REGINA'S DEAD HAVE BEEN BURIED THE INJURED BEING CARED FOR

TERRIBLE DEATH OF FRENCH AIRMAN

(Canadian Press.) PARIS, July 2.—The terrible death of Melvin Vaniman in an airship disaster at Atlantic City has given a shock to Frenchmen throughout the country. He was well known and a great favorite among French aeronauts. He had lived much in France and had a shop near Paris where he worked over his inventions. He was very active in helping Walter Wellman to prepare for his northerly voyage.

Now Feeding the Homeless and Re-establishing Business—Work of Rebuilding Already Under Way. Contributions From Sister Provinces. List of Dead and Injured.

(Canadian Press.) REGINA, July 2.—Since the dead have been buried and the injured are being well cared for, the chief work of the city is an effort to clear the debris away and find other bodies known to be missing. The next step of chief importance is feeding 3,000 homeless and rehabilitating the business of Regina. The banks are coming to the aid of business men and have prevented paralysis by extending necessary credits. Many men worth a quarter of a million last week are practically penniless today. What accounts they have are buried beneath tons of wreckage. The Manitoba government today added ten thousand dollars to the relief fund and from far south as Chicago and far east as Halifax streams of money are pouring in. REGINA, July 2.—All the day has been devoted to cleaning out the damaged houses and beginning the rebuilding. The wonder now is that the loss of life was not greater. It is estimated at about thirty. Whole families, including little children, escaped from houses now scarcely recognizable as houses at all. (Canadian Press.) OTTAWA, July 2.—Acting Premier Perley today received a brief message from Commissioner Perry of the North West Mounted Police describing the situation in Regina as serious. Hon. Mr. Perley telegraphed instructions to Commissioner Perry to render every assistance in his power. He also got into communication with the Militia authorities with a view to having that Department lend its aid to the sufferers. Mr. Perley despatched the following message to the Mayor of Regina: "In Mr. Borden's absence I wish to express for the Government its regret at the heavy loss Regina has sustained and its deep sympathy with the sufferers. Shall be glad to receive any particulars. Have instructed the Commissioner of the Mounted Police to render every assistance he can."

(Special to The Guardian.) CHATHAM, N. B., July 2.—In the Regina tornado the home of H. N. and Mrs. Loggie of Chatham was demolished and their seven months' old baby killed. (Canadian Press.) TORONTO, July 1.—Thirty dead and a loss of five million dollars is the net result of the terrible hurricane which swept Regina on Sunday. Hundreds of houses, three of the first Churches, the Y. M. C. A., the Y. W. C. A. are all in ruins. It is mute evidence of the terrible havoc brought by the hurricane. Daybreak this morning revealed the appalling scene of the disaster more fully and hundreds are homeless. On Cornwall Street right south of Victoria Park the Land Title Building has its roof gone. Governor Brown's town house is in a bad shape, the home of W. W. Martin, M. P., and nearly all the west side of the street is gone. They have been making miraculous escapes. J. H. Symons family are all safe, although their house moved ten feet. They crawled out the front window when the roof fell. Next to Symons were Dr. and Mrs. Love. They were caught on the stairs, the doctor was badly cut. On Lorne St. F. G. Apeas' house was demolished, himself, wife and child wonderfully escaped. At Jas. Findson's five people were pinned in. Fred was killed outright, the rest were mostly hurt.

DUCHESS OF CONNAUGHT TO VISIT PROVINCES

(Canadian Press.) OTTAWA, July 2.—It was announced at Government House last night that although the health of the Duchess of Connaught has improved so much that Her Royal Highness hopes to accompany the Duke to the Maritime Provinces and on the Western Tour, it is not expected that she will attend any of the official functions. ARTIFICIAL SIGHT. LONDON, June 27.—A blind man stood in the middle of a large room at the optical conference exhibition in London yesterday and told, without using the sense of touch, how many windows were in the room and how many persons were between himself and the wall. He did it by hearing light and shade. The medium of the seeing miracle was the optophone, a wonderful invention of Mr. Fournier D'Albe. The optophone makes light and darkness audible. The invention is based on the metal selenium's well known property of being affected by light. Mr. Fournier D'Albe contrives to make the effect of light on the passage of electric currents through selenium appreciable in a telephone receiver, and clockwork mechanism can be adjusted so that darkness is audible and bright light silent, or vice versa. The apparatus is contained in an oblong box, about 26 inches long, 8 inches deep. When the blind man had a glimpse into the vision yesterday he held the box in one hand and in the other hand held a cardboard cylinder, which acts as the feeler of the optophone. Moving this slowly before him, he was able to tell by the sudden increase of sound in the telephone receiver held to his ear, with the tube pointing at the window, whenever any one stood between him and the window. Swinging the tube slowly around, he counted the persons before him. A reporter who tried the optophone found that it emitted out of the window sounded like a cinematograph reel of a film. It sank almost into silence as the receiving tube was held in the shadow of the table and leaped into a lively rattle when placed against an electric light bulb.

The following are not identified, a livyren, three Chinamen, two out of Rev. H. T. Lewis house and six others. REGINA, July 1.—The property loss from Sunday's cyclone is placed at eleven million dollars, and most of this is a total loss, as few were insured against a cyclone. The known dead number 41, the injured run over 260, and there are three thousand homeless. Those who watched the progress of the storm, saw that two clouds swept towards the city from the southwest, and the other from the southeast. They clashed, and a whirling, dark cyclonic funnel-like storm swept north across the city, striking the city at Wascana (Continued on page 8)

J., are suffering from bullet wounds, and James Severs of Lieberg, N. J., has a fracture of the right arm as the result of an early morning fight between armed deputies who are guarding the chemical works of Williams & Clark, and the Lieberg Company, at Roosevelt, N. J., and strikers who were attempting to storm the works. It is reported that more than fifty other men were struck by bullets and were carried from the scene of the conflict by their friends. The fight lasted for more than an hour. Three searchlights, of 40,000 candle power each revealed a party of strikers trying to set fire to the high wooden fence which surrounds the Lieberg works. Immediately deputies were despatched to the scene, and, firing blank cartridges at the strikers, dispersed them. Two hundred strikers, some of whom were intoxicated, made a dash at the front line to drive away workmen who were firing rifles as they advanced over they found th.

ICE CONDITIONS ARE IMPROVING

(Canadian Press.) WASHINGTON, July 2.—The ice conditions in the North Atlantic have improved so that the Hydrographic Office has recommended that trans-Atlantic steamships return to the ocean lanes adopted on April 19th, just after the Titanic disaster. These lanes were located about 60 miles south of the existing routes just after the wreck, but discoveries of heavy ice even so far south resulted in further southern shift to the present location. Steamship companies now have this suggestion under consideration.
