MYSTERIOUSLY DISAPPEARED

(Special to The Guardian) SYDNEY, Nov. 6.—Search for the body of Jack McDonald, who disappeared from New Waterford Saturday, is still being prosecuted at noon to-day. McDonald was last seen Saturday night about eleven o'clock. For the past two days search parties have been going over the country in the vicinity. McDonald was 21 years old. When last seen he was under the influence of liquor and, it is said, had a disagreement with his companions. Wild stories of foul play are circulated but, friends of the lad are convinced without foundation.

2000 SOLDIERS TO QUELL STRIKE

(Canadian Press.) INDIANAPOLIS, Indiana, Nov. 6.—International guards consisting of more than two thousand soldiers encamped in different parts of Indianapolis tonight, ready for duty in the strike of employees of the Indianapolis Traction Terminal Company. Special trains brought troops under hurried orders. They detained in the suburbs and are held to entirely surround the city and to prevent a clash with strikers until there are sufficient there to control the situation. Whether street cars will be moved by soldiers the officers in charge would not say tonight. It is expected martial law will be declared before morning. 300 women, members of the garment workers union invaded Governor Ralston's office today to demand forced arbitration of the strike. The Governor replied he would enforce the laws. The women became hysterical and said they would take up arms. Suit for a receiver for the Street Car Company was not heard today on account of the illness of counsel for the company. No attempt was made to move tears today.

HOLLAND PLANNING BIG UNDERTAKING

AMSTERDAM, Nov. 6.—The Government appointed several years ago to investigate the feasibility, probable cost, and other matters relating to the proposition of reclaiming the land at present covered by the Zuiderzee, a large body of water connected with the sea and covering about 200,000 hectares, has just submitted an interesting and voluminous report, thoroughly covering every phase and detail of the stupendous task. It appears that the fisheries in the waters of the Zuiderzee, once famous for the enormous quantities of herrings and other salt water fish caught there, have not been very profitable in recent years. It is estimated that the total value of the fish caught in the Zuiderzee does not now exceed 2,000,000 florins a year could be realized. The commission estimates that the cost of the work, including indemnities, etc., would not exceed 189 million florins and that the work could be completed in about 30 years.

SCHOONER MET SEVERE WEATHER

(Special to The Guardian) CANSO, Nov. 6.—The American fishing schooner, Harmony, Capt. Christopher Gibbs, reached here under jury masts. The schooner was dismasted by a squall off Sable Island on October 30.—Since then with as much sail as possible she has been working back to the coast. She was twice blown out of her course by gales. She had ten thousand pounds of halibut which was sold here. The schooner will be towed to Boston after undergoing repairs at Halifax.

HON. J. C. DOHERTY NOT TO RESIGN

(Special To The Guardian.) OTTAWA, Nov. 6.—Hon. C. J. Doherty gives emphatic denial to reports published from time to time that he will resign to succeed Sir Charles Fitzpatrick as Chief Justice.

DEBATE EXCLUSION OF IMMIGRANTS

SAN FRANCISCO, CAL., Nov. 6.—The annual intercollegiate debate between the teams representing Leland Stanford, Jr., University and the University of California takes place tomorrow evening and promises to be one of the most interesting events of the college year. Stanford will support the affirmative and California the negative side of the question as to the expediency of excluding from the United States the immigrants from southern and eastern Europe.

ILLINOIS WOMEN TO TALK POLITICS

SPRINGFIELD, Ill., Nov. 6.—Unusual enthusiasm characterized the proceedings today at the opening of the forty-fifth annual convention of the Illinois Equal Suffrage Association by State president Mrs. Grace Wilbur Trout. It is the first annual gathering since the great victory of the Illinois suffragists last spring, when the State legislature granted to them the right to vote on all but State tickets, and it is quite natural that the delegates representing the woman suffrage organizations of the State should feel elated over their success. Yet, a spirit of seriousness seemed to pervade the gathering and the president and the other speakers were loudly applauded when they sought to impress upon the delegates the necessity to perfect the political organization of the women of Illinois and to teach them more fully the responsibilities of the newly gained franchise and the best use to make of this right. The convention will remain in session three days and the programs for the daily sessions, general as well as departmental, include addresses by a number of noted men and women closely identified with the suffrage movement, among them Governor Dunne, of Illinois, Miss Jane Addams, Dr. Lucy Waite, Mrs. Medill McCormick, Mrs. Harriet Taylor Treadwell, Mrs. George W. Plummer, Mrs. Florence Bennett Paterson, Catherine Waugh McCulloch and a number of others.

