Be Careful What You Wash Your Child's Hair With

If you want to keep children's hair in good condition, be careful what you wash it with.

Do not use the prepared shampoos or anything else that contains too much free alkali. This dries the scalp, makes the hair brittle, and is very harmful. Multisided coconut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can not possibly injure the hair.

Simply moisten the hair with water and rub it in. Two or three teaspoonfuls of Multisided will make an abundance of rich, creamy lather, and cleanse the hair as a scalp thoroughly. The lather rises out easily, and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy, wavy and easy to manage.

You can get Multisided coconut oil shampoo at any drug store. It is inexpensive, and a few ounces will last for months. Be sure and ask for "Multisided." Beware of imitations. Look for the name Watkins on the package.

GAPES

This disease is more common to young chicks than to adults and is due to the presence of small worms in the air passages. The worms may become so numerous as to almost choke the bird. The presence of the worms in the trachea causes an irritation which makes the bird gasp and cough. If the bird does not get rid of the worms it becomes weak, the wings droop and it gapes as if suffocating, until it dies.

A COLORFUL SEASON IN SHOES

Shoes promise to be an interesting part of the summer wardrobe, sometimes a very colorful part. There are to be positively gay colors in shoes, in one tone and in combination. Straps will be seen on the sandals, a band of leather, kid or satin, as the case may be, stitched across the instep. The single strap running straight up from the centre of the sandals and connecting with a strap across the instep will be seen again this season. The shoes are coming in again for suit wear. In both patent leather and kid a good deal of cut out work will be seen. For women of conservative tastes the new models in two tones of grey and brown will be liked. With smart white summer gowns colored shoes will be worn to match accessories.

ATLANTA EXPECTS 50,000 ELKS AT JULY GATHERING

ATLANTA, May 30.—Not less than 50,000 Elks from all parts of America are expected to be present at the annual convention of the grand lodge of the order, which meets in Atlanta July 9 to 18. The gathering will assemble delegations from Maine to Hawaii, with representation from a large majority of the 1,600 lodges in the country.

This is the first time that a convention of the grand lodge of Elks has ever been held in the south-east, and the first time in ten years that the organization has come south.

The Atlanta lodge is completing preparations to entertain a minimum of 75,000 visitors. The hotel capacity will be enlarged by July 1. College dormitories will be operated as temporary hotels, two vast Pullman cities will be set up in the heart of the city, and the grounds and buildings of the South-eastern Fair will be converted into a monster tourist camp to accommodate several thousand southern lodges which will make the trip by automobile. Thousands of private homes will also be opened.

SAYS EDUCATION WOULD CHECK NEGRO MOVEMENT NORTHWARD

OXFORD, O., May 29.—The providing of means for the education of the negroes is one way to keep them in the southern states and check the alarming movement of the blacks northward, is the opinion of Dr. H. C. Minnich, head of the State Normal College, Miami University in a statement made here upon his return from a tour of the negro educational institutions of the south. According to Dean Minnich, one-third of the negro population of the state of Georgia has migrated to northern states.

Dean Minnich said that unless the negroes are educated in the south they will continue to move northward. His tour, he said, showed conclusively that the attitude of southern whites has changed from that of hostility to friendliness in the matter of education of the negroes. It also showed that the standard of these negro educational institutions is steadily rising, and that the number of students matriculated in these various institutions is growing by leaps and bounds.

JUDGMENT OF UMPIRE IS LAW, SAYS HEYDLER

NEW YORK, May 30.—President Heydler, of the National Baseball League, today disallowed Cincinnati's protest of the game with New York Giants, played here May 19, in which Umpire Quigley refused to allow Bohne, the Cincinnati second baseman, to take his base after being hit by a pitched ball.

The Cincinnati club also charged that Pitcher McQuillan's delivery was illegal but Quigley asserted that Bohne deliberately stepped into the ball.

Heydler ruled that the decision was solely of judgment and therefore not subject to appeal.

DAWSON STAMPEDE ON EMPIRE DAY

DAWSON, CITY, Y. T., May 30.—The Empire Day holiday was broken up on Thursday when it was announced that a new silver fudge had been discovered at Happy Creek, forty miles south of Dawson. The news broke at midnight and an old time stampede was staged. There was a wild race from the dance hall and a scramble for the fudge, canoes and small boats. The fudge is reported to have been found by Jack Laskie, an Indian and James Robinson.

EARTH'S PULSATIONS

It has been pointed out that, in addition to the many tremors due to seismic, or earthquakes, influences which modern delicate instruments detect, there are certain pulsations which seem to have their origin, says the Washington Star, some of these are diurnal, and are probably due to the influence of the sun and the weather on the ground. In wet weather the sides and bottom of the bounding ridges in dry weather or the case is reversed. Even the transpiration of moisture by plants may produce perceptible effects upon the tilt of the ground. Thus the face of mother earth is almost as sensible to external as the skin of a living creature.

A BURGLAR PROOF WINDOW

A burglar-proof window, shown in Popular Mechanics Magazine, permits the sash to be opened to any desired height. Protection is insured by a set of iron bars, five inches apart, that are raised or lowered with the window. When the window is down, the bars are telescoped between the wall and woodwork. Mortised and locked, at all times, to a heavy strip of metal fastened at the bottom of the sash, the window can scarcely be forced.

U. S. BATTLE FLEET SAILORS STAGE RIOT

OS ANGELES, May 30.—One man may die, four are suffering from serious knife wounds, and a number of others are cut and bruised as results of a riot between white and Filipino sailors of the United States battle fleet at Los Angeles harbor today.

The trouble started when a white sailor was ejected from a dance intended exclusively for Filipinos. About 1,200 of his white comrades, armed with bricks, started for the dance hall. At the entrance they were stopped by the police and sailors on patrol duty while the hall was cleared of the Filipinos. They then descended on a Chinese restaurant filled with Filipino sailor patrons and a free-for-all fight ensued.

R. D. Drummond, of the U. S. S. Mississippi, was shot in the left side. His assailant was not caught. Drummond was taken to the submarine base hospital, where it was said that his recovery was doubtful. Four other white sailors were slashed severely.

TAKES FANCY TO BOY AND KIDNAPS HIM

HAMILTON, May 30.—Police are scouring the country for little Albert Ambridge, aged eight, whom it is feared, was kidnaped from his home on Friday afternoon by a man named Frank Howell. Some time ago Albert's father, Herbert Ambridge, gave shelter to Howell in his home, where Howell lived for several weeks and then he disappeared. Howell made friends with Mr. Ambridge's boys, and was especially fond of little Albert.

On Friday morning a man said to be Howell who is described as being of medium size, of dark complexion and wearing a black mustache, appeared in front of Mr. Ambridge's home where the boys were playing. He was drawing a kid's cart, painted white, and promised Albert to get him a dog if he would accompany him to Dundas Marsh. The lad got into the cart and has not been seen since.

FLOW OF CANADIANS TO U. S. IS ALARMING

MONTREAL, May 30.—In a pastoral letter addressed to the clergy of the diocese and read in all Montreal churches today, Archbishop Gauthier, apostolic administrator of the diocese of Montreal, declares that the flow of Canadians to the United States is reaching alarming proportions, and states that statistics show that 14,000 individuals from Quebec province have passed the border up to April 9, while since then the movement has become more accentuated. He quotes similar pastoral letters dating back to 1871, in which the bishops deplore similar emigration and warn the faithful against exploitation in a foreign land where they may be exposed to heresy and loss of faith, and become "the mere toilers of a rich and independent nation."
