

PAIN CONSTANTLY TORTURED HIM

Student Became So Ill, He Was Forced To Leave Berthier College—Suffered For Two Years Until Cured By Wonderful "Fruit-a-tives" Tablets

MAGLOIRE PAQUIN, ESQ.

St. Boniface de Shawinigan, Feb. 3rd, 1914.
"It is a pleasure to me to inform you that after having suffered from Chronic Constipation for 2 1/2 years, I have been cured by the use of "Fruit-a-tives". While I was a student at Berthier College, I became so ill that I was forced to leave College. Severe pains across the intestines continually tortured me and it came to a point when I could not stoop down at all. At times, I used to be for three or four days without a single motion of the bowels, and I became so sick that my digestion became paralyzed. Some one advised me to take "Fruit-a-tives" and at once noticed a great improvement. After I had taken four or five boxes, I realized that I was completely cured".

MAGLOIRE PAQUIN

Many famous physicians have stated that fully 50% of the cases of Kidney Trouble, Pain In The Back, Indigestion, Sour Stomach, Appendicitis, Nervousness, Headaches, Typhoid Fever, Rheumatism and Neuralgia, are found in people who habitually suffer from Chronic Constipation. Surely, you must realize the danger of Constipation "Fruit-a-tives" acts directly on the Liver; stimulates this organ to renewed vigor; enables the Liver to give up sufficient bile to move the bowels and insures the bowels moving regularly and naturally every day. "Fruit-a-tives" will positively cure every case of Constipation, no matter how severe it may be.

50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

TUESDAY.

PRESS ASSOCIATION.—Among the Maritime Province newspaper men elected to office at the meeting of the Canadian Press Association in Toronto last week were Mr. R. L. Cotton, who was elected Vice-President of the Maritime Province division, and Mr. J. C. Keating, of the Moncton Times who was elected a director.

THE CAT CAME BACK.—A respectable cat of no particular pedigree and with no special claims to distinction had a comfortable home with a good family on Prince street. The other day, after a family consultation in which the cat took no direct part, it was decided that the animal's services could be dispensed with and a home was found for her with friends in Milton, some seven miles out of town. Accordingly Puss was sent to her new home securely done up in a neat box and borne by the family carriage. Next morning she was found, somewhat exhausted, at the door of her former home on Prince street. By what instinct, geographical or astronomical lore, or "black art" she found her way back over roads whose intricacies have puzzled many travellers, is a question which might well engage the attention of the scientists now in session here.

ABNEY.—Mr. and Mrs. Joseph Hooper, of Lynn, Mass., who have been visiting friends and relatives in Abney, have left for their home. Quite a number of the young ladies of Abney who, during the spring months, were employed with W. F. Louis and Co., across the Straits, have arrived at their homes.—Mr. Austin Bell, the Road Master, has the roads in excellent shape, and much credit is due him for the nice smooth surface the roads have after the new work on them.—The semi-annual examination of Abney School was held on the birthday day of June. The pupils were examined in several subjects, by their teacher, and the prompt answers given to the questions asked them, goes to show the grand knowledge they have of the work performed by them during the past half year, through the careful training of their instructor.

WEDNESDAY.

AUTO TRIP.—A number of local motorists intend leaving for a motor trip to Halifax on Monday next. They will take their cars across with them and motor through to Scotia's capital. Several of the party are going to attend the convention of the Knights of Pythias that is to be held there. Those who, it is known at present, are to make the trip are Mr. B. Roy Holman, Mr. W. S. Grant, Mr. W. B. Prowse and Mr. S. A. McDonald, each with his own car. They will be preceded by Mr. George Prowse, who, with a party, will cross on Saturday, and also motor to Halifax in his car.

DRIVER THROWN.—Mr. McDonald, of Victoria, met with a severe accident in Charlottetown yesterday afternoon. He was driving a double team, the vehicle being a light wagon, up Prince street. A part of the vehicle broke in front, the horses broke into a gallop and the driver, leaning to one side to see what was wrong, was thrown from the wagon, and becoming entangled in the reins, was dragged along behind the wagon and the galloping horses for a considerable distance before the animals, dashing with the wagon against the parapet, were brought to a standstill. McDonald's clothes were badly torn, his hands and face were bruised, and he sustained a severe scalp laceration. The wagon was brought up at the corner near the First Methodist Church, and Dr. Ledwell, who lives closeby, came to Mr. McDonald's aid.

To Cure Catarrhal Deafness and Head Nois.

Persons suffering from catarrhal deafness and head noises will be glad to know that this distressing affliction can be successfully treated at home by an internal medicine that in many instances has effected a complete cure after all else has failed. Sufferers who could scarcely hear a watch tick have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear.

