Help for the Eyes

When print blurs and reading is only possible at an inconvenient distance, eyes need help. Our glasses often relieve strain or restore failing vision.

After testing each eye separately we fit up the best lenses in the new frames or as rimless.

Kryptok Double Vision Lenses

When the age of forty to forty-five years is reached one needs another pair of glasses—a pair for reading a pair for distance vision. Kryptok combine these two pairs into one, the upper half of the lens for distance vision and the lower half for reading. Kryptoks are not two lenses cemented together—they are two strengths of glass fused into one.

SOME SHARP-SHOOTING REQUIRED

Is there any way to stop this fight? How many communities are making an effort to check this stampede of money that is leaving our home town? What is OUR community doing? What would all this money mean to YOU and ME, if it were spent with our own business men? The picture is no DREAM or FANCY. The artist has simply brought HOME to us the hard facts. Let us face them as they are. The group of men with rifles provides the right ACTION for US. Let us organize to stop this fight. Let each one of us REMEMBER that HOME values increase in proportion as we spend our money at HOME. That HOME values increase with every dollar sent away.
