When Women Get Together

what do they talk about? Their ill-health! They tell about their aches and pains, describe their symptoms in detail, endeavoring to prove their special trouble the most trying and dangerous. Why do they do this? Because they crave sympathy and need help. Many a woman has never known a really healthy hour, yet has kept on her feet and accomplished her daily duties, thinking sacrifice really meritorious. Ninety-nine times out of a hundred these women become chronic dyspeptics. You can tell that by their lack-lustre eyes, spiritless movements and sallow complexions.

Dyspepsia is the forerunner of many fatal disorders; it always precedes consumption! If you are wise, you will take some invigorating herbal preparation such as Karl's Clover Root Tea, which has been in use for nearly fifty years, and has never been known to fail in curing all bowel and liver troubles. It gently stimulates the whole digestive system so that your food is perfectly assimilated and converted into pure, rich blood, which keeps the nervous system of the body healthy and the muscles firm and strong. Your backaches, headaches and sleeplessness will all vanish under the influence of this grand remedy, Karl's Clover Root Tea.

Ask your druggist for it, or write to S. C. Wells & Co., 52 Colburn street, Toronto, Ont., and they will send a sample package free of charge. Sold throughout the United States and Canada at 25c. and 50c., and in England at 1s. 6d., 2s. 3d.

PROVINCIAL ALLIANCE.

(Continued From the Third Page)

the enactment of a License Law, the temperance cause has been losing ground. The 42 licensed saloons of Charlottetown are proving more than a match for the eight churches and the moral effect of the Act brought the Scott Act into disrespect in the country. Representatives from each County where the Scott Act is in operation will state the effect of the open saloon in the City is paralyzing the enforcement of the Act. There can be no doubt in the mind of any candid observing person that drunkenness is increasing to an alarming degree in Charlottetown.

It is hoped the delegates assembled here may unite in passing strong resolutions to bear on our Local Legislature urging them to remedy this state of affairs by passing a law to give this province the largest measure of prohibition within their power.

It might be said, what business had people from the country coming into the city suggesting how the liquor traffic could be lessened—it did concern the country. A new college had been built at a cost of forty thousand dollars, that the country helped to pay for. Over one hundred of our young men come here every year to attend college, and are surrounded with bad influences from these saloons.

Rev. J. W. McConnell was the next speaker. He said that his sympathies were the like enactment of a prohibitory law. We should not be divided on this question. He wished we could be as united as the liquor element. We depended too much on human efforts. This terrible curse can only be driven out by divine influence. He had been connected with the Temperance movement for years. 37 years ago a Division of the Sons of Temperance was organized in New Glasgow, which is in existence up to this day, and he was a member all these years. He traced the growth of Temperance sentiment from the first agitation until the present. He paid a compliment to Hon. Senator Scott, the father of the C. T. Act—a law that has stood the test of time. He thought some restrictions were better than free rum. He did not often visit Charlottetown and could not personally testify to the effects of the present law in this City. He had seen regulations in French St. Peters do some good. He hoped to live to see a prohibitory law enacted for the whole Dominion.

Rev. R. F. Whiston said he would take a text from that memorable speech of the Apostle Peter. The Christian people allow the saloons men to do their dirty work. We are responsible for the crimes caused by the traffic because we allow it to exist. He had seen six drunken men on the street to-day, although he had only been down down twice. He gave a number of illustrations of the curse of drink. His speech was on the whole a serious and thoughtful one from the standpoint of a Christian.

Messrs. J. R. Davison, W. C. Turner and Rev. R. F. Whiston then sang "Save My Boy," with good effect.

