Is Coming

The expected arrival on Wednesday evening's train from the Mainland of Miss M. Eleanor Herrington of Toronto, Dominion Organizing Secretary of Canadian Girl Guides, on an inspection and Organizing tour of this Province is looked forward to with much pleasure and interest by the local companies of Guides. This movement which has spread so rapidly throughout the British Isles and is now showing an equally rapid growth throughout Canada, aims to develop good citizenship among girls by forming their character, training them in habits of usefulness, obedience and self-reliance—by games and activities which really appeal to the girl. They are a great happy family spreading over all our beloved provinces, creeds, and politics, three things which enter not in their work as Guides. They are girls of all ages. The little girls, under 11 years of age can join the Girl Guides, the youngest member tries to lend a hand to help as much as ever she can in her own home and to be happy herself and strive to make others happy and cheerful also. The girls over 11 years of age are divided into three-fold guides of service—1. To her duty to God and the King. 2. To help other people in their needs. 3. To be prepared and ready to be of service to the community. They are being prepared by their discipline and training to help themselves and other people. Their training includes: Work in the Home—Cookery, Housekeeping, First Aid, Home Nursing, First Aid, Home Nursing, Children. 2.—Physical Development, Swedish Drill, Laws of Health, Saving Life, Outdoor Games, 3.—Woodwork, Camping, Natural History, Map Reading, Boating, Swimming, Signaling. 4.—Discipline, Obedience to those in Authority, Self-Sacrifice, Sense of Duty, Self-Reliance, Good Habits. It can readily be seen that the Girl Guide movement is one of the greatest material benefits to our country in preparing for good citizenship those upon whom the nation will pin its hope for the future. The girls of today will play their part in the future generation. In developing these the character of the girls just at the planting of the seed, doing far more than merely helping those who are young now. It is teaching and building for the future.

county now maintaining will be continued through the year. The Grand Jury since the earliest days of this Province has been one of the most important factors in securing due administration of the law. From early history in the administration of this County the Grand Jury was summoned of able and discreet men from the body of the County with few exceptions; men supposed to set a high standard. The Grand Jury has always been one of the safe-guards of civilization. During the past few years we have seen the wreck of kingdoms and government supposed to be safe and secure. They have gone and their reform can come about only by slow and painful degrees. It is worthy of note that those nations which have withstood best the stress and strain of the disturbance of war, have been those which have been wisely administered. The people were satisfied in a sufficient measure with their government. Because of the wise laws of England and their enforcement, the country was able to stand the strain which has been put upon it.

The success which attended the board's efforts in both these directions was quoted freely in the British press; the matter was brought up in the House of Commons, also about a result of the work done by the Edmonton S. S. B. office—Canada avoided the acquisition of a noticeable "black eye."

In the old country a careful attention of the intending immigrants will be made and once they arrive at Canadian ports and until they are placed with the farmer, the care of the S. S. B. Data regarding various ships will be kept and as each party arrives they will be set aside an assignment made by S. B. officials will travel with the party on the train and tabulate a rough estimate as to the capacity of each man.

The other end of the matter is also receiving attention, and it is intimated that further action will be taken by the Sims Packing Company against the appellants for alleged illegal use of the Company's premises.