Therefore, if you know someone who is troubled with head noises or catarrh, or catarrhal deafness, cut out this formula and hand to them and you will have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:

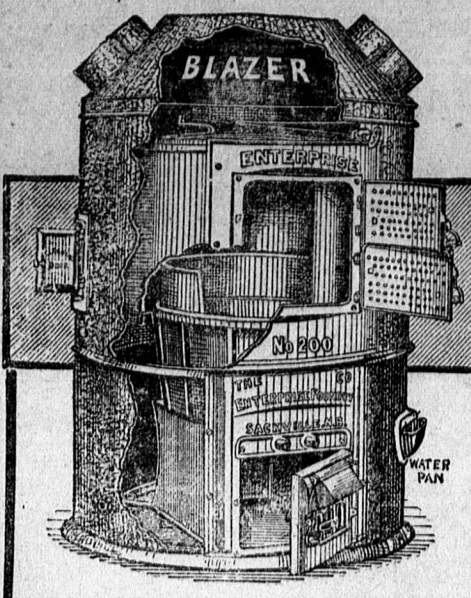

Secure from your druggist 1 oz. Parmit (Double Strength), about 75c. worth. Take this home, and add to it 1/2 pint of hot water and 4 oz. of moist or granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

The first dose promptly ends the most distressing head noises, dullness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat are other symptoms that show the presence of catarrhal poison, and which are quickly overcome by this efficacious treatment. Nearly ninety per cent. of all ear troubles are directly caused by catarrh; therefore, there are but few people whose hearing cannot be restored by this simple home treatment. Every person who is troubled with head noises, catarrhal deafness, or catarrh in any form should give this prescription a trial. There is nothing better.

NEW ORPHANAGE.—On next Sunday, July 19th, at 4 o'clock p. m., the laying of the corner stone of the St. Vincent de Paul Orphanage will take place. The ceremony of solemn blessing will be performed by His Lordship Bishop O'Leary. The sermon for the occasion will be preached by Rev. Dr. McMillan of Cardigan. All are invited to be present.

EMYVALE.—The closing exercises of Emyvale school were held on Monday afternoon, June 29th, at 1 o'clock p. m. Notwithstanding the heavy down pour of rain, there was a large attendance of rate-payers who expressed their satisfaction at the way in which the pupils acquitted themselves, and showed the careful and efficient training of their teachers. Miss Katie Coady and Miss Lizzie McQuaid. The classes were examined in the different branches of education by the Rev. Dr. Curran who also expressed his pleasure at the manner in which the school was being conducted by the two above named young ladies. The following is the Honour Roll for the term ending June 30. Grade VII.—1, Angelo Coady; 2, Jeanette Coady. Grade VI.—1, Lucy Griffin; 2, Bertha Murray; 3, Susie Curley and Sarah Hagan (equal). Grade V.—1, Mary Murray; 2, Rose Hagan; 3, Gertie Coady. Grade IV.—1, Walter Coady; 2, Mary McCloskey; 3, Loretta Hagan. Grade III.—1, Teresa Clarkin; 2, Regina Murray. Grade II.—1, Ida Coady; 2, Lima Murray. Grade I.—1, Matthias Murray; 2, Mary McCloskey; 3, Matthias Callaghan.

Death always inexorable in his harvest reaping young and old, rich and poor alike, disregarding all stages and conditions of life, has reaped another victim in the person of Mr. George Gallant, resident of Rustico. He passed away after a long illness endured with patience and resignation and provided with all the spiritual help of the Catholic Church. The deceased was 84 years of age, and one of the oldest and most respected residents of the place. He leaves to mourn, a widow of an advanced age, a son, Mr. Albert Gallant of the home of the deceased and five daughters, Mrs. Armand LeClair, Mrs. Simon Pincen, Mrs. Leon Gallant and Mrs. Joseph N. Pincen, all of North Rustico, and lastly Mrs. Henry Doucette, of Charlottetown. A large circle of relatives and friends went to pay their respects to the deceased and assisted in large numbers at the funeral which was one of the most largely attended of the year. The funeral took place on Sunday afternoon. Next to the hearse there followed a number of the children and grand-children of the deceased, which is perhaps the highest in number on record in Rustico. The pall-bearers were as follows: all grand-children of the deceased, Messrs. Peter Pincen, Simon LeClair, Raymond Gallant, George Pincen, Armand LeClair and Jerome Gallant.—R.

REASONS
SCIENTIFICALLY correct principle—supplying warmed fresh air, and ventilating the house as well as heating it.
PROPER PROPORTIONS—strength where strength is required, generous dimensions, but not too high for low cellars.
BEST MATERIALS—steel where steel is best, charcoal iron where it is better.
LARGE ASH-PIT, anti-clinker grates; large feed door; direct damper, worked from the front; easily-reached water-pipe; heavy, two piece flanged fire-pot (patented by us); gas-proof steel radiator. Easy to clean out.
MOST ECONOMICAL—costs less to install than hot-water radiator systems; gives generous heat; low coal consumption; requires little attention, no repairs, and will last a lifetime.
Made in Four Sizes.

