

PRINCE OF WALES COLLEGE.

The Contract Let—Excavation Well Under Way.

The new Prince of Wales College and Normal School building, concerning which there has been so much talk during the past few years, is about to materialize.

The building is to be of brick and stone, and will front on Weymouth and Grafion streets. It will be two stories high, with basement and attic.

The basement plan calls for two recreation rooms, each 24x37 feet, one of which will be for the boys and the other for the girls.

On the first floor there will be three class rooms, each 26x40 feet, besides a reception room, library, physical and chemical laboratory, cloak rooms, etc.

On the second floor there will be two class rooms 26x30 feet, and three class rooms 26x30 feet. There will also be two private rooms for the teachers on this floor, besides cloak rooms.

The part of the structure to be occupied by Dr. Anderson will overlook Kent Street. On the first floor he will have an office, parlor, dining-room, kitchen, pantry, and scullery.

On the second floor he will have a dressing room and three bedrooms, besides bath and toilet room.

Over the principal entrance there will be a spire extending 52 feet above the peak of the main building, and over the wings there will be spires reaching about 18 feet above each wing.

The building is to be heated by steam, and fitted throughout according to modern ideas.

After the new building is ready for occupation the two old ones will be removed.

PRINCE EDWARD ISLAND And Its Attractions to Tourists.

Prince Edward Island's summer climate is delightful, free alike from chilling fogs and excessive heat. The many bays and winding estuaries, together with the dark and bright green foliage, and the rich verdure of the meadows, make up a scenery which is beautiful and quietly picturesque.

Charlottetown, the important city of the Island, has over 12,000 inhabitants, and is the capital. It is connected by rail, steamship and stage with all the important villages, towns and seaports, and an extra fine farming region.

Summerside is the next largest town in the Province, with about 4000 inhabitants. It is situated on beautiful Bedouque Bay and in the centre of a fine large farming region.

Georgetown and Souris are the two important towns in the eastern part of the Island, with a population of about 1,000 each.

WORSE THAN YELLOW FEVER

Kidney Disease Man's Deadliest Foe. Dodd's Kidney Pills its Only Cure.

Toronto, July 18.—Yellow fever and smallpox combined, do not kill as many people as Kidney Disease does," was the assertion of a prominent Toronto physician, recently.

The assertion is fully borne out by facts, and were it not that there is a means of checking and curing Kidney disease the number of its victims would be trebled.

But the use of Dodd's Kidney Pills keeps the death-rate from this complaint, quite low compared with its former height.

If Dodd's Kidney Pills were used in every case of Kidney Disease there would be no deaths from it.
