dinner was followed by a meeting at which plans and methods were discussed for improving the service in the field and from the office. In the course of his remarks Mr. J. O. Hyndman, Provincial Manager, drew attention to the enormous development which has taken place in life insurance during recent years, and the recognition it has gained in the public mind, as one of the great factors in conserving and stabilizing community life.

He also incidentally referred to the fact that the splendid dividends for which the Great-West Life is noted are to be further increased on January 1st, 1927.

Reference was made to the leading position held by the Great-West Life not only in Prince Edward Island but throughout the Dominion.

It was announced that the island branch is again in the field for first place for production among Canadian branches.

The following menu was disposed of:
MENU
Cream of Tomato, Sliced Rice Potatoes, Boiled Fresh Haddock, Parsley Sauce, Oyster Patties, Boston Stuffed Spring Chicken, Red Currant Jelly, Brown Gravy, Steamed New Potatoes, New Butter Beans, Lettuce, Steamed Fruit Pudding, Brandy Sauce, Ice-cream, Vanilla Ice Cream, Assorted Cake, Coffee

PROGRAMME
Dinner Music by Dixon's Orchestra.
Violin Solo—Mr. Robert Hyndman
Remarks—Mr. J. O. Hyndman
Vocal Selections.
Discussion on Insurance Matters, in which all are asked to take part.
Mr. Walter Macnutt, Accompanist

Miss Elizabeth Dickenson, Principal of the Walter Moberly school, Vancouver, left on return on Tuesday morning, after a pleasant visit with friends and relatives on the island.

Mr. and Mrs. H. R. Hillson left yesterday morning for Toronto, where they will attend the Exhibition.

The tea hostesses at Golf Links this afternoon will be Mrs. P. W. Turner, Mrs. D. A. MacKinnon, Mrs. T. L. Prowse, Miss Laura Hodgson and Mrs. P. C. Clark.

A large number of the young people of the city were the guests of the officers of H. M. S. Calcutta Friday evening at a delightful dance given on board the ship.

Miss Edith Brown, of New York, and Miss Lillian Bingham, of Ottawa, are guests of Mr. and Mrs. C. H. B. Longworth, Hillhurst.

Mr. John H. Sullivan, B. A. Summerside who leaves this morning for Guelph, Ont., to enter the Novate of the Jesuit Fathers was presented with an address and an appropriate gift by the members of the Catholic League last night. Mr. Sullivan will have the best wishes of a host of friends in his chosen vocation.

At the Tennis Courts this afternoon the hostesses will be Miss Edileen Foster, Miss Jean Grant and Miss Florence Owen.

A special tea was given on Wednesday at Belvedere Golf Links in honor of Admiral Sir Walter Cowan, and the officers of H. M. S. Calcutta and H. M. C. S. Patriot.

Princess Edward Island was honored this week with visits of two judges of the supreme court benches of other provinces. Mr. Justice Macdonald, of the Supreme Court of Manitoba, is a former islander. He is visiting his nephew, Major D. A. Macdonald, at the Russ Hotel. Mr. Justice Wright of the Supreme Court of Ontario, is a guest at the Victoria Hotel. Both distinguished visitors are highly pleased with the natural beauties of this province, and speak optimistically of its tourist possibilities.

Even slag from the steel furnaces has many economic uses, says the Natural Resources Intelligence Service of the Department of the Interior. Two of its major uses as a basis for cement and as a filler. Soil requiring lime will with slag as an ingredient. Superior for dishes, pots and pans, floors, and a hundred other cleaning jobs all through the house. Contains no lye, acids or hard grit; the soft, flaky particles erase visible and invisible impurities quickly, safely, without scratching. Goes further—lasts longer.

When England's gardens bloom this year millions of flowers to New York and New England through southern Ontario, says the Natural Resources Intelligence Service of the Department of the Interior. Each year sees an increasing demand for Canadian flowers which are found to grow in England with remarkable success. British Columbia seeds especially are earning an enviable reputation with the British growers.

The shortest distance from Michigan to New York and New England through southern Ontario, says the Natural Resources Intelligence Service of the Department of the Interior. Twenty-five million people who travel in automobiles live within a twenty-four hour ride of the boundary—and from the returns cars entering Ontario in the last three years it is evident that some hundreds of thousands already know the way.

Happenings of The Week

(Continued from page 4.)

and they have yet held. Between thirty and forty took part, taking a motor tour to Kensington, Malpeque, Cavendish and Rustico, finishing up with a supper at Rollings. Everyone was in the best of spirits and Mr. Watkins, the veteran conductor, was the hero of the hour.

Mrs. Oscar McCallum and daughter Marjorie left Thursday for their home in Saskatoon, after a most enjoyable holiday with Mrs. McCallum's parents, Mr. and Mrs. Donald Nicholson, Prince street.

Mrs. Harold Cross and children, who have been spending the summer with her parents, Dr. H. D. and Mrs. Johnson, were passengers to Montreal Wednesday. Dr. Johnson accompanied them to Moncton.

Miss Jean Aitken, who has spent a very pleasant holiday at her former home in Georgetown, left yesterday morning on return to Regina, where she is a teacher in one of the principal public schools.

Mr. LaBette, father of the late Mrs. E. M. Malone, and his daughter, Mrs. Murray, spent a few days in the city this week as the guests of Rev. Mr. Malone. They have just returned from a European trip, and proceed to their home in the West Indies.

At the Tennis Courts this afternoon the hostesses will be Miss Edileen Foster, Miss Jean Grant and Miss Florence Owen.

A special tea was given on Wednesday at Belvedere Golf Links in honor of Admiral Sir Walter Cowan, and the officers of H. M. S. Calcutta and H. M. C. S. Patriot.
