The annual session of the Grand Lodge of I. O. G. T. of P. E. I. was held in the beautiful community of North Lake on Tuesday and Wednesday July 7th, and 8th, S. M. Martin G. C. T. presiding. The most of the delegates came by rail to Souris where teams were waiting to convey them through the beautiful scenery of the South Shore road to the place of meeting.

The favorable weather and the hearty welcome from the members of the Eastern Gem Lodge combined to put all in good humor and make this one of the most enjoyable of sessions.

After the appointment of committees the reports of officers and the initation of candidates, reports were received from the Lodges represented which showed the work of the Order was being well maintained.

The report of the Committee on Finance showed the finances to be in excellent condition with $70.00 seventy dollars in the treasury. The report of the Committee on State of the Order referred with gratitude to the services rendered the Order by our efficient G. C. T., Bro. S. M. A WONDERFUL BOOK.

As a work for family reference there was probably never compiled a more useful book than Dr. Chas's Receipt Book. Besides containing the symptoms of disease, their cause and cure and the great prescriptions gathered together during half a century of medical practice this book is replete with receipts for cooking and has a complete department devoted to the care of farm stock, bees, domestic animals, etc. For full particulars write Edmanson, Bates & Co., Toronto.

CATHOLIC POWERS HAVE VETO RIGHT

On the Choice of Candidate for Papal Chair—Pope Growing Weaker—An Operation Relieves Him---He Returns Thanks After a Week's Illness.

THE RIGHT OF VETO.

ROME, July 10.—(Special)—Premier Sanardelli had a long conference with minister of Justice Eventurel on the right of veto which the Italian Government might exercise at the next Conclave.

POSSESSED BY THREE CATHOLIC POWERS.

Three Cathelic powers, Spain, France and Austria also enjoy the privilege to veto the election of a candidate not persona grata to their Governments.

POPE UNDERGOES AN OPERATION.

The Pope's condition shows not much change. He grows gradually weaker. A flow of endepleuratic matter being observed, a second operation was immediately performed. About a thousand grammes of bloody serum was extracted.

IT RESULTED FAVORABLY.

The Pontiff bore the operation well and in consequence both his respiration and the power of the heart were at once improved.

IN ATTITUDE OF PRAYER.

When shortly after sunrise Dr. Lapponi went to the Pope he found him with his hands together in the attitude of prayer.

THANKFUL FOR STRENGTH TO PRAY.

On the doctor inquiring whether he required anything, the Pope replied, "Today finishes a week since I was taken ill. I am thanking God for having given me strength still to pray."

THE SPORTSMAN'S PARADISE.

Excellent Opportunity for rod and gun in Inverness, Cape Breton.

The northern sections of Inverness County, C. B., is not only becoming noted for its great mining deposits, but it is likely to become a popular resort for deer stalking and salmon fishing and the mountain air and scenery, and other attractions of the district will especially interest tourists and sportsmen. The northern part of Inverness is extremely mountainous and difficult of access, and the summit of the hills is a long barren or plateau, while the hill slopes are thickly wooded, and it has only become generally known quite recently, that cariboo were numerous in this part of the Island. The residents of Pleasant Bay, and other parts north of Chaticamp shoot as many as a half dozen of these animals on a single expedition to the plateau on the top of the hills, where the cariboo can be seen feeding in droves.

The salmon and trout fishing in the rivers and pools on the northern shores of the Island is not surpassed anywhere, and the advantage which part of the Provinces possesses is, that it has not been much frequented by tourists, and the waters teem with game fish, and millions of sea birds, seals, etc., congregate along the rocky shores of the country. Some sportsmen who have been in the northern part of Inverness County declare that the game is more plentiful than in Newfoundland, and they state that the air on the mountain is bracing and delightful, and that on a fine day, from the highest elevation, is it possible to see Magdalean Islands, 90 miles seaward.

From the boom which this part of Cape Breton is sure to receive through its tourist attractions, which exceed the Bras D'or Lakes or any other part of Nova Scotia, and also on account of the great mineral deposits now being opened up, principally at Cheticamp, there seems no doubt that the northern part of Cape Breton is on the eve of much activity and wide advertising. Reports from the copper mine at Cheticamp, still continue satisfactory, and from a depth of 150 feet some beautiful ore, carrying high values in both copper and gold, was lately taken out. Samples ran as high as 15 per cent copper and $7 in gold. Shares of the Copper Company, which is an organization of Halifax business men, will increase from Three Dollars to Five Dollars on July 10th, and parties contemplating investing in this Inverness mine, should communicate with Alfred Bennett & Co., 10 Prince Street, branch office 110 State Street, Boston, Mass.