The ENTERPRISE Hot Air Blazer Furnace

is correct in principle, durably constructed of the best materials and economical and convenient in operation. It supplies a generous quantity of warm, fresh air to every part of the house, with less coal than is burned by many furnaces greatly inferior in heating capacity.

Patented and exclusive features are responsible for this economy, and also for its great durability.

Health as well as comfort, demands pure air in the house. Ordinary heating systems warm the same air over and over again, until it is dry, dead, and unwholesome. The Blazer Furnace ventilates the house, and heats all parts of it evenly, protecting occupants from headaches and colds.

Write for this book. It is free.

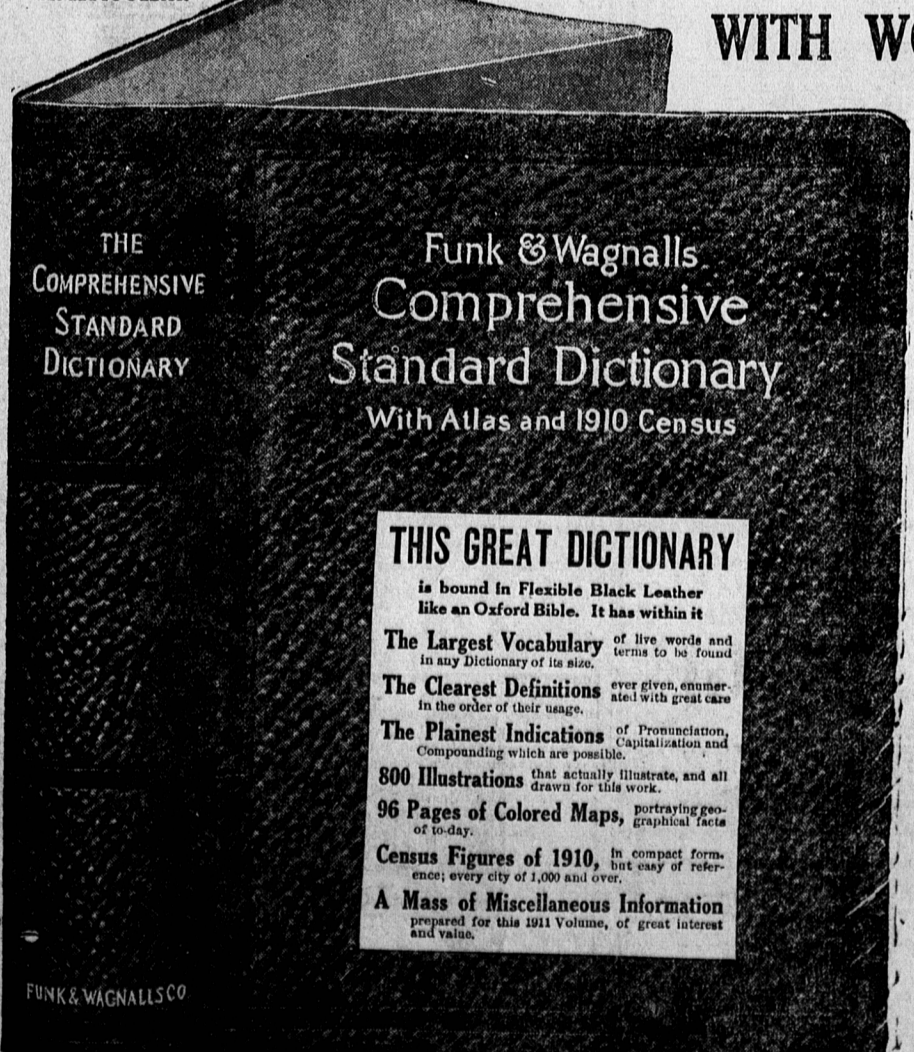

There is a Blazer representative in your vicinity who will be glad to explain its features fully and to estimate the cost of installation in your home. If you do not know him, write us for his name.

Be Your Own "Repair Man"

In Summer the human machinery easily gets out of order. Don't dope it with drugs or drinks. Help Nature do the repair work by eating

SHREDDED WHEAT

the food that supplies all the body-building material in the whole wheat grain in a digestible form. No "tire troubles" where Shredded Wheat is made an important part of the daily diet. A food for athletes and invalids, for youngsters and grown-ups—for any meal in any season. Your grocer sells it.

Always heat the Biscuit in oven to restore crispness; then pour over it milk or cream, adding salt or sugar to suit the taste. Deliciously nourishing for any meal in combination with berries or other fruits of any kind. Try toasted Trixuit, the Shredded Wheat Wafer, for luncheon with butter, cheese or marmalades.

Made by The Canadian Shredded Wheat Company, Limited Niagara Falls, Ontario Toronto Office: 49 Wellington Street East 22-F