THE MASTER OF THE HOUSE

The absorbing story of the Master of the house, a four act comedy drama, charmingly interwoven with love and tragedy, pleased another large audience at the opera house last evening. The scenery and production were good, and the gowns things of beauty. Unlike many comedy dramas presented on the stage at the present age, the play is perfectly smooth in construction and contains many situations, humorous and otherwise that are not too far fetched. It was well chosen in that it enabled the audience to appreciate the histrionic abilities of the members of one of the best companies that have graced the boards here. But, standing out predominantly in the cast last night were Miss Sue Vanduzer, a pretty, attractive, actress, that understood her lines well and did her best, Miss Grace Guernsey, equally attractive before the foot lights, and Mr. Frank Conway. These three are evidently the stars of the Harkins' aggregation and much may be expected of them in the future if their success of last night is any criterion. The scene of the play is laid in New York State, at the home of the Hoffman's in Belleville. The elder Mr. Hoffman, the master of the house, cleverly personated by Mr. Frank Conway, was beguiled into a love scrap by a wily and designing lady companion to his wife, Beattina Curtis, (Miss Grace Guernsey), who had come to the home with the intention

SUMMERSIDE CASE BEFORE SUPREME COURT OF CANADA

Morrison vs. Water And Sewerage Commissioners. An Appeal From P. E. Island Court. Case Still Before Court.

(Canadian Press) OTTAWA, Nov. 6.—In the Supreme Court of Canada today, the first Maritime Provinces appeal argued was that of Morrison vs. the Summerside Water and Sewerage Commissioners, an appeal from the Court of Appeal in Equity for P. E. Island. The respondents being about to install a water system and sewerage in the town of Summerside called for tenders for the work. The appellant tendered for a lump sum \$73,000 for the work. The plaintiff tendered for the work not including a power house and smokestack which were not in the plans and specifications and also put in separate tenders for certain portions of the work, one of them being a necessary supply of iron pipe. The appellant's tender was accepted but he claimed that the respondents informed him they had another tender for iron pipe more than \$2,000 less than the plaintiff's had offered. If he would reduce his tender to a lump sum of \$73,000 they would give him the benefit of the other tender whereby the town would save \$958 and the plaintiff would save \$2,000. The plaintiff agreed but afterwards found that the tender transferred to him was for nine-inch pipe, cast on an angle, while

he was required to lay twelve-inch pipes cast vertically. The plaintiff also claimed the cost of the power house and smokestack. The defendants paid \$279.20, being the difference in the cost of the twelve-inch and nine-inch pipe. The plaintiff sued for cancellation of his contract with the respondents and an enquiry as to damages or, in alternative, rectification of contract by adding to the price \$958 by which it had been reduced and striking out all reference to the construction of the power house and smokestack as part of the system. He claimed \$1,625 for this work. The court considers.

UNIVERSITY HEADS IN CONFERENCE

URBANA, Ill., Nov. 6.—The University of Illinois is entertaining for two days the fifteenth annual conference of the Association of American Universities. The attendance includes representatives of nearly a score of the leading institutions of learning throughout the country. Today was devoted to a meeting of the executive committee of the association and meetings of the conference of deans and similar officers of graduate schools. Tomorrow the conference will hear an address by President John Grier Hibben of Princeton University on "The Type of Graduate Scholar." Other prominent speakers of the day will include Prof. Guy Stanton Ford of the University of Minnesota and William D. Johnston, librarian of Columbia University.

CANADA HAS A NEW ISLAND

(Canadian Press.) MONTREAL, Nov. 6.—Captain Hasbalk of the liner Serrana, just in from the West Indies, reported a very narrow escape of running in foul of Canada's new island, thirty miles north east of Sable Island. The Serrana ran into a heavy fog just as she reached the situation of the island always given a wide berth by the mariners. Soundings taken showed but twenty fathoms of water where there always was fifty. Continued soundings showed shoal water at points where the ocean should have been almost unathomable. Finally the coast of Cape Breton was descried. When the Captain reached Montreal he learned of the new island and is certain that it caused the phenomenon.

