POLLUTED WATER AND TYPHOID FEVER.

Toronto is a big and growing Canadian city, and one of the Dominion's foremost intellectual centres. But it is and has been for months past seriously afflicted with typhoid fever, and the disease has been traced to the water supply.

That seems a rather cold-blooded view of the case, especially as the deaths from typhoid have been about twelve per month. Now that the exhibition is over some attention is given to the reservoir, which had not been cleaned out for years.

THE MOTOR CAR IN ENGLAND.

Editor P. D. Ross of the Ottawa Journal, in a recent lecture before the Empire Club gave a glimpse of the use of the motor car in England, and also of the smallness of that country when measured by Canada's magnificent distances.

"I sat in a motor car with one of our hosts who has a place near the south coast of England, and he remarked that if the police would allow him, he had had a friend in Wales with whom he would like to lunch occasionally. His car was running at that time on the Southampton road at a speed of 56 miles an hour, and was capable of more, and it would have been quite possible for him to take breakfast on one coast of England, to run across England at its widest part, take lunch and be back at the other side for dinner. Or, from the southernmost coast of England to the northernmost, you can go between daylight and sunset, in an average car."

TO FORTIFY THE CANAL.

Col. Roosevelt has provided an international sensation by "demanding" the fortification of the Panama Canal. This is in violation of international undertakings and is strongly objected to on that and other grounds by Great Britain and other European powers.

stench was sickening." The Globe says, "that much organic matter was in a state of decay was amply demonstrated to the sense of smell even when the observer was at a considerable distance."

It further appears that the prevalence of typhoid germs in the reservoir was well known to the civic authorities and that chloride of lime was being placed therein to kill the germs, but not in sufficient quantities to be effective.

Which Would You Choose?

If you saw a row of apples every one different in size, ripeness and color, and all for sale at the same price would you choose the best? Why not do the same when you buy FIRE INSURANCE. The Cost of Insurance is substantially the same in all Companies but what you get for your money varies very much. Choose the "LIVERPOOL, LONDON & GLOBE" and "QUEEN" Ins. Companies, which pay every honest loss big and little, liberally and promptly.

Ask the Subscribers in the Constellation Fire Companies they prefer.