Mr. D. W. Henderson, being called upon spoke briefly. He said that as far as he knew License Law in Charlottetown, was generally disapproved of in the country. The president than gave invitation to any person present to make remarks pending the reports of the committees. Arthur Simpson, said that it was disheartening to the Temperance people to do anything after the manner they had been treated by the Federal Government in not giving any results from the plebiscite vote, and take the passing of the License Law by the Local Government, and he had no hesitation in saying that by the same, the Temperence cause had been turned back twenty years. He was pleased however to see that the people of Summerside had taken a stand and were determined now to enforce the Scott Act, they had secured the best man in the province for the work. This statement of Mr. Simpson was greeted with great applause.

Mr. W. H. Bears inspector for Kings County, said that the Scott Act was as well enforced in his county as it was possible. It had been hinted that the inspectors had been told to go slow in enforcing the act especially at election times. As far as he was concerned he had never received such instructions, and if he had he would not obey them. The most of the liquor, he said, that was consumed in the country was brought in from Charlottetown in small lots. The sellers in King's county were getting poorer and poorer as they were compelled to pay the penalties of the law and a number of them had run away from the country. He thought if the act was amended by making the second offence four months in jail and the third offence six months, the act would then be equal to provincial prohibition. In no part of the public service was so much difficult work done for so little money as in the administration of justice.

R. H. McDonald said he did not know so much about the enforcement of the law in the counties as others present, but at Summerside the whole matter was with the Town Council. In the past the Council had not always been favorable to the enforcement of the Act but now with a good Council better things were looked for. He also agreed with what previous speakers had said of the baneful effects in the country from the sale of liquor in Charlottetown and the evil was felt in Summerside. The License Law was wrong in principle and a failure in practice, and those responsible for its adoption would he believe get their punishment from the people.

J. D. Seaman, President of the Charlottetown Alliance spoke briefly. In substance he said: "We must admit that as far as this City is concerned we are going back. As to the readoption of the Scott Act in Charlottetown as some speakers had suggested he feared that owing to the

somewhat different franchise that there is now from the time the act was adopted, and the license law having given the liquor men a much better position—it had actually entrenched them—it would be a most difficult undertaking to bring the Act in operation again. The City Alliance favoured a provincial prohibition law under the circumstances; while they were unanimously of the opinion that the License Law had promoted intemperance, and the body of which he was president desired to have it repealed.

S. M. Martin, Grand Chief Templar, of the Grand Lodge, I. O. G. T. was then called upon and spoke briefly. He said that the liquor traffic was a curse to this or any other country. He was opposed to license in every form, he did care from who or where it came. The Scott Act had been repealed here and we are now having our punishment which has come to us sure and swift.

If the Liberal party is to become a license party they would have our support less than they have now.

Rev. G. P. Raymond next spoke. He wished that the attendance was even larger. He referred to the fact that we were arroused when war was declared and sent our young men to fight the enemy of our Empire in Africa, but have no interest in fighting the foe of intemperance that is right here, which is doing more injury than war. He quoted from Cardinal Manning some clippings of the Church of England, the synod of the Presbyterian church, the Methodist general conference, and the Baptist Association of the Maritime Provinces, showing the attitude of the different churches on the question of temperance. He could not understand how a government elected by the vote those people could pass a License Law was more than he could understand was not a government of the people the people and for the people, but of saloon by the saloon and for the saloon

A collection was then taken, to defray expences, the National Anthem was sung the meeting closed.

The Pulley Belt.

The pulley belt, be it briefly explained consists of two rings, attached to each end of a belt; also attached are belt ends are two short ribbons, and belt fastens by passing the ribbons through the rings and then tying them in a bow. The pulley ring device is used equally to leather or silk bands.

The leather belts are wider in the center of the back and taper in front, the width adapted to the size of the ring. The plain silk belts have stiff stitched pieces inserted to maintain the proper width at the back, and the ends are gathered to the rings. In buying these belts you must take two inches less than their actual waist size, as this is about the space or distance apart for the rings when the belt is in use. These new belts can be had by mail from Paton & Co. cheaper than from foreign dealers, prices 30c, 35c, 40c, $1.00. In ordering please state dark or light color. Get one for Easter. Paton & Co.