CHINESE TO HANG FOR MURDER

PORTLAND, Ore., Nov. 6.—After a legal fight extending over a period of five years Lem Woon, alias Lum Suey, a Chinese who was convicted of murdering Lee Tai Hoy on March 7, 1908, during a tong war, will be hanged a week from today, unless Governor West should see fit. Lem Woon was originally tried in the summer of 1908 and Circuit Judge Bronough sentenced him to hang on November 20, of that year. The condemned man's lawyers appealed first to the state supreme court and from that to the United States supreme court, basing their appeal upon the fact that the defendant was tried on an information after the legislature had provided for indictments, but before the law became effective. The conviction was upheld in both higher courts and it is not believed that the legal resources of the defence are exhausted. At the county jail every thing is put in readiness for the execution and it is believed that the Governor will interfere with the execution of the sentence.

STEAMER BURNED SUNK IN HARBOR

(Canadian Press) CURLING, Nfld., Nov. 6.—The steamer Alcona, a floating refrigerator for the Gloucester herring fishing boats, sank in Curling harbor to-day after burning for eighteen hours. All the crew of fourteen escaped although some were thrown into the water when the vessel went down. The Alcona was valued \$100,000 and was owned by the Gorton Fish Fisheries Co., Gloucester, Mass.

FINANCIAL CRISIS IMMINENT IN U.S.

(Canadian Press.) NEW YORK, Nov. 6.—Jacob H. Schiff, the famous banker, told members of the Chamber of Commerce today that the financial machinery of this country must be changed very soon or a serious situation would result. "If the currency measure is not properly amended," he said, "and we get away from the goal which is now in sight we will confront very difficult conditions."

NATIONAL BEAGLE TRIALS BEGIN

CHARLOTTESVILLE, VA., Nov. 6.—The twenty-fourth annual field trials of the National Beagle Club began today on the club preserves near Shadwell, four miles east of this city, and will continue for the greater part of a week. The results of the meeting will be watched with much interest. Dogs, the product of years of careful breeding and training and the victors of all the trials of the past year, will be brought into competition in the various events that make up the programme. On Sunday the annual bench show of beagles will be held, with Thomas Cadwallader of Philadelphia as judge.

SIR FREDERICK TAYLOR HIGHLY ESTEEMED.

MONTREAL, Nov. 4.—Regarding the appointment of Sir Frederick Taylor as London correspondent of the Gazette cables: "Reported changes in the management of the Bank of Montreal have not yet been confirmed here, and the London office is informed, except through the statements in the press. One of the officials expressed the opinion today that Sir Frederick Taylor would be the only possible successor to the general manager-ship. "The departure of Sir Frederick from London will evoke great regret in financial circles, in which during the last seven years he has gained widespread esteem. This was evidence to the recent lecture on Canadian banking and finance at the Royal Colonial Institute. He was quite frank on that occasion, admitting the harm of extravagant borrowing by small municipalities, and yet showing that the position of the Dominion with regard to the provinces and larger cities was absolutely sound. "It will be remembered that Sir Frederick Taylor was included in the last new year's honor list showing recognition of his personality and the record of his position on this side. Sir Frederick has always been a strenuous worker and was frequently at the office of the bank from ten o'clock in the morning until seven in the evening, and always accessible to the many callers."

SUMMERSIDE BOARD OF TRADE

(Special by Phone) SUMMERSIDE, Nov. 6.—The regular quarterly meeting of the Summerside Board of Trade was held last evening. There was a large number of members present. After the reading of the minutes two propositions for membership were accepted. Captain Reid, one of the Board's delegates to the Maritime Board meeting at Chatham, gave a short report of the proceedings of that body. Regarding the Board's resolution at the Maritime Board re increased freight rates on the I.C.R. and P.E.I.R., he informed the Board that their resolution passed unanimously, but with apparent little effect as the local rates still continued entirely out of reason and he gave an instance of the freight rates on a car of potatoes from Elmsdale to Montague which amounted to over \$50. Mr. R. H. MacDonald, the other delegate, in his report referred to the matter in an extending action of the Board in extending an invitation to the members of the Maritime Board to hold their next annual meeting in Summerside which invitation was unanimously accepted. Mr. Stewart, of the Committee to act in conjunction with a similar committee from the Seed Fair re the securing of a suitable building in which to hold the fair, said that although the committee had not met the Seed Fair Committee yet he regretted to say that at the present time no building other than the one used last year was available. He suggested that the 10-pointed to look into the question

BANK FAILURES TROUBLE INDIA

(Canadian Press.) CALCUTTA, Nov. 6.—The continued failure of banks in India is causing much alarm and the government is contemplating legislation restricting the use of the term bank in this country. The government has no intention of imposing irksome restrictions on solid banking institutions conducted by foreign or domestic concerns.

THE SITUATION IN MEXICO

(Canadian Press.) WASHINGTON, Nov. 6.—No new developments in the Mexican situation were announced late to-day, following the presentation to Provisional President Huerta of the wish of the United States that he resign. Well informed officials at the White House deny the sending of an ultimatum and believe the note was not the last of the word-parleys. President Wilson has not yet laid the matter before congress but is keeping close watch on the situation. It is not likely the president will make a move until he hears from Huerta, through charge of O'Shaughnessy, though newspaper despatches say Huerta will refuse to resign, nothing definite is known.

MICHAELMAS TERM OF SUPREME COURT

The Michaelmas Term of the Supreme Court for Queen's County, resumed yesterday morning at the Court House, Charlottetown. Before their Lordships Chief Justice Sullivan and Justice Hazard. James T. Purdy and anon. v. John P. Nicholson, the City Surveyor.—A rule nisi for a new trial of the case decided last January in which Purdy sued Nicholson for damages for trespass on his lands in the course of the effecting of certain road repairs, judgment being given before Mr. Justice Fitzgerald for \$100 damages. Messrs. McLean, K. C., and McKinnon appeared for the defendant, and Messrs. Martin, the Recorder, and Johnston, K. C., for the City Surveyor. Mr. McLean on the reopening of the court, continued to show cause against the rule. On the conclusion of his arguments the reply by Mr. Johnston on behalf of the City Surveyor was begun but was not concluded when the court adjourned to this morning, 11 o'clock. When the Court resumes today before the above case is continued, argument will be heard in the application of Elias Basha to set aside his arrest at the suit of N. Rattenbury, Ltd.,

RUSSO-CHINESE AGREEMENT SIGNED.

PEKING, Nov. 5.—A Russo-Chinese agreement, by which China recognizes the autonomy of outer Mongolia, was signed here today. Russia continues to acknowledge Chinese Suzerainty and undertakes to refrain from colonization of the country, with the exception of consular guards. The agreement provides that autonomous Outer Mongolia shall comprise the regions formerly under the jurisdiction of the Chinese Government at Urga, the Tartar General at Uliassutai, and the Chinese Governor at Urga, but since no detailed maps of the country exist the exact future frontier will be the subject of negotiations.

He suggested that the 10-pointed to look into the question

BOY FATALLY INJURED IN FOOTBALL GAME

LAWRENCE, Mass., Nov. 5.—Injuries received in a football game caused the death today of William McCartney, aged 15, a High School student. He was hurt in a game last Saturday. At the Hospital, it was found that his skull was fractured in three places.

Minard's Liniment Cures Distemper.

THE WEATHER THE TEMPERATURE TIDE, MOON.

(Special To The Guardian.) TORONTO, Nov. 7.—Moderate to fresh westerly winds, fine and mild. THE WEATHER.—Yesterday was beautifully clear, with bright sunshine in the morning, clouding up in the afternoon, but clearing at night. It was considerably milder than has been this week. The tide will be high this evening at 6.13 and tomorrow at 7.02; it will be high tomorrow morning at 5.45 and Sunday at 7.02. The sun sets this afternoon at 4.33 and tomorrow at 4.37; it rises tomorrow morning at 6.50 and Sunday at 6.52. The moon sets tomorrow morning at 1.21. The first quarter of the moon was on Wednesday, Nov. 5th, at 2.34 p. m. There will be a full moon on Thursday, Nov. 13th, at 7.11 p. m. The length of today will be nine hours and 49 minutes.
